

## PRISONERS TURNED OVER TO CRIMPS

"LARRY" SULLIVAN GETS \$110 WORTH OF MEN BY THE SHIP- PING OF TWO MEN ACCUSED OF LARCENY — BISHOP GOING TO QUEENSTOWN, NEW AUSTRALIA.

The arrangements whereby Allen Bishop, alias "Jack" Allen, and F. W. Men are to ship as common sailors are being carried out. Bishop went to the French bark Berangere yesterday and sailed down the river today. The vessel is bound for Queenstown and Bishop will be on the water for probably six months.

Men is still in the city jail, but it has been decided to ship him on the British ship Port Patrick, which leaves in a day or two for Australia. Thus the two young men, scions of wealthy San Francisco families, who narrowly escaped going to the penitentiary, will find themselves in opposite parts of the world when they reach their destinations.

Municipal Judge Hogue made an arrangement with the boarding-house keeper, Larry Sullivan, who guaranteed that the men would be kept on board the ships and would not desert before they left the country. The court plainly told them that if they broke the agreement they would be immediately rearrested and prosecuted. Both promised faithfully to complete their journey as sailors and in future to behave themselves properly.

Why "Larry" Sullivan was selected instead of an officer to carry out the order of the court is not very clear. The arrangement is profitable to nobody but the crimps who charged \$35 for each man, while nearly every ship in port is short of men through desertions. Judge Hogue said this morning: "I don't know whether or not Sullivan will make anything out of shipping the men. I believe that this was the best disposition to make of the case," said the judge. "I am satisfied from what Vial, the complaining witness, and each of the defendants separately told me, that the theft was committed for revenge, not for gain. If these young men had gone to the penitentiary it would have branded them forever with shame. It might have made criminals of them. By the agreement which has been made I am of the opinion that they will be better citizens. They understand that if they return within a year and do anything out of the way the old charges will be brought up against them and they will have to suffer."

Neither of the young men can return to the United States within six months, even if they make the return voyage on a steam vessel and pay their fare.

Friends of the prisoners in asking that they be released, desired to have them ship to different parts of the world so as to separate them, and this will be done. Should they ship for the return trip it will be at least a year and possibly much longer before they again touch foot on their native land. It has been suggested that the men might desert as soon as they reached Astoria, but Judge Hogue stated today that this was not likely as "Larry" Sullivan had guaranteed they would keep on board the ship.

In an interview Bishop confirmed the statement made by the Journal yesterday that the whole trouble arose over a girl with whom Bishop was in love, and who was won by Vial who offered her a wedding trip to Paris. Then Bishop came here for revenge and Men was implicated.

## DEFENSE BEGUN IN MARQUAM CASE

DETAILS OF THE TRANSFER OF THE PROPERTY FROM THE OTHER SIDE — THE BUILDING WAS APPRAISED AT \$375,000 IN 1900.

The last of the evidence for the plaintiff in the case of P. A. Marquam against the Real Estate Title Guarantee & Trust company was submitted before Judge Sears this morning and then the defense was begun. Robert Livingstone, agent for the Oregon Mortgage company, was the first witness called. He had advanced Mr. Marquam \$25,000 on some South Portland property, and he had to foreclose the mortgage in 1895. There was a deficiency of \$5,476 in the proceeds of the sale and he levied on the Marquam building because his clients had instructed him to begin a foreclosure. J. Thorburn Ross of the Title company had not asked him to foreclose, in fact had opposed his action. Livingstone sold the lien to a man named Parker for \$1,500. He did not know whether Parker acted for Marquam. He said the Marquam building on a basis of an income of 5 per cent would be worth \$400,000.

William M. Ladd testified that he had appraised the building at \$375,000 in 1900. He was passing by Mr. Ross' office one day and Ross called him in and asked him to make an estimate of the valuation. This was before the sale of the building.

Late yesterday afternoon Attorneys Watson and Tanner, for Mr. Marquam, closely questioned T. T. Burkhardt, secretary of the Title Guarantee & Trust company, as to whether J. Thorburn Ross did not solicit the appointment as attorney for the United States Mortgage & Trust company to foreclose the lien on the property while at the same time he was acting as trustee for Mr. Marquam. Mr. Burkhardt said he did not know of any correspondence to that effect, and that so far as he knew W. M. Gregory was the attorney in the case. Nor did he remember anything about a telegram from the Mortgage company to the Title company, giving the latter an option on the property and that if it did not care to exercise the option, the Mortgage company had responsible persons who would pay the mortgage of \$375,000, interest and liens. The telegram was said to have been received in Portland on May 10, 1901, several months after the property had been sold by the sheriff at mortgage sale. Mr. Burkhardt could not recall the date when the Title company took advantage of the option to purchase the property.

## PRISONER STABBED IN COUNTY JAIL

In a quarrel with L. Thompson, a negro prisoner, Burt Goble, who is held in the county jail on a charge of robbery, was cut across the right cheek and severely injured yesterday afternoon. The quarrel arose over the determination of Thompson to make himself boss of the east corridor. When Goble resisted he was stabbed. Thompson surrendered a piece of tin with which he said he had inflicted the injury, also a pocket-knife. He was removed to the dungeon.

