

### COPPER DEAL IN BAKER COUNTY

Iron Dike Mine Purchased by Portland and New York Capitalists, Who Plan Extensive Improvements.

Townsite Has Been Laid Out, Machinery Being Hauled and Construction Work Is to Commence by June 15.

(Journal Special Service.) BAKER CITY, June 11.—One of the largest mining deals recorded here for some time has just been closed. The Ladd Metals Company, a \$500,000 corporation, headed by C. E. Ladd of Portland and W. H. Adams of New York, has purchased the Iron Dike copper mine in Baker County, across the Snake River from Seven Devils.

### COMMERCIAL CLUB IMPROVING ROOMS

Workmen are now busy making several improvements in the rooms of the Commercial Club, which are situated on the top floor of the Chamber of Commerce Building.

What is said to be the greatest improvement is the bridge that is being built across the court from the billiard-room to the rear part of the grill. This will enable the members who love to drive the ivory balls to quit their games and go direct to lunch or dinner without passing through the main parlors and hall, as they are compelled to do at present.

President H. M. Calk of the club stated this morning that as soon as the bridge is finished the billiard-room would be refitted throughout with new tables and furniture. Windows will also be put in on the north side of the rooms, thus giving additional air and light.

President Calk also said that arrangements are being made to entertain the members of the Georgia Press Association, who are on their way to the Pacific Coast on a jaunting tour.

The Southern editors will be shown the many beauties of this city, and are to be most royally entertained by the members of the Commercial Club.

### BOY LOST LIFE IN SANDHILL CAVE-IN

(Journal Special Service.) SAN FRANCISCO, June 11.—Mark Cohen, Jr., the little son of Mark Cohen of Portland, who recently came here, was this morning suffocated by a cave-in while at play.

With several young companions, the lad dug a cave in a sand hill back of Atherton, where the Cohen family resides. The sand walls fell, burying the boy, and before he could be extricated he was dead.

Mr. and Mrs. Cohen were away at the time. The mother is prostrated and is under the care of a physician. Mr. Cohen represents Ferdinand Hirsch & Co.

### TO DISCUSS HOTELS

The Ways and Means Committee of the Lewis and Clark Board of Directors will meet this afternoon at 4 o'clock. It is thought that the chief question to be discussed at the meeting will be the means by which more hotel accommodations may be secured in this city.

Chairman William D. Fenton of the committee stated that a list of all Portland people who would rent first-class rooms in private houses to tourists will be secured, as well as the rates they would charge the travelers. In this way the members of the committee hope to be able to know about how many folk can be taken care of in a first-class manner.

Plans for taking some steps toward the erection of a new hotel in this city, or the building of a large annex to one or two of those now here, will be talked over. I think, said Mr. Fenton this afternoon, "that an annex to either the Portland or the Imperial, containing from 100 to 300 rooms, would prove a very good investment."

## UNIONS CENTERING STRIKE OPERATIONS

Are Endeavoring to Win Out in the Laundry Workers' Prolonged Struggle

The united strength of the labor unions in their industrial fight which is now being waged in Portland is being brought to bear upon the strike of the laundry operators. All possible means at the command of the organized forces is centered today on that phase of the union difficulty. Both the Pressmen's Union and the Typographical Union have followed suit with the others and are today a solid unit with the rest of the city's organized labor in assisting the laundry workers.

The pressmen and the "types" have arranged to levy assessments to afford such financial assistance as they are able to the strikers, and have also pledged to fine any member caught patronizing a non-union laundry. This boycott is to be a strict one, too, and the union leaders expect to attain a victory in a short while.

The pressmen met on Tuesday night and the strike question was the most interesting measure for debate. After deciding to levy the fine upon members found guilty of patronizing a scab shop, in the explanation which followed, it was stated that "if members of the union found it necessary to patronize a laundry to go to a Chinaman's place before entering any trade to the unfair places. If it is necessary to patronize a Chinaman," continued the speaker, "give a yellow-skinned one the preference."

