TRANSACTIONS IN THE WORLD OF FINANCE AND TRADE

FEED SCARCITY IS CONTINUED

Local Millers Still Unable to Fill Half of Their Orders—Large Call from San Francisco Dealers.

Hay is Very Short With the Oregon Stock Practically Out of the Market For the Current Season.

FEED CONTINUES STRONG. The feed market continues strong, with a spirited demand for all the product the local mills can turn out.

The local mills are taxed to their capacity to fill the orders now being received for the various mill feeds. Supplies are very scarce on account of the shortness of wheat and there is about double the amount of orders being received than can be turned out during the present season.

San Francisco Buys Feed.

San Francisco feed prices are so high that many of the dealers there are looking to this market in order to get supplies. Some shipments are being made to the Bay City on each steamer from this port but the local men are refusing many outside orders on account of their inability to supply even the local trade.

Prices Too High.

Feed prices are so high in the local markets that the movement and call is not exactly what it should be with the market in its present stiff condition. Dairymen find that quotations are much too high to use mill feed with profit and have cut it out as much as possible. The feeding of bran and shorts to cows makes some slight difference in the amount of milk produced, but the dairymen consider that this amount is not sufficient to warrant them in investing in mill feeds at present quotations.

Hay Very Short.

Perhaps the shortest article in the way of supplies in this city is hay. The Oregon stock has practically disappeared from the market for the balance of the season, and what stock is being used is imported from California and other Southern states. Quotations on hay are up to the highest possible notch consistent with keeping the market open at all. Quotations ranging today are: Timothy, $20; clover, $17 per ton.

Business Houses to Close.

Front street houses will observe Decoration Day. The wholesale grocers will remain closed all day, while the commission houses and dealers in perishable stock will remain open until noon. The various railroads have notified the street that no freight will be either delivered or received tomorrow.

Oregon Sweet Peas Arrive.

The first Oregon sweet peas of the season to arrive in the local markets were received on Front street this morning from The Dalles. The stock is quoted at 5 cents a pound.

More Hood River Berries.

Hood River strawberries are in larger receipt and during the coming week it is expected that the season will be in full swing. The usual car of Florin stock arrived late this morning but the condition of the berries was not as good as might be expected. The Oregon fruit's condition is excellent. Hood River stock is being quoted at $3 per crate of 24 boxes. California prices are unchanged.

Packed Meats Still Weaker.

The markets for both the local and Eastern brands of packed meats are considered weaker today, in consequence of the continued dropping of hog quotations throughout the country. Receipts of hogs are on the increase throughout the entire country and another slump in packed meats is expected by the leading packers. Lard prices are weak in sympathy with those on packed meats.

Japanese Rice Will Advance.

Japanese rice prices show an advance of a quarter cent in the San Francisco markets today, according to information received by one of the leading Portland grocers. The local markets are firmer and an advance is predicted within the next few days. Rice stocks throughout the country are smaller than for many previous years and with the large scarcity in the better grades of domestic stock and the prospects for a small crop during the coming year there is a likelihood of several advances in quotations.

Plenty of Bull Beef.

The bull beef market seems to be badly overcrowded all at once, the receipts yesterday and today being very large and the demand poor. Hogs are not arriving very freely on the street at present, but there is very little call from retailers for supplies. A few veal are in receipt but the top of the market will barely reach 7 1-2 cents. The condition of the stock is very little improved. Mutton arrivals are plentiful and the market is weak.

Today's quotations, as revised, are as follows:

CATTLE MARKET EASIER

PORTLAND UNION STOCK YARDS, May 29.—Today's receipts of livestock in the local yards consisted of but 100 hogs. A train load of cattle passed through the yards en route to a Seattle packing house. The cattle market is easing up with the more liberal receipts within the past few days and the poorer condition of late receipts. Hogs are still weaker and prices are expected to slump. Ruling prices are:

Cattle—Best, $5.50; medium, $5.

Hogs—Market weaker, 6c.

Sheep—Weak, 3c.

Lambs—Weak, 4c.

Professionals Free Sellers.

