

# GRIM'S PLAYERS WALLOP BUTTE

## "Tacks" Parrott Swats the Ball.

With Defeat Staring Them, Portlanders Go In and Win by Brilliant Finish.

Grim's men got together at the serious stages yesterday and despite Butte's hard work, could not prevent them from capturing the contest. The ninth inning looked dubious for Captain Davis and his squad, as Butte was one run to the good and playing good ball. Donohue started off with a double, and McGiligan juggled Davis' smash to center, allowing Donohue to scamper home with the run that tied. Davis didn't stop until he reached the third station, because Smith threw wild in an attempt to catch him at second. Again Tom Parrott got busy with his club and hoisted the leather for the second double and Captain Davis scored the winning run. The Portland men played a much better game of ball than on former occasions, and the chances for Butte getting any more runs were very slight. The crowd numbered about 250 spectators.

**Detail of Game.**  
Jack Grim's bunch landed on Father Tom Kelly's delivery after the fourth inning yesterday and pounded in just enough runs to win. Butte began scoring in the second canto, La Roqueue singled, McKevitt walked, McHale drew to Dalrymple and La Roqueue scored on the throw. Barkhoff singled and both he and McKevitt scored on a triple by Kelly. Butte scored again in the fifth. Kane started by taking four bad ones, took second on Shea's bad throw, Ward hit safely, Kane taking third. La Roqueue scored and Ward scored on McKevitt's fly to Diesel, but Elmer Smith smashed out a double and both Kane and Ward ran home. Portland broke the tie in this half of the fifth. Painter flew to Kane, Shea walked, Lundbom scooped one of Kelly's shots in the endgame and was allowed his base. Diesel filled the bags by a hit to Barkhoff, who stumbled. Donohue flew to McHale and Shea scored on the throw.

Grim's batters did things to Butte in the seventh. Shea walked, Lundbom hit her and her was out on the throw. Deisel flew to McHale, Donohue walked, Davis fanned and then, with two out, the fireworks commenced. Parrott, hit for two bases, scoring Shea and the pitcher, Hanley, also hit for a couple of bases, Donohue and Parrott scoring with the tying runs. Dalrymple ended the inning by a fly to Kane.

Butte took the lead again in the ninth. Kelly bunted to Lundbom and was out at first. McGiligan was safe on a stretch hit, took second on a wild pitch, took third while Painter was retiring Kane, and scored on Ward's clean hit to left. La Roqueue got a base on balls but McKevitt retired the side by a fly to Lundbom.

The story of what was done in the ninth is told in the introduction. The score follows:

## "WAY DOWN EAST" IS TO BE REPEATED

Next Wednesday night, May 13, "Down East" will be repeated by the St. Lawrence Club at St. Lawrence Hall. Particularly pleasing in this beautiful drama. The cast of characters calls for much ability on the part of the members of the club, who are taking part in the rehearsals. April 21 the same production was given by the club, and so successful was the entertainment that many requests came for its repetition. Mrs. Kate Ham has charge of instruction, and can be complimented on the perfection gained by the principals.

## IS NOW CHARGED WITH INSANITY

### Was Merrill Falsely Arrested by Detectives?

#### Damage Suit Brings Out Peculiar Manner of Young Boy's Examination by Sheriff.

Judge George's Court was filled with Gresham people all day listening to the evidence in the case of Leslie G. Merrill, who, through his father, is suing Fred Metzgar, an erstwhile butcher of Gresham, with false arrest of Leslie Merrill, having accused the boy of stealing \$275 November 6, 1902.

The case is attracting great attention inasmuch as the Merrills are suing for \$5,000 damages, and besides that, they arraign the sheriff's office in the complaint for unusual proceedings when the Merrill boy was incarcerated in the county jail, from December 13 to December 15. The complaint states that Leslie Merrill worked for Fred Metzgar as a butcher's boy, and that while the family was absent from home he entered the house and took from a secret hiding place \$275 in money. The facts that led up to the accusation are interesting. On November 6, it is alleged that Mr. Metzgar came to Portland, leaving the boy in charge of the shop. He was returned to pay a bill, and went to Mrs. Merrill at her home not far distant and which she gave him the small amount with which to pay the bill. In procuring the money for paying Merrill, the daughter of Metzgar exposed the secret place where the money was kept. During the afternoon of that day the wife and daughter left for a visit to relatives at Montavilla, leaving the boy alone. It is alleged that he entered the house and took the money.

**Got Into Jail.**  
It was not until December 13 that he was accused of the crime, and at that time he was in Portland with his cousin, who bought him an overcoat. While in this city he was met by Detective Simmons, who took him to Sheriff Storey. That official asked him to give up the money he had stolen. He said he didn't know anything about stolen money. Sheriff Storey in alleged to have said that if he returned the money he would be released. The boy stated that he could not give up the money, but he could not give up money he knew nothing about. After a warrant had been secured he was placed in the county jail and the sheriff refused to release him unless cash bail of \$500 was forthcoming. It was not until the afternoon of Monday, December 15, that the father could obtain the freedom of his son. Why the parents of the boy were not notified of his whereabouts, more especially in view of the fact that his arrest occurred Saturday afternoon, was not ascertained. As it happened Merrill was kept in the county jail over Sunday, and nothing but \$500 cash bail would be accepted by the Sheriff.

After the examination of Storey was finished Fred Metzgar took the stand and told practically the same details as stated.

