DUGDALE IN TIGERVILLE ENDEAV-ORING TO INDUCE THE PANS TO GO BACK TO THEIR OLD LOVE-MAJORITY WITH THE FORMER BACBAMENTON.

(Journal Special Service.) Tacoma, Wash., Jan. 9 .- In spite of opposition, Tacoma seems to be securely tled to the Pacific Coast league circuit. Fandom generally welcomes the change, though opposition has developed in sor quarters and Lucas and Dugdale still have their friends in Tiger town.

However, the rank and file of the fans are heartily in favor of giving Mique Fisher an open path, and it is very doubtful if there will be any direct opposition to the Coast league when the season actually begins. Tacoma has finished a tail-end team for two sea-sons in the old Pacific National circuit, and most of the fans are anxious for a change if it promises better things. Fisher's team looks good to the fans, and he has interested considerable local

capital in the venture. Mique himself is expected here soon the magnates in San Francisco having inished their conference. Options are held on two tracts of land here, either one of which will make a suitable ball The park which has been in use park. in Tacoma for over ten years, and which one of the most centrally located in the Northwest, cannot be used longer. was used last season and the season before only against the vigorous pro-tests of residents of the neighborhood, and with the understanding that new grounds would be secured this year. The new park will of necessity be far-ther from the business center of the

city, but it will have good car service. As soon as Fisher returns from the South he will select one of the two places offered him and the work of contion of his new ball park. In the con-struction of which he intends that no one structing grand stand, bleachers and fences will begin at once. Fisher's team is already complete,

except for some pitchers, a first base-man and maybe a change catcher, A now located in Portland, and the two had glance at the playing averages of the Coast league last season shows that the Sacramento team was good everywhere except in the pitching department. It was a fast fielding bunch, according to the figures, and a pretty fair hitting team. The fans have been looking up the "dope" of this sort since Fisher's proposition was first made.

D. E. Dugdale was in the city last night for the first time in two weeks. President Lucas of the National league is in Spokane, having completed a tour of the old circuit. Dugdale says a league meeting will be held either in Scattle or Spokane within the next ten days, and that everything from a Pacific National point of view is "lovely." The Scattle manager says he has not given up hopes of keeping Tacoma even yet. Two teams in Tacoma, however, are utterly out of the question, and how "Dug" figures out any chance of nging on to Tigerville is hard to see.

ceeds his re-election as president is certain. It was intended to hold the league meeting in Tacoma, but the ciffc states at American lake, near Ta-action of the Coast league magnates coma. The Spokane business men who olled that plan.

members of the Lucas league. They are so much of a hold on this proposition. Scattle, Spokane, Butte, Bellingham (the It was decided to make American lake recently consolidated cities of Fair-haven and Whatcom) and Salt Lake militia and the government troops in

Great Falls or else Helena and Missoula the state. Now, however, it seems to be appropriation of \$400,000 for the pur-This combination has at least four the sixth the plan, as shown by a bill introduced chase of the site. How this can be is by Congressman Cushman at Washing not understood, for it is stated that the ton, that American lake shall be the site was offered for \$5 an acre, and This combination has at least four ton, that American lake shall be the site was offered for \$5 an acre, and permanent camp grounds for the Pacific closkey and Wilmot-but there are not very many good players in sight. Pretty nearly the only player Dugdale has this year is Bill Hurley, who is good any-where. Of course, he has old reliable General Funston has recommended the Matt Stapley, but Matthew is just what

he is called, "old," and will take haif the season to get into shape. The Tacoma baseball promoters who are interested with Fisher in the Coast league proposition here between the take site. Another feature of the matter that looks queer to Spokane people is the fact that the bill intro-duced by Cushman is said to carry an American lake site. Another feature of

that league proposition have insisted that the schedule committee allow Tacoms to finish the first half of the season at home and begin the second half here also. The statement was sent out from San Francisco that one of the three northern clubs would have to finish the first half as well as the second seaso in California, and this was used by the opposition as one argument against the

Extract from a Newspaper

The following clipping is published for the purpose of showing the public the esteem with which Dr. Kessler is held by the press and public throughout the entire Northwest: "Dr. Kessler has just returned from an extended tour throughout the United States, and during his absence the Doctor has visited most of the large hospitals and world-renowned specialists in search of any information that might be of value in the practice of his profession. Dr. Kessler is a physician from choice, nature having intended him for no other calling, and, although he has been in active practice for the past 30 years, 20 years in Portland, he studies harder and more diligently at the present time than most medical students. In addition to the immense fund of knowledge culled by the Doctor from the writings of men of world-wide reputation, Dr. Kessler has made a number of original discoveries that stamp him as one of the foremost medical men of the present century. He possesses the faculty of almost reading a patient's feelings, and is invariably correct in his diagnosis of the most complicated cases. It is remarkable the number of seemingly hopeless invalids that are treated and cured by this scientific physician, who goes to the root of every trouble, discovers the cause and eradicates it. Dr. Kessler is in love with his profession and during a leisure moment, something not often enjoyed by the Doctor, he talked entertainingly and modestly of his many dis-coveries and the immense strides made in medicine during the past quarter of a century."

