

GRANGERS HAVE
MET AND DEPARTEDClosing Session of Con-
vention Held.Professor J. H. Ackerman Deliv-
ered Able Address on Coun-
try Schools.

The second and closing day of the Grangers' Convention, which is being held in A. O. U. W. Hall, was opened this morning with a much larger number of farmers in attendance.

Professor J. H. Ackerman, State Superintendent of Public Instruction, was the first speaker of the day, and delivered an address on "The Rural Schools: Their Work and Needs." In his speech Prof. Ackerman referred to the vast improvement in the country schools of the state during the past few years. Mr. Ackerman's remarks were frequently interrupted by applause, and after his conclusion a general discussion of the subject was held.

"The Future Outlook of Horticulture in the Northwest," was the subject of an able address by W. H. Newell of Hood River. Mr. Newell thought that more efficient and profitable work could be secured by the grangers of the state paying more attention to modern methods.

E. R. Lake delivered an address on "Nature Study in its Relation to the Practical Work on the Farm." This afternoon a varied program is being rendered, after which the convention will close with an address by Hon. Aaron Jones, national master of the Patrons of Husbandry.

The Sheet Metal Workers met last evening. They will not ask for an increase in wages this year, as they are well satisfied with the existing scale, which is \$3.50 for an eight-hour day.

POWER WAS
POOR TODAYCity & Suburban Experienced De-
lay This Morning.

Although it was not a snow blockade, it might just as well have been, and there were many men bound for their places of daily occupation and already many minutes late, who swore roundly and soundly as they dropped off the useless street cars and trudged through the shoe-top-deep slush this morning. Others waited to get their nickel's worth and in the course of time were able to complete their interrupted journey.

Trouble with the wires and at the power station of the City & Suburban Street Railway Company, completely knocked out car service on that line for a considerable time this morning, and not during the forenoon was everything gotten back into perfect condition. To begin with, the snow which covered rails to a depth of two inches and clung in trailing whisks to the trolleys overhead, impeded navigation of the Portland streets this morning. And then, while cars were out clearing the way, the power gave out. Those cars which had already taken on passengers were as far as possible, using down-grades to the best possible advantage. A perfect city of cars congregated at the Steel Bridge, most of those who had paid passage preferring to walk rather than wait for the fitful gusts of electricity which would permit of cars being moved 15 or 20 feet at intervals.

Some wag hung a "Room to Let" sign on one of the cars and caused general merriment.

No other line reported trouble this morning.

CONVICTED OF ASSAULT.

(Journal Special Service.) ALBANY, Or., March 11.—In the Circuit Court last evening the jury in the case of the State against J. H. Cooper, a Brownsville farmer, indicted for assault with intent to kill, brought in a verdict of assault with a dangerous weapon. The defendant will be sentenced Friday. This is a case arising out of a hop yard quarrel last fall. The prosecuting witness was nearly killed, and it was thought for a time he would die.

WILL IMPROVE
FAIR GROUNDSVeto of Appropriation
Bill Will Not Hinder.Agriculture Board Will Go in Debt
to Accomplish Necessary
Improvements

(Journal Special Service.) SALEM, March 11.—The State Board of Agriculture is in session in this city today, and is busily employed in rearranging the premium lists for the 1903 State Fair.

Yesterday afternoon the board called on Governor Chamberlain and secretary of State Dunbar, discussing with these officials the matter of the \$10,000 appropriation for improvements at the Fair grounds, which appropriation went down with the special appropriation bill vetoed by the Governor. Both of these officers promised to recommend the appropriation to the next Legislature, and on this promise the board is planning to go ahead and make the needed improvements, if arrangements can be made with some one to finance the board and wait until the appropriation is made for a repayment of the funds. This course will become necessary, as some of the improvements are sadly needed. A water supply has to be provided for the grand stand at the race track will have to be repaired; fences built, and many buildings repaired or reconstructed before the next Fair is held.

Larger Premiums.

