LOCAL LARD IS DOWN HALF CENT

Union Meat Company Announced Decline in Quotations to Take Effect at Once -Ham Prices Are Weaker.

James Winstanley, Secretary of Oregon Hopgrowers' Association, Says Crop Will be Three Eighths Short.

DECLINE IN LABO. A decline of 14-cent was made in local lard quotations this morn-

The Union Meat Company announces decline of %-cent in its quotations on both kettle leaf and steam-rendered lard, the new list to take effect at once. The cause of the decline is due solely to a weaker hog market. Eastern lard quotations are as yet unchanged, but it is said on good authority that the cut made by the local people is also being made by their local representatives. The new quotations are as follows: Kettle Leaf, 5's, 121/4c; 10's, 121/4c; 50's, 11%c. Steam Rendered, 5's, 11%c; 10's, 11%c; 50's, 11c. Compound lard remains the same, with quotations at 8c for tierces and \$ %c for tubes,

Hams Also Weak.

Local packed meats are also in a weak condition, consequent with the several late reductions in the quotations on hogs. Hams especially are weaker and lower quotations are anticipated soon.

Wool Market is Dull.

The entire wool market of the state is duller and many sales scheduled for the past week in the valley have been called off. A bid made for 75,000 pounds at The Dalles at 16 cents by a local firm was refused, and it is now quite likely that if any sales are made in the near future they will be in small lots.

In Eastern Oregon present quotations are far from satisfactory as far as the growers are concerned, and no late sales have been reported. Usual quotations prevail on both the valley and the East-ern Oregon grades.

Winstanley on Hops.

James Winstanley, secretary of the Oregon Hopgrowers' Association, was in the city today, and said of the hop

"I have been throughout the valley and in some places many yards have been deserted altogether on account of the crop's poor condition. I figure from reliable data that this year's crop will not be more than five-eighths of what it is under normal conditions, making this car's grop in the neighborhood of about 60,000 bales.

The Country's Hop Yield.

"I estimate that the entire hop crop \$1. of the United States during the present season will not amount to over 185,000 bales, and perhaps less. Under normal conditions the country uses about 210,000 bales a year, and this extra amount will

bales a year, and this extra amount will have to be purchased somewhere."

Growers Will Mold.

"The hop pool of Oregon and Washington is getting stronger each day, and all its members are determined not to gell their stocks under a 25-cent market, and some of them will hold for even a higher figure. There are now in this state about 6.500 bales of last year's crop, and of this amount there are practically none in the hands of the dealers. If the brewers now want to make any purchases they will have to come to us, ns we are in entire control of the situation."

Meats and Provisions,

Mew York's Small Grop.

From present indications the crop in the State of New York will be very small, and from the latest information obtainable hop men figure that the yield will hot go over 35,000 bales. That state had a long siege of warm weather with no rain, and many of the yards were entirely ruined. The rains that came later were not sufficient to do the crop any material amount of good.

Wheat Offers from India Indicate Growers Are Satisfied

CHICAGO, June 20 .- The Record-Herald says:

The Scaboard corp man continues to bemoan to his Chicago broker, the "July manipulation" at Chicago. There is no July manipulation in the corn at Chicago and the feature of the market for a week has been the selling of July and the buying of September corn. Receipts are increasing, while the elevator people continue to talk small country offerings.

The bids sent out by the warehousemen of late have been relatively low ones and evidently the countrymen have preferred to consign to the commission man rather than accept track

advisa: The wheat market here was quiet and at the close was rather strong. item of the day was the estimate of Commercial West on the crop. figure was a total of 740,000,000 bushels. From the character of the report we get of the spring feturns so far as has progressed in the winter wheat country we think that the estimate is a good many million bushels too high. northwest is still without rain, but any damage from that is modified by the cool weather. Rain is, however, much needed and if delayed it will become a bullish factor. With present conditions of the crop and supply and demand, the prospective wants to be satisfied from the growing crop

Corn Fairly Steady.

The corn market was fairly steady without material change. There are no indications of supply or of diminished ter than last year's. The straw is short, demand and these are the influences that but carries the grain. Last year there underlay and control the corn market at Temperatures throughout a good share of the crop fell over in the the West are low, and the crop under such conditions is making poor headway

Better Oat Weather. The weather is better for the oat crop than it is for corn, and that crop is is satisfied. I am convinced there is a demand exceeds supply for cash oats, however, and this keeps the general market strong.

Provisions Easier and Dull.

The provision market is a little easier ceipts of hogs next week are, however expected and there is nothing about the cash demand to stimulate speculative confidence. Only fears of manipulation by the strong packing interests make the future of the provision market dull.

HIS DEMAND FOR PENSION

Barnstorming Thesplans who occa casionally have to dodge substantial expressions of displeasure of audiences will sympathize with the claim of veteran which has just reached the Pension Bureau. It is a story of domestic infelicity and opens up a field of vengeance for those who keep in touch with poultry products. The claim is made in a letter that indicates a lack The claim is of familiarity with the three R's, and it contains this brief, succinct proposition from the battle-scarred servitor of his country:

"I got blood poison by being hitt with a hens eg wen I cam bak from the frunt. The eg was not good wen you send my penshun I want the Deed made sos my wife can't get none of it-she throde the eg. She war a rebel.'

SUCH AN EASY WAY.

"How is your fund for that new car pet for the church getting along?" "Splendidly. We still lacked \$75, you know, before we gave that entertainment. . We worked like Trojans on that for two weeks. You remember it rained the night we gave it, and the attendance was rather small, but we had to the people's houses to insure us against loss, and we made \$24.75 out of it. Then we got up that bazaar for Dunning, aged 29 years, oldest son of Mr. and Mrs. George D. Dunning. Mr. and Mrs. George D. Dunning. sold enough tickets by going around \$34.65 out of that. All we have to do now to complete the fund is to raise \$15.60, and we are going to give a concert to get that. Some of us musical friends that will be glad to bely us out by giving their time one even ing for nothing. We'll raise that \$75 just as we said we would, without call ing on anybody for a cent."
