Vancouver Ladies Aid the Law.

Talk of Calling a Grand Jury to Enforce Sunday Closing Laws.

VANCOUVER, Wash., Feb. 2.—Thirty members of the W. C. T. U. visited the saloons in the city last evening to see if the Sunday law was enforced. They found most of them open. One or two got wind of their visit and locked them out. It is rumored that Judge A. L. Miller will call a session of the grand jury with a view of closing saloons on Sunday and doing away with gambling. The Chief of Police has orders to arrest the proprietors of gambling houses and bring them before Judge Haine to pay their monthly fines, so that another George Nerton affair will not occur.

OPPOSED TO BILL

Josephine Miners Don't Like "Fish" Measure.

(Journal Special Service.) GRANTS PASS, Feb. 2.—A petition signed by hundreds of Josephine County miners and other citizens was today forwarded to Representative Hale from Josephine, to support him in the work of opposing a bill that has been introduced in both houses. The purport of the bill opposed is one requiring all placer miners, farmers, and others using water from creeks and streams to put in a wire screen at the head of their ditches, so that no fish can pass through. The mining men claim that this would be utterly impracticable owing to the large amount of leaves and other debris that is constantly coming down, the screens would be clogged in a short time, unless men were kept constantly by them, to keep them clear. Furthermore, the miners declare that fish do not enter the ditches and that it is very seldom that they are found on the bedrock of the ditches, where they were hurled by the giants. As a matter of fact, nearly everyone in this section is bitterly opposed to the passage of the bill.

MYRTLE CREEK NOTES.

(Journal Special Service.) MYRTLE CREEK, Feb. 2.—There are some 15 cases of smallpox on South Myrtle Creek. The disease is in light form.

Floods Do Damage. The floods that swept through the Umpqua Valley last week did considerable damage. The new county bridge across the Umpqua River at Elk Creek went out. The loss to the farmers in crops, orchards and live stock will probably exceed \$15,000 in South Douglas County.

The Mines. Colorado parties offered \$72,500 for a controlling interest in the Little Chieftain mine in the South Myrtle district yesterday, but the offer was refused by the owners, who hope soon to have property worth \$1,000,000. A carload of ore recently shipped to the Selby Smelting Works yielded \$77.20 per ton in gold.

The car of ore taken by Mr. Abraham from the Hall mine and shipped to the smelter went over \$100 per ton in gold. Continental Gold Mining Company has just recently been organized with a capital stock of \$1,500,000. The object of the new company is to develop and operate the Continental mine in the South Myrtle district, for which mine Mr. S. W. Crews, the owner, received \$20,000 from a representative of the above company.

HIS RECORD SAVED HIM

(Journal Special Service.) NEW YORK, Feb. 2.—Capt. Cannon, of the police force, who was convicted of neglect of duty last Friday, was today sentenced to pay a fine of \$250. Recorder Goff, in passing judgment, said that he took into consideration the fact that the accused had been honorably mentioned five times for gallantry for saving lives, and that he was penniless, which, the recorder remarked, was an abnormal condition for a police captain.

BOWEN HANDS IT BACK TO ALLIES

(Continued from First Page.)

and there is now a question that the state department has promised to Great Britain the ultimate ratification of the treaty.

All the signs point to the yielding of Lord Lansdowne, and whether the threat of a naval combine of such nations as the United States, France and Russia has helped to bring this about it is certain that Great Britain has been largely appeased by the complaisance of the State Department in the Alaskan boundary.

There is no doubt whatever that France and Belgium are in earnest about a protest to the allied powers. The French charge d'affaires and Baron Govers, Minister from the Netherlands, have sounded this government on its ultimate position if the allies should insist on preferred claims.

This Is What the Trouble Is About

(Journal Special Service.)

WASHINGTON, Feb. 2.—Here are the claims on Venezuela which the new alliance insists shall be settled on a fair basis:

France has set her claims at \$2,600,000. Spain fixes her demands at \$600,000. Holland estimates her's at \$250,000. Belgium's demands amount to \$700,000. Norway seeks in settlement \$75,000. Sweden demands \$300,000. Denmark is now creditor for \$100,000. Estimated Venezuelan claims by the allied powers: Germany, \$11,500,000; cash payment demanded, \$340,000. Great Britain, \$4,000,000; cash payment demanded, \$340,000. Italy, \$2,000,000; cash payment demanded, \$520,000.

These figures do not include any prospective punitive amounts for the expenses of the foreign navies in Venezuela waters nor any claims the United States may have against Venezuela in the asphaltum company, which the United States thinks entitled to concessions, is disseminated by Venezuela. The diplomatic representatives of the United States, France, Belgium, Holland, Denmark, Spain and Norway and Sweden, will be called together in Washington for consultation. If Great Britain, Germany and Italy present the principle of preferred claims to Venezuela as an ultimatum. This conference will have before it the whole case of the allies against Venezuela and of Venezuela against the allies. The final statement will be made in order that if the non-allied powers determine upon a protest, it will be on full information obtained by their ministers in Washington.

The allies' representatives in Washington have been informed by Minister Bowen as briefly stated in these dispatches last night, that in case of assistance on the principle of preferred claims, the fact would be laid before the non-allied powers for action.

MINES OF JOSEPHINE.

(Journal Special Service.)

GRANTS PASS, Feb. 2.—A jar of large nuggets was yesterday brought in from the placer mines of the St. Helens & Gallice Mining Company, of Portland, whose placer properties are located on Gallice. The gold was a part of the January clean-up of these rich mines. This company is meeting with excellent success this season, and are working an old channel, the richest ever before uncovered in that district.

Another company composed almost entirely of Portland men, and known as the Gallice Hydraulic Mining Company, has been organized and will operate on Gallice. This company has purchased all of the placer mines and water rights of the Lower Rogue and will combine the facilities of all and work them as one big property. With this combination these mines will become one of the most extensive placer diggings in Southern Oregon. They will have hundreds of acres of ground, covered largely of old channels. A large double flume will be built on the creek bed and the high banks and bars on either side piped down into this and the dirt washed out.
