

NEWS OF THE NORTHWEST

OREGON CITY

NOTICE.—Oregon City subscribers will please take notice that the office of The Journal has been established at the Corcoran office, Seventh street, next to depot, where subscriptions, complaints, payments, etc., will be received and attended to by J. H. Westover, The Journal Oregon City agent.

CALLS WIFE UNTRUE AND ASKS DIVORCE

(Journal Special Service.) Oregon City, Oct. 21.—Henry Snawson brought suit for divorce yesterday from his wife, Annie Snawson. The complaint alleges that the wife has been unfaithful to her marital vow for the past three years. He says that she has repeatedly been untrue. He states that they have resided in the city of Portland for a number of years. Recently, he says, she has been in Dawson City, N. M., for three years, and that a decree of divorce has been granted. The parties were married in Portland in 1890.

New Stock Company.

Initiatory steps are being taken for the organization of a stock company to float some of the mines in the Ogle creek country. Just how much of the capital stock of the corporation will be the promoters as yet unable to state, as the details have not been arranged. It is probable that in a few days, however, that the company will be organized and enough of the stock placed on the market, which, when sold, will place the owners in a position to push the work ahead with a vim. An inspector who was in the country for some of the claim owners last week delivered his report yesterday. While they would give nothing out for publication, they professed to be well pleased with the expert's opinion.

Death of E. W. Fouts.

Word was received here last night announcing the death of T. W. Fouts at the state asylum at Salem. The deceased was subject to epileptic fits and was adjudged insane and sent to the asylum for treatment some months ago. He owned considerable property in his place and his family lives here. His remains will be brought home for burial.

Oregon City Notes.

The Women's Lewis and Clark club of Oregon City entertained last evening at the Armory hall for the benefit of the Sacajawea Monument fund. Dancing was indulged in and refreshments were served. A feature of the entertainment was a war dance by members of the local tribe, I. O. R. M. A dancing club consisting under the euphonious name of "O. K." has been organized in this city and will give their first dance of the season at the Willamette hall, Saturday evening.

Henry Garde, with his wife, four children and a cousin, left Tuesday for the Warm Springs reservation lands.

They went by steamer to The Dalles, and from there went by wagon, taking with them a team and cow. Yesterday E. C. Green left for his mineral property in the Blue river country. He had been preceded by two days by H. B. Nichols and Charles Muran. They report the prospects good for mining in the Blue river district, and will remain two weeks prospecting in those mountains.

E. S. McFarland, Jack Douthitt and "Red" Williams have returned from a week's hunting expedition in the eastern part of Marion county. They report the killing of a considerable number of Chinese pheasants and other game.

ANOTHER NICK STRIKE.

(Journal Special Service.) Ontario, Or., Oct. 21.—The report has reached this city of the discovery of a very rich quartz mine on the boundary line between Malheur and Baker counties at the head of Camp creek, seven miles northwest of Ironside and three miles west of Bull Run mountain. The mine was discovered by Charles Graham, a mining expert from Cripple Creek, Colo. The quartz is said to assay well from the surface, and at a depth of 30 feet the ore assayed \$160 gold and \$20 silver. The new find has created considerable excitement here and several parties have left for the new gold camp. It is said that quite a mining camp has already sprung up.

New Gas Plant.

The city council of Ontario has granted a 10-year franchise to E. H. Teet for the privilege of putting in a gas plant to furnish natural or artificial gas for lighting the city, also for heating and lighting residence and business houses within the corporate limits. The ordinance specifies that work shall commence on the plant within three months and the same shall be completed within six months.

Inspecting Hatcheries.

State Fish Commissioner H. G. Van Dusen, Hon. F. I. Dunbar, secretary of state, Hon. Charles S. Moore, state treasurer, Samuel Elmore of Astoria, F. A. Seufert of The Dalles, Mr. Ferrall and Mr. Warren of Portland, the four named gentlemen being prominent salmon cannery owners, were inspecting the Ontario fish hatchery this week. The hatchery is now in full operation. All are well pleased with the hatchery and pronounce it a great success.

Successful Operation.

R. L. Griffin and wife returned yesterday from Walla Walla, where the former recently underwent a successful operation for appendicitis. W. E. Pope, who also underwent the same operation for appendicitis at the same hospital, accompanied by his wife, returned home Sunday.

