#### Many Yards Are Nearly Cleaned Out.

News Caused General Advance of 1902 Stock---First Cherries of the Season.

kops are firmer with every tendency for an early advance. This condition is caused by the reports of a later season and the killing of vines by frost.

Reports from Aurora and the Mohawk Valley districts tell of the killing of many of the younger hop plants during the frosts of a few nights ago. Some of the yards are almost entirely killed and all indications point to a smaller yield of hops this year. Unless the weather should suddenly change, and weather grows warm many more of the vines will be frost-bitten and die. In the Salem district the yards are showing better results than for several years, and a slightly increased yield is ex-

**Eumors Cause Activity** 

The rumors of immense damage to the hop yards of the entire valley have caused renewed activity in the market for 1992 stock, and prices are already beginning to raise. Any amount of orders are now being received for the choicer brands at 19 cents, but no sales have been reported within the past two days at that figure. Twenty cents is now the price offered, and it is said that even a slightly higher figure is being offered for the best grades. Growers have become weary and are holding to the stocks with a grim determination not to part with them under a 25-cent rate. Dealers are becoming alarmed and are vainly trying to obtain enough stock at present quotations in order to fill their shorts. Quotations today range from 19 to 20 cents.

Salmon Prices Too Righ. The price of Columbia River salmon is

so high that local retailers are now switching off their trade to the Sacramento River variety. Salmon of the same grade can be purchased and delivered from Sacramento to this city, cleaned, at a lower rate than dealers can buy uncleaned fish on the lower river. This makes a vast difference in the price, and the result is that a majority of the salmon now in the Portland market comes from the California stream. The scarcity and higher figures on the Columbia River article is due to the competition between the canners and cold storage men. Piret Cherries Arrive.

The first cherries of the season ar-

rived in this city today in the shape of a shipment of 30 boxes consigned to The fruit is of first class quality and sells at \$1.50 per 10-pound box.

Strawberries More Plentiful.

About 500 crates of first class strawberries were received from Florin, Cal., this morning-the fruit being of a better quality than any stock received during the present season. Quotations stand at \$2 for a 15-box crate.

Butter Very Weak.

Butter prices are very weak, and large stocks are being rushed into cold storage. The best grades of creamery are coming so fast that unless it is placed in cold storage without any delay, it will soon become second grade, and consequently sold at the lowest prevailing quotations. Store and country grades are in large receipt, but there is an excellent demand for this class of goods from California butter renovators at the top quotations. Large shipments of stock have already been sent to the South ern State, and there are plenty of orders remaining unfilled. Prices range from 17% to 20 cents, according to the grade of creamery. Store and country are un-

changed from former quotations.

The grain-market is quiet, business in both wheat and flour being nominal with the closing of the present season. Valley wheat is still in fair demand at

Dried Fruits Pirmer.

The dried fruit market shows added firmness, and prices are on the advance. Stocks in first hands are being held firm. especially prunes and apricots. Reports from Europe tell of a large shortage in the coming prune crop.

Poultry is Scarce.

Receipts of poultry on Front street were not sufficient today to supply the increased demand that has prevailed in the local markets during the past week. Marly this morning the markets on the street were quite bare of stock of any kind, but shortly before noon the receipts were more liberal, and some stock was carried over until the afternoon. Prices are firm on all lines with the exception of ducks, which are a trifle

Meat 1 sipts Pall Again.
Receipts of fresh meats among the

commission dealers today were comparative small, and with a fair demand the ine set is quoted firm on all lines, with possible exception of hogs, which are showing added weakness. Prices in the meat line are unchanged

Too Heavy Egg Arrivals. The arrivals of eggs are becoming so plentiful that the market is barely able to move, and lower quotations will be result within the next few days unless there is a radical change in receipts. A small amount of stock is beng put in cold storage, but prices are at present too high to admit a general move in that direction. There is an absence of outside demand.

Onions Going Upward.

