## OREGON CITY

**NOTICE.**—Oregon City subscribers will please take notice that the office of The Journal has been established at the corner of Olive and Commercial streets, next to depot, where subscriptions, complaints, payments, etc., will be received and attended to at the longest of times. The Journal is owned by Geo. W. Foster.

### PAT. FINUCANE SAYS, "PLEASE EXCUSE ME"

(Journal Special Service.)  
Oregon City, Nov. 19.—Pat Finucane, who was last week petitioned to make the race for mayor of Oregon City, this morning issued to the press the following announcement:  
"I have been informed that a petition was circulated in the town and had already obtained many signatures, requesting that my name be placed in nomination for the mayoralty of Oregon City. While thanking my many friends for the honor they would confer on me, and for the loyal support they promise me if I should become a candidate, I, after due deliberation, do most respectfully decline the nomination. Yours respectfully,  
"P. FINUCANE."  
This leaves the present mayor, G. B. Dimick, as sole contestant for the office.

### A Mock Congress.

The organization of a mock congress, made up of the school boys and girls of Oregon City, is one of the most novel organizations that has ever been perfected here. The organization is under the direction of Rev. J. H. Heaven of the Baptist church. Both houses of the United States congress are represented. The senate is represented by the boys, while the house is made up of the gentler sex. Meetings are held at the two houses on different nights of the week, and the legislation of one body is submitted to the other body for consideration. Each member of the mock congress is supposed to represent some state or territory of the United States. Both houses are regularly officered and proceedings are conducted in accordance with the rules that govern the national body. It is believed that the boys and girls who are taking part in the meetings will gain much more information concerning the workings of the national congress and about civics in general than they would learn by taking a course of civil government in the schools.

### The Hartigan Case.

In the \$15,000 damage suit of Hartigan vs the Southern Pacific railroad every point is being strongly contested and the case will not likely reach the hands of the jury before tomorrow. Hartigan closed his case about noon yesterday. The defense introduced witnesses who testified that Hartigan's injuries are not permanent, and that he is now able to perform physical labor. A considerable amount of interest centers in the trial.

### Very Young Groom.

A marriage license was yesterday issued to E. V. Hoshack and Mat Glover of Eagle Creek, this county. The groom was considerably under age, and parental consent was necessary before a license could be issued.

### Wedding Tonight.

At the home of the bride this evening, Miss Maudie and Mr. Fred Greenman of this city will be united in marriage, Rev. E. S. Bollinger of the Congregational church officiating. A large number of invitations have been issued. The groom is deputy county clerk of Clatsop county, while the bride is one of our most popular young ladies. After the wedding they will depart for Puget sound points, where they will remain for a brief honeymoon.

### Stella Accused.

Thomas Clark has filed suit in the circuit court for a divorce from his wife, Stella Clark, on the ground of adultery. The parties were married in August, 1901. He claims that she has been unfaithful to marriage vows almost from the beginning.

### SETTLES \$2,000 INSURANCE CASE.

Clementine Hammerlynek's suit against the Order of Washington, brought to force payment on a \$2,000 life insurance policy, was settled shortly before the case was to go to trial in the state circuit court this morning. The policy was issued several years ago to Mrs. Hammerlynek's husband upon his death the company claimed the right to pay the benefit by installments, but Mrs. Hammerlynek demanded immediate settlement.

### COLLECTION OF GUNS.

Captain Edwards has been presented with a collection of guns from South Africa which he will add to his interesting assortment of curios at the custom house. They were given him by Captain Astrup of the barkentine Advertiser, which has just returned from a voyage to the dark continent. The guns consist of both a British and Boer rifle which did service during the war in the Transvaal. There are also a pistol and belt which belonged to a police officer of Johannesburg at the time of the hostilities. It is of a late design, and was manufactured by a Kimberly firm.