W. N. Shilling returned Saturday from a visit to his family at Washington, D. C.

GENERAL MILES TO VISIT NORTHWEST

(Journal Special Service.) Los Angeles, Oct. 21.—General Miles arrived in this city yesterday after a leisurely trip through Texas, New Mexico and Arizona. He said last night that he expected to remain a few days here and then proceed to San Francisco and on up through Oregon and Washington. In an interview the general stated that he might eventually build a home in Southern California, and locate here.

CASTORA

For Infants and Children. The Kind You Have Always Bought. Bears the Signature of *Dr. J. C. Watson*

SALEM

NOTICE.—Salem subscribers will please take notice that the office of The Journal has been transferred to Thompson & Davis, 150 State street, who will receive subscriptions, complaints, payments, etc.

TEMPERANCE UNION MEETING AT SALEM

(Journal Special Service.) Salem, Or., Oct. 21.—The state convention of the Women's Christian Temperance Union, which met here in formal session for the state convention this morning, was last evening welcomed to Salem by representative men and women. The opening meeting was really held last evening, and there was a large attendance. A musical program was interspersed with addresses of welcome, as follows: For the city, Recorder N. J. Judah; for the churches, Rev. F. W. Cliffe; for the press, E. Hofer; for the university, Dean W. C. Hawley; for the public schools, City Superintendent Traver; for the women's club, Mrs. T. T. Geer; for the county, W. C. T. U., Mrs. R. M. Steele; for the Salem W. C. T. U., Mrs. E. C. Watheny.

In Supreme Court.

The supreme court yesterday afternoon heard arguments in two appeal cases, as follows: Lake County, respondent, versus A. J. Miller et al., appellants, appeal from Lake county. R. C. Anderson, respondent, versus J. F. Adams, appellant, appeal from Klamath county.

The treasurer of Sherman county has paid the last half of the county's state tax to State Treasurer Moore.

The remittance was received yesterday, as follows: State tax \$3,197.25, agricultural college tax \$102.75.

Salem City Council.

At a meeting of the city council last evening, Mayor Bishop announced his appointment of the city planning board to consist of George Dunstorf, M. J. Petzel and T. M. Barr. Under the charter the president of the city board of health is ex-officio president of the board.

ALBANY

75,000 ACRES OF LAND TRANSFERRED

(Journal Special Service.) Albany, Or., Oct. 21.—The Coast Land and Livestock company of this city bid in this week at the auction the mortgage of land located in Benton and Lincoln counties. The price paid was \$35,000. About two years ago the land was sold by the present owners to the Oregon Pacific Colonization company of Minneapolis, Minn., for \$110,000. About \$15,000 was paid down and a mortgage executed for the balance. The Eastern company intended to sell the land to small farmers but they lacked the funds to carry out their project and the mortgage was foreclosed. The land consists of valley, timber and grazing tracts and is quite valuable.

Visits New York City.

M. Bussard, an extensive wool and mohair dealer of this city left yesterday afternoon for New York City, where he will dispose of his large holdings of wool and mohair. He has made many purchases throughout the Valley and will realize a handsome profit.

Sold Valuable Farm.

Sylvester Cannon has sold his farm a few miles from this city to J. W. Booth recently of this city. The farm contains 160 acres and brought \$8,000.

Enlisting Recruits.

Sergeant J. V. Morcom and Corporal A. W. Collier of Vancouver barracks are in the city enlisting recruits for their regiment, the Nineteenth United States Infantry. Their headquarters are at the Russ house and they have a number of inquiries. The regiment will probably be ordered to the Philippines in a few weeks and the soldiers will be engaged to see the Hawaiian Islands, Japan, China and Formosa in Asia.

Good Roads Delegates.

County Judge H. M. Palmer has appointed delegates to the good roads convention which meets in Portland October 22. They are as follows: Hon. M. A. Miller, W. L. Wallace, Lebanon; H. Freerksen, Shedd; L. C. Stratton, Milers; Joseph Young, Secla. Linn county will be ably represented at the meeting, as the delegates are active and intelligent citizens.

ELECTION AT COLUMBUS.