NEW YORK, May 29.—The wave of renewed liquidation and general selling which swept over the stock market yesterday seemed to come from various sources. London sold about 40,000 shares, and there was considerable selling from the West and Boston accounts, as well as by local operators. In addition to this pressure, the sentiment was bearish among the professional element, and the majority of the room traders were free sellers. Under the circumstances it was not surprising that prices suffered a further decline. The sentiment was depressed by the market's failure to show any concerted or strong support and by the general run of news during the day, nearly all of which was bearish. This news included dispatches of further labor troubles throughout the West, and that the Chicago freight handlers would probably strike before the close of the week. Foreign exchange advanced sharply, presaging more gold exports next week. London markets were very weak. The fear that tomorrow's bank statement will be unfavorable, and attention being directed to other financially weak industrials by the forced scaling down of the capital stock of the United States Shipbuilding Company, and the shipment of $650,000 gold to Canada, completed the day's news. It would seem that pretty much all the bad news has now come out and has been discounted.

Stocks Were Weak.

NEW YORK, May 29.—Dick Bros.' wire: Stocks were decidedly weak again today. There was heavy selling for both accounts, and all leading stocks declined easily. Before the close, however, a rally cut down the losses. There was more talk of further inside liquidation in Leather. The industrials were weaker than the railroads. Another reduction in pig iron caused some selling of steel stocks, but they rallied sharply. Sugar was rather aggressively sold. The indications were that the bank statement will not be unfavorable.

Market Was Nervous.

NEW YORK, May 29.—Yesterday the market was very nervous at the opening, and a great deal of liquidation, and there was heavy selling by some of the big houses, say Walker Bros. Rumors of labor troubles in the West helped to put the market down. In the afternoon the covering of the shorts braced the market up. The close was better and the feeling a little more hopeful. Money was easy.

SHEEP SHEARING WELL UNDER WAY

Mitchell Ranges Are a Scene of Activity—Owing to Scarcity of Shearers Work Was Delayed Some.

Indications Point to a Very Light Yield—War Between Stockmen and Sheep Men is On in Earnest.

(Journal Special Service.)

MITCHELL, Ore., May 29.—The heavy rain which fell during the week made the ranchers rejoice. It means for them a good range, good hay crop and better vegetation generally.

Sheep-shearing is under headway at all of the corrals adjoining here. Owing to the scarcity of shearers the work has been delayed, but that trouble now seems to be ended. The yield is a little light this season, but the texture of the wool is unusually good. With the present outlook for prices the woolgrowers have no cause for complaint.

Teams loaded with wool of this year's clip are passing through town daily for the railroad. The general report is, however, that the clip will be a little light this season.

Mutton Sheep Unknown.

Mutton sheep are an unknown quantity in this section of the country. The scarcity reigns throughout Eastern Oregon. Many of the meat buyers are compelled to go so far as Arizona to buy mutton sheep. So soon as the shearing is over, however, it is expected that the scarcity will end. A great number of sheared sheep are being purchased here as soon as the wool is clipped, but a sufficient number of the mutton sheep will be left which will soon fatten to supply the demand.

Range War Again.

The range war is the all-absorbing topic among sheep-men. Dire threats are being made at many points, but sheep-men will go to their accustomed summer ranges as usual among the mountains. No other alternative is left them. The grass is growing more scarce every year and they must seek ranges or go out of business. They are driven to the last straits, and while they are inclined to beg and buy their way, yet they will go just the same, and in the last extremity will not be driven back even by Winchesters. If a clash does come this year it will be an unfortunate one. It will be a battle in which both sides will fight to a finish.

This promises to be the climax of range troubles in this country. The law-makers will have to do something before another season rolls around.

FARMERS ARE SWINDLED

(Journal Special Service.)

PENDLETON, May 29.—The farmers of Umatilla County are being swindled by several enterprising men who represent themselves as being in the employ of one or another of the wholesale grocery firms of Portland.

The men represent to the farmers that they are agents of some firm in Portland, which is desirous of enlarging its Eastern Oregon trade, and by buying their groceries from them they can get their supplies at wholesale prices and save the retailer's profits.

Don't Sell at Retail.

