COLUMBIA RIVER

CENTS A POUND-FOTATOES AND

Front Street, Dec. 11 .- The principal items of interest in the local markets

First Columbia river smelt arrive. Potato market very quiet. Onions continue dull. Pork receipts larger. Apple market very dull. Exciting demand for poultry. Eggs stop at quotations. Holiday orders coming.

Pirst Smelt Are In.

The first Columbia river smelt to b seen in the wholesale section arrived on the street this morning and found a good demand at 40c a pound. Indications now point to a very large run of smelt during the coming season, and prices will soon begin to drop to their accustomed level. Last season the arrivals of smelt were so large that the prices obtained in the wholesale markets did not in many cases pay for the freight charges, let alone pay for the boxes and the time in catching them. Other branches of the fish market were quite lively today, especially during the early morning, when the retailers arrived to buy for the day's business. Prices are unchanged. Potatoes Very Dull.

Extreme dullness is noted throughout the entire potato market, the demand from San Francisco at this time being practically off on account of the larger olidays. The high paid by the and many farm the former high hed. Some fow p the valley, but prices higher than ally stand and were p surposes only. The price for potatoes now being paid by the

ability of the Portlanders to deliver the goods. The present duliness in ontons is not due to this case, but only on account of the too heavy receipts of late in the San Francisco market. At home but little onion-buying is going on, mainly due to this fact. The coolness of the weather during the past week was of the weather during the past week was of the duliness in \$1.75. had plenty of stocks, most of the ware houses being filled to overflowing, but the fear of frozen stocks kept most of them from being moved.

Pork Receipts Are Larger.

The receipts of dressed pork on the street are growing larger, especially on the heavier sizes, and this has a tendency to somewhat weaken the smaller. grades. The call is quite brisk, however, and all arrivals are disposed of at quotations. Veal is coming in more plentiful supplies, but the market remains firm for the smaller carcasses. Beef and mutton are unchanged in either tone or price.

Culls Hurt Apples.

The large receipts of cull apples during the past week or so has had a very disastrous effect on the market, and trade today was dull. Good-packed apoles are not in very heavy receipt and can hardly be quoted. Several cars of navel oranges arrived

yesterday, but as the color was not so

good the movement is small, The California steamer will arrive this

evening with an assorted cargo of fruits and vegetables. A small shipment of grapes is expected. Excitement in Poultry.

Although the receipts of chickens to

day show a considerable gain over those of yesterday, still there was an exciting call for all arrivals at top prices. The dealers were so anxious to get stocks that they bought quite heavily of dressed poultry. Prices are unchanged Eggs Hold Prices.

There is no change in the receipts of fresh Oregon eggs, and the price, 37%c for ordinary stocks and 40c for extra selects, was maintained during the day. Even the eastern eggs are very scarce The price of cold-storage and those on the fresh Oregon show such a vast amount of difference—10c a dozen—that many retailers are buying the former

BROKERS' OPINIONS ON NEW YORK STOCKS

(Furnished by Overbeck, Starr & Cooke Co.)
Morgan & Bryan, New York: Stocks are generally about unchanged. Steel issues are generally about unchanged. Steel issues are generally about unchanged. Steel issues are generally about on the perfect of and it looks greatly like a hear attack. There is talk of the dividend for the preferred being reduced to 5 per cent. Even at ahat it looks cheep. The market on the whole is steedy, although the weakness in steel is discouraging and shakes the confidence. A fairly favorable statement is expected tomorrow. We doubt, if the efforts of the hears will be permanently successful at this time and would rather buy stocks on the breaks.