(Journal Special Service.) Columbus, O., Oct. 21.—With his brother confined in a cell a few yards away awaiting a similar fate, Ben Wade goes to the electric chair in the penitentiary annex today to pay the penalty for one of the foulest crimes committed in Ohio in recent years. Wade has been under sentence of death for more than a year and he entertained hopes to the belief that he might escape the chair. These hopes were finally dashed to pieces last week when the circuit court refused to grant a stay of execution. The Wade brothers were convicted of the murder of Kate Sullivan, who lived and worked near Toledo. She and her sister, Johanna Sullivan, were alone in the house on the evening of April 14, 1900, when masked men entered for the purpose of robbery. Before they left, however, Kate Sullivan was clubbed to death and her sister badly injured. Not long after a man named London was sent to the penitentiary for some offense and upon his release he became talkative and gave information which led to the belief that he and the Wade brothers were guilty of the Sullivan murder. All were arrested and all were found guilty of murder in the first degree, but with London's verdict there was a recommendation for mercy, and he was sent to prison for life. He was the main witness in the prosecution of the brothers. The date for Albert Wade's execution was set for last June, but a motion for a new trial acted as a stay of execution.

SURE CURE FOR PILES.

Itching piles produce moisture and cause itching, this form, as well as Blind, Bleeding or Protruding Piles are cured by Dr. E. S. Watson's Pile Remedy. Stops itching and bleeding. Absorbs mucus. 50c a jar, at druggists, or sent by mail. Treats free. Write me about your case. Dr. E. S. Watson, Phila., Pa.

VANCOUVER

NOTICE.—The Vancouver agency of The Oregon Daily Journal is located at 803 Main street, John P. Lundberg, agent.

BIG BOOST, FOR NORTHERN POST

(Journal Special Service.) Pendleton, Oct. 21.—Bishop O'Reilly of Baker City is in Pendleton and Monday afternoon and evening he met a committee of the medical services of the hospital and Mayor Halley, at which time the plans for the dedication of the new hospital were discussed and a general program formed.

Secretary of War Changes His Former Decision and Allows Electric Company of Seattle to Operate a Line into Fort Lawton—Means Much to City.

(Journal Special Service.) Vancouver, Wash., Oct. 21.—Official information was received at the department general's office of the department this morning that the secretary of war had changed his former decision regarding the reservation from Seattle. The department officers say that this decision makes Fort Lawton a post of importance and makes it habitable as well. Up to this time the car line only extended within three miles of the post, and all travel was through the dust in a huckaback. Not only does this greatly aid the post, say the officers, but it means a boost to Seattle. The shipment of supplies, troops and munitions will be greatly facilitated and as Seattle is becoming the center for the great Alaskan work of the army this closes up the gap that has existed between the post and the city. It also makes the move of the department headquarters much easier should this be contemplated. Some at the headquarters here believe that the day will come when the department headquarters will go North, and probably to Seattle, as this post is no longer the center of the department. It is contended by the war department the franchise just issued would aid the move greatly.

More Improvements at Post.

The war department today notified the department adjutant general that the sum needed for a new roof for the post quarters at this post had been granted. The post quartermaster's request for new offices has been allowed and work has begun.

Gold Links Are Strung.

The Vancouver barracks golf club has been busy this week, or at least the committee on the green has. After consultation with an expert of the club, the committee laid out a nine-hole course that is expected to prove sufficiently difficult for even the numerous professional players in the garrison. No artificial hazards will be built, since the course demands that the player drive between two artillery barrels, over several shelter tents, past numerous entry houses and, cannon, through or over numerous barb wire fences and circle around the flats near the river, then returning up a steep bank through a big sag course that is worse than the "first cut."

Charles Wolf Is Killed.

Charles Wolf, aged 34, a married farmer living at Lake Shore, was caught by a P. V. & Y. train near Fruit Valley late yesterday afternoon and instantly killed. Wolf had just started to drive his team across the track when the train bore down on him, killing him and one of the horses and wrecking the wagon.

Wolf's Body was Brought to the City, after the prosecuting attorney had investigated. No inquest was held to discover the liability of the company's employees, the cause of death being evidently accidental. Wolf leaves a wife but no children, he was well known here and through the county, having resided in this vicinity for many years.

Social Club Entertains.

