Portland Prices Go Up on Monday.

Gogs Are Duller and Packed Meats Are Likely to Drop During Week.

BEEF TO ADVANCE. Fresh beef prices will advance 14 cent a yound on Monday. Lighter receipts of steers is the

The Union Meat Company announces that, beginning Monday, quotations on government inspected beef will be advanced 1/4 cent a pound on account of reduced stock receipts in the local markets. The new quotations on prime stock range from 71/2 to 81/2 cents a pound. Mutton is in abundant supply and quotations are down. Veal is still in an oversupply and today's prices are descending. Hogs are down.

The packed meat situation is weaker on account of the lowness of the hog market, which has been brought about by larger receipts throughout the country. Local packed meats are slow sellers and lower prices are anticipated within the next few days. Lard is weak in sympathy with the reduction in pork. Prices are unchanged.

Butter in Cold Storage.

The stock of creamery butter being rushed into cold storage is immense and has somewhat of a tendency to make the market stronger. There is still plenty stock arriving on the street and it is hard to obtain the top quotations except on rare occasions. Store and country are arriving in a more plentiful supply and are bringing ruling quota-

Eggs to Drop.

Within the next week, the price of eggs is sure to show a decline if the present rate of production continues. Receipts of eggs on the street today were the largest during the season, and as the stock is moving very slowly, the market shows a weaker tone. One of the larger commission men on street received over 100 cases today and a majority of the consignment had to be rushed into the cold storage. Prices continue at 17 and 17½ cents. with a majority of the sales being made at the latter figure.

Many Hop Contracts.

Many contracts for the 1903 crop of hops are being made up the Valley at prices averaging 15 cents a pound. Mo-Kinley Mitchell, a well known broker of this city, has contracted to sell 40,000 pounds of this year's crop at that figure. Mr. Mitchell's yard is near Gearvis. Offers for 1902's are coming in thick and fast and the market is showing greater activity than at any period of the present season. Some sales are reported at 20 cents, and it is rumored that even 20% cents has been paid for a very choice lot in the vicinity of Aurora

Patten Purchases Large Wheat Supplies.

Crop Prospects in the South Are Not Rosy--Grain Yellow and Weak Looking.

From special wires and cables to iolton, de Huyter & Co. CHIAGO, May 9 .- The Record-Herald

The general opinion is that the Armoun interests is practically out of its July wheat. That was the theory yesterday, and because of that view there was an increase in the general buying. The outside buyer who has been keeping out because fearful of a break on Armour liquidation was disposed to take hold because he felt this peril was out of the way. The Armour people still have their May trade in the July. But there is no longer a belief in any important July campaign. Patten was a considerable buyer of wheat yesterday and that looked as if he felt there had been all the break on Armour liquidation there would

St. Louis has shipped 728,000 bushels of wheat in five days and has received 244,000 bushels. It books as if the St. Louis wheat stock would be cut in two on Monday, the reduction being from 672,000 bushels to about 200,000. Duluth promises a decrease in its stock of 800,000 bushels. Minneapolis has a decrease of 450,000 and Chicago will decrease about 250,000 bushels.

WE CURE MEN

CONTRACTED DISORDERS

CONTRACTED DISORDERS. Every contracted disease is attended by grave dangers that nothing less than a therough and absolute cure can remore. To take even the slightest chance in such cases is to invite life-long misery. Men do not realize this as they should. A partial cure is fol-lowed by a chronic stage, with all fis-hored, the same as though the dis-cure had not been treated at all. We positively will not dismins a patient until every pastibility of relapse is no-moved. By our system of breatment every patient is somnify oured, and made as free from disease taint as he was before the allment was contracted. DE. TALCOTT & GO., 250% Alder WE

pply, the receipts today from Florin. Cal., being 700 crates. The stock continues to improve as the season progresses and prices are on the downward move. Strawberries are quoted today at \$1.75 per 15-box crate, a decline of 25 cents since yesterday. Cherries are arriving in more liberal

supply and quotations are down to \$1.40 per 10-pound crate. Lemons are overstocked and prices on the cheaper grades are slumping. Good stock is being held at top quotations.

