**NOTICE**—Salem subscribers will please take notice that this Journal agency has been transferred to Thompson & Davis, 190 State street, who will receive subscriptions, complaints, payments, etc.

### STATE FISH WARDEN SUBMITS HIS REPORT

(Journal Special Service.)  
Salem, Or., Nov. 12.—The board of fish commissioners, at the regular monthly meeting, received and audited the report of Master Fish Warden H. G. Van Dusen of Astoria. The report, which covers the operations of the hatcheries, is as follows:

**Hatchery Operations.**  
The hatchery work on the streams tributary to the Columbia river is well advanced, and from reports so far received the season is going to be a very successful one and the take of eggs will exceed anything heretofore done by our department.

At the Salmon river and Clackamas river hatcheries the work of collecting eggs was finished some time ago, as previously reported, and they have now begun to liberate the young fry, which were hatched and carefully reared until they reached such a stage that they had either to be fed or liberated, and as we were not prepared to feed them, nothing was left to do but to turn the young fry loose. At the Salmon river hatchery 1,488,000 were turned out during the month into the Salmon river in the immediate vicinity of the hatchery, the first plant having been made October 2, and at the Clackamas river station 705,600 were turned loose in the Clackamas river.

**Wallowa River Station.**  
At the Wallowa river station the take of chinook eggs amounted to 3,707,000. This will be the extent of the chinook work on that stream this season, but with the sockeye salmon, on which they have just begun work, somewhere between 5,000,000 and 10,000,000 eggs will be taken.

At Ontario 13,675,000 eggs had been secured up to October 21. The first were taken October 14. On October 31 the day's work showed 1,800,000 to have been secured, while for the eight days preceding they had been averaging over 1,000,000 a day. As everything seemed to favor the continuance of the work at this rate for 10 or 15 days longer, the complete take will amount to between 20,000,000 and 30,000,000.

**Coast Streams.**  
On the Wilson river they got started well and had a prospect for a good season's work, but the freshets that occurred October 4 and 5 was too severe for the racks and carried about two-thirds of them away. The eggs secured up to that time amounted to \$59,500; these were well taken care of and hatch out and keep the young fry until they are old enough to care for themselves, when they will be turned out into the Wilson river.

On the Sluslaw the outlook is very good this season, and if Supt. Slemmons is able to maintain his racks through the freshets that are now liable to occur he will make a very fair showing, for

up to October 31 he reports having taken 707,950 chinook eggs, with plenty of salmon between the racks.

At the South Coos river hatchery they had taken 3,080,000 chinook eggs October 31, and from the number remaining on hand between racks Supt. Smith seemed to think that he could safely count on getting 5,000,000 this season, which is far better than anything heretofore done.

**Noah Delaney Insane.**  
Salem, Nov. 12.—Noah Delaney, a colored resident of this city, who was born in Marion county 56 years ago, was yesterday afternoon sent to the insane asylum for treatment. He has been mentally unbalanced for several months and was lying sick and uncared for in a cabin in North Salem. Delaney was born of colored parents who were brought here by a rich southern family named Delaney in the early forties, and these negroes took their name from the family name of their master, Mr. Delaney, the head of the family of this name was murdered in this county many years ago by an adopted son and a negro—Beale and Baker—who killed the old man for his money.

**Miserable Hoodlums.**  
Some hoodlums in South Salem a day or two ago shot a fine and valuable Llewellyn setter, owned by F. C. Shipp. The poor animal, wounded to death, dragged himself to his master's home, where he expired. The dog was a general favorite and the miscreant who killed him will be prosecuted if his identity can be established.

**Important Probate Case.**  
Judge Boise yesterday decided an important probate case, and an appeal from the county court in the matter of the estate of B. De Lorme, deceased. De Lorme was a Catholic priest stationed at St. Paul, this county, when he returned to his home in France on a visit, and there died. John P. Theo. B. Brentano was appointed administrator of the estate, but thereafter he was removed and William Foley appointed to administer the estate for the two heirs, a brother and sister of the deceased, who reside in France. Brentano brought in a large bill for fees as administrator, and this being disallowed, Brentano appealed to the circuit court. Judge Boise, after carefully examining the claim, affirmed the decision of the county court in disallowing Brentano's claim.

**BENTON COUNTY DWARF.**  
**Weights Only 28 Pounds and is Three and a Half Feet Tall.**  
Thomas J. Pulse was committed to the asylum for the insane at Salem by the county court of Benton county in session at Corvallis.  
Though 31 years of age, he weighs but 28 pounds. He is but three and a half feet in height, which is but an inch or two more than the length of an ordinary walking stick. The top of his head only came to the lower sill in the court house windows. An even stranger fact is that within the past two years, he has in spite of the fact that he has passed the age of maturity, grown more than two inches in stature. He was born at the family home southwest of Philomath. His parents were Mr. and Mrs. Elisha Pulse, who resided for many years on the ridge between Ellettsburg and Greasy. Both parents are dead, and for some years Thomas has lived with Mr. and Mrs. George Parker, the latter of whom is his sister.

