

FRESH MEATS ARE
HIGHER IN PRICEScarcity the Cause of a
Spirited Advance.

Egg Prices Begin to Climb on Account of the Nearness of Easter—Hops Dull.

Higher prices prevail on various articles in the local wholesale market today. Business during the week was improved over that of last week.

Meat prices are considerably higher today on account of the smallness of receipts during the past week. Pork has especially been in smaller arrival and demand has improved considerably. Beef receipts were comparatively small with demand excellent. Prices are up on cows.

Packed meats of both the local and Eastern brands are unchanged from yesterday's quotations. Business is fair but the rising high prices have kept the volume from being as large as was expected on all grades of packed meats.

Egg Prices Going Up.
The nearness of the Easter season has caused a stiffening of egg prices and today's quotations range from 15 to 15 1/2 cents a dozen. The large amount of stock put in cold storage has had the desired effect and as a consequence all product on the street is moving more freely at the advanced prices. It is predicted by one of the leading commission men on Front street that the opening price of eggs on Monday will stand stiff at 16 cents and that this price will be maintained until after Easter.

Hops Continue Dull.
Hops continue dull and very little business is being transacted. No sales have been reported since the sale made at Aurora and reported in Monday's Journal. Reports from the Eastern markets state that quotations are dull with a few sales reported. Pacific Coast's are quoted in the East as very weak and stocks are not wanted at the present time at any price. Quotations are unchanged.

Feed Market Firmer.
The closing of the feed season and the shortness of the supply has caused another advance in quotations on the various grades of hay. Timothy is now quoted strong at \$14.50 and clover at \$13.50. Other grades of feed are reported stronger at prevailing quotations.

Butter Becomes Weak.
On account of the larger receipts of California creamery butter the local stock is quoted somewhat weaker at lower prices. California stock is plentiful at 23 and 30 cents, while the Oregon stock has dropped to 20 and 32 1/2 cents. Lower prices are anticipated during the next few days.

Good Fruit Scarce.
Oranges of the better grades are scarce in the local markets and higher prices are prevailing for first-class goods. The present season has been somewhat of a failure in California as far as the best grades of oranges are concerned on account of the severe frosts encountered during the early part of the year.

Poultry Sells Well.
Front street was entirely cleaned up of poultry at the close of business today and even if receipts had been larger there would have been no frouble to

Oxygen Hunger
The worst starvation is Oxygen hunger. It is a disease when your blood is deficient in red corpuscles. It ends in Consumption and death.

Its signs are weakness, loss of flesh, pale skin, transparent complexion, loss of ambition, and proneness to "catch cold." The only cure is

Ozomulsion

It is a medicinal emulsion of cod liver oil, containing principles which vitalize and oxygenate the blood and thereby gives fresh life and energy to the tissues.

Ozomulsion is the good food, the easy food, the universal food, for all who are sick or in need of strength. To be had at all druggists. Try it.

In order that you may test the merits of Ozomulsion, send your name and full address to