It is the intention of the board to provide larger premiums for the county exhibits than have been paid in past years. Many of the products so exhibited, such as grains, grasses, etc., will hereafter be retained by the board for permanent exhibits, and this year it is the plan of the officials to consult with the management of the Lewis and Clark Exposition and the Louisiana Purchase Exposition committee, and secure their co-operation in offering larger county premiums for exhibit at the State Fair. It is urged that the permanent exhibits, such as grains, grasses, canned and preserved fruits, after being shown at the State Fair, can be used to advertise Oregon at the St. Louis Exposition in 1904, and at the big Portland Fair in 1905. It is likely that \$2,500 will be offered in prizes, which will bring to the Fair the best county exhibits ever seen here.

GOOD FINANCIAL SHOWING.

(Journal Special Service.) SALEM, March 11.—Sheriff B. B. Colbath yesterday afternoon made his first turn-over to Treasurer W. Y. Richardson, of tax moneys collected on the 1902 roll, the amount so transferred being \$40,268.99, of which sum \$17,279.62 is on account of the state and county tax. The Treasurer says he expects to soon secure sufficient funds on account of the state and county tax, to enable him to pay Marion County's state tax of \$4,863.50 to the State Treasurer in one lump sum.

Marion County is in excellent financial condition. The cash balance in the hands of the Treasurer on March 1 was \$11,263.22, and as there has been less than \$2,000 paid out since that date, yesterday's turn-over brings the balance up to about \$70,000.

LOCAL INSTITUTE.

(Journal Special Service.) SALEM, March 11.—A Teachers' Local Institute will be held at Hubbard on next Saturday. The meeting will be held in the public school building beginning at 10:30 a. m. A number of prominent educators are on the program and a profitable session is expected by the teachers of that locality. County Superintendent E. T. Morris, and City Superintendent L. R. Traver of Salem, will attend and take part in the discussions.

MORE BUSINESS
FOR PORTLANDTwo New Corporations File Papers
With County Clerk.

Articles of incorporation were filed late yesterday by A. Flackman, Frank Rothschild and D. Solis Cohen for the establishment of the Air Tight Stove Manufacturing Company. The concern is capitalized at \$11,000, with shares selling at \$10 each. It is the intention of the promoters to carry on a general stove and fuel business and the manufacturing of an air tight stove recently invented.

ANOTHER NEW MEXICO LINE

(Journal Special Service.) SANTA FE, N. M., March 11.—It is reported that the actual work of construction will be commenced shortly by the Rio Grande & Southeastern Railroad, which was recently incorporated here. The line will be 42 miles in length, and will be constructed from a junction with the Denver & Rio Grande, in Rio Arriba County, N. M., and extend in a south and southwesterly direction until the Jicarilla-Apache Indian Reservation is reached. The road will penetrate a rich and productive country, now without any railroad facilities. There is timber for railroad supplies, material, etc., and the Denver & Rio Grande will receive over this spur line a large quantity of maintenance material for its system in the adjacent portion of Colorado.

CARPENTERS BUSY
ERECTING FRAMESMany New Structures Blown Down
by Wind.

Owing to the recent wind storms carpenters are in great demand. The frames of in the neighborhood of 15 or 20 buildings have been blown down and the work of re-erecting them is now under way. Many of the timbers have been twisted and broken beyond repair, but as a whole the damage is not so great as might be expected. In fact the labor is about the only loss that is being taken into consideration by the contractors.

On the East Side is where the greatest damage was wrought, but reports of new structures falling have been brought to the Building Trades Council from all over the city, with the request that mechanics be sent to the various places as quickly as possible. There seems to be plenty of available men in the city, but it will require some time to get the building operations as far advanced as they were prior to the storm. At several points wrecking crews are already engaged in straightening out the debris. A well-known contractor said this morning:

"I have been building houses for the past 30 years and this is the first time that a frame I erected ever fell. I had the braces arranged properly and supposed the structure was perfectly safe, but the wind caught it in such a way that the precautions I had taken were of no avail."

THE BARTENDERS.

The Bartenders' League met last evening and held an interesting meeting. There was a good attendance and several new members were initiated. It was reported that two saloons had been unionized during the week. A new scale of wages is being prepared and will be presented to the employers for signing. It calls for a 10-hour day and \$17 per week as the minimum rate of wages to be paid, with double time for all overtime and holidays.