## EUGENE

### NEW HEALTH RESORT PLANNED FOR EUGENE

(Journal Special Service.)  
Eugene, Or., Nov. 19.—Articles of incorporation of the Oregon Mineral Springs association have been filed with County Clerk Lee in this city. The incorporators are: R. M. Ventch, Levi Geer, John Overholser, Dr. George Wall, J. P. Curran and B. C. Brown of Cottage Grove. The capital stock is \$50,000, and the objects of the corporation are to conduct a health resort at the London mineral springs, a few miles south of Cottage Grove, and to manufacture medical salts from the water of the springs and to place them upon the market.

### The New High School.

All the carpenter work on the interior of the new \$40,000 brick high school building in this city is completed and the contractors will turn the building over to the directors in a short time. It is expected that everything will be in readiness so that the school can move into the building immediately after the Christmas holidays. A part of the consignment of chairs and the desks has arrived and will be put in place as soon as possible. Workmen from Portland are now finishing putting in the heating and ventilating plants. The board of directors has ordered a Prentice program clock to be installed to sound gongs throughout the building, by which classes called and dismissed. Welch & Maurer of Salem are the builders of the new high school and they have performed their work well.

### Forger Brought Back.

H. H. Skewes, who forged a check for \$22.10 and passed it on a local store recently, was brought back from Pocatello, Ida., today, having been arrested there upon telegraphic advices from Eugene. He was taken before the justice of the peace, where he waived examination and was committed to appear at the circuit court next March. Failing to secure bonds he will lie in jail till then.

### GOSSIP OF THE NORTHWEST.

The Pendleton school board has taken preliminary steps toward organizing a company of high school cadets from the high school boys. It has been decided to purchase 50 Remington rifles for equipment, uniform the boys in caps and blouses.

### There are 13 old soldiers buried in Olney cemetery at Pendleton, whose graves have no tombstones. Money has been subscribed at Pendleton for the purpose, the government supplying the stones and the expense of putting them in to be borne by the charitable inclined.

### Death of Miss Covert.

Miss Frank Covert, daughter of L. M. Covert, city jeweler, aged 13 years, died this morning at 4 o'clock. Miss Covert had been indisposed for a couple of weeks, but was not thought to be seriously ill until a couple of days ago. Her illness grew worse until this morning. The funeral services and interment will take place tomorrow, beginning at 2 o'clock p. m.

### THINK HOP MAN WAS MURDERED FOR MONEY

(Journal Special Service.)  
Salem, Or., Nov. 19.—Coroner Clough was called to Butteville this morning to hold an inquest over the remains of L. B. Sanders, who was found dead on the street this morning, with two bullet holes in his chest and a revolver lying by his side. The deed is supposed to have been murder by highwaymen. Sanders is 55 years of age and lived at Butteville for 15 years. He is a hop grower and ran a boarding house. He was also agent for H. J. Ottenheimer, the Salem hop dealer. He leaves a widow, four sons and one daughter, all of them grown. Sanders was in good circumstances and the suicide theory is not credited. He was a man of good character, was very popular and is a member of the United Brethren church. Some of his friends are dead several hours. The coroner is holding an inquest this afternoon.

### CROOK COULD PULL THROUGH.

With No Extra Session, However, Business Would Be Tangled.  
Prineville, Or., Nov. 19.—The question of an extra session of the legislature, and the proposed measure to amend the present tax statute, are two of the least of Crook county's troubles. She is entirely out of debt, has an abundant surplus on hand and it is estimated that the deficiency at the close of next year, if no taxes are collected, will not exceed \$2,500. The county treasurer at present has a balance of \$17,968.24, cash on hand, and the running expenses for next year are figured at \$19,500, which includes two new county bridges to cost in the neighborhood of \$5,500.

