

SCHOLARSHIPS FOR THE YOUNG WOMEN

FRAGORAL ASSISTANCE GIVEN BY THE WOMAN'S CLUB—INTERESTING ADDRESS BY DR. MORRISON OF TRINITY CHURCH UPON THE EAST AND WEST.

The regular meeting of the Woman's club convened promptly at 2 p. m. yesterday afternoon. The business session was of unusual interest, the principal part of the time being consumed in the discussion of a number of communications from the state committee and from the industrial committee of the general federation.

After a short recess the program opened with a delightful vocal solo by Mrs. Fletcher Linn, a member of the club and one of Portland's most charming singers.

The address of the afternoon was by Dr. A. Morrison of Trinity church upon the subject "A Natural Antithesis; the East and the West." The theme was discussed in a masterly manner. Taking up first the governments of the different countries the speaker touched briefly upon conditions that produced and demanded different forms of government.

"The southern type," said the speaker, "is pronounced and distinct, and everybody knows the broad, breezy, wholesome western type, produced undoubtedly by the towering mountains and the vastness of every aspect of nature. A comparison, very complimentary to the West was drawn between the resources of the East and West. The people of the West are near to the greatest sources of wealth of the world, while the East handles the money interest of the country. Dr. Morrison drew a vivid picture of the time when the material antithesis might engender such bitter jealousies that the repetition of the civil war might be expected."

In conclusion, he said, to bring about an adhesion of these great forces the most intense patriotism must prevail, and in this he saw a great field for the work of the woman's clubs. To the mothers is given the training of the future citizen who must meet this natural antithesis in the future, and the work of doing this could be no better done than through the educational features of the club.

At the conclusion of Dr. Morrison's address, which was heartily applauded, Mrs. Dunway made a stirring address on that "larger liberty" which women must have before the woman's club could come to its own inheritance.

Dr. Thompson very feelingly thanked the club for a palm which was sent her during her illness.

The desks were beautifully decorated with cut flowers, which were afterward sent to sick members.

STOLE 10 CENTS; GETS 8 YEARS IN PRISON

Edwin Arpin was sentenced to serve eight years in the penitentiary by Judge Cleland in the state circuit court today, after pleading guilty to robbery.

While the sentence was a severe one, Arpin seemed to resign himself to his fate and told his guards that he had expected a much heavier sentence. When he pleaded guilty a number of days ago he broke down and wept in the courtroom, and later when he was brought up for sentence he wept again.

Arpin was suspected of firing buildings in Albina.

SAYINGS OF JESUS DUG UP AT CAIRO

(Journal Special Service.) London, Nov. 14.—Many hitherto unknown sayings of Jesus have been discovered by archaeologists, who have dug up papyrus buried since the second century, 140 miles south of Cairo. Dr. Grenfell, who has been excavating since 1894, at a general meeting of the Egyptian exploration fund here, gave the details. He says in company with Dr. Hunt he discovered a roll apparently with all the sayings attributed to St. Thomas. One of the most reliable and hitherto unknown is "Let not him that seeketh cease from his search until he find, and when he finds he shall wonder, and wondering he shall reach the Kingdom of Heaven; for he who reaches the Kingdom he shall have rest."

BAD DISTURBANCE IN RAILWAY LAND OFFICE

(Journal Special Service.) San Francisco, Nov. 14.—C. W. Eberlein, Southern Pacific land agent, has gone to Portland. Information will be given out on his arrival there of a seismic disturbance in the land office. Harriman has ordered the consolidation of the two offices and Eberlein will be in charge of the headquarters at Portland. This is done as a matter of economy and it is very likely the office force will be changed when Eberlein gets through reorganizing.

LET GO WITH LECTURE. The half dozen young boys arrested for breaking street arc lamps were before Police Judge Hogue this morning. The lads range in age from 11 to 15 years, and belong to a gang in South Portland. Officer Lillis of the city engineer's office had rounded up the offenders and all pleaded guilty several days ago. The court was told that the parents of the youngsters had administered punishment. Judge Hogue and Deputy City Attorney Fitzgerald lectured the lads and then they were released.

