RELIANCE READY FOR COLUMBIA

Both Yachts Trimmed for the Big Event.

(Journal Special Service.)

GLENCOVE, May 21.—The day for the maiden race of the Reliance against the Columbia was anything but promising, the wind puffing the sound and a mirror-like dense haze prevailing, making the visual work difficult. The interest in yachting circles is intense, and although the Defender has shown up well, until she is tuned up nothing definite about her sailing qualities will be known. E. D. Morgan, Columbia's managing owner, said this morning that he could not see any reason why the Reliance should not be the fastest boat, but concluded by saying that he regretted very much she could not have gone up against the Constitution today. Columbia's crew were astir early with full sail hoisted and mainsails. Both sloops will carry the largest possible sail spread aloft if the wind stays light. Reliance will kite her gigantic club top sail which has caused so much comment.

The wind picked up slightly at 10 o'clock but it is anything but an ideal yachting day. The Reliance left New Rochelle about 10 o'clock and moved out into the sound, but unless the wind strengthens it will be little more than a drifting match.

Race is On.

Race is now on. Reliance went across the line 2:02, Columbia 20 seconds later. Both stood away eastward towards the first mark when passing Peacock Point, two miles from the start. The Reliance with great sails spread had a considerably increased lead after passing the Point. The wind seemed to fall away then and the yachts practically were becalmed.

At one time the Columbia drew up slightly and then the Reliance again pulled away under a catspaw wind. It is practically a drifting match.

Challenger Race Postponed.

(Journal Special Service.)

GLENCOE, L. I., May 21.—At 3:40 the Reliance had increased her lead in the drifting match to over half a mile. About five minutes later a five-knot breeze sprung up, when the Columbia struck first and began to move swiftly up.

The start of the yacht race has been postponed until a more favorable time than this afternoon, as the breeze has died down.

WITH THE PEOPLE IN THE STREETS

Portland streets today are thronged with people from every section of the Northwest, people who have come to greet their President and to participate in an event the like of which but few of them have ever seen before.

Early morning trains were crowded, and long before the noon hour, the time set for the abandonment of toil and the beginning of the celebration, thousands upon thousands of strangers were hurrying about from place to place, making their final arrangements for the day, witnessing the sights and vieing with Portland residents for vantage points from which the exercises might be observed.

Every size, rank, class, color and manner of man turned out and the gentler sex were equally varied as to form, nationality and dress. But, one and all, they were intent upon seeing the President and upon helping Portland and Oregon to give him a befitting reception. There was not one who failed to do his part.

Street corners and the wide boulevards where the great procession would show to especial advantage were early taken possession of by eager sightseers who willingly stood fast for hours in the places they had chosen, offering personal comfort as a sacrifice upon the altar of curiosity, patriotism and love of republican principles.

There was a diligent and thorough canvass made early in the day and every window that overlooked the line of march was sought by half a dozen who valued comfort.

The utmost good nature prevailed and those who had seats and windows at their disposal cast many humorous jibes at their less fortunate fellows who were compelled to exercise the privilege that bipeds share in common with those of baser clay and stand. Those on the sidewalk replied to these jokes readily and in kind and a running fire of wit resulted.

But all were waiting for the President and his parade and when it had passed many contented themselves with returning to their homes. Thousands followed the Presidential party to the park and monument site, being witnesses of the exercises there.

It was a red-letter occasion for the crowd—the people were happy.

Vancouver and Clark County

VANCOUVER, May 21.—The committee selected by the Commercial Club to ascertain the boundaries of the proposed improvement district as to the deepening and widening of the channel in the Columbia River, between this city and the mouth of the Willamette River, met Tuesday afternoon and established the boundaries as follows:

Beginning at the foot of Main street in this city, where same intersects with the Columbia River; thence east along west boundary line of the city, thence west along north boundary line of city, thence west along north line of the city, thence south along west line of city, thence east along north bank of Columbia River, following the meanders at ordinary low water, to place of beginning; also beginning at a point where the township line between townships 1 and 2 east and 2 north intersects Columbia River; thence north along said townships to Mill Plain road; thence west along said road to where the road intersects the United States military reserve; thence southwest along east line of military reserve, thence southwesterly along east side of military reserve to north bank of the river; thence east along the river, following its meanders at ordinary low water.

These boundaries will be fixed, and the County Commissioners will be asked to have the same published according to the provisions of the law passed regarding the same by the last Legislature.