The first of a series of socials was given last night at the Catholic school rooms by the Catholic Ladies society, a recently organized society of young people who desired to inaugurate some novel way to pass the winter evenings and devised the plan of a series of social gatherings. The early part of the evening was devoted to progressive whist, a short musical program followed by a social. The Vancouver Mandolin club rendered two selections. Mrs. Crocker favored the society with a piano selection and Mr. S. H. Carter played a mandolin duo.

Sergeant Kelly Retires.

Regimental Quartermaster Sergeant Kelly of the Nineteenth infantry was today placed on the retired list at his own request. Sergeant Kelly's entire service, lasting more than 30 years, has been with the Nineteenth infantry and it is doubtful if there is another man in the army who has served so long with one organization as has the sergeant. Mr. Kelly will remain in Vancouver as long as the Nineteenth infantry has become so identified with the regiment that it would not be the old Nineteenth without him. Sergeant Kelly has been appointed regimental quartermaster sergeant, vice Sergeant Kelly retired.

Soldier Is Acquitted.

Private F. W. Smith, troop B, Sixth cavalry, has been acquitted by a local court martial from the charge of larceny. Acquittal is approved by General Funston.

Many Garments for Battery.

The Eighth battery of field artillery drew clothing yesterday morning. This is the last chance offered until spring for a general issue of clothing, and every man supplied his probable needs. About \$3,500 worth of clothing of all kinds was issued. The Twenty-sixth battery made their descent on the clothing department yesterday.

New Offices for Quartermaster.

A store house near the present office of the post quartermaster is being remodeled completely. This building when finished will be fitted up for the quartermaster's clerks. The present building occupied by the quartermaster is inadequate since store rooms, offices of the quartermaster, his sergeant and the numerous clerks are crowded together. The work of this department has considerably increased recently since the post has received additional troops and the barracks are being built to hold an entire regiment of infantry besides two field batteries. The force will probably be materially increased in the near future.

Contract Surgeon W. H. Tukey has been assigned to duty as transport surgeon of the transport Dix and has left for Tacoma.

Second Lieut. S. D. Malze, Third cav-

NEW ST. ANTHONY HOSPITAL READY

(Journal Special Service.) Pendleton, Oct. 21.—Bishop O'Reilly of Baker City is in Pendleton and Monday afternoon and evening he met a committee of the medical services of the hospital and Mayor Halley, at which time the plans for the dedication of the new hospital were discussed and a general program formed.

The dedication will take place on November 8 and both Governor Chamberlain and Governor Morrison of Idaho have signified their intention of being present and taking part in the exercises.

Besides these men others of prominence will be here to help make the day a memorable one. The new St. Anthony hospital will be one of the best equipped in the state. In arrangement and convenience it will be equal to any in the state and in size it will compare favorably with any. The surgery is one of the most modern on the coast and has been built and finished according to the latest ideas of the medical world.

The dedicatory services will be opened by the military services of the Catholic church, in which they will devote the building to the service of God and for the good of man.

Following this address will be made by Bishop O'Reilly, Governor Chamberlain, Governor Morrison, Senator T. J. Smith, Mayor T. Halley and other men of prominence. After the services of the day a banquet will be given in the evening to the physicians and invited guests of the church. A general invitation to the services will be extended to all members of the medical profession of the state.

For Good Roads.

G. A. Hartman, as the county judge, has appointed H. J. Taylor, R. M. O'Brien, H. L. Frazier, R. Alexander and Clarke Walters as delegates to attend the convention of the Good Roads association, which is to meet in Portland on October 23. The men of the county are greatly interested in the good roads question and the delegation from here will take an active part in the success of the association. They will bring with them as much information as possible for the betterment of the county roads.

PORTLAND MEN PLAN FOR PACKING HOUSE

(Journal Special Service.) Pendleton, Or., Oct. 21.—J. H. Gwinn has returned from a visit to Portland, where he attended the grand lodge of the Knights of Pythias and transacted some individual business.

While Mr. Gwinn was in Portland a meeting of the promoters of the convention of the National Livestock Association, which is to be held in that city, beginning January 13, was held.