## VANCOUVER

### WORKMEN LOOKING FOR THEIR WAGES

The Hadley-Peters sawmill near Vancouver is yet tied up, the deflection that began some weeks ago being prolonged and there is no assurance when the mill will be in operation again.

Last week, the employees complaining of mismanagement and non-payment of wages, sought for a change of superintendency. It was then agreed that all men would return to work on condition that Mr. Hadley took charge of the mill and run it on a paying basis. This, however, failed to materialize, but the reasons have not yet been ascertained, as the proprietors are very reticent concerning their interests.

It is charged by the employees that there has been such great waste in lumber and timber that there is nothing left but the mill itself to attach, although several thousand dollars' worth of lumber has been manufactured. In their contention they claim that flooring and other dressed lumber has been thrown in a pile regardless of kinds or dimensions and left in the rain to mold, warp and split so that it is unfit for any use whatever.

**A New Management.**  
The Martin brothers have, however, died down some little owing to a proposed trade or sale of the plant to Martin brothers. These two men are first-class machinists, as well as lumber men, and propose to purchase the plant, but refuse to do so until all the employees have been paid in full. That such an arrangement will be consummated is beyond question. The plant, under the Hadley-Peters management, was imperfectly installed, which has been the cause of so many breakdowns and has caused an enormous expense to the present owners.

The Martin brothers state when they take charge of the plant they will completely overhaul and rearrange the machinery and get it on a thoroughly working basis before starting the operation of the mill.  
The bearing and recommendations that the Martin brothers have brought with them have had much to do with influencing the workmen from bringing action against Hadley and Peters. One of the brothers is a machinist of long experience, commencing his trade as a boy in England and aided in the construction and arrangement of the machinery in the steamship Alabama, which was used during the civil war. The men are reposing considerable confidence in the proposed new management and are awaiting results rather than complicate matters.

**Death of Hugh O'Byrne.**  
The death of Hugh O'Byrne, a pioneer of Clarke county, occurred yesterday. Mr. O'Byrne was born in Roscommon, Ireland, October 28, 1826. He emigrated to the United States in 1846, joined as a volunteer in the Mexican war in 1847, arrived at Fort Vancouver 1849, and has been a continuous resident ever since. He was married to Katherine Merray; died at

Vancouver, Wash., November 12, 1903. Deceased is survived by a widow, Mrs. T. W. Padden, Mrs. J. D. Curtin, Miss Marie P. O'Byrne and John B. O'Byrne, all residents of this county. Funeral will be held Saturday from St. James' cathedral, interment in the Catholic cemetery. Had he lived one day more he would have celebrated his golden jubilee.

**Emmons-Kurton Nuptials.**  
Harley W. Emmons and Miss Jessica L. Kurton were wedded last night in the ceremony taking place at the residence of the bride's parents on Coffman avenue, Rev. R. Yeatman officiating. Miss LaVon Andrews acted as bridesmaid and Mr. W. L. Harris as best man. The bride was dressed in white crepe de chine over taffeta and the bridesmaid in mauve taffeta. They were married under a canopy of smilax and white chrysanthemums. The dining room was elegantly decorated with yellow chrysanthemums, Oregon grape and gerberas. Immediately after the ceremonies a delicious supper was served. All the guests were relatives and intimate friends of the bride and groom. The bride is prominent in church and social circles and it is impossible to reach the recipients of many beautiful presents. They departed immediately for Lewiston, Idaho, where the groom has a lucrative position and where they will make their future home.

**Ball and Athletic Tournament.**  
A grand ball and athletic tournament was held under the auspices of the Twenty-sixth Battery Athletic club at the Auditorium last night, the affair terminating very successfully and pleasantly for all.

In the wrestling bout between T. C. Jones of the Twenty-sixth battery and Whitfield Rufus of Spokane, Rufus won in two falls.  
In the wrestling match, three falls, catch-as-catch-can, between K. Casey of Portland and P. LeBouf of Salem, Casey won in two falls.

The six-round glove contest between J. Smith of Portland and Al Short, Twenty-sixth battery; and also between R. P. Fordney, Nineteenth infantry and George Jeffery, Twenty-sixth battery, were draws.

**Vancouver Items.**  
Assembly No. 6, United Artisans, and friends are making arrangements for a social on Saturday night at Eichenlaub's hall for the benefit of Sister Ella Baker, who has had the misfortune to lose her sight. A successful affair is anticipated and a cordial invitation extended to everyone.

