OPPOSITION TO REGULATOR LINE

Steamer Charles W. Spencer Will Be Placed in Commission Between Portland and The Dalles Tuesday.

Merchants at The Dalles Are Heavily Interested in New Company and Promised It All Their Business.

A new steamboat line between Portland and The Dalles will begin operations next Tuesday. The company which recently organized, is managed by Capt. E. W. Spencer. For the present only one steamer, the Charles R. Spencer, will be operated, but if business conditions warrant it another boat will later be added to the line. It will enter into direct competition with the Regulator Company, now operating the only regular trip boats on the upper river.

The new line is owned by a stock company in which merchants of The Dalles are heavily interested. This information was given this morning by General Manager Spencer, who further said:

"For some time past The Dalles business men have been wanting a fleet of steamers to run in opposition to the Regulator Line, with which service they are dissatisfied. They are also opposed to that company because it built a railroad from Lyle to Goldendale, Wash., which will be the means of taking a great deal of trade away from The Dalles that formerly went there exclusively."

"Whether they have been or not, they feel that they have been imposed upon and they concluded to discontinue patronizing the Regulator Line. The service was also complained against after due consideration a new company was formed and The Dalles people subscribed liberally to stock. Nearly every merchant up there agreed to give all his patronage to the new line, so far as practicable."

"If the steamer Spencer cannot handle the business another boat will be secured just as quickly as possible. We may purchase another steamer, but so far as I am personally concerned I would rather build one."

"No Out in Rates." "Will freight and passenger rates be cut?" was asked. "No; not so far as we are concerned. We have a promise of the business anyhow, and it will not be necessary for us to begin to bid for patronage by slashing rates."

"However," Mr. Spencer added, after a moment's reflection, "if the opposition introduces a play of that kind, I guess we can meet it half way."

It was the intention for the Spencer to go out on her first trip Saturday, but the extensive alterations being made in her upper deck will not be completed by that time. The steamer was formerly used as a towboat, but during the past few weeks she has undergone a great transformation. When the work now being done is completed she will be one of the handsomest passenger boats that runs on the river. The Spencer will have a capacity for carrying 500 people, but her papers will probably call for about half that number. There is a dining room 25 by 14 feet,

a ladies' cabin 28 by 20 feet which is fitted up with all modern conveniences, and a forward cabin 45 by 20 feet. The engines have been thoroughly overhauled and new appliances added.

The Spencer will be run only during the day time. She will leave Portland every Tuesday, Thursday and Saturday morning at 7 o'clock, reaching The Dalles in the afternoon. Returning she will leave The Dalles every Monday, Wednesday and Friday morning at 7 o'clock for Portland.

Lightening Her Cargo. The German bark Nanarcho began lightening her cargo at Astoria yesterday preparatory to coming up the river to Portland. She is drawing 22 1/2 feet of water and it is estimated that about 800 tons will have to be removed to a barge before it will be safe for her to venture up stream. If all goes well it is expected she will arrive here about Saturday. The Nanarcho is bringing a general cargo from Hamburg consigned to Meyer, Wilson & Co.

Despatch Arrives. The steamer Despatch arrived yesterday morning from San Francisco with a cargo of sugar and cement. She intended to stop at Shelter Cove and take on a consignment of tanbark for Webber Bros. of Fulton, but on account of a strong gale which was raging when that point was passed a landing was not attempted.

Captain Levinson is in command of the vessel, having resumed his old position during her stay at San Francisco. For the past four months he has been traveling in Europe.

Marine Notes. Captain F. J. Smith, until recently agent at the Oak street dock, returned yesterday from a month's outing at Castle Rock and in the Cascades Mountains. He is now preparing to go on a camping expedition up the Willamette River.

The Harvest Queen brought the schooner Endeavor up from the mouth of the river Tuesday and yesterday left down with the Virginia and David Evans in tow. The latter schooners are bound for San Francisco with lumber. The Endeavor will take on a cargo of lumber at the North Pacific mill.

