# WILL LAUNCH

## New Vessel to Take Her Initial Plunge.

#### Christening Will Be Conducted by Miss Gray---Cabins Elegantly Furnished.

The Government steamer Major Guy Howard will be launched from the ways Supple's shipyard, foot of Belmont The launching will be or a public nature and everybody who cares can wit-ness the initial plunge of the new vessel into the river. It has about been decided to have the boat christened by the daughter of Capt. Gray, who is re-lated to Major Howard, after whom the boat was named.

The Howard is a very pretty little vessel, and will be used by the government for the carrying of supplies between the various forts on the lower Columbia. The boat is 85 feet in length and has a keel of 18 feet. Her width 16.16 feet and her draught about 6% feet. She will have a capacity for about seven tons of coal and freight. The engines installed are of the high-

pressure type, 4% compound cylinder, 10 and 22, with a 10-inch stroke. The boilers are of the water-tube type, and have capacity for about 250 pounds of leam. The vessel has a combined condenser, air and circulating pump of the latest pattern. The propeller measures 60 inches, and is expected to propel the boat at a fair rate of speed.

The Howard is beautifully finished

throughout, and her officers' quarters are palatial. The cost of the completed ves-sel will amount to about \$23,000.

#### Sellwood and Albina Push Clubs Will Discuss.

Two East Side push clubs will hold important meetings this evening. The Albina Improvement Association will meet in Gomez Hall, on Russell street. The opening of Russell street through to the river will be thoroughly discussed and an effort will be made to have the proposition take some definite shape this

building of a new ferry boat for Al-bina to run from the foot of Russell The association is in favor of constructing the new boat with a steel hull, as the present boat, the steamer W. S. Mason, is inadequate to handle the fast-increasing traffic. The proposed new vessel will cost about \$30,000 The Sellwood Board of Trade will hold

its meeting in Firemen's Hall. The principal topic to come before the meeting will be the establishing of a ferry be tween Sellwood and the West Side. bill for that purpose has been before the State Legislature, but no action has been taken because it was said that the lents of Sellwood did not do enough urging. The meeting tonight will be for the purpose of making a showing. The bill before the Legislature calls for the running of the ferry from the foot

She rallied and during the late examinations in the city school, she went back to her pupils in the North Central institution so that the pupils could properly undergo the final work of the term. The task was too much and she suffered a relapse, which resulted in her death. When the news of the fatal termina-

tien of her illness reached the pupils of her class yesterday morning, there was n general weeping, as all the scholars had held their teacher in the highest estimation. Miss Cochran had been a teacher in this city for a number of years. She was a daughter of Capt. James S. Cochran, contractor of the mysterious steamer Arrow. The funeral will be held tomorrow afternoon, Riverview Cemetery being the place of inter-

Meat-Eating Mations Are the Leaders in Every Branch of Human Achievement. The ruling nations of the world are neat-eating and history records that

they always have been. Vegetarians and food cranks may explain this in any way they choose, but the facts remain that the Americans. English, French, Russians and Germans are meat-cating notions, and they are also the most energetic and most pro-

The principal food of the heroic Boer soldier known as Biltong, is a sort of dried beef, affording a great deal of nourishment in a highly concentrated form. The weak races of people are the rice-eating Chinese, Hindoos and Siamese, regarded since the dawn of history as nonprogressive, superstitious and inferior physically and mentally to the meat-eat-

ing nations who dominate them. The structure of the teeth plainly indicates that human beings should subsist upon a variety of food, meat, fruit and grains, and it is unhygienic to confine one's diet to any one of those classes to the exclusion of another.

Meat is the most concentrated and most easily digested of foods, but our manner of living is often so unnatural that the digestive organs refuse to properly digest meat, eggs and similar nutritious and wholesome food, but it is not because such food is unwholesome, but the real reason is that the stomach lacks, from disease of weakness, some neces-sary digestive element; hence arising indigestion and later on chronic dyspepsia. Nervous people should ent plenty of

meat, convalescents should make meat the principal food, hard working people have to do so and brain workers and office men should eat, not so much meat, but at least once a day, and to insure its perfect digestion one or two of Stuart's Dyspepsia Tablets should be taken after each meal, because they supply the per-tones, diastase and fruit acids, lacking in every case of stomach trouble.

Nervous dyspepsia, catarrh of stomach, gastritis, sour stomach, gas and acidity are only different names for indigestion, the fallure to digest wholesame food, and the use of Stuart's Catarrh Tablets cures them all because by affording perfect digestion the stomach has a chance to rest and recover its natural tone and

Stuart's Dyspepsia Tablets is the real household medicine; it is as safe and pleasant for the stomach ache of the baby as it is for the imperfect digestion of its grand sire.

They are not a cathartic, but a diges-tive, and no pill habit can ever follow their use; the only habit Stuart's Tablets induce is the habit of good digestion and consequently good health.

#### RESPOND TO THE INVITATION

#### Federated Trades Receives Word From Labor Leaders.

A. R. Lawton, secretary of the Federated Trades Council, who sent a com-munication to the various members of the executive board of the American Federation of Labor, inviting them to Portland next summer to hold their quarterly session, has received responses from several of them. They state that no decision can be reached in the matter until the board holds its next regular meeting, which will be at Toronto, On-tario, in April. They said, however, that they are favorable to the proposition of holding the mid-summer session in Portland, but at this time were unable to give out any official information on the subject. President Gompers is ill at his home in Washington, and has not sent an answer to the invitation as yet.