### KIDNEY COLDS

Easily Recognized and Easily Cured as a Prominent Portland Man Knows.  
You've had a cold; so has everybody. Did it ever settle in your back? In the "small" just over the hips. Stay there, with a steady ache— "Kidney Colds."  
That's a "Kidney Cold." You can stop it.  
A Portland man shows the way. G. K. Parrish, the well-known musician, who lives at 33 1/2 Grand avenue, says: "My first attack of kidney complaint consisted principally of dull, aching pains across the loins. I paid little attention to it at first and it gradually grew worse. When I did anything which required exertion, or if I caught cold, I was sure to have backache in an acute form. I was feeling quite miserable some time ago and one evening while looking over the paper I noticed a convincing ad relating to Doan's Kidney Pills, which persuaded me to purchase a box at the store of the Laue-Davis Drug Co., at Yamhill and Third streets. The results I obtained from their use were satisfactory in every way."  
For sale by all dealers. Price 50 cents per box. Foster—Milburn Co., Buffalo, N. Y., sole agents for the United States.  
Remember the name—Doan's—and take no other.

## VANCOUVER

### SAALOONS VERSUS THE OTHER CLASS

(Journal Special Service.)  
Vancouver, Wash., Nov. 19.—Since the mass meeting Tuesday night politics have been running high. While the nominations placed before the convention were supposed to be non-political, it is really in a fight between the liquor association and the citizens' ticket. The association not only wishes to secure lower license, but desires to get in office men who will not, as they say, eternally persecute them. In the selection of the candidates to run for office, those who secured the highest votes are claimed to be candidates favorable to the association, and the other side, it is claimed, stand for citizens' rights.

### ALBANY

(Journal Special Service.)  
Albany, Or., Nov. 19.—Carl Mealey, the young Portlander who was reported lost in the mountains near Foster, made his way to Sweet Home, about 15 miles from where he became bewildered. He was in the mountains six days, and a storm raged during the entire time.

### LOST IN MOUNTAINS FOR NEARLY A WEEK

(Journal Special Service.)  
Albany, Or., Nov. 19.—Carl Mealey, the young Portlander who was reported lost in the mountains near Foster, made his way to Sweet Home, about 15 miles from where he became bewildered. He was in the mountains six days, and a storm raged during the entire time.

### Two Soldiers in Trouble.

Officers Gasaway and Blension last night arrested two soldiers, privates of the Twenty-sixth battery, who were caught in the act of taking and carrying away several merchants' signs. The arrest was made on Seventh street, about 30 feet from the garrison gate, and when arrested the men had in their possession a couple of signs, and were, it is said, intending to take them into the garrison, but for what purpose is a mystery to the officers.

### Cemetery Association Supper.

The Cemetery association gave a supper last night in the Masonic temple, the proceeds to go toward the improvement of the city cemetery. Last night's function netted it from \$75 to \$90.

### Death of Miss Covert.

Miss Frank Covert, daughter of L. M. Covert, city jeweler, aged 13 years, died this morning at 4 o'clock. Miss Covert had been indisposed for a couple of weeks, but was not thought to be seriously ill until a couple of days ago. Her illness grew worse until this morning. The funeral services and interment will take place tomorrow, beginning at 2 o'clock p. m.

### CHRYSAANTHEMUM FAIR.

(Journal Special Service.)  
Independence, Or., Nov. 19.—The annual chrysanthemum fair will be held in the opera house at this place on November 20. An excellent program has been arranged and the ladies of the Methodist church here are expecting an excellent display of flowers. Prizes will be given for the best specimens of flowers.

### BOQUETS FOR MRS. WEATHERED.

From the Greenwood (Neb.) Enterprise.  
Mrs. Edith Tozier Weathered of Portland, Or., was in the city Tuesday on her way East. Mrs. Weathered is editor of the Exposition, an illustrated magazine for the interests of the country. She is a native of Nebraska. The woman has done more free advertising of her native state than any man in it, and while here was interesting our citizens in the proposed fair. A man would expect to be reimbursed for such work as the Oregon woman is doing gratis.