DEPARTMENT STORE FAILS. St. Louis, Nov. 14.—A petition of insolvency was filed this afternoon against the Crawford Department Store company. The office has an \$800,000, and the assets \$500,000. Hugh McKittick has been appointed as receiver.

HOW DAVENPORT MADE HIS START

Sixty game fowls sold for \$60 gave Homer Davenport, the famous cartoonist, his first start in life.

The fowls were sold to McKinley Mitchell, then a merchant of Gervais, but now a resident of this city. Mr. Davenport has repeatedly said that but for Mr. Mitchell's purchase of the fowls it is not likely that he would ever have reached San Francisco and consequently attained the success which he enjoys today. In speaking of the sale of the fowls Mr. Mitchell says:

"It was in the fall of 1888, while Mr. Davenport was living on his father's farm near Silverton, that I received a letter from him offering to sell me 60 game fowls. I replied that I did not want chickens with me and I could not pay any more for a game fowl than I could for an ordinary one. Homer argued with me and said that I could raffle the birds off to my friends for a good sum. He then told me that he would take out the entire bill in clothing and after some little talk it was decided that I was to pay \$1 each for the fowls and the entire was sum to be in trade. The deal over, Homer picked out several suits of cheap clothes, some underwear, and in fact an entire outfit. The chickens he sold me were all worked on a Portland paper, but had made a dismal failure. He wanted the clothes, as he was thinking of going to San Francisco and applying for a position on one of the papers there. After getting the clothes he in some way gathered enough money to take him to San Francisco, where he went out one day to the race track and drew a picture of a race. He submitted it to the editor of the Examiner, and with the rest of the story of his success the public is entirely familiar.

"The chickens he sold me were all named, and nearly every one had a picture drawn of it. These Mr. Davenport presented to me in order to thoroughly advertise the flock. I got up a raffle and succeeded in selling the entire lot for a slight advance over what I had given him in clothing. The birds were all named after famous pugilists, such as 'Jack McAuliffe,' 'Jack Dempsey,' 'John L. Sullivan' and 'Young Mitchell.' By the raffle I succeeded in stocking the entire Gervais country with the fine-bred Davenport birds.

"Young Davenport was a very friendly lad and had a host of friends all through the Silverton-Gervais section. No one had very much confidence in him at that time and were it not for the fact that we used to play baseball together at Gervais and were rather much of chums I hardly think I would have made the deal.

"When Homer was in San Francisco and had begun to climb up the ladder of fame, a young man who worked in the Examiner mailing room at night and went to the public schools in the daytime took his fancy. Going up to the lad one day he asked him his name and was told it was Mitchell and that he came from Oregon. 'Are you acquainted with McKinley Mitchell of Gervais?' the lad was asked, and upon being told that McKinley Mitchell was his uncle, Davenport at once held himself to the matter and secured the boy a better position.

"When Davenport comes to Portland he never forgets me and some time ago I paid a visit to New York. I was invited over to his magnificent home, I was also given one of his photographs, which he had inscribed, 'Once he helped me out.' The photo had a pen and ink sketch of the cartoonist when he was a mere country boy and in his hand he held one of the game fowls from which he made his start in life.

"I attribute Mr. Davenport's success more to his ability than to what is called good luck."

CHIEF KIND TO MEN ACCUSED OF BUNKO

The examination of E. Stevens, the proprietor, and W. A. Armstrong and Patrick Roach, "honsters" for a shooting gallery in North Third street, was held in the police court this afternoon. The three men are charged with robbery by Jacob West, a Finn, who is unable to speak English.

West's testimony was interpreted by Patrolman Leakeon. West said that he first paid 10 cents for a shot. Then he was charged 25 cents with the chance of winning a \$5 prize. Later he paid 50 cents and was told he might win \$15. Then he put up \$1 a shot and was informed he might get a \$30 prize. Stevens was in charge, while Roach and Armstrong stood in the crowd with him. When he desired to stop, Stevens said he would surely win the next time.