Several of the striking unions held their regular meetings last night and the situation of the labor difficulties was the only matter of interest to be brought up. The electrical workers transacted nothing in the way of settling their difficulties. The carpenters and joiners as a class, however, took no further steps towards ending their strike. The woodworkers accomplished a list of routine business. Tonight there will be sessions of several other of the striking organizations, but so far as known nothing of great import is scheduled to come up. The general situation in every union is progressing as favorably as could be desired. The only unions today with many unemployed are the laundry workers and the painters. If good weather keeps up it is likely that nearly all of the painters will be at work soon. All of the other unions have practically accomplished what they went out for in the first place. The bosses, while making no formal concessions to the unions, have really agreed to the conditions in an off-hand way. There is enough work in the city to keep practically all of the men in these trade organizations busy. Some of the union leaders expect to see a settlement of the industrial fight

## MACHINE STRIVES HARD TO CONTROL

Matthews Combination Has Failed in Effort to Boss Port Board Thus Far.

Failing to effect a combination that would win, it is believed the Jack Matthews' political machine, which is striving to gain complete control of the Port of Portland Commission, did not choose to show its full strength at yesterday's session of the new board when balloting for president was continued, and it is not known whether there will be tangible developments when the meeting is called at 4 o'clock this afternoon.

The deadlock for the presidency remained unbroken yesterday. Willis still receiving two votes, Thomas getting the same number and the others being scattered. It is admitted the Matthews faction can control three, but indications today are that the opposition is badly at outs with but small hope of getting together.

## SAN FRANCISCO HAS A TREMBLER

SAN FRANCISCO, June 11.—At ten minutes past 5 o'clock this morning every bedroom window in this city became a frame to a figure in white, with terror-stricken and blanched faces. An earthquake of unusual severity lasting five seconds occurred at that hour. This is the first shock of any consequence in five years and was not so severe a shock as the one in 1898. It was different in movement than the one mentioned and more, of a sensation of the earth settling.

Fixtures in several large stores were wrecked and many chimney tops were toppled off, but no further damage was done.

## FOR PURE FOOD

Dr. Woods Hutchinson of the State Board of Health today announced that the Portland County had agreed to pass the Mulkey Pure-Food ordinance, and that the butchers and meat packers would not oppose it, having become convinced that only in this way could the present agitation become hushed.

Many butchers report great shortage in the sale of pork as a result of recent newspaper articles concerning its impurity.

## DIRECTORS SMILE AT THE ATTEMPT

Effort Bore Finger Marks of Lucas, and Received the —Merry Ha Ha.

The report in circulation for several days to the effect that Lucas and several of his confederates had made an offer to the directors of the Portland Baseball Club for the purchase of the Brown's franchise, with the idea of killing it, so that the Nationals might live, is no more than was expected from that source. The directors of the Browns are thoroughly satisfied with their baseball property, and would not sell under any circumstances. They treat the stories of Lucas and his crowd with a degree of levity, and state that they are interested in the Browns for better baseball, and have the people of the Pacific Coast with them in their endeavor. The Brown franchise is not for sale, and the presence of Milton L. Schmitt in this city is of no more than passing interest. If he came with the idea that he could buy the Browns, then he had better pass up and return to the glorious land of sunshine, where flowers bloom the year around, and where the Coast League is outdaring the Pacific Nationals 8 to 1.

## DIAMOND GLISTENINGS

Who played hide and seek? Georgia Engle pitched star ball yesterday. Who said Engle couldn't pitch? Phil Nadeau got four swats, one of them a triple, out of four times up. Tommy Hess is playing an ideal first base. Tommy is a good man any place. Andy Anderson is astonishing his many friends by his great playing. The hammers which were welded recently about Andy are noticeably non est. The Browns have annexed confidence to their other attributes, and from now on will make the Coast-League race a hot one. Ike Butler will do the pitching stunt today. There are few better pitchers in the country than Butler, when he is in shape.

## WILLAMETTE WON

SALEM, June 11.—The Willamette University Baseball team yesterday afternoon defeated the Asylum team by a score of 5 to 3. Jorman pitched for Willamette, with Unruh as catcher, while Lucas and King formed the battery for the Asylum nine.
