

Portland's New Drydock Rapidly Nearing a State of Completion.

Work is progressing steadily on the pontoons for the Portland drydock at the foot of Eighth street, Vancouver. Work on the first of the large barges is completed and the launching will occur within a few days. Another pontoon will be ready in a short time to be taken to the water. In all there are four pontoons and the contractor expects to turn them over to the Port of Portland by August 4, the time specified in the contract. Many visitors from Vancouver and Portland are in daily attendance at the work. U. S. HAS 3,536 CENTENARIANS Almost Every One of Them Owes His or Her Ripe Old Age to DUFFY'S PURE MALT WHISKEY, the Elixir of Life.

The census now being completed, shows that in the United States, with a population of 76,000,000 there are 1,289 men and 2,247 women of one hundred years of age or more. The leading nations of Europe have but half as many with nearly twice the population.

LENGTH OF LIFE INCREASING

Quite a large number of these old people were recently interviewed and asked as to what they especially attributed their great age. In nearly every case the answer was hard work, freedom from worry, careful living, fresh air and pure water. Many of them regularly followed a diet of Duffy's Pure Malt Whiskey, and other either preserving, tonic-stimulant, prescribed by all leading physicians and used in prominent hospitals everywhere.

Strong, Healthy and Full of Vigor, Thanks to DUFFY'S PURE MALT WHISKEY.

As Well as 40 Years Ago.

Gentlemen—The benefit I derive from Duffy's Pure Malt Whiskey is marvelous. I owe my great age, vigorous constitution and remarkable freedom from disease to the use of Duffy's Pure Malt Whiskey. I believe my long life and vigorous constitution are due to the use of Duffy's Pure Malt Whiskey, which I know has helped me wonderfully. If ever I take cold or cough I use Duffy's Pure Malt Whiskey, and my cough is quickly cured. I have a good appetite and sleep better than I have for several years. I am possessed of all my faculties and use no other medicine but Duffy's Pure Malt Whiskey. I shall continue to use it as long as I live. It is, I think, the greatest blessing in the world for the old as well as the young.

Mr. Townsend Miller, of Jamaica, L. I., who has just celebrated his 104th birthday and married his third wife, says he is as vigorous and strong as when twenty-five years of age, thanks to Duffy's Pure Malt Whiskey.

On May 23, 1932, Mr. Miller wrote: "Though I am now past 104 years of age, I am today as strong and healthy as I was 50 years ago, and still able to do a good day's work. I attribute my health, vigor and great age to the constant use of a little Duffy's Pure Malt Whiskey daily for many years. It has kept me free from disease and prolonged my life 75 years. Duffy's is the greatest medicine in the world, a godsend to old people, and I will never be without it. Yours truly,

Oregon City Teachers May Come to This City.

(Journal Special Service.) OREGON CITY, April 21.—The public schools may be closed Friday to allow teachers to go on a visit to the Portland public schools. This was the day set last week, but since then it has been learned that examinations are to be held on that day, so the visit may be postponed 'til to the present year each teacher has been allowed to spend at least one day in the schools of the metropolis, but the directors resuscitated that order last September when it was learned that not all of the teachers went for the purpose, they were sent for.

By these visits to other schools the Oregon City teachers are enabled to see how the work is done in other parts of the state, and the information gained is supposed to be of great value. When the visit is made this year a report will be handed the directors.

After opening court yesterday Judge McBride dismissed the grand jury for one week and proceeded to hear and judge several cases as follows: Star Milling Co. vs. E. Parker, S. C. Parker and J. H. Jackson, case settled and dismissed; Oregon City vs. W. Tiffany, case settled and dismissed; Ida Nell vs. Jas. Nell, dismissed; Cora E. Griffith vs. Frank S. Griffith, divorce granted; David Browning vs. Maud Browning, divorce granted. The court will hear the condemnation suit of the Oregon Water Power & Railway Company against Henry Natchez next Monday. The suit carries some importance with it as the land sought after is needed for the fill in near the blackamas trestle on the electric line. Three other like suits will be heard.

Now that the Circuit Court has opened many divorce suits are being filed, three being reported yesterday, as follows: Bertha Bell vs. W. H. Bell; Anna M. Miller vs. August Miller; Anna Fitzgerald vs. Edwin F. Fitzgerald.

NATIONAL CROP REPORT.

WASHINGTON, D. C., April 21.—The weekly crop report shows some retarding features. Spring wheat, particularly in Minnesota, is slow. Farming operations in the central and west Gulf States and portions of Southeastern Rocky Mountain slopes are slow and need rain. Very slow progress is being made in corn planting in the corn belt owing to the cold and wet weather. There is plenty of irrigation water insured in Southern California owing to the rain. Frosts have done some injury to some crops in Oregon.

