mills has sent a request to the chamber of commerce, that they take some action to have mall from and to the Orient come to and leave Portland direct. He says that a better steamship service is about to be established for the handling of traffic, but nothing has been done in relation to the mail, which at present comes through San Francisco, Victoria, Seattle and Tacoma. He says that this causes delays and is unsatisfactory at both ends of the line. One of the bad features cited is the shipment of a cargo from Portland. The correspondence that is necessary must go by some other boat, which may not sail for a week or 10 days later. This delay is annoying. Many times freight arrives from Japan and China, but the instructions for its disposition do not arrive at the same time. He says that the securing of a direct mail connection would be a big thing for the city and be what we are entitled to as one of the principal ports of the coast.

Paul Heintz, keeper of a restaurant and hotel in Park street between Flanders and Glisan, will be tried before Justice Reid on a charge of assault and battery, preferred by Martha Meyer, next Wednesday afternoon at 2 o'clock. Constable Jackson of the justice court arrested Heintz and he was released on ball. According to his story the girl was employed in his hostelry, but he claims that she became too free in the use of language that was not altogether ladylike. On Wednesday, when she is said to have abused Mrs. Heintz, he admits hustling her out of the house after she refused to go, and for this he asserts he was arrested. Messrs. Knapp & Hart, the big real estate firm at the west end of the Morrison street bridge, find the real estate market exceedingly brisk and are mak-ing many sales these winter days. This is one of the comparatively young firms of the city, but the "ginger" of the partners placed it at the front with surprising quickness—to those who do not understand what "ginger" means. The gentlemen at once exercised great diligence in securing a long list of desirable property and as persistently advertised the contents of their registers. Today they have a large and prosperous business rapidly expanding and always in touch with the life behind it.

Report has been made to the police regarding the operations of a clever young man who is complained of as a pert collector of bills long overdue. Eugene Cameron of New York is the inscription on the smooth stranger's business card. He also claimed to be an attorney, and while in Portland gave at tention to physicians who had old bills which were still unpaid. One bill of which were still unpaid. One bill of \$125 was given him, and it is said he compromised it for \$2.50 after he of-fered to settle for \$15. The police have then unable to find Mr. Cameron to get his side of the story.

Coming to Portland for a good time, John and Dan Hunt, brothers, narrowly escaped drowning in the Willamette Thursday afternoon. It cost them \$10 apiece yesterday because they were found guilty of drunkenness. The men are loggers. While intoxicated they wandered down to the dock at Front and Fine streets. Spokane, Wash., Jan. 16.—"The time is surely coming, and while I do not expect to see it, I believe it will be in this century, when the laboring man will only have to work four hours a day, and they will be paid more money than they are getting today."

So declared Daniel McDonald of Butte, the president of the American Labor union. He is in this city in attendance at the convention of the Washington State Federation of Labor convention. "It is inevitable. There was a time when it was only with great difficulty that workmen could get a 12-hour day. Then they had to fight for 10 hours, and so on down to eight hours, at which many of them are now working. The Chetty for a divorce on the ground of habitual drunkenness and cruelty. PLANS FOR CUT-OFF ON N. P. RAILROAD

(Journal Special Service.) Spokane. Wash., Jan. 16.—The recent arrival at Lind of a party of 14 Northern Pacific surveyors has given new strength to the report that it is the purpose of that road to begin the con-struction of the Lind-Ellensburg cutoff soon. Surveyors are engaged in running lines westward from that town. The proposed cut-off is to strike about due west from Lind to meet the main line at or near Ellensburg. Such construction would save about 90 miles in the distance between Spokane and the coast.

IS A CUT OF THE ELECTRIC FUR-NACE that is used for baking continuous gum work. By this means we can produce the most satural and artistic results that are possible to be produced in an artificial denture. There are only two reasons why this denture is not generally in use; first, because it requires much more skill to produce it than is required to produce a set of teeth in any other way, but the result is most gratifying both to the wearer and the artist who produces such work; and the second reason is it costs money. But there are hundreds of people in and around Portland perfectly able and willing to pay for a denture of this kind if they only knew its many advantages.