As a matter of fact, there are but four bona fide wholesale grocery firms in Portland, namely, Lang & Co., Allen & Lewis, Mason, Ehrman & Co. and Wadhams & Co., and these firms absolutely refuse to sell to the retail trade under any consideration. The fact is that these men in the country take orders of the farmers and then buy of the wholesalers in wholesale lots and they make a good profit on their investment is shown by the following illustration.

A farmer's wife in the vicinity of Pendleton bought 50 pounds of Mountain Java coffee at 35 cents a pound, the men claiming that to be the wholesale price at Portland. Had the lady come to Pendleton she could have bought the same coffee in one pound lots for 25 cents a pound or in bulk at from 18 to 20 cents, thereby saving from $5 to $7.50. The people are warned to investigate before being swindled.

COTTON MARKET HANGS

(Journal Special Service.)

NEW YORK, May 29.—The local cotton market for the summer months still hangs far below a parity with the world's spot and future markets. Stocks are accumulating here and the efforts of the largest spot interests seem to be directed toward forcing a continuance of shipments to New York. How far this can proceed, with the New Orleans options ruling $6 per bale higher, it is difficult to understand. The certified stock is now a formidable quantity and is likely to reach one-half of the American visible supply at its present rate of increase. Exports are very light and the question is still an open one where foreign supplies are to come from for the next four months. The only answer is curtailment and sustained values abroad. The crop news of the day indicates very heavy rains in Arkansas and Texas. It appears that Oklahoma has been recently visited with areas of heavy storms, cloudbursts and overflows, with loss of life by floods and immense damage to bottom lands. With the advent of June changing weather conditions are quite probable, and it remains to be seen what effect will be had on the cotton plant in its present backward condition.

CAVALRY HORSES SCARCE

(Journal Special Service.)

PENDLETON, May 29.—First Lieutenant W. Calvert, of the Second Cavalry at Walla Walla, was in the city yesterday in search of government horses for the cavalry service. The Pendleton market had no horses at government rates. Lieutenant Calvert went on to Echo this morning, where a band is held under contract for the government at $117 per head.

It is almost impossible to get horses for the cavalry service at the present time, as the market is very scant; besides, those holding horses ask for them a price in advance of their worth to the government.

Stocks Recover.

NEW YORK, May 29.—Final prices in yesterday's stock market show some sharp recoveries from the lowest prices of the day, but the trading had a very feverish and uncertain tone. The market opened very weak and continued so until the last hour of business, when for no particular reason the shorts began to cover and a rally ensued. It did not appear, however, that there was any more reason in the way of news for the decline during the first four hours of business than there was for the rally in the last. The chief point of pressure in the market was Rock Island, but a number of other stocks were, however, severely depressed, some cases in point being Sugar, Union Pacific and Canadian Pacific. A few stocks were comparatively well supported, some cases in point being Pennsylvania, St. Paul and Missouri Pacific. A rather more cheerful sentiment was evident after the close, and it was pointed out that the market showed more actual rallying power than it had done for some time past.

WASHINGTON HOPS SHORT

(Journal Special Service.)

TACOMA, May 29. — Reports received here from the Yakima Valley are to the effect thta hop conditions there are bad. The season in Central Washington is said to be a month backward and hop growers in that section prophesy a crop shortage.

New York Gossip.

NEW YORK, May 29.—The market was ragged again yesterday, and was, on the whole, heavy. There was some rally at the close, mainly on shorts covering. There was renewed liquidation throughout the list, Rock Island leading. London is a free seller. The feeling is apprehensive that the continued decline will bring trouble. A good deal of liquidation seems forced. There is no improvement in the labor situation, and until there is we see but little use in buying stocks. The outlook for the bank statement is not very favorable, and further exports of gold are likely. Such a market is quite likely to get oversold and rallies may result from this.

St. Paul Earnings Increase.

NEW YORK, May 29.—Bache & Co. say: The short-lived rally from the severe break of Tuesday appeared to have spent its force at the close yesterday. London sent lower quotations today. The market declined with little activity. The liquidation which has been the controlling factor for two weeks again became the feature. Amalgamated Copper and Anaconda showed extreme weakness. St. Paul's net earnings for the month of April increased $105,000. Canadian Pacific, which has been well held during the recent decline, came in today for a bearish attack and sold off with the rest. The market closed dull and lifeless.