A delegate will soon be elected to attend the National convention which meets at Cincinnati May 11.

BUILDING INSPECTOR

"One of the needs of Portland," says H. G. Greene, president of the Electrical Workers' Union, "is a building inspector. He should keep a close watch on all buildings as they are being erected and see that they are not faultily constructed. Many a fire is caused by a defective flue, but this would never occur if we had a building inspector. The number of accidents would also be materially lessened, because the poor scaffolding now allowed around a new building would not be tolerated."

THE BUILDING TRADES

At the meeting of the Building Trades Council Monday night a committee was appointed to confer with a committee from the Federated Trades with the view of studying out some plan by which

the unfair firms in the city can be printed on the working cards held by the union men. Many of the cards at present contain misleading matter on both sides and in such cases it is believed that a new style of cards will have to be issued in order to carry out the plan that was originally suggested. Some are in favor of issuing folders as a substitute for the cards, explaining that considerable space will be required, while others believe that larger cards will answer the purpose fully as well. The committees will arrive at a decision in the matter as early as possible.

LAUNDRY WORKERS.

N. Anderson, business agent of the Laundry Workers' Union, has accepted an invitation to attend a special meeting of the Laundry Workers of Salem which will be held in that city Saturday night. Just what line of business is coming up is not known, but it is supposed to be relative to a new wage scale which is being prepared.

THE PAINTERS.

The journeymen and master painters held another joint conference last evening, but the result of their action is withheld from the public. Just what decision, if any, has been arrived at will probably not be made known until the last of the week.

SHOE SHOPS UNIONIZED

Word has been received by the local unions that the Walkover shoe has been placed on the fair list. It was also stated that at the time the manufacturers unionized their shops seven other large New England firms did likewise.

SEAMEN'S INSTITUTE.

A concert will be given this evening at the Seamen's Institute under the direction of Mrs. Edward Alden Beals. The following program has been prepared:

Piano duet—"Gipsy Rondo".... Haydn
Miss Georgia Lewis and Mrs. Beals.
Song—"Darkies' Gracie Song".... Wheeler
Miss Nancy Beals.

SECOND POP
OF THE SERIESWell Known Musicians Heard at
Baptist Church.

The second in the church series of Tuesday evening pops under the management of Mr. Elmore Rice, was given at the Baptist Church last night. After so choice a program at the first concert the audience expected something as good at the second, and they were not disappointed. Miss Leonora Fisher was warmly applauded when she came on for her first organ number. Her brilliant and finished playing made each of her four numbers a special feature of the program. Mrs. Reginald Hidden gave Ovide Musin's "Valse de Concert" with so much expression that the audience simply demanded her encore "Lullaby from Jocelyn" (Godard). Later Mrs. Sherman Brown blended with her violin in the exquisite Symphonie Concertante (Dancie op. 98). J. Adrain Epping's two part number opened with the dramatic Aria from Herodiade (Massenet), closing with De Koven's exquisite Scotch song, "My Home is Where the Heather Blooms." His encore, "The Gypsy King" (Treharne), all but called for a second appearance. Miss Eva Taylor, a pupil of Mr. Epping's, gave two three-part numbers. Her voice which is a clear, fresh mezzo soprano, is especially sweet in the high notes. Miss Higgins and Miss Hidden were the evening's accompanists.

AN ANSWER.

MONTAVILLA, Or., March 9.—Editor of Daily Journal: Subscriber will find the verses alluded to in "Question for the Mystics" in the book of Ruth, first chapter and 16th and 17th verses.

LETTER
Writing

RECEIVES MUCH ATTENTION in our school. Instruction is given in wording, capitalizing, punctuating, paragraphing, etc. All our teaching is practical; the education we give is usable. A course with us pays—the success of our graduates, as business men and women, and as bookkeepers and stenographers, proves this. Open all the year; students admitted at any time; catalogue free.

PORTLAND BUSINESS COLLEGE

PARK AND WASHINGTON

A. P. ARMSTRONG, LL.B., PRINCIPAL

COURT NOTES.