A Hog's Fifty-Five-Day Fast.

During a blizzard last January stock belonging to W. D. Donahue, a Deuel county farmer, got out of his barn and were covered by a huge snow drift close to the barn and near the edge of his grove. By hard work he succeeded in getting 23 his stock back into the barn except a hog, which weighed about 300 pounds. The animal could not be found, and for three days the farmer and his hired man shoveled snow in the vicinity of the barn in an effort to rescue it. The other day Donahue was surprised to find his long lost hog, which was alive and well notwithstanding that for a period of fifty-five days it had remained a prisoner under a snowdrift without a particle of food. When discovered after its long imprisonment the animal weighed only 60 pounds, but was full of vigor and wild as a hawk. Morning Call and Fargo (N. D.) Daily Argus.

NEW TIME CARD FOR NORTHERN

Goes Into Effect May 3—Slight Change Here.

Beginning May 3, the "North Coast Limited" passenger train over the Northern Pacific will leave the Portland Union Depot at 3 o'clock in the afternoon, one hour later than under the present arrangement. This will be the only local significance of a new time card which goes into effect throughout the entire system on the date named. General Passenger Agent C. S. Fee, of the Northern Pacific, in speaking of the proposed change in time, made the following statement this morning to a reporter for the Journal: "There is no radical change and no particular significance attached to the new card which goes into effect on May 3. It is simply the customary spring tightening of service after the winter schedule is no longer necessary. The new time of the North Coast Limited will enable closer connections with many points."

The Washington & Columbia River Railroad, a feeder of the Northern Pacific, leading into the Inland Empire, announces that a passenger train, a new feature for the road, will be placed in commission May 3, to connect at Pasco with the North Coast Limited, leaving for Dayton, Walla Walla and Pendleton at 7 o'clock a. m. This service will enable travelers from Portland to leave this city at 3 o'clock in the afternoon and reach Walla Walla common points early the following morning, something heretofore impossible when traveling by the Northern Pacific.

Le Roy and George Birrell, who will have charge of the bureau under the direction of the committee, are well known in the state. Mr. Birrell has served in such capacities before and Mr. Le Roy is well-informed as to Oregon's resources. He is well-known to the people, as he has served as postmaster at La Grande, and as grand chaplain of the I. O. O. F. In the latter capacity he had opportunities to visit all sections of the state.

SKIPPER OUTWITS SAILOR-SELLERS

(Journal Special Service.) ASTORIA, April 21.—Captain Sauter, of the British four-masted bark Crown of India, has outwitted the Portland-Astoria sailor boarding house combination, and the big vessel will put to sea with sailor men who have never seen the inside of a boarding house. If a carefully loaded shotgun in the hands of a deputy United States Marshal is sufficient to intimidate any persons who might have hoped to entice the sailors from the vessel.

Last night the steam schooner Sequoia poked her nose into the harbor from San Francisco and, after a short time and then put to sea again. Although it was late when the Sequoia got in, her mysterious conduct puzzled waterfronters for a time. The Sequoia was bound from San Francisco for the Sound there to load lumber, and she turned a pretty penny by bringing up from San Francisco 19 sailors for the Crown of India. The Sequoia ran alongside the big grain carrier and the men were all delivered aboard.

Captain Sauter seems to have been especially successful in his effort to get a crew without the assistance of the boarding house combination. When his vessel arrived down the river it was given out that she had five men only, while 28 were required to handle the bark. But after the Sequoia reached port from San Francisco it became known that 18 men had been picked up on the streets of Portland. The 19 from San Francisco completed the crew.

Local boarding house men declare that only 12 of the Crown of India's crew deserted here, and that only a round dozen were needed to complete her complement.

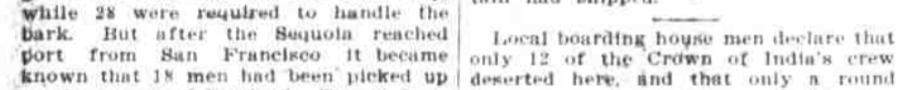

of a demurrer to the complaint. The matter is being argued this afternoon. The case has been before the court several times on various motions and is at last getting near its trial.

DOG DAYS ARE COME.

It seems probable that before long the dogs as well as the daughters of rich and fashionable folk will be sent to Paris to finish their education. A school for dogs has been established there. Many society women already employ a maid or a man as a dog attendant, whose duty it is to train and to accompany their pampered pets. But it is now possible to send them to a school where they
