## SPRING SALMON SEASON IS OPEN

### Fishermen Report a Third Increase in Catch.

Arbuckle's Coffee Is Down an Eighth Cent on Account of Lower Freight Rates.

#### SALMON SEASON OPENS.

mon fishing on the Columbia River and tributaries opened last evening at midnight.

At midnight the open season for salmon in Oregon waters commenced and this morning the local markets are well with the delicious Royal Chinook. The catch during the night was considered quite large by fishermen and indications now point to an increase of about one-third in the catch over that of last year. Today's price on Chinook stands at 8 cents a pound. California stock has about disappeared from the

#### Bean Prices Are Firmer. All grades of beans are firmer in price loday and there is a likelihood of an

sarly advance all along the line. Bayous and small white are especially active. Steamer to Arrive.

The California steamer is due this svening from San Francisco with the isual cargo of assorted vegetables and small fruits.

Three cars of bananas, two of oranges and one car of lemons were the rall receipts from the South today. Another bar of fancy oranges is due this evening. Bananas, although more liberal in rerefpt, are selling well at advanced quotations on account of a former short-

#### Arbuckle's Coffee Lower.

The quotations on Arbuckle's coffee are down an eighth cent today on acsount of the opening of lake navigation. The change in price is not due to any market fluctuation but to the cheaper freight rate now prevailing. Today's quotations are \$11.12 1-2 a hundred. Lion and other brands of package coffees are unchanged.

Pork More Plentiful. There was a more plentiful supply

fresh pork in the markets along Front street today but all stock received was cleaned up at prevailing quotations. Beef receipts are still too light and with the current heavy demand prices are up to the top notch.

#### Eggs Are Slow Sellers.

The egg market is quiet today, receipts not being quite so liberal as they were vesterday. There is plenty of stock in the local markets, however, to supply all demands, which, at present, is very light. Large retailers who usubuy a half dozen cases at one time now only purchase enough stock to tide them over from day to day in the expectation of a further break in the market. Single case orders are filled today at 16 cents, but for the larger 15 1-2 cent mark.

#### The Poultry Situation.

Receipts of poultry are not so large as they have been and commission men are experiencing no difficulty in disposing of all arrivals at the prevailing quo-

#### Picnic Hams Are Higher. The Union Mest Company announces

an advance of a half cent in its quotaions on picnic hams Other packed nests are slow sellers at published quoations, but leading packers now predict change in the near future. Although tog prices are not quite so stiff in the dvestock that controls the packed ment motations so much as it is the receipts Const receipts of hogs are small and prices are showing a decided upward endency. Lard of both the local and Castern brands is unchanged in price, Hops Are Moving.

That some of the larger Eastern hop wokers are convinced that the price of pops during the coming season will not so low as formerly a large number of them are now making contracts for the 1903 crop in the Valley at 15 1-2 and 16 cents a pound. Sales of the 1902's are still small but a better feeling prevails throughout the markets of the ountry. European advices tell of a livelier tone prevailing in these markets. Prices are unchanged.

#### Butter Drop Will Come. There is no doubt that the quotations

on the very best grades of local creamery butter will show a decline within the next few mass. The warmer weath er is having a bendency to make vast increases in the receipts and all the markets are now plentifully supplied with Towns stock Podnys quotations, as revised, are as follows:

## CORN TANES ON GREAT FIRMNESS

Buffalo Market Is Most Inviting.

From special wires and cables to

Bolton, de Ruyter & Co. CHICAGO, April 15,-The Record-Herald says: The present firmness of orn is supposed to be due in part to a situation which exists at Buffalo. It is said two of the elevator concerns here Counselman and Armour, made liberal hedges in the Buffalo market instead of putting out their sales for May here at the time when it looked as if there might The Buffalo market is apparently something like the New York market in one particular. If the Buffalo people want the corn on their contracts it goes through all right. But if for any reason Buffalo does not want corn. rather uncertain whether its inspection department will consider the grain good enough to suit. The Buffalo May selling was done when the spread between Chicago and that market was inviting and it is said almost 2,000,000 tershels was put out there. On a market as small as Buffelo the only thing for the Chicago people to do is to send grain down there that will suit. It would not be comfortable to try to take the May The leading exporter at New York. of New York and St. Louis May price yesterday, the move which caused the closing strength in the wheat here It in Class 163. is said that Fowler has been buying the deferred futures in the chief winter new crop shipment abroad on the basis of these purchases. The effect yesterday was to increase the May premium at New York over the Chicago by 1-2 cent and to lessen the discount at St. Louis under Chicago by 1-4 cent New York May closed 3 3-8 cents over the Chicago, compared with 3 cents over the day previous and St. Louis closed 7 1-8 cents under Chicago, compared with \$-8 cents the day previous. There is an idea in the trade that the next thing Local Lard - Kettle leaf, 10 and 10 a and they claim the May is high, because the No. 4 white can be bought and turned in as standard at profit. It takes a man with a mixing house, however to know from day to day that the May price is high or low compared with the eash markets. The No. 4 white pats cover a wide range from 25 cents to 34 1-2 cents and nobody but the man with the mixing machinery can tell just white which can be turned into stan-If it should be 34 1-2 cent oats the May price would certainly be cheap, but if it should be the 28-cent, the May price would certainly be high. It is not everybody who can decide this nice

Many Shares Sold. NEW YORK, April 15 -Waldorf Hotel Notes: It is impossible to accurately estimate the total purchases of stocks by investors in the past two days, but some very conservative observers believe that at least 200,000 shares have been paid for and taken out of the In Anancial circles tonight, the absorption of such a large amount of securities is regarded as a most favorsurveyed and the plats filed. The prices buying by the foremost financial interrealized set the high water mark in the ests on the Union Pacific, Missouri Pacific, St. Paul, New York Central and changed for the better and that it may next highest bid for the property larities. The rumor that Hill and Morgan will abandon the Northern Securities suit has much to do with influencing a tavorable change in the sentiment, but it is current comment that at the present range of prices and in view of the section 36 was not sold, no bids having heavy declines that have taken place more dependence is to be placed on those who believe in improving markets and higher prices as the big factors in the situation than on those who urge the worn out argument of deals and consolidations.
