

FAVORS TEMPORARY BIG FAIR HOTEL

**MANAGER BOWERS OF THE HOTEL
PORTLAND THINKS A HOSTELRY
NEAR LEWIS AND CLARK
GROUND WOULD BE GREAT CON-
VENIENCE AND PAY PROMOTERS.**

"To accommodate the rush during the Lewis and Clark fair," said Manager H. C. Bowers of the Hotel Portland, who has just returned from three weeks in Chicago and San Francisco, "I would advise the erection of a temporary hostelry near the exposition grounds. It should be run on the European plan with a large restaurant in connection. I think \$150,000 or \$200,000 would cover the expense and I believe the proposition would pay. Let it be run at moderate prices, with good service, good meals. There is no need of anything fancy or elaborate, but something good."

Mr. Bowers has in mind an institution something along the order of the Napoleon Bonaparte, the large hotel being erected at St. Louis. This huge hostelry will be two stories in height and will contain from 2,000 to 3,000 rooms. It will be the largest hotel in the world and will cover several blocks.

Would Suggest 3,000 Rooms.
"A hotel of 1,000 rooms would be about what we need," he continued, "and I suggest that a company be formed to carry on the project. There is no question but that the money can be secured. Let the hotel, a two-story temporary building, be put up near the fair grounds, with direct street car connection with the city. It should be made attractive and should have nice grounds."

More hotel room is needed in this city, says Mr. Bowers, but whether the Portland will enlarge, he is not in position to state. "If we don't," he remarked, "some one else should put up another hotel. Business is exceptionally good and it will continue."

An \$8,000,000 Hotel.
There is talk in the East of another hotel in Portland, said the manager, and he was asked concerning the needs of this city along this line. Hotel business in San Francisco and Chicago is reported as very good and New York capitalists are contemplating the erection of an \$8,000,000 house in the "Windy City." This hotel will be 16 stories high, will contain 1,200 rooms and rival the Waldorf-Astoria in elegance.

The converting of the Goodnough building at Fifth and Yamhill streets into a hotel, Mr. Bowers does not think advisable. "I looked over the place with a view of using it for an annex," he said, "but do not consider the building adapted for hotel purposes."

NEW TIME TABLE ON BORING ROUTE

Beginning today the new line of the Oregon Water Power company to Graham, Lents, Boring and beyond has regular service, the electric power line having been completed to allow of trolley service to Boring.
Under this schedule cars will leave

Portland for Lents at 7:40 a. m., 10:30 a. m., 1 p. m., 3:40 p. m. and 6:20 p. m. All of these cars but the last will go on to Graham and Boring; the cars leaving Portland at 7:40 a. m. and 3:40 p. m. will make stops at Eagle Creek and Casadero. A car will leave Lents at 8:30 a. m. and will run to Graham; returning it will leave Lents at 7 a. m. and will arrive in Portland at 7:40. The cars leaving Portland for Lents at 10:30 a. m. and 1 p. m. will stop at Boring and from there will make the return trip to Portland; they will arrive back in the city at 1 p. m. and 3:40 p. m., respectively, and then will start on the through run to Casadero and Eagle Creek.
A local freight service will be conducted every day but Sunday. The freight car will leave Portland at 7 a. m. and will arrive in at 11 a. m.

JUDGE HOGUE'S HINT TO STREET LITTERERS

By his remarks from the bench Municipal Judge Hogue yesterday declared himself as willing to fine contractors and others who persist in littering the streets with refuse or blocking the thoroughfares.
"I am heartily disgusted with the slack methods employed by some contractors in cleaning up after they build

IF I were the chief of police I would order the officers to be very strict about this matter. In a city of this size it is a shame the way the streets are littered up," said the court, and he showed that he meant what he said by the decided manner in which he dealt with the three defendants.
The crusade was begun by Patrolman John Lee, who swore to complaints charging William Hois, E. A. Lynds and D. W. Ward with blocking the streets with refuse "not building material as defined by the ordinance." All the defendants pleaded not guilty and after the case had been heard the matter was continued until tomorrow.
Assistant City Attorney Fitzgerald said he did not wish to be severe on the contractors and asked that they be given a chance to remove the obstructions. However, Judge Hogue thought they should be punished. As the case was continued they will have opportunity to clean up before sentence is imposed.