TRAIN ROBBER GETS TEN YEARS

Charles Hoehn this afternoon pleaded guilty to being one of three men who held up and attempted to rob the Oregon Railroad & Navigation company's train near Corbett on the night of last September 23, and was sentenced to serve 10 years in the penitentiary, by Judge Cleland, in the state circuit court.

Commitment papers have been made out and the bandit will be taken to Salem tonight.

Hoehn yesterday pleaded not guilty, but apparently realizing the hopelessness of his case, asked to change his plea today.

He was arraigned yesterday on two charges, one for assaulting O. P. Barrett, the engineer of the train, and the other for assaulting Express Messenger Korner. He pleaded not guilty to both charges.

ENTERTAINMENT TO LIQUIDATE THE DEBT

Elaborate preparations have been made by the parishioners of St. Patrick's church for a bazaar which will open tonight at 336 Washington street, and will continue for ten days. The proceeds of this bazaar are to be devoted to liquidate a debt of \$12,000, which has long been a heavy weight on the church. The hall has been handsomely decorated for the occasion with bright colored bunting and the attractions will be of the most interesting nature. Among the many objects to be contested for will be a handsome building lot in City View Park, and another a fine oil painting of the late Archbishop Gross.

NINE DAYS ON THE ROCK PILE KEPT IN CHAINS; DEMANDS \$15,000

GUY KELLY, A NOTRE DAME PARASITE, ADMITS THAT HIS WIFE IS LIVING IN THE SLUMS AND HE IS SENTENCED FOR VAGRANCY BY POLICE COURT JUDGE.

Suit for \$15,000 has been brought in the state circuit court against Chief of Police Hunt and City Detectives John F. Kerrigan and Frank J. Snow, by Edward C. Lewis, also known as "Jerry" Leslie, and recently acquitted on a charge of murdering Max Calor. In connection with Leo Griggs, on the night of June 22, Leslie charges that he was falsely imprisoned.

For 16 days Lewis declares he was imprisoned in the city jail, where he was subjected to the indignities of a criminal of the worst stripe. He asked, he says, that he be taken before a magistrate, but the demand was refused, as well as another that he be permitted to secure the services of an attorney.

Lewis claims that he was taken to the city jail on September 24, and at once thrust into the "cold storage," which he describes as a dark, damp, filthy cell, where he was confined for four days. Then he was removed, he says, but his feet were manacled and he was kept in chains for 12 days more.

As a further charge of damages he alleges that his photograph was taken against his will, and placed in the rogue's gallery.

Three Found Guilty. (Journal Special Service.) St. Louis, Nov. 14.—Barrett, Nolan and Garet, tried jointly on charges of naturalization frauds, were found guilty this afternoon. The jury was out since 4:30 o'clock yesterday.

Held by Jury. New York, Nov. 14.—The coroner's jury today held Williams for the murder of Green.

Today he was arraigned on a charge of murderous assault on A. T. Stevens, a brakeman, and entered a plea of guilty.

The maximum penalty for assault with a dangerous weapon is 20 years. Considering that Hoehn has four counts against him, which would aggregate 80 years if given the limits in each case, his sentence is considered light.

On motion of Assistant District Attorney Spencer, Judge Cleland issued an order releasing James McGuire and Robert Hayden, held as witnesses in the case. It is said that Sheriff Storey has insisted that both men were implicated in the case. McGuire is a rancher and Hayden was riding on the trucks of the train that was held up.

Another frock in this fortunate young woman's wardrobe which you may remember never to see made of blue velvet, panne instead of silk velvet being employed. The skirt shows the seams overlapping each other and rounded away at the bottom not unlike a tulle effect. From the lower edge of the hem almost to the knees the skirt is decorated with dark greenish-blue enameled buttons to accentuate the rounded-away idea. There is not a suggestion of fullness about the hips, and a row of buttons smaller than those used on the bottom of the skirt running across the hips might prove foundation for the assertion that the lower part of the skirt consisted of a deep pouce buttoned to a hip yoke of the same material. The opening, however, is accomplished in a very simple manner.