The estimated valuation of the property in the district is over $1,000,000, and the tax levy for the improvement cannot be more than 2½ mills. The work is being done under the direction of the Commercial Club.

The movement is one of the most important ever started in Clarke County, and it is expected the County Commissioners will take up the matter and advertise it thoroughly.

CAPITAL TO STRIVE AND DEFEAT LABOR

CHICAGO, May 21.—At a meeting of employers held today Secretary Job of the local employers' association implored every merchant, manufacturer and other employer to join the association, which is formed to counteract the effects of labor unions. He outlined plans for a National association and declared an active movement is on foot to defend capital against the constant encroachments of labor. Permanent headquarters have been rented and all employers are invited to use them. Organizers will be set to work all over America. National headquarters are to be selected shortly.

The National Manufacturers' Association will be asked to become a part of the National Employers' Association. When the employes of a firm or an individual demand increase of wages an employer will be required to submit demands to an executive board to be accepted or rejected by its members, as they see fit.

Those employers who were present today received the plan enthusiastically and predict the perfection of a National body within the next 60 days.

IMPOSES ON THE PRESIDENT'S WIFE

Buffalo Woman Lied to Mrs. Roosevelt With Success.

(Journal Special Service.)

BUFFALO, N. Y., May 21.—A designing woman of this town has succeeded, by means of a pitiful plea, in getting a check for $15 from President Roosevelt's wife. The fraud was detected in time and payment on the check stopped. The Buffalo woman represented herself as being of one mind with President Roosevelt on the subject of race suicide. To back up this statement, she wrote that she was the mother of 12 children, and soon expected to be mother of 13. She said she was in destitute circumstances and needed $15 immediately.

Mrs. Roosevelt sent her a check for that amount. Mrs. Roosevelt did not stop here. She thought permanent relief should be given to the woman, and she communicated with a charity organization of this city asking them to assist the woman. An officer of the society found the woman in a well-furnished home. Her husband was earning over $3 a day. Their larder was stocked with strawberries and early vegetables. When asked where the 12 children were, the woman could produce only two.

FORMING POWDER TRUST IN EAST

New Jersey Corporation to Control All Explosive Factories.

(Journal Special Service.)

NEW YORK, May 21.—It is generally believed her that the Dupont Powder Company, which has just been incorporated in New Jersey with $50,000,000 capital, is the forerunner of the explosive manufacturers' trust. Dupont's representatives recently made a trip to California to bring about a merger of the Judson Vigorite Companies. It is reported that these three companies will be incorporated under the name of the Eastern Dynamite Company. The Duponts already control a number of concerns that are supposed to be independent. If the merger carries through it will probably reach out until it becomes international in character.

ENJOINED FROM TALKING.

(Journal Special Service.)

OMAHA, May 21.—Judge Baxter, in the District Court, has issued a restraining order enjoining a woman from talking. The complainant was L. Oliphant Dodge, the owner of an apartment house, and the defendant was Mrs. E. Berge, a tenant, who refuses to vacate until her lease expires. The allegations are that the defendant has upon numerous occasions by talking to the other occupants caused some of them to announce their intention of leaving the apartments; that she has interfered with the property in different ways, all to the injury of the plaintiff. The defendant is forbidden to enter the apartments of the other occupants, and from talking to any of the tenants about the plaintiff in any manner.

SEVERAL KILLED IN AN EXPLOSION

Catastrophy In New York Brings Death and Injury.

(Journal Special Service.)

NEW YORK, May 21.—Shortly after noon today an explosion in the gas house at the Mo. haven yard of the New York Central Railroad occurred. About 100 men were working there at the time. One man is known to be dead and two are fatally injured. Officers of the company believe six others have lost their lives, but the bodies can not be recovered until the fire burns out. A wild rush was made to escape when the explosion came. Many persons were slightly injured by flying missiles. The two who were fatally injured sustained fractured skulls by the falling debris. Windows in a radius of four blocks were shattered.

HE WENT TO SLEEP AGAINST LAMP POST

(Journal Special Service.)

OAKLAND, May 21.—Henry Johnson awake from a deep and smewhat alcoholic sleep last night to find himself leaning against a post at Thirteenth avenue and Twenty-foruth street and most unaccountably separated from his clothes. He had a cigar in his mouth, but when he hunted for a match he found he was a good imitation of Adam before the fall. Without stopping to reason the thing out he started on the run for his home in Dimond, Upper Fruitville.