All Letters Answered

When you are unable to visit my office in person write at once and I will forward you a symptom blank. By this means I will be able to make a correct diagnosis of your case. All letters receive prompt attention and I am the only person allowed to read its contents. No person need ever know that you are receiving treatment at my hands, as my correspondence will be conducted with plain envelopes. Don't hesitate about writing: it may be the means of saving your life. I have cured hundreds of people in all parts of the Northwest that I have never seen, and my practice has been so extensive that wher-ever I go I am always greeted by friends, some of whom know me only by reputation.

DR. J. HENRI KESSLER Address with 10 2-Cent Stamps 2301/2 Yamhill Street, Portland, Or.

WOMEN

I HAVE CURED THOUSANDS OF WOMEN WHO HAD ALMOST GIVEN UP HOPE AND RESTORED THEM TO HEALTH AND HAPPINESS. WHAT I HAVE DONE FOR THEM I CAN DO FOR YOU. I FULLY UNDERSTAND YOUR DELICATE AND SENSITIVE ORGANISM, AND IN CURING YOU WILL BRING SUNSHINE TO HOMES NOW ALMOST WRECKED BY YOUR INFIRMITIES.

When Other Doctors Fail

Don't become discouraged and imagine that there is no help for you. Your phys-ician may be a well-meaning man, who did all that he could to help you, but he probably lacks the thorough knowledge of your case that constant practice and constant research imparts. It matters not how difficult the case may be, I can cure you if a cure is pos-sible. If your case is incurable I will tell you so, but don't be discouraged; there are very few cases that cannot be cured. When other doctors fall and tell you that there is no longer any hope for you, don't believe it. Come at once and see old Dr. Kessler, who has made thousands of people sound and well who were given up by other physicians. Dr. Kessler has been the leading specialist in Portland for the past 20 years. Other doctors have come and gone, but the old Doctor still remains, healing the sick and doing good to his fellow man. If this reaches your eye and you are suffering from any affliction call or write; the help that you have longed for is at hand. I will tell you exactly what the trouble is, and apply the remedy that will cure you. It is a shame the number of lives that are ruined and the homes rendered desolate through the inability of some so-called doctors to reach the seat of trouble. Thousands of men take up the profession of medidoctors to reach the seat of trouble. Thousands of men take up the profession of medi-cine that never were adapted for such a calling, who might have made a success in some other profession. The born physicians are few and far between, and that is the reason why so few succeed.

Home Treatment

It is a boon to thousands of people living at a distance to know that their ailments, no matter what the nature of the disease, can be treated successfully from this office no matter what the nature of the disease, can be treated successfully from this office without the patient being compelled to make a tedious and expensive trip to the city. You are also saved the trouble and expense of having prescriptions filled, as I supply all of the medicine without extra expense to the patient. The fee that you pay me for pro-fessional services also includes medicine, which is prepared in my own private laboratory. You can write down your symptoms just as easily as you can tell them, and you can feel assured that no mistake will be made by me in locating and curing permanently the disease from which you suffer.

Stop! Young Man

It is not difficult to tell what is the matter with you. If you continue your present course, you will eventually become an inmate of a lunatic asylum. You are ashamed of yourself. Tou blush when brought into the pres-proce of the opposite sex. You are stradually losing confidence, and your strength is being sapped by unnatural practices. Perhapse you are ashamed to tell a doctor your troubles, but an experienced physician can discover your trouble at a glance. I have saved undreds of young men who came to be as a last resort, and some of them are now the heads of happy families. You must have treatment from a doc-tor who has made such cases a special study. I delight in showing boys the proper path to pursue, as it is always sed to see a young man ruining film-you as if you were my own boy, and make a man of you in a short space of time. Then you won't be afraid to be your fellow-man squarely in the eye, the flush of health will again able to take your proper place in so-ciety. You blush when brought into the pres-