The sleeves are plaited at the shoulders, but below the elbows the plaits are allowed to fall unconfined into a rather square plait, which is fastened to the wrist, when they are gathered again into a close-fitting cuff trimmed with the heavy embroidered flowers.

Nothing short of a great assemblage of fashionable folk could give the model of gowns for the sake of novelty. Yet some very delightful models are on exhibition for the horse show. A lustrous black satin costume shows the skirt embroidered in fuschias, with the decorative pattern of the bodice. Bands varying in width from five inches to one are applied upon the skirt from belt to hem, and the white mouseline yoke of the wrist is bordered with the trimming. The sleeves are of black Chantilly, falling the line of the shoulders after the angel pattern. Underneath is another sleeve of the satin gathered into a cuff of lace and embroidery.

Some very handsome black gowns with small bows in the most delicate colors are worn. Pink, blue, pale green and mauve constituting particularly charming color schemes. With a black point d'esprit over pale rose satin there comes an evening hat which is a compromise between a turban and a cloche. It is made of pale silk chenille and has the turned brim faced with folds of chiffon. No other trimming than an osprey adorns it. The task of duplicating such a design would be comparatively easy, because almost any one could put the osprey in place, or a rosette of velvet or

Seventy-two Years of Age; Kidneys and Bladder Healthy

"Years Ago," Says Mrs. Hanson, of Brooklyn, N. Y., "I Had Inflammation of the Bladder and Kidneys; My Back Ached Incessantly, I Suffered Nervous Dyspepsia and Could Not Sleep, but Was Completely and Permanently CURED BY WARNER'S SAFE CURE and Have Kept Perfectly Well Ever Since."

MRS. HANSON'S LETTER. "Many years ago I had inflammation of the bladder so badly the doctor told me I was threatened with diabetes. My kidneys were so inflamed that the quantity of urine passed was scanty and contained sediment the color of brick dust. I had nervous dyspepsia and was unable to sleep. In fact, the whole system was in a state of derangement. I neglected, quickly spreading through the whole system and causes Bright's disease, gravel, diabetes, rheumatism, indigestion, female weakness, inflammation of bladder, blood poisoning and other serious complications, with death in convulsions."

"Two bottles of Safe Cure did me more good than all the years of doctoring. I took it while longer and was completely and permanently cured, not only of bladder trouble, but also of kidney disease, and have never had another attack of either."

"I am now 72 years of age and my bladder and kidneys are in perfect condition. I am very grateful for all Safe Cure has done for me, and I recommend it heartily to every one suffering as I did."—MRS. M. HANSON, 96 Elliott Place.

We have thousands of such letters from grateful men and women who have been rescued from lives of suffering and death by Safe Cure after all else had failed.

The kidneys have more to do with keeping the system healthy than any other organ of the human body, and yet are the weakest of all and the soonest to become diseased. Neglected, quickly spreading through the whole system and causes Bright's disease, gravel, diabetes, rheumatism, indigestion, female weakness, inflammation of bladder, blood poisoning and other serious complications, with death in convulsions.

YOU HAVE KIDNEY DISEASE

If you have pains in back of head, rheumatism, gout, swellings, gravel, indigestion, dizziness, sleeplessness, constipation, torpid liver, nervousness, blood troubles, aching, painful passing of urine, reddish-brown sediment in urine which stands 24 hours, or, if a woman, painful periods, bearing-down sensation, fainting spells or female weakness. These are the signs of kidney disease. The kidneys have been affected for months and have reached a very dangerous stage. There is a minute to lose—you should at once begin taking WARNER'S SAFE CURE, but for 50 years has been recommended and prescribed by doctors everywhere. It is a safe, certain and permanent cure for all diseases of the kidneys, bladder, liver and blood.