To Interest the Cattlemen.

In the next annual report of the National Livestock Association will be a writeup of Portland. The article will contain a great deal of matter that is of interest to stockmen. In the matter that is to be sent from this city will be an account of the coming Lewis and Clark Fair. The story will be illustrated with a number of pictures, and it is expected that it will be the means of causing many Middlewest cattle kings to visit the great 1905 exposition.

Anaconda Copper Broke.

BOSTON, May 29.—Prices were forced down again today and liquidation was renewed on a heavy scale. London copper quotations broke sharply again and Anaconda preferred led a further break in the coppers. In the afternoon the market had some appearance of being supported and the close was at a good recovery from the lowest prices.

New York Bank Statement.

NEW YORK, May 29.—Yesterday's bank statement was as follows:

Reserve increase, $422,175; all others than United States increase, $422,425; loans decrease, $487,200; specie decrease, $1,996,200; legals increase, $2,036,200; deposits increase, $1,529,300; circulation decrease, $30,700.

NOVELTY IN DOG SHOW

(Journal Special Service.)

NEW YORK, May 29.—The first summer dog show of the Ladies' Kennel Association of America opened today on the grounds of Mrs. James L. Kernothan, president of the association, at Hempstead, L. I. The exhibits are benched in large tents, and the show is in the nature of a large garden party.

The exhibits include scores of mastiffs, Great Danes, collies, pointers and bloodhounds, in addition to dogs of smaller variety, and in number and class of entries the exhibition compares favorably with many of the metropolitan shows of its kind.

EXPECTS A FLOOD

(Journal Special Service.)

THE DALLES, May 28.—The Columbia River registers here today 29 feet 1 inch, which is the lowest record at this time. Much alarm is expressed that during June there will be an exceptional amount of water to be carried off, thereby causing a flood, and necessary precautions are being taken if such proves the case.

SALMON CATCH IS UNUSUALLY LIGHT

Columbia River Canneries Are Open to Poor Business—Shad Plentiful.

Railroad men are far from elated over the prospects of fish shipments this season. Several local agents have made trips to Astoria and from there to the many canneries situated along the river. Almost without exception they report that the outlook is not roseate.

Chinook salmon, the finest variety of Columbia river fish, are more sought after than any other fish found in Western waters, are scarcer than for many years. Such as are caught are large and especially good for cold storage shipment to the East.

H. S. Rowe, general agent of the Milwaukee road, returned last night from Astoria, after several days spent among the canneries. He reports that, while all are running, the rush of work due at this season has not materialized. Inferior grades of salmon are being extensively caught on the lower river fishing banks. A careful estimate states that the catch so far this year is 50 per cent less than at the same date last year.

There are seventeen canneries along the river, five of which are in Astoria. A poor catch and prospects of a poor season ahead mean much to these industries.

Mr. Sweek, in charge of the fisheries department of the O. R. & N. will leave the first of the week for a several days' trip to the canneries and cold storage plants along the river.

It is reported that shad are being caught in abundance and that a cannery has just started on a small scale to can this kind of fish in lieu of salmon.

DYNAMITE IN THE HANDS OF THE TURK

Situation in Macedonia Grows Very Serious—Destruction Threatened.

(Journal Special Service.)

WASHINGTON, D. C., May 29.—Reports from Constantinople received here today concerning the Macedonian situation and the threatened dynamiting of buildings in that district state that the situation is considered very serious. The report further says:

It is quite possible that numerous attempts to blow up buildings may be made which may not be entirely confined to the Macedonian district, but the Turkish government seems thoroughly alive to the situation. Owing to anxiety expressed by embassies one sees extra patrols throughout the city and considerable uneasiness prevails everywhere. The Ottoman government has already massed more than 15,000 troops in the disturbed district which will prove quite a strain on the already depleted treasury.

All the healing, balsamic virtues of the Norway pine are concentrated in Dr. Wood's Norway Pine Syrup, nature's own remedy for coughs and colds.