He says he was in Oakland last night, and that with some companions he drank pretty heavily. Then he rode as far as Eighth avenue and Eighteenth street, a transfer point, where he sat no a bench to wait for the car to Dimond. He then had on the regulation amount of clothes. When he woke up he was leaning against the post, and ready for a bath.

Under the porch of O. Goddard's house, at 1324 Eighth avenue, were found all the clothes Johnson should have had on. The police believe that Johnson, in his sleep, wandered around until, mistaking Goddard's porch for a coffortable bed, disrobed and contentedly turned in.

ONE VERY LUCKY MAN.

SAN FRANCISCO, May 21.—Charles D. Cosche says he went to sleep in St. Louis and woke up in San Francisco this morning. When he came to his senses he was lined up with a file of inebriates before Police Judge Fritz in the city prison. He was large of stature, dressed fashionably, and turned up an aristocratic nose at his companions.

"You call this one free country? Pouf! I call it ——," he exclaimed. Then he explained that he was a commissioner sent from France to represent his country at the Louisiana Purchase Exposition, and that he had no idea how he came in San Francisco, for his last recollections were of St. Louis.

"Drunk!" he ejaculated, with a shrug. "Well, I t'ink I was varee drunk. I had monee, I had one watch, I had papers, oui. What have I now? Nossing."

His property was located with the property clerk, howeved, and he left with it, saying to himself, "I am one varee lucky man."

EXTREMELY COLD SPELL CONTINUES

Checks Melting of Snow and River Falls Fast.

The Steamer Elder Arrives From San Francisco With Many Passengers--Marine Notes.

The entire Columbia River System is practically the same as it was yesterday with the exception of a slight fall at many places. Portland was the only place that rain fell to any extent during the past 24 hours. The rain fall here yesterday was .20, while at Lewiston the fall was too small to be traced. At all the other points along the system the weather was extremely clear and cold. The temperatures over the Upper Columbia and the Snake River basins this morning is just the same as they were yesterday, ranging from 34 to 44 degrees. It is expected that the temperature will start to rise Friday and continue to rise slowly Saturday and Sunday. The river has fallen 0.1 feet at Portland during the past 24 hours, and the entire Lower Columbia has fallen a trifle, but it will probably be nearly at a standstill for the remainder of the week. Snow is continuing to fall in the mountains on and off and they are in the same condition as they were six weeks ago after the annual snow fall. Mr. Beale predicts that the matter will become very interesting in about two weeks and states that while the outlook is not in the least alarming the situation is not what he would desire to have it. "The extreme cold spell has lasted longer than we expected," he said, "and as we all know the snow must be melted, so the longer this cold siege stays the more critical the outlook becomes. The heat of summer is drawing close at hand and the hot temperatures will naturally cause a quick thaw in place of a gradual one. Consequently the river will not be able to carry off the floods and then trouble will commence."

The gauge reads as follows: Portland, Ore., 12.6; The Dalles, Ore., 21.9; Umatilla, Ore., 13.9; Northport, Wash., 9.7; Wenatchee, Wash., 23.5; Riparia, Wash., 9.3; Lewiston, Idaho, 8.9; Weiser, Idaho, 7.4.

Geo. W. Elder Arrives.

The steamer Geo. W. Elder arrived this morning from San Francisco with a very large passenger list and tons of freight crowded from stem to stern. The Elder had a very pleasant voyage and met with extremely favorable weather. On her down trip she arrived ahead of time and probably eclipsed any trip she has ever made while on her present run.

M'DEVITT DEFAULTER

T. B. McDevitt, the well-known attorney-at-law, is missing from the city and no one apparently knows of his present whereabouts. The Journal obtained information from reliable sources today that the young man has been found to have embezzled more than $1,000 from the Portland Aerie of the Order of Eagles, of which fraternity he was for 18 months the secretary.

From the information at hand it seems that his defalcations extend over the entire period of his official career in the order. It is said that his peculations consisted of the taking of small sums of money given him by the treasurer of the local aerie. Instead of paying the bills of the aerie, as directed, he is said to have expended the money with which he was intrusted to his own private good. In this manner, it is said, the missing defaulter managed to "do up" the aerie to the tune of more than $1,000.

All the officials of the local aerie, when seen by a reporter for The Journal, refused to discuss the matter in any manner, saying only that it is a fact that the secretary is among the missing.

No one responded to the bell at the McDevitt residence when a reporter called today, neither was any one to be found in the law offices of T. B. McDevitt in the Hibernian Building.

It is not known what action will be taken relative to bringing the secretary to task for his defalcations.