### JUNIOR CLASS AT MONMOUTH.

Monmouth, Or., Nov. 19.—The officers elected for the junior class at the Oregon state normal school of Monmouth are as follows:  
William Metzger, president; Burns Powell, vice-president; Nellie Marvel, secretary; Winifred Arant, treasurer; Fred Crowley, marshal.

## ELDER COLLIDES WITH KELLOGG

With whistles blowing to give warning of her approach, the coast liner George W. Elder, in tow of the Ocklahama, crashed into the river steamer Kellogg late yesterday afternoon. The Elder was being moved from the dock of the Willamette Iron & Steel Works, where she had a new foremast installed. Before passing through the draw of the steel bridge, the Kellogg was noticed lying at the south end of the Alinsworth dock, and the Elder's whistle was blown for her to get out of the way. The steamer Northwest was moored at the same dock, just below the Kellogg, and it was impossible for her to move down stream. The Elder and her big escort were carried on the current at a rapid pace, and the steamer in front of them was caught in a trap. The Elder crashed into her, splintering the Kellogg's wheelhouse.

## HEARS EVIDENCE IN PROTEST CASES

General Appraiser De Vries of New York was in the city Tuesday and held a short session at the custom house. He took evidence in cases where protests had been filed relative to the duty charged on different classes of goods, and at a later date will render his opinion.  
The department has formed new regulations by which a board composed of three inspectors will visit all the ports in the United States, having cases of this character to be disposed of, twice a year. The members of the board will attend exclusively to all work of this nature.  
From here Mr. De Vries went to Puget sound, where he will conduct similar sessions.

## LOCAL INSPECTORS GO TO IDAHO

Local Inspectors Edwards and Fuller left this morning for Bonner's Ferry, Idaho, to inspect the steamer Errand Boy, which plies on the Kootenai river.  
The inspectors have to cover a big territory, which extends over a portion of the four states of Oregon, Washington, Montana and Idaho. In other words they inspect all the steamboats subject to government inspection from the Oregon coast to the Rocky mountains in the country drained by the Columbia river and its tributaries. Included in this district is the Pend d'Oreille river and the Coeur d'Alene lake.

## WILL COME IN TOW.

The British ship Vincent, under charter to load grain at Portland, is expected to arrive at the city Tuesday. The Columbia river tugboat company, and is expected to leave down the coast today.

## SOUTHERN PACIFIC HAS NOT YET ACTED

Professor J. L. Bohannon's Cancer Doctor Co. is now in Portland. We have proved to the world that we can cure any cancer before it poisons deep glands. A lump in a woman's breast is cancer. Any lump anywhere is almost always cancer. No doctor can draw the line so fine as to tell where a tumor ceases to be a tumor and becomes cancer. Lumps or open sores on the face, lip or any portion of the body for six months is cancer. Cancer may give but little pain until cure is hopeless. We have 30 years' practice and have permanently cured more cancers than any doctor living. Why experiment with the winking X-Ray until your case is hopeless? When you can have a guarantee cure or no pay. The X-Ray has many names, such as Chemical X-Ray, Roentgen Ray or any new name to attract attention and fool the people. The X-Ray or knife never cures cancer. We were here one and one-half years ago and treated and cured a number of persons, some of whom you can see by coming to our office. Others that were treated with the X-Ray and others with the knife are dead, while our patients are well and hearty. Come and investigate.

"We do not know when the Southern Pacific will reply to our petition. Mr. Campbell has not intimated when he would give us an answer nor when we would have another conference, should there be one," said Secretary Francis of the City Retail Lumber company this morning.  
"We are not depending entirely on the action of the company at this time, for we are contemplating the case of securing data for further action should it be necessary, but until we definitely learn from the company what it can do we will take no active steps. We are not resting on our oars, however."  
"Through every except has been made to inspect machinery set in motion by the lumbermen and the company, it is known that after the conference with the lumber dealer and millmen Mr. Campbell sent a lengthy telegram to General Traffic Manager Stubbs of the road in New York, and until a reply is received to this telegram no announcement will be made by Mr. Campbell or any local representative of the Southern Pacific."  
It is All Indefinite.  
It is denied by men in attendance at the conference that Mr. Campbell gave them any complete product. The road in New York, and until a reply is received to this telegram no announcement will be made by Mr. Campbell or any local representative of the Southern Pacific.