George M. Talloway, grand state deputy of the F. O. E. for the state of Washington, visited Columbia Aerie No. 253 last night. After the transaction of some very important business refreshments were served and a merry time ensued until the early hours of morning.

**Garrison Notes.**  
Fifteen days' leave of absence has been granted Maj. R. K. Evans and Capt. Galliard will perform the duties of adjutant general during the absence of Maj. Evans.

Capt. I. N. Lewis, artillery corps, has been assigned to duty at Seattle, Wash., with superintending engineer on matters pertaining to the purchase of a steamer by the quartermaster's department.

A three months' furlough has been granted to Sergt. C. P. Sanborn, Company A, Eighth infantry, private, first-class, Louis Verrier, hospital corps, Private Alfonso J. Dellert, Company E, Nineteenth infantry, and Private R. H. Coulman, hospital corps.

Private Claud Mead, 33d company, coast artillery, having been tried by a general court-martial at Fort Stevens, Or., was found guilty of desertion, and two previous convictions being considered against him, was sentenced to be dishonorably discharged from the service, to forfeit all pay and allowances due him and to be confined at hard labor at Alcatraz island, Cal., for 18 months.

## OREGON CITY

**NOTICE**—Oregon City subscribers will please take notice that the office of The Journal has been established at the Courier office, Seventh street, so as to despatch copies of the paper, payments, etc., will be received and attended to by J. H. Westover, The Journal Oregon City agent.

### MINING PARTY HAS A ROUGH JOURNEY

(Journal Special Service.)  
Oregon City, Nov. 13.—P. A. Fairclough of the Ogilvie Mountain Mining company, who headed a pack train for that district the first of the week, returned last night. They were unable to reach the mining district on account of high water. Fearing the snow on the upper trail, they took the lower, which crosses the Molalla river. When they reached the ford of this stream they found it a raging torrent. They camped for a day with hopes that the water would recede, but instead of receding it continued to rise and the party turned about and came home, leaving their outfits on the bank of the stream. They will make another attempt next week to cross the river and Fairclough says they will cross even though they have to raft the outfit over. On their return trip they found that the storm of the early part of the week had blown down many trees, and if the outfit had not already been gotten by these obstructions it would now be impossible to do so.

While considerable snow was encountered on the lower trail it was not heavy enough to impede the progress of the outfit, and but for the high water the party would have gotten in all right. One man has been left to watch the outfit.

**Court House Notes.**  
Oregon City, Nov. 13.—Ragan Saums and Elmer Rhoads were yesterday granted a license to wed. The bride was under age and parental consent had to be obtained.  
The Kenney divorce suit consumed a great deal of the time of the circuit court yesterday. The case is being bitterly contested. The parties are residents of this county.  
In the case of McDonald vs. Cambeau a verdict was yesterday returned for the defendant in the sum of \$150. The suit was to recover on a promissory note with the accrued interest.

The case of the state vs. Robert L. Johnson and Grace Shelton, charged with lewd cohabitation was postponed till next term.

The work of compiling an index to the assessment roll for the year 1903, has been discontinued by the assessor until it has been determined whether or not a levy for tax purposes will be made on the roll.

**OREGON GIRL DIES ON TRAIN.**  
(Journal Special Service.)  
Helena, Mont., Nov. 13.—Sarah Kriebel, a 16-year-old girl, died on her home from Lincoln, Neb., died yesterday morning of heart failure in a tourist car on train No. 5, at Bonita, a small station east of Missoula. She had been ill since she left Lincoln and received medical attention at Bonita. She was traveling in company with Miss Etta

## ALBANY

**NOTICE**—The Albany agency of The Oregon Daily Journal is at the drug store of Fred Davison, No. 233 West First street, where subscriptions will be received.

### CARRIERS HAVING TOO MUCH TO DO

(Journal Special Service.)  
Albany, Or., Nov. 13.—The patrons of the postal free-delivery service in this city are complaining on account of the poor delivery by the carriers. The government only allows two carriers, and after a five months' test it has been demonstrated that at least one more carrier will be necessary in order to give prompt and efficient service. The two carriers now on the routes cannot handle the mail in the eight hours on account of the large quantity and the distances to be traveled. The city of Albany covers a large area of ground and it is impossible to reach the outlying districts according to the schedule. A number of complaints have been forwarded to the department at Washington, and Postmaster Train has requested additional help, but all to no purpose. With the coming of the holidays the carriers are wondering where they are.

