Keep your ears open for the Spencer's whistle on Saturday morning at 7 o'clock. The pretty boat leaves on that day for all points on the Columbia between Portland and The Dalles, and 50 cents pays the fare to any landing. Wharf foot of Oak street, telephone Main 2960. Persons traveling to Eastern points can save \$2.10 by taking the steamboat as the railroad charges \$2.40 to The Dalles. In addition to this saving, travelers see the finest scenery in the world. It is incomparable. It has not an equal on this continent.

Save \$2.10 on every fare to The Dalles or points beyond by riding on the beautiful steamer Charles R. Spencer, and at the same time view the most magnificent Columbia river scenery. Fare by the steamboat is 50 cents to any landing, including The Dalles; by rail, \$2.50 to The Dalles. Persons going beyond The Dalles can buy their tickets by steamer to that point, and go thence by rail to their destination. On her way up and down the Spencer stops at Vancouver, Washougal, Cascade Locks, Stevenson, Carson, Collins, Drano, Underwoods, White Salmon, Hood River, Bingen and Lyle. Fare, 50 cents to any stopping place.

That bleached muslin sale at the White Corner has been one of the marvelous bargain surprises of the year. The muslin was just a little damaged in transit, and although its regular value was 10 cents per yard, the White Corner is selling it, while it lasts, at exactly half price, or 5 cents per yard. A quarter of a pint of gasoline, worth 5 cents, in half a boiler of water, will cleanse the muslin to its original whiteness. Put the gasoline in the water and boil the muslin therein for half an hour. Hang out to dry and—there you are. There are no stains left when the drying process is complete. Those who would avail themselves of the great bargain will have to get there quick.

DESERTED WOMAN TRIES TO SHOOT

TRAGEDY PREVENTED IN THE OFFICE OF THE DISTRICT ATTORNEY BY DETECTIVE WEINER—THE WOMAN ATTEMPTS TO MURDER FRANK MCBRIDE.

While Frank McBride and the woman, who says that she is his second wife, were in the office of Prosecuting Attorney Manning, she made an attempt to shoot her alleged husband. But for the quickness of Detective Dan Weiner, who snatched a revolver from her hand, she would have been successful. The woman had just said that she cut her husband's throat, and was sorry she had not killed him. She says she has been deserted by McBride, who she says is the father of her child and with whom she has lived since she was a girl of 13 years.

After the attempted murder McBride and the woman were left alone together and from every appearance buried the hatchet. They left the office chatting pleasantly and went to the office of Dr. Rand, in the Dekum block. McBride returned to the house of his first wife on Tenth street, while the woman went to her home on Second. Neither the Prosecuting attorney nor Detective Weiner is aware of any new developments in the case, and application at the homes of the parties in the hour brought forth the information that they were out.

W. L. FARRELL, PIONEER OF WOODLAWN, DEAD

William L. Farrell died at his home in Woodlawn last night of dropsy. He will be buried in Columbia cemetery next Sunday.

William L. Farrell was born in Casey county, Ky., September 24, 1830. He was 6 years of age when the family removed to Lafayette county, Mo., where he was educated in the subscription schools and attained his majority on the paternal farm. Equipped with a common school education and a practical knowledge of farming, Mr. Farrell started overland for California, April 14, 1850, accompanied by four other men, driving six yoke of oxen. The dangerous journey they accomplished in 96 days, and at its expiration the courageous pioneers went to work in the mines on the American river at Horse Shoe Bend. After a short experience Mr. Farrell engaged in placer mining at Placerville, Cal., and in February, 1851, engaged in street grading in San Francisco. May 1, 1851, he boarded the old steamer Sea Gull bound for Portland, and upon reaching his destination found employment in teaming for a sawmill company. At the expiration of a year, near the land on which stands his present home, he located on a quarter section, a part of the McClung donation land claim of this county. He improved the property and began to sell. At the time of his death he owned about 30 acres. He was one of the very early supervisors of this county and served as school director for several years. He was always a Democrat.

Mr. Farrell was married February 1, 1853, to Miss Mary Wilson, who died in March, 1855. Their only child died also. In February, 1856, Mr. Farrell married Eliza Sunderland. They had one daughter, Harriet L. Farrell, now deceased. Mr. Farrell was married February 1, 1853, to Miss Mary Wilson, who died in March, 1855. Their only child died also. TICKET AGENTS GO FORTH TO CONQUER

"Portland, 1904," reads the inscription on a thousand buttons that the local delegation to the National Ticket Agents' convention will carry with it to New Orleans when it departs Sunday night. The traffic men of the Northwest are determined to bring the ticket sellers here next fall and the Portland men will carry exhibits and literature. The commercial bodies have provided \$200 to be used in entertaining the traffic men at New Orleans, and the Lewis and Clark commission has given \$100. President T. F. Fitzgerald has written to Max Shillock, secretary of the board of trade, that he is for Portland next year. The Portland delegates are Michael Kelly, W. C. Seachrest, J. P. Jones and M. J. Roache. Mr. Roache departed last night.

NATURE STUDENTS WILL CAMP HERE

Secretary Max Shillock of the Portland board of trade, is in receipt of a letter from Miss L. A. Mint of Ogden, Utah, director of the National Liberal Arts league, in which the local board is praised for the interest displayed in the work of the league. The Portland commercial body, says the letter, is the only one outside of Philadelphia, that has interested itself in the educational welfare of its city.

Several months ago Miss Mint wrote to the board of trade and signified her intention of bringing the summer school for nature study to Portland next year. The matter was placed in the hands of Colonel L. L. Hawkins and he has picked out several sites for the camp which will be submitted to the league.

PORTLAND'S LEADING FRIDAY MERCANTILE EVENT

A Masterful, Helpful, Public-Spirited Bargain Jubilee in Which Portland Men and Women Join Weekly With Unbounded Enthusiasm

Demonstrating over and over again this store's absolute and unapproachable leadership in bargain moulding from the clay of QUALITY and WORTH. The "DIFFERENT" STORE's offerings tomorrow will stand the test of critical comparison, for no firm in Portland sells RELIABLE merchandise so low as we. RUMORED LOSS OF WEMPE AFFIRMED

(Journal Special Service.) Victoria, B. C., Oct. 29.—The news that reached here yesterday that Wempe, a four-masted American schooner of 650 tons, had gone ashore at Bonilla point, two miles from Carmanah, at the entrance to the straits of Juan de Fuca, has been confirmed. The schooner was bound for Port Townsend to load lumber. During the tempestuous night it is believed she dragged her anchor and piled up on the rocks. Captain Asp and the crew escaped to Npah bay, a distance of 20 miles. The American tug Wanderer put out from Npah bay at noon and the tug Albion was dispatched from Port Renfrew to stand by and aid if possible