It soothes inflammation and irritation, repairs the delicate tissues, heals weakened organs, restores energy and vigor and builds up a strong, healthy body.

FREE ANALYSIS If you have any doubt as to the development of the disease Department of Warner's Safe Cure Co. will analyze it and send you a report, with advice and medical booklet, free. Beware of kidney cures that are full of sediment and of bad odor—they are positively harmful and do not cure. Ask for WARNER'S SAFE CURE. It will WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

FASHIONS FROM NEW YORK

(Journal Special Service.) New York, Nov. 14.—Fashions for the horse show were never so beautiful as they are this year. Smart couturieres have employed every possible detail of dress for this wonderful exhibition of "beauty and the best" to enhance the loveliness of the lady's toilets.

Velvet gowns will be in the ascendency, with rich russet brown and the new shade of blue veiling for popular approval. Both have their advantages, with the sole possible disadvantage of being trying to certain complexions, and it is the smart thing to have a touch of white in the trimming, no matter what other tints are used in the decoration.

From a fashionable standpoint the horse show will be a distinctly American affair, for few of the toilets worn by society women will be of foreign design. A handsome gown designed for an American belle is a novelty. A titled foreign designer is developing in russet-brown velvet and lined throughout with white satin. The skirt has seven gores, with plaits at the back. At each seam there are inset pieces of brown peat de sole decorated with the finest gold embroidery and heading the seams are three short straps fastened with buttons.

The coat is a half-long, close-fitting affair, with gathered skirt piece trimmed with satin braid in scroll design. It opens over a yoke piece of embroidered white cloth, which is skillfully decorated that only a bit of the white is visible here and there.

The sleeves are of the bishop pattern, with cuffs of the white cloth, lined with white satin and edged with a tiny brown silk cord.

Smooth silk beaver hat, trimmed with a white bird, artistically wound about with rich brown satin ribbon, completes the costume.

Another frock in this fortunate young woman's wardrobe which you may remember never to see made of blue velvet, panne instead of silk velvet being employed. The skirt shows the seams overlapping each other and rounded away at the bottom not unlike a tulle effect. From the lower edge of the hem almost to the knees the skirt is decorated with dark greenish-blue enameled buttons to accentuate the rounded-away idea. There is not a suggestion of fullness about the hips, and a row of buttons smaller than those used on the bottom of the skirt running across the hips might prove foundation for the assertion that the lower part of the skirt consisted of a deep pouce buttoned to a hip yoke of the same material. The opening, however, is accomplished in a very simple manner.

The sleeves are plaited at the shoulders, but below the elbows the plaits are allowed to fall unconfined into a rather square plait, which is fastened to the wrist, when they are gathered again into a close-fitting cuff trimmed with the heavy embroidered flowers.

Nothing short of a great assemblage of fashionable folk could give the model of gowns for the sake of novelty. Yet some very delightful models are on exhibition for the horse show. The task of duplicating such a design would be comparatively easy, because almost any one could put the osprey in place, or a rosette of velvet or

DR. W. NORTON DAVIS

VALLE-PRINCETON'S GREAT FOOTBALL

New Haven, Nov. 14.—Final score: Yale 9, Princeton 11. (Journal Special Service.) New Haven, Conn., Nov. 14.—Yale won the tons and Dewitt kicked off at 2:17 o'clock and the battle was on. Metcalf for Yale, returned to the regular line before dawned. After three downs Mitchell punted out a punt on Princeton's 17-yard line, and through Princeton's wall, Dewitt went to Yale's 50-yard line. Metcalf went through for three yards in a hole big enough to drive a wagon, though it was magnificently guarded. Hogan added five yards and Metcalf gained one. Dewitt was hurt in the right shoulder, but returned to the game. Princeton's line went down before Hogan's terrific crash like paper. Mitchell then kicked the ball. Yale 6, Princeton 0. First half.