Onion prices are again on the upward move with the receipt of encouraging news from the South. First class stock is moving forward fast, but the ordinar ies are still at the bottom of the ladder. It is difficult at this late date to secure the right kind of stock for shipping purposes, and this is in reality the

of today's advances. The manufacturers of Duke's Mixture have notified local wholesalers that the price on that brand of tobacco will be advanced 1 cent a pound on June 1. Today's quotations, as revised, are

an advance in the dividend.

said in copper circles that buyers will be paying 15 % cents per pound for the metal by July 1, the consumption of which is rapidly increasing. There is a theory that A. C. P. on a 4 per cent basis would sell above 80 and that should the directors decide to increase the dividend it will reach that price long before they take action.

out yesterday.

Armour Selling Wheat.

CHICAGO, May 8 .- Liverpool wheat 1/4 to % lower; corn, unchanged to % higher. The map shows continued rains higher. in the Southwest and rather mild temperatures everywhere. The weather does not seem to warm up much. There was heavy selling in this market yesterday through commission houses credited to Armour. It was mainly July and it is estimated that it was fully 5,000,000 bushels. Apparently it went into the hands of the commission houses. The cash situation is a little disappointing. Crop reports are mildly unfavorable. Nothing new on the European crop situation. The cables are fairly steady, con-sidering. Looks like a scalping market for the time being. The cash position in corn and cats is slow. They are both mainly weather markets. Oats are not making good progress and the corn lanting is a little late. Until the weather improves neither are likely to sell off much. Provisions are fairly steady at the decline, but show very little reactive tendency. Hogs are off nearly cent a pound from the top.

New York Summary.

The Herald says: The Rock Island takes over the Erisco, giving for each \$100, 'Frisco, \$60 5 per cent 10-year collateral trust bondseat par and \$60 Rock Island, common, equal to \$87 a share. There is no truth in the rumor of the Atchison bond issue. Thirty-nine roads for the fourth week in April show an average gross increase of 17.59 average net increase of 20.80 per cent; on is in demand in the loan crowd. The banks gained from the Sub-Treasury

Boo Earnings Satisfactory.

NEW YORK, May 8.—The March earnings of the "Soo Line" make a very satisfactory showing, particularly in gross earnings. This item shows an inings show 29 per cent. The increase in gross is about due to the movement of the settlers toward the Canadian Northwest. For the nine months the road shows an increase of 18 per cent in gross and 9 per cent in net. It is understood that the advance of the Soo-Line as an earner of money throughout the

A bear drive is the cause to which bservant brokers ascribe the setback The talk of gold exports and the backward season being the motives of sellers. There is feeling in conservative circles tonight, however, that market acts well and naturally that while the reaction may go further stocks are a purchase. The short interests and strong interests are buying on a scale lown, money is easy and railroad earnings are increasing tremendously. The combination of favorable influences is counted on by adversals from the long side to more than counteract such adverse factors as the drop in United States shipbuilding 5s, delay in farm work and politics. The selling of Atchison is attributed to professional speculators, but it is considered significant that 15,000 shares were dealt around The inference is that the Berwin crowd is taking the stock sold by bear traders. Despite cold weather there is onfidence in the crop outcome in Atchion territory and as a consequence Kansas farmers are expected to have another money-making year. This argu-ment of good crops and high prices, for them is the one most advanced tonight in favor, not only of Atchison, but of Mfs souri Pacific. Moreover, it is reported that these systems will make strong statements of net earning for April. In the industrials, A. C. P. is expected to be is attributed to Standard Oil and Lewsohn and believed to be based on the earnings and the unfavorable outlook for