You Not Only Secure All the Advantages

As far as LIGHT is concerned, by having your house wired, but many devices, such as

- Electric Curling Irons
- Electric Disc Heaters
- Electric Chafing Dishes
- Electric Heating Pads
- Electric Sad Irons
- Electric Stew Pans

And others too numerous to mention can be used

THERE ARE A FEW TESTIMONIALS IN THIS ADVERTISEMENT

They are from out-of-town people cured of their afflictions by Dr. N. J. Fulton, the renowned local doctor who HEALS HER PATIENTS WITHOUT THE USE OF A PARTICLE OF MEDICINE

Dr. N. J. FULTON, Naturopath.

In this space next will appear testimonials from Portland citizens who have likewise been treated and cured, and suffering ones are invited to scan these closely to the end that they MAY THEMSELVES BE HEALED!
Dr. Fulton is a careful, patient, conscientious woman, who came to Portland with the best recommendations possible to be written. She effected astounding cures before; she has been equally successful since locating here. THERE IS NO DOUBT OF THIS! EVERY WORD OF IT IS TRUE!
She cures according to Nature's methods. She uses the Higher Remedy, not the nostrums of the day. She charges nothing for consultation. She will give a treatment free. She is glad to do this. She wants all to understand her, and if there be ONE reader of these words afflicted with any of the ills of life, he or she is cordially invited to TEST THE VIRTUES OF SCIENTIFIC TREATMENT that cures their ailments without poisoning their blood.
The testimonials that follow speak for themselves:

LIFTED FROM THE GRAVE.
ATLANTIC, Ia., May 1, 1903.—I was poisoned and paralysis followed. I was entirely helpless; my limbs were useless. I had tried doctors here and a specialist in Omaha, without beneficial results. In despair I employed Dr. N. J. Fulton and am perfectly restored to my former healthfulness and strength. I am bookkeeper by occupation. I consider that Dr. Fulton has lifted me from the grave.
A WOMAN CURED.
ATLANTIC, Ia., Aug. 26, 1900.—I had suffered horrible torture for a number of years from female diseases. I tried numerous drug physicians, but grew worse constantly. I had to be carried up and down stairs. I was told that a surgical operation would be necessary. I was fortunately directed to Dr. Fulton, who saved me from the knife, and without drugs or incision I was perfectly cured, and am happy as I am strong. I bless the day that I met Dr. Fulton, and most cheerfully recommend her to all women who may require the services of a doctor.
Mrs. Lizzie Christensen.

ATLANTIC, Iowa.—I was stricken with rheumatism; suffered greatly; tried many physicians; they gave me remedies that afforded no relief and created stomach troubles; went to St. Louis for treatment, and still no relief. Finally I was advised to see Dr. Fulton, was treated by her four weeks and now am well.
IDA MARTIN.
Miss Martin is now one of the leading musicians and teachers of St. Louis.

ATLANTIC, Iowa.—Dr. Fulton treated me six weeks for catarrh of head, throat and stomach, and deafness caused by these afflictions, and in that time I was completely cured. And this after I had tried many drug physicians, one of whom said I could not be cured. I am as well as I ever was at any time in my life.
MRS. M. E. GOTHARD.

LEWIS, Iowa.—After ten years of growth and four surgical operations I was entirely cured of polyposus by Dr. Fulton with eleven treatments. I had been butchered by one physician until he said he was afraid to cut me again, fearing he would kill me. Now I am as well as I ever was, and that without a drop of medicine or the use of surgery. I rejoice in my heart that I found Dr. Fulton. I have no language capable of expressing my gratitude to her.
W. G. KENNERLEY.

ALL DRUGGISTS.

THE ELECTRIC CURLING IRON

May be attached to any lamp socket, heats quickly and renders unnecessary dangerous heating devices in the dressing room.

THE ELECTRIC DISC HEATER---or Portable Stove

Has universal application. Their form is such that they can be used for heating anything that can be placed on a flat, hot surface. It is indispensable in the nursery or invalid's room.

THE ELECTRIC CHAFING DISH

Requires no alcohol, but is always ready for use.

THE ELECTRIC HEATING PAD

Is extremely useful as a foot-warmer for invalids or elderly people, and proves to be a household necessity where used. Operates on any incandescent light circuit.

THE ELECTRIC STEW PAN

Is a universal utensil, very attractive in appearance, and has proved to be one of the most salable of electric heating devices.

BY USING THE ELECTRIC SAD IRON

A greater amount of work can be done by an operator in a given time with more ease and comfort than is possible with any other iron.