**Mrs. Metzgar Has Her Say.**  
Late yesterday afternoon Mrs. Metzgar was on the stand and her examination was severe. It was brought out that Mrs. Metzgar and her daughters had left home the same day that Metzgar came to Portland. Attorney Hume attempted to establish with more or less success that the wife and daughter quit home, and went visiting at Montavilla because they were disgusted with Metzgar's drinking proclivities.

Mr. Hume asked the pointed question whether Mrs. Metzgar had not taken the \$275 with her. She answered no. "And you left the \$297 in the house knowing that you were going to be absent for a long while, and did not know when your husband would return?" asked Hume.

"Yes," replied the witness.

It was fully a week after the day she left home before Mr. Metzgar ascertained that his wife had not the money in her possession.

The case is being continued this afternoon.

**FREE DELIVERY ON PENINSULA**  
Postal Inspectors Have Examined Petition for Carriers.

Postmaster Bancroft and Inspector Lee of the Postal Department have spent several days examining the petition for free delivery along the Peninsula.

The petition for free mail delivery was sent to the department at Washington about a year ago and this is the first news that action is being taken by the postal officials. It is proposed to make University Park the distributing station. The entire Peninsula is within the city limits of Portland and up to this time has been served with mail from two fourth-class offices, one at Peninsula and the other at University Park. This section of the city is growing rapidly.

## ELECTRICIANS NEXT IN ORDER

### Lockout May Be Decided Upon at a Meeting Tonight.

At a meeting of the Oregon Electricians' Association, to be held this evening, a committee of union workmen will be on hand, and it is claimed action may be taken that will result in a lockout of electrical workers.

From the meager information that can be gathered it is believed that the employees will either be locked out or forced to go on a strike. The association, it is claimed, will insist upon the employees signing an agreement to the effect that they will work with non-union men. This is the great hitching point between the two organizations. Members of the union say they cannot comply with this request and preserve the principles which they have so long adhered to and advocated. The reply made from the other side is that owners cannot afford to have jobs tied up when their employees refuse to work alongside of non-union mechanics.

A member of the association today said that a short time ago it might have been possible for the union to have gained its demands, but the way in which the matter now stands it will be impossible. He explained that an understanding has been reached with the other associations by which it is hoped to force the unions to come to terms. Just in what manner this is to be brought about he failed to reveal. It is surmised, however, that it is to be done by a combination of influences.

## MILL WORKERS ARE INDIGNANT

### Will Buy No Lumber or Slabwood Till Strike Is Settled.

At the last meeting of the Lumber Mill Workers' Union the following resolution was unanimously adopted: "Whereas, the lumber manufacturers of Portland, as shown by an edict issued to the public in which they declared they will sell no lumber for use in the City of Portland during the existence of the present troubles in labor circles, thus putting a stop to all building, and in doing so have provided one more opportunity and excuse for adding to an already exorbitant raising of rents, materially increasing the cost of living; and

Whereas, in view of the fact that the action of said mills was unwarranted and unjustifiable, therefore, be it resolved, that in the future we will not buy or use any slab wood coming from, or made by any of the lumber mills which signed said statement.

"Furthermore, we ask all members of organized labor and their friends to do the same."

## STEAMER BOILERS LEAKING.

The steamer Robert Dollar, which sailed yesterday from San Francisco for this port, with a general cargo, put back to the Bay City yesterday morning with leaking boilers. Repairs on the boilers will be made at once and the vessel is expected here the first of next week. She is consigned to the Frank Woolsey Shipping Company.

## DISCUSSION OF FAIR ON TAPIS

### Joint Debate Between Labor Men and Board of Trade.

A visit was made to the Federated Trades Council meeting last night by a committee from the Board of Trade. The latter wanted to know if some arrangements could not be made for the council to withdraw the resolutions it recently passed against the Lewis and Clark Fair. At the suggestion of the visitors a committee was appointed by the council to attend the meeting of the Board of Trade Monday night and participate in a joint discussion regarding the matter. The proposition was accepted and the following committee was named: Harry Gurr, E. A. Austin, J. W. Jones, Harry Gurr, E. A. Austin, J. K. Stanton and C. J. Bergey. Why the council is antagonistic to the Exposition will be the subject for debate. An interesting discussion is expected to ensue.

The labor men seem more determined than ever during the past few days to invoke the referendum against the appropriation for the Fair. Committees having the petitions in charge have been attending union meetings and securing signatures. They claim that more than enough names have already been secured, but they state that the work will continue for some time yet, as it is their desire to make as big a showing as possible along this line. The council appointed six of its members last night to assist in the work. There are now 13 men from the council and 10 from the Painters' Union circulating the petitions. The various unions in the city and state have been asked to indorse the resolutions passed by the Federated Trades Council and the State Labor Convention on the subject, and many of them have already done so. If wages are not increased it is believed that they will all present a solid front against the Centennial. At least they say they will, and their actions appear to indicate it.

## PRETISS MAKES KNOTS.

### Baseball Tomorrow. Butte vs. Portland.

The steamer Prentiss arrived at San Francisco Thursday evening after a fast run of 59 hours from this city. The vessel left here at noon last Monday in charge of Capt. Alstrom with 600,000 feet of lumber for the Bay City. An Oregon lumber is very much in demand at California towns the steamer was pushed as much as could be. She will leave up for Portland in about five days.

## Comfortable Spectacles & Eyeglasses

The lens is not the only important factor in a properly fitted pair of glasses. Poorly fitted frames or mountings may spoil the good work the lenses might accomplish. Every day you will meet with people who might be wearing their forefathers' glasses, as far as FIT is concerned. It will cost you no more to get the proper kind here, and often less than where you are led to believe you are getting something for nothing. One charge for examination, frames and lenses.
