Distance Lends Encouragement. At Butte (Jeffries still in town)—I won't fight him again. I am only a green young fellow. At St. Paul (Jeffries 1,100 miles away)—I may meet Jeffries again when I get good and ready.

INSPECTED WATER TANK

Captain Langfitt and Engineer Ogden at Vancouver Yesterday.

Captain W. C. Langfitt and David B. Ogden, United States Engineers, inspected the storage reservoir at Vancouver yesterday. The reservoir, which supplies the troops with water, has a capacity of 600,000 gallons and was drained so that a thorough inspection could be made. The officers found that the reservoir was in first class condition. The reservoir was built under the direction of Captain Langfitt a year ago. At that time the post commander at Vancouver made complaint to the department at Washington that their reservoir was in bad condition. Captain Langfitt was then ordered that he should rebuild the tank. This Captain Langfitt did by putting an entire concrete basin in. The examination showed that there was apparently no leakage during the year.

ARION PAGEANT AND BALL

(Journal Special Service.) NEW YORK, Feb. 6.—The interior of Madison Square Garden has been converted into a fairyland in preparation for the annual Arion mask ball tonight. This year's affair, according to those in charge of the arrangements, will transcend in grandeur and magnificence, so far as decorations go, anything in the same line that has ever taken place in America. The opening pageant will be headed by an allegorical float, intended to illustrate the motto of the night—"Wine, women and song." Ten figures will be grouped under the canopy, above which two towers will be visible, suggesting the ancient city of Nuremberg. Other floats will be in line, and a long list of carnival characters, gorgeously dressed, will follow.