Trade reports are improving and it is

Too Much Bain. CHICAGO, May 8 .- The Record-Her-

ald says:
The present winter wheat troubles are supposed to restit from the conditions at seed time of the fall. Winter wheat was in the ground with an abundance of moisture and then followed rain after rain throughout the fall. That, according to the crop theorist, meant a luxuriant growth of plant, but with no depth of root. With so much moisture at the surface there was not the neces-sity of the root seeking depth. The conditions were favorable for luxuriance but were not favorable for sturdiness or the ability to withstand unfavorable conditions in the spring and summer. The inspection sheet showed that one of the Armour cargoes of No. 1 Northfor the seaboard. The sheet also shows, however, that the elevator concerns are still turning out the contract wheat at a rapid rate. Forty-six cars of No. 1 Northern and 13,000 bushels of No. 2 Forty-six cars of No. 1 at red, or about 60,000 in all, were turned

NEW YORK, May 8 .- London wheat, steady to % higher. Transvasi loans are subscribed 20 times over. Mayor vetoes East River gas bill. Crop reports continue generally favorable. # More Kinds and More of a Kind

This You Will Find at the Jennings Store

Our constant endeavor is to make this the best store of its kind. We may not have reached perfection in storekeeping, but we are much nearer to it than ever before in our Spring display of Fine Furniture and Carpets at little cost. This week we want to talk about Office Desks and the Steel Ranges we told you of before.

#### Office Furniture to be Sold at Little Prices

At this time every year we re-adjust our office supply department. Odd lots, representing almost everything pertaining to office furnishings, are marked for quick selling in order to make room for newly adopted and fuller lines. Prices are marked amazingly low. You'll appreciate these great money-savings, coming as they do at a time when office changes are being made in the business world. The list includes DESKS OF ALL KINDS -ROLL TOP, FLAT and STANDING; REVOLVING and STRAIGHT CHAIRS; BOOKCASES.

# Steel Ranges

We've told you before that the price of Steel Ranges had advanced. Other stores were compelled to raise the price, but we did not because we contracted for 1500 before the advance. It was a lucky buy for us, and we will share this lack with our customers by selling them at the same old price, \$27.50 and upward. Let us tell you how they are built. Made of heavy blued steel, sectional tops, entire range aspestos lined throughout. The entire front castings are nickel plated. The flues and end of fire-box are double lined with heavy asbestos, thus saving fuel and preserving the range.

#### SALEM DISTRICT HOPS THRIFTY

Yards in the Vicinity Showing Well--- Few Failures.

(Journal Special Service.) SALEM, May 8.-Hopgrowers of this vicinity are jubilant over the outlook for this year's crop. The principal yards about Salem—in fact nearly all of them -show a much better condition of the hop plants than ever before at this sea-

son of the year. There are less bare

hills and the vines are already showing a splendid growth. The percentage of hills failing to shoot up vines is by far the smallest ever known this early in the season, and the growth is so healthy as to warrant the statement that the outlook is extremely flattering. One prominent grower stated last night that one of yards, containing eight acres, would be 50 per cent better than ever in the past, while all the yards in his neighborhood showed the vines to be in a splendid

condition, and he predicted a largely increased yield over last year. In Aurora District. In the northern part of the county, in

the Aurora neighborhood, it is stated, the yards do not appear to be quite as thrifty as they are about Salem, but even there they are in splendid condition, and very much better than in past seasons at the same time. The recently reported wire worm,

which was reported to be doing damage to the vines, is now causing very little complaint and most growers state that this threatening pest has about disappeared. No fears are entertained from this source as the season advances, and the outlook being so very good, the growers are hopeful of bumper crop. Added to this is the fact that dealers are anxious to make contracts and some of them are making them at from 14 to 16 cents a pound, thus giving assurance of a good price, and the growers are consequently in a happy frame of mind.

#### WALCOTT COMING

Arifcles Returned and the Colored Boxer Starts for This City.

The Columbian Athletic Club's management acknowledges the receipt of signed articles from Joe Walcott's manager, and the colored champion will leave Boston for this city today. "Mysterious" Billy Smith and Walcott meet in a 20round contest before the Columbian Athletic Club of this city at the Exposition Building on the evening of May 28. This contest will be the eighth meeting beween the pair and the result of their ninth one will be looked for by all ring followers with much interest.