F. C. Houghton, revising clerk at the Alingworth dock, has gone to San Francisco to spend a 10 days' vacation.

Fritz' Case Goes Over. City Attorney McNary filed an answer in the State Circuit Court this morning to the petition of John G. Fritz for a writ of review of the action of the City Council in cancelling his liquor license. The demurrer alleges that the petition does not state facts sufficient for a cause of relief, and also that the State Court has no jurisdiction over the City Council and therefore has no right to review its acts. Arguments on the demurrer will be made Monday.

The petition of Fritz is the result of withdrawal by the Council of the license of the Favorite Saloon, at Fourth and Davis streets, which was made famous in police annals during its management by "Bob" Patterson.

RANCHER IS INJURED. John Ball, a ranchman from Lewiston, Ida., sustained painful wounds this morning by falling down a flight of stairs near Washington and Fourth streets. The stranger was at the top of the stairway when he experienced a dizzy spell. He fell headlong to the bottom and, bleeding from his wounds, was taken to the Police Station. He soon recovered his senses and was given medical treatment. There were two large gashes in his head which required several stitches. Ball informed the police that he had ample means to care for himself and went his way after getting his bearings.

FACIAL DISFIGUREMENTS!

of every description, as small-pox pittings, Wrinkles, caused by decay of muscles of the face, flabbiness of the skin, birthmarks, freckles, blackheads, drooping eyelids, eruptions, falling hair, superfluous hair, eczema—any and everything that blemishes the countenance—successfully treated

TWENTY-FIVE DIE IN FERRY ACCIDENT

Boat Became Unmanageable and Overset in Neiper River This Morning.

(Journal Special Service.) KIEFF, Aug. 13.—Twenty-five persons met death in the River Neiper through the oversetting of a ferryboat this morning. The boat became disabled and was carried down the river and into the rapids. It was impossible to govern the action of the craft and the passengers became panic-stricken. In the rough water the vessel capsized and fully 25 are known to have been drowned.

INJURED BY PLAYMATE

Robert Livingston, the young son of President Livingston of the Chamber of Commerce, had his left eye injured, being struck yesterday by a ball from an airgun fired by one of his companions. Dr. Nunn is attending the injured lad. Today the injury was said to be quite serious and may possibly result in the loss of the sight in the eye.

Canada's Park. The Canadian Pacific has placed on sale round trip tickets to Banff for \$25. This famous resort, located in the very heart of the Rockies and only 38 hours ride from Portland. For descriptive matter and full particulars, call on or address F. R. Johnson, 142 Third street, F. & P. A., Portland, Or.

WOMAN USED TOO MUCH CITY WATER

Consequence Is that Shooting Scrape Occurred Between Husband and Marshal.

(Journal Special Service.) CONDON, Or., Aug. 13.—A family quarrel over water led to a shooting scrape here yesterday. There is a great scarcity of water at this place and yesterday Mrs. Frank Palmer, the wife of a saloonkeeper, took more than her allowance with which to sprinkle a lawn. Marshal R. E. Armstrong, whose duty it is to see that the water from the pumping plant is equally divided between the citizens, admonished the woman, and she in turn grew very indignant and told her husband, who used strong language toward Armstrong. Words followed and finally Palmer drew his revolver and fired two shots at the Marshal without effect. Armstrong chased the man to his saloon and attempted to arrest him, when the belligerent saloon man fired two shots more at the officer, one bullet taking effect in his knee. Palmer was arrested and placed under \$200 bail for appearance today. The bullet is still in Marshal Armstrong's knee, but it is believed that it will not be permanently injured.

Low excursion rates to all points East will again be placed in effect by the Northern Pacific on August 18, 19, 20 and 21. Full particulars in person or by letter can be had by calling on or addressing A. D. Charlton, Assistant General Passenger Agent, 255 Morrison street, Portland, Or.