PCINCICAL DISCASES This head covers a number of different forms of disease, including syphilis, gonorrhoes, stilicture, gleet and others, that it is needless to mention. Thou-sands of men, and especially young maying contracted some one of the numerous venereal diseases. What a pitiable object a human being presents slowly dying by inches, just from lack of proper treatment. If it was only known the number of destine that are directly due to this loathsome disease, the country would stand appalled. Win your vitality sapped, your blood poleoned and your body perhaps cov-ered with a mass of sores, you are in-deed an object for sympath. Very four deases so that the patient is re-stored to his normal condition. My treatment of venereal diseases is al-mot obliged to neglect his business. If not obliged to neglect his busines, if and have cured so many thousands in a filtered. I can effect a speedy you hasting cure. No other man in the patient filter has treated as many cases of this nature as I have. Ex-perience is the best of all teachers. How many men there are who are broken down at a comparatively; young age. You have no confidence in yourself, and it is little wonder, be cause you have abused your sexual strength and are now reaping the harvest. You have almost lost your manhood. Just think for a moment what it means. I treat hundreds of such cases, and have never made a failure. I will restore you to your full vigor or forfelt \$1,000. Most men, when af-flicted in this way, become despondent and they worry because they know that they are no longer as men should be. I have seen middle-aged and elder-ly men cry with delight when they felt assured that my treatment was restoring them once more to a view. restoring them once more to a vigorous manhood. Every case of this kind that I cure, and I cure all that I undertake, is the best argument that I can cure you. Remember, consulta-tion is free, and you need not spend one cent unless you are satisfied that

Venereal Diseases

Consultation Free Treatment by Mail Medicine Free Absolute Privacy Separate Rooms for Men and Women **Positive Guarantee** With Every Case No Lingering We Care Quickly **Come Today** Delay is Dangerous

Female Diseases What a woman suffers only a woman

knows. There are so many complications in the numerous ills to which woman is heir that it requires the greatest skill on the part of the physi-cian to secure the desired results. I cian to secure the desired results. I have made a special study of this branch of my profession, with the re-sult that in nearly every case I am able to effect a permanent cure. I have made so many original discov-eries along this line that my treat-ment will be found different from most doctors, having discarded long ago the methods that most of them now practice, having other remedies now practice, having other remedies that cure, positively cure, while they that cure, positively cure, while they usually only aim to alleviata pain. My success in such cases is the crowning triumph of a career devoted to the healing of the sick. I cure all of my cases without the use of the knife. It is a shame the manner in which some women are mutilated by surgeons. At this office you will always secure kind, considerate treatment, and, best of all, you will be made a healthy wo-man, the grandest work of the Cre-ator.

Dr. Kessler Has been in active practice for more than 30 years—20 years in Fortland, Or. He is full of the milk of human kindness, and is never so happy as when he is doing good to his fellow-men. It is not considered ethical for a men. It is not considered sthical for a physician to advertise, and on this point the dootor differed with a num-ber of his profession, believing that a physician has the same right to tell the people what he can do, provided he tells the truth, as any other profes-sional or business man. This view, taken by the doctor a number of years ago, has sown good seed, and today some of the best men in all profes-sions make announcements to the pub-lic. If Dr. Kessler had mide claims that he was unable to fulfill, the ad-vertising would have acted as a boom-erang, and the doctor would have been compolled to seek other fields. Dr. Kessler has more than fulfilled every promise made to the public, and today soloys a practice unequaled by any physician on the Pacific Coast. To thinking people this will be suff-cient guarantee that the doctor keeps faith with the public, and that today he stands without a peer in healing the slok and doing good to humanity. **Every Trouble**

That is curable I will cure. There are so many diseases that it is impossible to enumerate one-hundredth part of them. No matter what your trouble, come and see me. I will tall you ex-actly what is the matter, and that will be a comfort to know. I find people every day who imagine that they are suffering from a certain disease when it is something entirely different. When you place your case in my hands there will be no uncertainty, and you will notice improvement as the treat-ment progresses. Varicose veins, canment progresses. Varicose veins, can-cer, ulcers, fever sores, ruptures, varo-cocele, nervous debility, piles, syphilis and all diseases to which man is heir will be scientifically and permanently cured if you trust me with your case. I would rather set your case before it has made any inroads in your consti-tution, as it will take a shorter time to cure it. Don't go somewhere eine and waste a lot of money experiment-ing, when eventually you will be com-pelled to give me your case if you wish to cure. Remember, I can help you, so don't despair; while there is life there is hope.

D.S.