New Haven, Conn., Nov. 14.—The day for the biggest football game ever played between Princeton and Yale dawned gloomy, but as it advanced the weather cleared. Immense crowds augmented last night's arrivals with the usual following of fakers. Betting was light. Princeton men giving two to one. No teams seemed each other this afternoon. The field was soggy, but the sun was shining. Crowds gathered early. Twenty-five thousand were in their seats by 2 o'clock. There were two bands, continual shouting of college cries and their songs. The teams were in magnificent form. Princeton's back field was heavier but Yale had seven giants in the line.

Princeton followers went wild. They hugged each other and hurled mats in the air. Vatterliel kicked goal. Score, Yale 6, Princeton 0. Second half.

Cambridge, Mass., Nov. 14.—Yale first half: Harvard freshmen 11, Yale freshmen 6.

MICHIGAN-WISCONSIN. Ann Arbor, Nov. 14.—First half—Michigan nothing, Wisconsin nothing.

Chicago, Nov. 14.—First half: Notre Dame 0, Northwestern 0.

Sambridge, Nov. 14.—First half: Dartmouth 0, Harvard 0.

Philadelphia, Nov. 14.—First half: Carlisle 11, Pennsylvania 0.

"CLAM SHELL" STILL UNLOADING BARGE

Coal is still being discharged from the barge Washucna by means of machinery. Pickets from the longshoremen's union indicated the shoveler who was at work in the hold to quit this morning and the man-saving device is being operated with considerable difficulty.

There is now a man perched on the barge with a long pole which he jabs down into the hatch to stir up the coal. Then the shovel or "clam shell" or "orange peel," as the thing is variously spoken of, is lowered and gathers up a load of the black diamonds, which it elevates and deposits on the dock.

When the bottom of the hold directly underneath the hatch is reached the longshoremen are expecting Kern to capitulate. They assert that the "clam shell" will be unable to get at the fore and aft part of the barge and the only possible way that the coal deposits there can be moved will be for men to go down in those localities and shovel it out.

WOULD RATHER DIE THAN BE IN PRISON

(Journal Special Service.) Oakland, Nov. 14.—Gertrude Coquin, a wayward girl, 17 years of age, turned the gas on in the captain's office of the city prison last night with the intention of committing suicide. She tried to close the window. When rescued she feigned unconsciousness. She was despondent because she had been remanded to jail. George Omerod of the same age, decided he would rather die than serve four months and so wrapped a blanket about him and turned the gas through a tube reaching under the wrap. Fellow prisoners were afraid to touch him, as he has a record of being a dangerous fighter. One finally yelled, thus attracting the officers' attention.

MERRILL OBJECTS TO CEMENT WALKS

The agitation for the placing of cement sidewalks on all the streets within the city limits will be opposed by some of the members of the street committee. Councilman Merrill of this committee stated: "I am not in favor of extending cement sidewalks to all parts of the city at this time and will oppose the measure for the reason that in the thinly settled suburbs there are miles of streets where only a few people live, and it would be an injustice to the property-owners to place a large assessment on lots that are at present of but little value. Again, walks out in the country would be of no public utility, and throwing money away. I am in favor of any sidewalk or street improvement which will benefit the city and be of use to the public, but I see no sense in burdening small property-owners out in the country with unnecessary expense."

DAMAGE SUIT FAILS

(Journal Special Service.) Toledo, Ohio, Nov. 14.—Ketcham today said Crescens will never again appear in public except for charity and in Toledo.

ABANDONED SERVICE

(Journal Special Service.) London, Nov. 14.—The British ship Arranmore from Astoria, Or., is ashore and wrecked at Algora bay. Her cargo had been discharged.

HIGHER RATES FOR TOURIST SLEEPERS

AFTER DECEMBER 1 THE CHANGE WILL BE ADVANCED TO JUST WHAT EXTENT THE PULLMAN COMPANY HAS NOT YET ANNOUNCED—TOO POPULAR.