Portland is after the establishment of a packing house and will do all to have the independent people put one there. They are giving their moral support to the scheme of building there and when the time comes to build, will put their money in the plant. They realize the fact that a packing plant in which the stockmen of the country are interested and one behind which the city, and are willing to support such an institution and to all that they can to bring about its establishment.

The meeting in January will be one of the largest ever held in the city, and at it many matters will be discussed and perhaps decided upon that are of vital interest to the development of the Northwest.

FOR MISSISSIPPI'S BETTERMENT.

(Journal Special Service.) Davenport, Ia., Oct. 21.—In response to the call recently circulated through Missouri, Minnesota, Wisconsin, and Wisconsin, about 200 representative business men of the five states named assembled in Davenport today and began a two-days' convention for the discussion of the improvement of the Upper Mississippi river. The convention of the organizations of Minneapolis, St. Paul, Crookston, Keokuk, Moline, Quincy and other cities along the river are well represented. The principal work of the convention will be to draft a memorial to congress requesting appropriation by that body sufficient to cover the expense of the improvements deemed necessary to preserve the commerce of the river.

TOOK A STRAW VOTE

An advertising agent representing a prominent New York magazine, was dining one evening in a Pittsburgh restaurant. While he was eating he was approached by his newspaper and noticed the advertisement of a well-known dyspepsia preparation, Stuart's Dyspepsia Tablets; he began speculating as to how many of the other traveling men in the dining-room were using Stuart's Tablets after each meal.

One of them told me he had suffered so much from stomach trouble that at one time he had been obliged to quit the road, but since using Stuart's Dyspepsia Tablets had been entirely free from indigestion, and he had been able to travel especially while traveling, on account of irregularity in meals and because, as he himself stated, he was often obliged to eat what he could get and not always what he wanted.

Another who looked the picture of health, digested his breakfast, and after taking a Stuart's Tablet afterward, because he could eat what he pleased and he was able to sleep peacefully and without a restless night or any other trouble.

Still another used them because he was subject to gas on stomach, causing pressure on heart and lungs, shortness of breath and distress in chest, which he no longer experienced since using the tablets regularly.

Another claimed that Stuart's Dyspepsia Tablets was the only safe remedy for indigestion, flatulency, acidity, and other ailments. He had found it so common a remedy to relieve the trouble, but the tablets were much better and safer to use.

After smoking, drinking or other excesses, which weaken the digestive organs, he had found Stuart's Tablets a healthy, wholesome condition, especially as Stuart's Dyspepsia Tablets contain the natural gastric juice, which is so essential to the proper digestion of food, and which every weak stomach lacks, as well as nux, hydrastin and yellow parrilla, and other powerful cathartics, which are sold for every form of poor digestion. Sold by druggists everywhere.

TROPICAL COOL FOR LOCAL SKILL

LARGE COCONUT OIL FACTORY WILL BE SHIPPED FROM SINGAPORE TO PORTLAND AND AMERICAN WORKERS WILL REPLACE DUSKY COOLIES IN THE PLANT.

Plant will employ Several Hundred Men, and Already Big Orders Have Come in From the Country for the Mill's Product—Several Factories Will Eventually Be Built for Handling of Copra and the Refined Product.

Within the next few months Portland will have another large manufacturing plant, which will employ several score of men and will be the beginning of a large establishment of factories. The Oriental-American Company of this city last summer purchased the Singapore coconut refinery, and within a few months it will be rebuilt here. There is only one other plant of this sort in America, and is located at Philadelphia.

A score of native workmen were several weeks in taking the factory to pieces and packing it for shipment. The plant was taken down piece by piece, each part numbered and stored aboard one of the great steamers that ply between the Malay port and Hong Kong. The vessel carrying this queer cargo sailed from Singapore the first of this week, and is due in Hong Kong within five days. Here the factory will be transferred to the hold of one of the large Portland-China coast liners and is expected to reach this city in about two months.

The site for the coconut oil refinery has been determined by the local company, but it is thought the plant will be rebuilt somewhere between this city and Linton along the river front. I. A. Yerex, manager of the Oriental-American Company, stated this morning that he was anxious to secure a very deep water-frontage in order that the ocean liners bringing the raw coconut oil from the hot lands across the sea may discharge their cargo right at the factory's doors. This oil will be imported direct from Singapore.

