GROWTH OF PORTLAND

Mayor of New Haven, Conn., is Pleased With Enterprise Here Displayed.

"I was here 17 years ago, and I can scarcely believe that I am in the same place," was the declaration of Albert C. Hendrick, former Mayor of New Haven, Conn., as he stared about him in amazement yesterday.

"Portland has grown wonderfully since I was last here," he continued. Your larger buildings are a marvel. The city of which I am Mayor is about the same size as Portland, but there we witness no such marvelous growth as is demonstrated here. I believe that Portland has a great future, for this Western country is rapidly growing up with the energetic blood of the East. It is truly wonderful."

Mr. Hendrick is an old fireman, hav-ing been chief of the New Haven department for 26 years, and since his retirement from that office he has been Mayor. Accompanied by C. F. Marvin, a member of the Admiral Foote Post, No. 17, G. A. R., New Haven, Mr. Hendrick is on his way to San Francisco to attend the annual encampment of the old soldiers. LOVE AND THE LAW

Many funny things occur in police circles, especially when a city is in the throes of an epidemic of crime.

Since the outbreak of hold-ups of re cent date the police have had a thousand worthless clues offered and hundreds of timid persons have been "seeing suspicious characters." More than one unsuspecting edition has been stopped and questioned regarding his

business when out after dark.

A humorous incident occurred a night or two ago. It had been reported that persons of suspicious appearance were in the habit of gathering in the neighborhood of Nineteenth and Flanders streets. The officer on the beat was in-

structed to investigate.

The policeman hid himself and during the evening a loving couple ap-peared. In tender terms they spoke to each other as they sat on the green sward of a vacant lot. The patrolman, upon questioning them, found that the girl was the servant of a prominent family in the neighborhood, while her companion was her 'best young man.' Report to this effect was made to police headquarters, and the matter was

MAD RUSH FOR BARGAINS Water Damage Sale at Shanahan' Brings Hundreds and Hundreds

of Bargain Seekers. It appears that almost every man woman and child reader of The Journal attended the Shanahan water damage sale this morning. The doors opened at 8 o'clock but long before that hour the people began to congregate. When the oors were opened there was a mad rush and in a few moments every available inch of space was occupied by an anx-

lous buyer. There were enough people left on the outside when the doors were closed to fill the store several times. All the rush and anxiety to buy goods came about by judicious advertising. In yesterday's Journal Mr. Shanahan made known to the people of Portland that he would place on sale thousands of dellars worth of goods which had been more or less damaged by water by the

bursting of a water main. Some of the goods were for the fall trade and some surplus stocks staples. All the goods are marked at exceedingly low prices and the thrifty housewife was quick to see in The Journal advertisement that she could save much money. This was the cause

"Are you ready?" he shouted to the bicyclist above him. For an answer Diavalo sat upright on his wheel, extending both his arms at a right-angle with his body.

The silence was impressive. Not a sound was heard. All eyes were riveted on Diavalo's figure clad in red tights. Imitation of horns protruded from his headgear. He looked the part he was about to play—a perfect daredevil.
