BIG COAST FLEET **SWAMPS THE MILLS**

STEAMER ABERDERN COMPELLED TO GO TO SEATTLE TO SECURE LUMBER CARGO, NOT BEING ABLE GO GHT IT MERE UNDER ANY

Owners of Francis Leggett Cut Freight Rates to \$3.50 Per Thousand Feet of Lumber-During Past Week or So Many Coasters Have Mushed Here Without Making Contracts for Car-

Lumber schooners have come in so rapidly during the past week or so that the sawmills have become swamped and are unable to provide them with cargoes. As a consequence the steamer Aberdeen sailed this morning for Seattle to secure a lumber cargo up there.

The steamer Francis Leggett was compelled to go out with a light load, despite the fact that her owners offered to take a full cargo at \$3.50 per 1,000 feet. All along the regular rates have been \$5. Steamship companies are viewing the situation with considerable slarm, fearing that the present rates cannot be maintained if there is not a change in the situation soon. steam schooner Signal and two other carriers at Vancouver are unable to get cargoes at any price. Despite this fact, wever, new coasters are arriving from

the south almost every day.

The principal reason the mills are unable to supply the coast trade is because they are running almost to their full capacity to fill the Oriental orders Some of the foreign ships have already been in port longer than their owners intended them to be, and the lay days allowed will soon expire. If they are not loaded soon the mills will be obliged to pay heavy demurrage charges and to avoid this probability no particular ef-fort is being made to look after the interests of the coasters by the mill The big steamship Wyneric will arrive in a day or two from Nome to load government lumber for Manila She will take out, 2,600,000 feet, and will have to be loaded at once. This will only make it that much more difficult to furnish cargoes for the coast fleet, May Off Rates.

Since the freight rates were advanced on the Southern Pacific, all who were familiar with the subject prophesied that many more lumber-cargoes would be placed in commission between Portland and the southern coast points, but they little realized that the fleet would soon reach such gigantic propor-

Heretofore when owners sent their vessels to this port they invariably had cargoes engaged ahead for them, but re-cently they have not taken this precaubelieving that plenty of business would be available just so soon as their carriers could arrive. But it is now demonstrated that they calculated wrongly, and before all the schooners now in port are fixed for outward car-goes the indications are that there will be some big cuts made in the freight rates unless some of them return empty.

The captains of the schooners Cole-man and Zampa, now loading at Vanowners of the sawmill at that place. In order to get them to load there they state that the millowners made them a into the hands of a receiver and the latter refuses to carry out the terms of entered into with the mariners by his predecessors. They have decided to pay their own towage, but threaten to bring suit to recover Frenchmen Lead.

Of the 32 foreign vessels en route and listed for Portland half of them fly the French flag, nine the British, four the German, two the Italian and one the Austrian. They have a total tonnage of 56,252. The total tonnage in port is 11,263, which is represented by the following vessels: British ship Arden-German bark Nauarchos, French bark Grande Duchess Olga, British ship Red Rock, French bark Emilie Galline

Surely the experience of friends and neighbors cheerfully given by them will carry more weight; than the utterances of strangers residing. A. L. Maney, gripman on the Portland Heights cable line, residing at \$54 Elm street, says: "Doan's Kidney Fills disposed of an acute eattack of backache in a very short time. Last fall I was operating on one of the electric lines and it was then that I first felt the symptoms of kidney complaint. At first I thought it was caused by the constant jarring of the car, and perhaps it was, but I know that one box of Doan's Kidney Pills effectually cured me-of my backache in a most radical manner. My advice to all who suffer from backache or kidney trouble is to procure Doan's Kidney Pills from the Laue-Davis Drug Co.'s stope, corner of Yamhill and Third streets, and give them a fair trial."

Prostration-Completely Worn Out.

Dr. Miles' Nervine Cured Me.

Dr. Miles' Nervine will cure nervous prostration. It will bring sweet sleep and rest; it will relieve the mind of the tendency to worry; it will make the nerves strong and the patient well. It has cured thousands, R will cure you. Try it to-day.

"Some years ago I was stricken with nerv ous prostration caused by overwork and worry. I was in such a weakened, exhausted, run down condition that I was unable to do my housework. I felt too weak and tired to even make calls on my neighbors. Tre-quently when out driving I would become so exhausted that it seemed that I would die before I reached home. I was also troubled with sinking spells at night which left me so weak that I thought I could not live until weak that I thought I could not live until morning. I was in this deplorable condition when one day Dr. Miles' Nervine was brought to my notice. I had little faith in proprietary remedies but determined to give the Nervine a trial. After the second dose of the Restorative Nervine I was able to sit at the table and eat a meal, something I had been unable to do for many days. I have since taken a number of bottles of Nervine. I consider myself cured. I am doing my own work and give Dr. Miles' Nervine credit for my general good health. My object in writing this is to recommend your medicine but I cannot write as strongly as I feel."—MISS ADDIE B. VARBLE, 405 E. Marion St., Guthrie, Oklahoma. Guthrie, Oklahoma.