## Keep Up Wages.

In reply to a question concerning local wages, Mr. Francis said:  
"We could get men for 15 per cent less than we are paying, but we promised that we would keep up wages and we have done so. The local mills find that the demand here has fallen off greatly for the past few months. They are at 25 per cent less than in the spring, logs have declined and we hope to come out even and leave wages untouched. If the shortage continues, however, local mills will not only cut to three-fourths time, but they will begin to draw in more and more, and the time of a definite shutdown cannot be far off unless we secure cars."

## INDEVELOPABLES CARGO.

An advance manifest sheet from the liner Indravelli, now en route from Yokohama to Portland, shows that the vessel is bringing 2,450 tons of goods and 150 stowage passengers.  
More than half of the cargo is consigned to Portland and other Pacific coast merchants. The amount going to interior points consists of 1,150 tons. Of the 160 passengers, who are Chinese and Japanese, 60 are ticketed through to Portland, while 90 will disembark at Victoria, B. C.  
The steamer sailed from Yokohama on November 10, and with fair weather and a good breeze in the right direction the officers and crew will reach here in time to eat their Thanksgiving dinner. The steamer is considerably late this trip on account of a minor accident which occurred to her machinery while on the outward voyage.

## STEAMER NAVARRO WILL BRING SOME 8,000 CASES OF FISH FROM REED'S CANNERY AT GARDNER DURING THE NEXT FEW TRIPS.

On her return trip from Coos Bay the steamer Navarro, now in port, will stop at Gardner, on the Umpqua river, and receive a cargo of salmon from W. P. Reed's cannery at that place. There are 8,000 cases for the steamer to bring from there, equivalent to about 350 tons. In addition to the regular freight which she brings from the Coos Bay towns, the Navarro will probably have to make two trips to move the salmon north.  
So far the operation of the Coos Bay steamer shows that it was not an unwise move on the part of the company to establish the new line. Going down the coast she is laden with freight to the guards, and would go out with twice the cargo if her capacity would permit.

At first some hesitation was indulged in for fear that the steamer would be unable to secure any freight coming this way. With the salmon which has been offered her she will now return with full cargoes for the next few trips at least. By that time it is expected that such and deer factory at North Bend will be opened up for business, and the steamer will then very likely receive all the freight that she can possibly handle.  
F. P. Baumgartner, local manager of the line, will leave tonight for Milwaukee, where he will remain two or three weeks visiting his parents. He will be accompanied by his wife.

## RHEUMATISM

Kidney, Stomach and Nervous Troubles are Positively Cured with Oil of Eden and Sweet Spirits of Eden. Why? Because these remedies, but in expensive cure. \$5 will buy the lot. Sold by all first-class druggists.  
Much Believed and Life Prolonged for Years by Use of Oil of Eden.  
I was afflicted with Fibrous Tumor and was treated at one of the best hospitals I could find. It was finally told she was incurable and could only have a few months to live. This was very discouraging and knowing what Oil of Eden had done for a sore leg of mine, I decided to try it. I bought a bottle of the Oil of Eden and used it for a year and a quarter, and we kept her alive for many years by the use of Oil of Eden. Its use will bring joy and happiness to many, if only used, as it is a most wonderful remedy. Don't commence to use the Oil of Eden and quit because you see blisters and matter, but continue as long as these impurities come to the surface, for that is the cause of the disease, and when no more matter and blisters come to the surface the disease is removed. Then Oil of Eden will have no more effect than olive oil. Placerville, Cal. GEO. C. FOSTER, July 16, 1903.