Goble's wound was dressed by County Physician E. P. Geary. The physician said this morning that the wound was painful but not serious. In his opinion it was not infected with the tin. The cut had been made through the flesh to the muscles of the temples and was very clean.

Sheriff Storey then began a search for a razor which he thought might have been smuggled into the jail, but was unable to find one. For many years the prisoners were not allowed to have razors, as they had often been used as weapons, but Mr. Storey has made a departure from the rule which his predecessors saw fit to establish.

## SLIDE AT BUGBY IS CLEARED AWAY

The Astoria & Columbia River road reported a clear track at Bugby yesterday and for the first time since Friday afternoon passenger trains were run through without transfer. The night congestion was also relieved today. One of the chief sources of trouble—loose earth and detached rock—is said by the superintendent of traffic to be done away with, the last slide having carried about all the available loose material onto the track.

EAST AFRICAN REACHES PORT

SOON AFTER HER ARRIVAL THE OWNERS DECLINED AN OFFER OF 20 SHILLINGS TO CARRY A CARGO OF GRAIN FROM PORTLAND TO THE UNITED KINGDOM.

The British bark East African reached port last night and dropped anchor in the steam. She came from Newcastle, N. S. W., with coal, arriving at the mouth of the river on November 30. Her cargo was discharged at Astoria, and she came up to Portland to wait for an outward charter.

A cable was received from the owners this morning declining to carry grain to the United Kingdom. This is the highest rate offered during the season, and shows a decided improvement in the market. A few days ago the owners of the Gleneslin refused an offer of 19s 3d, but it was for carrying barley. Exporters argue that it is worth about 2s more to load with barley than any other kind of grain, because a certain amount of wheat stiffening always has to be secured to go with it.

**Shipowners Confer.**

Some exporters are inclined to the belief that the increasing charter rates are attributable to a certain measure to the international shipowners' conference which is now in session at Paris. One of the main objects of the conference is to regulate rates and place them upon a uniform basis. While this is held to be impossible by local exporters, they admit that it may result in the general run of rates being materially increased. It is not thought, however, that they can ever be put upon a uniform basis and kept that way. It is asserted that some of the shipowners would very soon break any agreement of this character which they might enter into. In other words, the combine would soon have a sailing out and the objects of the organization would not be attained.

**OF INTEREST TO THEM, WEAK PEOPLE.**

It is perfectly understood by every sane man or woman that if they can get some remedy that will stop the bleeding, loss of flesh and strength, their recovery is assured. People that are nervous and unsteady, have dizzy spells, with weak memory, and loss of ambition, their blood is thin and watery. It shows in their pallid complexion and tired manner, soon as they commence to gain flesh they look better and sleep better. To gain from 1 to 3 lbs. of good, solid flesh per week, the blood must be made rich and pure. Dr. Gunn's Blood and Nerve Tonic puts in the body the very pith of what makes pure, rich blood in the most direct way, and cures disease by making strength. This Tonic is in tablet form, to be taken right after meals. It cures the blood, making force where there was faintness. For women's weakness a better remedy was never made. Sold by all druggists for 75c per box, or three boxes for \$2.00, sent by mail. Write us about your case. Address, Dr. Bosanko Co., Philadelphia, Pa.

## VAUDEVILLE ACTOR SENDS BAD LETTERS

(Journal Special Service.)

San Francisco, Dec. 15.—John Flynn, an actor, is detained at the central police station on the charge of disturbing the peace, but he will be later charged, it is said, with sending obscene letters through the mails by A. Dollmann, a former theatrical manager of Portland. According to Dollmann, Flynn was at one time employed as a "burlesquer" at the Fritz-Dollmann theatre. Flynn had some trouble with his wife and left her. Manager Dollmann says Flynn is accused by Dollmann's wife of poisoning the woman's mind against her husband, and that for months he has annoyed both himself and Mrs. Dollmann by sending the latter obscene expressions through the mail. Dollmann sold out his Fritz theatre in Portland recently, and, coming to this city, he secured apartments at the Torton restaurant.

**Handsome Booklet Free.**

"Hot Lake Sanatorium, The Arkansas of the West," is the title of a pretty booklet issued by the Hot Lake Sanatorium, Hot Lake, Or. It is beautifully illustrated with the most delicate halftones, showing the porches and interior of the fine sanatorium, also a comprehensive view of the spacious \$70,000 addition soon to be erected. The descriptive matter is well written, interesting to every one. The Indians, it says, gave the place the name of "Big Medicine," because of its healing influences. The flow of water is given at 3,500,000 gallons per day, and its temperature where it emerges from the earth is 195 degrees. The lake of eight acres averages 70 to 80 degrees throughout the entire winter. The lake is located 314 miles east of Portland, at an altitude of 3,000 feet above the sea level. The mountain breezes are delightfully cool in summer and the winters are cold and dry, there being less than half the rain there that falls in Portland. The Oregon Railroad & Navigation company gives a 2-cent-a-mile rate all the year round to this famous health resort, so that it does not cost much to get there. The charming booklet is sent free to all who ask for it by addressing Dr. G. W. Tape, General Manager, Hot Lake, Or.