Onions Again Up.

A larger demand for the choicer grades of Oregon onions has caused another advance in onion quotations., The best stock is in excellent demand, the supply of California's being nearly exhausted. The best stock of local's is likewise small and higher prices are expected to prevail before the close of the present season. Ordinary stock is in larger receipt and is a drug on the market. Prices today range from \$1 \$0 \$1.50.

Potatoes Going Down.

Potatoes are weaker with a slackening of demand for shipping stock from the South. The last steamer took dow an extra large supply of fancy grades. which were sold at lowered quotations. A large stock awaits the arrival of the next steamer. Prices in the local market are unchanged.

One car of bananas is due this even-The market is bare of fruit and higher prices are expected to prevail the coming week. The regular during steamer is due from San Francisco Monday.

Asparagus in Market.

Oregon asparagus from Miramonte Parm, Clackamas County, arrived today in the local markets. This is the first good Oregon stock to arrive during the present season. California is in larger supply and all grades are quoted today at \$1 per 25-pound box.

Good Prune Outlook.

The outlook for a large crop of prunes during the coming season is very en-couraging up the Willamette Valley. Most of the trees are bearing well and unless a late frost is encountered, the prospects are that this year's crop of unes will be a record-breaker.

Business along Front street grows duller as the labor troubles continue and all merchants agree that the diffoulties should be arbitrated. The poultry market is especially dull today, re-seipts being rather small and the demand even less. The grocery market is perhaps the one to suffer the most on account of the numerous strikes and ockouts, business in this market having dropped at least a third since the beginning of the labor trouble. ohanges in quotations appear in the grocery market during the week Today's quotations, as revised, are as

MACHEN OUT AT LAST. (Journal Special Service.) WASHINGTON, May 9.-A. W. Mach-

en, general superintendent of the free delivery system of the Postal Department, has been practically removed from his office pending the result of the investigation now going on. Since the postoffice scandal Machen, scarcely less than Tyner, has been the center of the fire directed against the department. He has heretofore refused to resign. Now, owing evidently to some discoveries made by the investigators, he has been

given a "leave of absence" until the

The facts given below are worth a peusal by all who are anxious about their physical condition or are similarly situated to the resident of Portland. It is a local occurrence and can be thoroughly investigated.

Mrs. J. Jenkins, residing at 315 East Sixth street, wife of J. Jenkins, retired, says: "An itching and irritated spot on one of my ears annoyed me for some time. It spread, grew tender and I be came uneasy about it, for it resisted all my efforts to check it, although I used more than one salve and ointment. My husband brought home a box of Doan's Ointment, which he got at the Laue-Davis Drug Co.'s store, and urged me to try it. One application soothed,

and after a few more the itching and inflammation disappeared entirely. Doan's Ointment is the best remedy for the purposes for which its use is advertised that I ever knew of." For sale by all dealers; price 50 cents.

MAY DIVIDENDS

Hon. H. W. Ogden, Congressman from

NEW YORK. May 9 .- Disbursements of dividends and interest to investors during May will amount to approximately \$53.900,000, as compared with \$53,700,000 in May a year ago. The year has been one of large bond issues and during the last few months several important railroad companies have made large additions to their capital stock. But few of the additional bond issues pay their interest in May and much of the new stock has not been issued long enough to share in the distribution of dividents. The Pennsylvania and the Northern Securities Company will make the largest dividend payment among the rallroads and that of the former is much the greater. These are the only railroad companies paying out over \$1.-000,000 in dividends. In interest on bonds, only the Chicago & Northwestern will pay out over \$1,000,000. The increase in industrial dividends is partly offset in the total by the disappearance of a few large companies, such as form the list of dividend payers since last