Local passenger agents have been notified by the Pullman company that after December 1 of this year rates for second class sleeper accommodations will be increased. The amount of the increase has not yet been announced, but after November 30 the various roads using Pullman cars will make a proportionate advance to their patrons. The second class sleeping cars have, within the last few years, almost put the regular Pullman cars out of business. All roads have reported greatly increased demands for tourist sleepers and a continually declining demand for the regular berths. The tourist sleepers were cool in summer, well heated in winter, the berths were good and the service excellent, about the only thing they lacked being adornment, and this did not diminish their value to the traveling public, that wished to sleep and hated to pay another fare for the privilege. To increase the amount of net returns the increase has been ordered, and the saving in taking a tourist sleeper will from now on be considerably less than formerly.

ME ONLY

Much Doing of a Few Things Makes Skill — We Have Done Very Much of a Few Things.

DR. W. NORTON DAVIS

YOU HAVE HEARD THE OLD EXPRESSION, "JACK OF ALL TRADES AND MASTER OF NONE." Let us apply this saying to the medical profession.

"Doctor of all diseases—master of none." Our specialist in men's diseases is master of every ailment belonging to this class. He has treated so many cases that he knows exactly what to do in every instance. There is not the slightest doubt as to what the results will be. In nearly every case he can prescribe a treatment which you can use at home till cured, with no inconvenience to yourself. He will charge you nothing for consultation in person or by letter, and if helpful suggestions are possible, he will be pleased to render them. Sacred confidence is observed in every case.

"Weakness"

So-called "weakness" in men is curable—fully curable. It has not been cured by those measures commonly employed, for they are methods based upon supposition and not upon fact. Prematureness and loss of power in men is due to a chronic state of inflammation in the prostate gland, and not to a disordered nervous condition, as has been supposed. We treat this inflammation principally by a local process (which can be used at home by the patient, with no inconvenience whatever) that does not fail to accomplish its purpose, and with this condition corrected, full and complete strength and vigor returns.

Specific Blood Poison

This idea that specific or contagious blood poison is incurable still exists in the minds of thousands of physicians who are unable to relieve their patients with mercury, potassium and other dangerous minerals. Such treatment can only drive the disease deeper into the system, where it lies dormant for a time, then manifests itself in the form of bone decay or frightful eruptions. We positively cure this disease, never to return, in 60 to 90 days, and we use only vegetable remedies that have no harmful effects.

Varicocele

Without using knife, ligature or caustic, without pain and without delay, from business, we cure varicocele.

If you have sought a cure elsewhere and been disappointed, or if you are a physician who is unable to relieve your patients permanently by a gentle and painless method. Don't delay. Varicocele has its dangers and may be a disastrous result.

If you will call we will be pleased to explain our method of curing.

Stricture

We cure stricture without cutting, without dilating and without pain. Harmless remedies dissolve the obstructing tissue and cleanse all affected membranes.

Contracted Disorders

We cure contracted disorders thoroughly and in half the usual time. We use our own remedies of our own devising. Do not take chances by relying upon uncertain methods.

PILES

Quick Cures. Certain Cures. We cure the worst cases of piles permanently without the use of ointments, without cutting or detention from business. Relief from two to three treatments. Our treatment is entirely new and peculiar to ourselves. Remember, no matter who has failed before in your case, we will cure you with mild methods, and without surgery or use make no charge whatever for our services. Should you live at a distance, we can treat you successfully at home.

WE ARE ALWAYS WILLING TO WAIT FOR OUR FEE UNTIL A CURE IS EFFECTED.

Our instructive book describing male anatomy free. All cases treated successfully at home. Consultation free.

OFFICE HOURS: 9 a. m. to 12 m.; 2 to 5 and 7 to 8 p. m. Sundays and holidays, 10 a. m. to 12 m.

DOCTOR W. Norton Davis & Co. 145 1/2 Sixth Street, Cor. Alder, Portland, Or.

P. M. Masse's \$10,000 damage suit against M. Sellar & Co. was dismissed by Judge George in the circuit court today, because Masse had failed to make out a case. Masse sued to recover for injuries sustained in falling down an elevator shaft in Sellar & Co.'s store room, July 27.