**New Fire-Alarm System.**  
The new Gannaway fire-alarm system is about completed and will probably be accepted by the city tomorrow. The alarm will ring four times when turned in, and the numbers and location of the boxes are as follows:

- 25—West Seventh and Maple streets.
- 26—West Ninth and Washington streets.
- 35—West Second and Ferry streets.
- 37—West Fifth and Ferry streets.
- 45—West First and Broadbald sts.
- 47—East Fourth and Lyon streets.
- 54—East Ninth and Lyon streets.
- 55—East First and Montgomery sts.
- 63—East Sixth and Jackson streets.
- 65—East West and Jefferson streets.
- 72—East Fourth and Madison streets.
- 74—East First and Sherman streets.

**Prune Industry.**  
The prune-packer of LaSalle Bros. & Fortmiller is packing about a carload of prunes daily for shipment to the East. The total output will be about 20 carloads, and it is estimated that work in packing the fruit, the dryer and packer was built during the summer and is located near the Southern Pacific track. The building is a three-story structure and is complete in every particular. Only the latest methods are used in drying and packing, giving the fruit a decided advantage in the eastern market over the common sacked variety. The prunes just prior to being packed are treated to a steam bath, which destroys all insects and bugs. From the steam they go directly to the packing room, where they are flattened by the packers and placed in the boxes in rows and layers. Each carload contains 1,200 boxes, neatly labeled. The plan is the largest in the state owned by individuals and is second to only the association dryer and packer at Salem. LaSalle Bros. raised about 10 carloads on their farm near this city, and the rest has been purchased in this vicinity.

**Serious Loss of Lumber.**  
The Strong sawmill of Corvallis lost several hundred thousand feet of hardwood logs yesterday. The boom broke, letting the logs drift down the Willamette. They have been several miles down the river, and they arrived in this city last night after a hard trip. They saved a portion of the logs, but the loss will be quite heavy.

**Police Report.**  
Chief of Police McClain, ex-officio health officer for the city, has filed his report for the month of October. The report is as follows: Deaths—Male, 3; female, 2. Births—Male, 5; female, 3. The deaths ranged from 24 years to 79 years. No contagious diseases have been reported, and the city has not one case of typhoid fever.

**Thought It Was a Duck.**  
A seagull was killed yesterday by Ed Meeker a few miles from town. It was floating on a small lake, and Meeker mistook it for a duck. Gulls very seldom reach a point this far inland, but it is supposed that the recent heavy storms drove the bird from its haunts. It will be mounted and added to the large collection owned by Dr. J. L. Hill in this city.

**Infant Badly Burned.**  
The 17-month-old baby of Mr. and Mrs. A. L. Simpson burned one of her hands severely yesterday afternoon by falling against a red-hot stove. The burn is very painful, but not serious.

**FARMER BURNS DEFEATS GATCH.**  
(Journal Special Service.)  
Whatcom, Wash., Nov. 12.—"Farmer" Burns won the decision in his wrestling match with Frank A. Gatch, of Humboldt, Ia. Gatch secured the first fall at the end of 19 minutes and 30 seconds. Burns took the next two falls in 38:20 and 7:00.

### THE STRENUOUS LIFE

**A Great Strain.**  
No one disputes the fact that we are living in a "rapid" age; it is rush, rush, rush from morning until night, and competition is so fierce that the struggle does not cease until the machine is worn out.

Women, too, even when surrounded by every comfort, become infected by the common spirit, and what with their clubs and many social duties, have no time to give thought to their physical well-being until they are suddenly brought to a sharp realization of the fact that nothing in their lives is so important as attention to correct or rational living.

It may surprise the reader to learn that women are more prone to piles than men, and in most cases because it is difficult to impress upon them the importance of regular movements of the bowels; irregularity means straining at stool, and straining means piles, with the certainty (under the usual methods of treatment) that the sufferer will "have them always with her." "Usual methods" is meant the application of salves and lotions, or (as a last resort) a surgical operation.

If there is a complaint which entails more distress and suffering upon those afflicted than piles or hemorrhoids, it is not known to the writer; fortunately, however, these are learning that there is a remedy that effectually cures all forms of piles. It is known as the Pyramid Pile Cure, is in suppository form, is applied directly to the parts, and does its work quickly and painlessly; it is sold by druggists at 50 cents a package, or will be mailed by the makers to any address upon receipt of price.

Mrs. L. M. Joffe, Pharisburg, Ohio, says: "I feel it my duty to acknowledge the great benefit I have received from the use of Pyramid Pile Cure. For several years I suffered with piles, and from the bleeding piles, and was finally advised by a Columbus doctor to get Pyramid Pile Cure at once, which I did, and one box completely cured me. I advise all sufferers to use it." Write to Pyramid Drug Co., Marshall, Mich., for their little book on the causes and cure of piles.