The product of the mill is called "nut lard" and is made of pure coconut oil. This preparation is to take the place of lard in cooking. A chemical analysis of nut lard is said to have resulted as follows: Oleic acid, 75 per cent; stearic acid, 56 per cent; moisture, 3 per cent. This analysis shows the oil lard to be free from all fatty acids.

During the past few days Mr. Yerex has received orders for the lard from most manufacturing chemists, candy and cracker makers and wholesale grocers in Minneapolis, Pittsburg, New York, Buffalo, Chicago, Battle Creek, Omaha, Milwaukee, Philadelphia, Marion, Ind., White River Junction, Vt., and Sidney, New South Wales.

The oil will be shipped to Portland in large hogheads—that is, until the copra plant is erected here. "Copra" is an East Indian word for the dried coconut from which is extracted the oil that is used for the manufacture of the nut lard. This plant will be much larger than the lard factory and will employ several hundred men from the start. The officers of the local company who are promoting the coconut oil enterprise say that a large copra plant will be built alongside the oil refinery within a few months after the latter factory is put into active operation.

As the refinery will have a capacity of 500,000 pounds of lard per month, a great quantity of oil will be needed to keep it running.

"We intend to make our refinery the largest and finest in the world," said Mr. Yerex. "No pains nor money will be spared in making it as complete as we know how, and the most skilled chemist we can find will have charge of the manufacturing of the lard. The copra plant which we are planning to build at the lard factory has commenced running will be a large enterprise and will mean the swelling of the ranks of Portland laborers by several hundred."

JEFF IN WINDY CITY.

(Journal Special Service.) Chicago, Oct. 21.—James J. Jeffries, accompanied by "Kid" Egan, of Ottawill, Ill., has arrived here from San Francisco. Jeffries is in fine shape, and his face is bronzed by exposure to the sun of the Southwest, where he had been hunting for two weeks previous to his start East. He is taking good care of his health. When seen, Jeffries said as to his future plans, "I will go with Egan East next week. At present I have no plans for the future other than that we will accept the best proposition that is put to us, for I am out for work. There has been some talk of my going on the stage, but I have no arrangements have been made or anything said to me about the matter." Referring to his bout with Corbett, Jeffries gave Corbett credit for being a good fighter and a clever boxer.

OHIO CLUB WOMEN MEET.

(Journal Special Service.) Columbus, O., Oct. 21.—Columbus has capitulated to an army of fair invaders gathered from every corner of the state for the 9th annual convention of the Ohio Federation of Women's clubs. The opening proceedings took place today in the board of trade auditorium and consisted of welcoming addresses, responses and reports. Tonight the delegates will be entertained at reception given by the local club women.

LONDON CELEBRATES.

(Journal Special Service.) London, Oct. 21.—Trafalgar day, the anniversary of Nelson's great naval victory fought off Trafalgar, October 21, 1805, was celebrated today in the customary manner. The Nelson monument on Trafalgar Square was decked with wreaths sent from various parts of the world. Nelson's flagship, the Victory, was hung with wreaths at Portsmouth.

HAWAIIAN VOLCANO IN ACTIVE ERUPTION

(Journal Special Service.) Honolulu, Oct. 21.—Advices from the Island of Hawaii state that the volcano Launa Lau is in eruption and dense volumes of smoke seem in almost every direction of the island. From observations it is believed the eruption comes from the summit of the crater known as Mokuweewe. The lava flow has not yet reached the timber line, 6,000 feet above the sea level.—At night great fountains of fire rise many hundred feet and are plainly seen all over the island and at Maul. The fiery flow is creeping down slowly and giving plenty of time for everybody to get out of the way.

OHIO'S BATTLE MONUMENT.

(Journal Special Service.) Chattanooga, Tenn., Oct. 21.—The monument erected by the state of Ohio to the soldiers from that state who fought and fell in the battle of Missionary Ridge, was formally dedicated today in the presence of a large and distinguished delegation from the Buckeye state. The principal oration was delivered by Gen. Charles F. Manderson, former United States senator from Nebraska.

The monument occupies a conspicuous site in full view from Chattanooga. Orchard Knob and Lookout Mountain. It consists of a colossal obelisk, 30 feet in height, with four bronze figures at the base, representing the infantry, artillery and cavalry branches and a drummer boy.
