MAS NARROW ESCAPE FROM DEATE-WEIGHE 225 POUNDS AND IS SEVENTY TEARS OF AGE-RIB

Waterfront and shipping men are ed that Captain Fulton of the British ship Ancales was not instantly killed yesterday. While boarding the vessel at the Portland Flouring mills be fell from the ladder and dropped a distance of 24 feet, striking with full force the ballast log which lay between the ship and the dock piling. The captain is about 70 years of age, and

big and portly, and that he escaped with only a broken rib is looked upon as besaid that he will easily tip the beams at

While failing he struck against the side of the ship. This partially broke the force of the fall, and is believed to have been the only thing that saved his

The ladder connecting the dock and ship lay in almost a horizontal posi-tion, making the task of boarding the have been the case had the steps stood-it an angle. Although feeling his way carefully, the captain lost his equi-librium and down he went.

Dock frequenters say it is remarkable that there are not more accidents than there are in boarding vessels. In this instance there was nothing more than an ordinary ladder on which to walk. In some cases, they state, there are gangplanks having no rope protection extending full longth on either side, as is sometimes arranged. The boards are often slippery, and that so few fall is regarded as more than passing strange. As a result of these poor appliances several lives have been lost this season, and a long list of accidents have occurred.

Hogs range higher. Business closes at noon. Eggs weaker and lower.

Delayed Poultry Arrivas.

Quite a large amount of delayed poultry arrived in on the street today. Buyers were on hand, however, and the receipts had barely touched the sidewalks before they were eagerly picked up at the top prices. The situation in the poultry market is very strong in every line. There is an ever-increasing demand for chickens, both mixed and straight hens, springs, roosters, ducks and geese. The demand for the latter shows ne sign of abatement and the receipts easily touch the top price. All poultry dealers on the street expect a fair market during the coming week, as few, if any, of the retailers have sufficient supplies on hand to more than do them from a hand to mouth sale. It will take at least the greater part of the coming week to sufficiently stock them up, and the market is expected to rule very fair during that time.

Word comes from the wholesale section of San Francisco that hereafter all dealers or farmers who ship potatoes into that market will be required to pay an additional 2½ cents for cartage from the docks to the stores, as no more sales are allowed to be made on the wharfs. This is the result of the efforts of the board of harbor commissioners of that city to break up the San Francisco produce ring, which, it is alleged, was robbing the farmers. The 1½ cent is charged in addition to the former commissions and weighing charges.

Much Relieved and Life Prolonged for Years By Use of "Oil of Eden."

My wife had a Fibrous Tumor and was treated at one of the best hospitais I could find. I was finally told she was incurable and could only live a few months at the longest. This was very discouraging and, knowing what Oil of Eden had done for a sore leg of mine, we concluded to try Oil of Eden over the region of the tumor, which we did, and removed through the pores of the skin large quantities of matter and corruption. She improved so fast that she soon began doing her own housework and then did her cooking, washing, ironing and general house work for a year and a quarter, and we kept her alive for many years by the use of Oil of Eden.

Its use will bring joy and happiness to many, if only used, as it is a most wonderful remedy. Don't commence to use the Oil of Eden and quit because you see blisters and matter, but continue as long as these impurities come to the surface, for that is the cause of the disease, and when no more matter and blisters come to the surface the disease is removed. Then Oil of Eden will have no more effect than olive oil,