Leslie G. Merrill is suing Fred Nuttgar for \$5,000 in Judge Cleland's court. Nuttgar is a butcher living at Gresham, and several weeks ago caused the arrest of Merrill on suspicion of having stolen \$275 in an act of burglary. Justice Reed found Merrill not guilty and discharged him, and now the accused seeks damages from Nuttgar for malicious arrest. A jury is trying the case.

C. W. Todd's suit against Dr. E. A. Lawbaugh for damages, alleged to have been sustained by the former's hack horses running away, which resulted in the death of one horse and injury to the other, has been non-suited in the State Circuit Court in favor of defendant. Mr. Todd claimed that Dr. Lawbaugh's automobile frightened his team.

The suit of H. G. Platt, trustee of Wolfe & Zwicker, bankrupts, against Peterson & Adams to recover \$275.27, the balance on a promissory note, has been continued for one week by Judge Sears, in order that John Wood, a witness for the defense, might have time to appear.

Judge George has rendered a decision in favor of the First National Bank of Juneau, Alaska, in its suit against William Loeb, L. L. Blumenthal and W. N. Matlock, to recover \$300 with interest and attorney's fees. The money is a balance on a note executed by defendants.

First Man to Scale
Wall of Peking

Mr. James A. Galt, of the Fourteenth U. S. Infantry, Which Was the First to Scale the Wall of Peking and Plant the Stars and Stripes on Chinese Possessions, Contracted Inflammation of the Kidneys and Was Cured by

WARNER'S SAFE CURE

MR. GALT'S FATHER WAS ALSO CURED OF GALL STONES BY "SAFE CURE."

JAMES A. GALT.

St. Paul, Minn., November 14, 1902. Warner's Safe Cure Co., Rochester, N. Y.: Exposure during the war settled in my kidneys and bladder, causing severe inflammation and serious pains in passing urine. At the time of my discharge I was simply unfit for duty and unable to work.

My father had been cured of gall-stones through the use of Warner's Safe Cure, and so he advised me to take it. I used it faithfully for three weeks before I found relief, but it seemed like a Godsend to me. I had endured suffering so long. I kept up the treatment for four months and was then completely cured. This is over eighteen months ago, but I am pleased to state that I have had no relapse since, but am enjoying most excellent health, and gladly do I endorse your Safe Cure. Very respectfully yours, JAMES A. GALT, City Hotel, St. Paul, Minn., Secretary to Colonel Daggart, 14th U. S. Infantry, Regulars, President St. Paul Ski Club.

"SAFE CURE" CURES BACKACHE.

If you have pains in the back, rheumatism, uric acid poison, rheumatic gout, diabetes, Bright's disease, inflammation of the bladder and urinary organs, leading pains when you urinate, eczema, jaundice, swellings or torpid liver, if a woman bearing-down sensations, fainting spells, so-called female weakness, painful periods; these symptoms tell you that your kidneys have been diseased for a long time, for kidney diseases seldom put out such symptoms as the victims recognized until they have been working several months. You should lose no time—get a 50c bottle of Safe Cure at your druggists. It will relieve you at once and effect a permanent cure. It kills all disease germs.

IF IT DOESN'T MAKE THIS TEST: Let some morning urine stand for twenty-four hours in a glass or bottle. If then it is milky or cloudy, or contains a reddish, brick-dust sediment, or if particles or germs float about in it, your kidneys are diseased.

ANALYSIS FREE.

If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner's Safe Cure Co., Rochester, N. Y., and our doctors will analyze it and send you a report with advice, free of charge to you, together with a valuable book describing all diseases of the kidneys, liver, bladder and blood, and treatment for each disease.

All letters from women read and answered by a woman doctor. All correspondence in strictest confidence.

Warner's Safe Cure is purely vegetable and contains no narcotic or harmful drugs. It is free from sediment and pleasant to take. It does not constipate. It is a most valuable and effective tonic; it is a stimulant to digestion and weakens the torpid liver. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives it strength and restores energy. You can buy Safe Cure at any drug store or direct, 50 CENTS AND \$1 A BOTTLE.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure.

WARNER'S SAFE FILLS move the bowels gently and aid a speedy cure.
