SALEM

SAVED HERSELF AND BABY FROM BURNING

(Journal Special Service.) Salem, Or., Jan. 25 .- Mrs. S. T. Bich ardson, wife of the dean of the Salem law school, met with a serious accident last Saturday evening, which came near proving fatal, and which has left her with badly burned hands. Mrs. Richardson, alone in the house with a small baby in her arms, in some way upset a coal oil lamp, the latter broke and the oil ran over the rugs and carpet, igniting the lamp and threatening the destruction of the house. Mrs. Richardson, placing the baby on the bed in an adjoining room, hastily seized the burning rugs and carpet, which latter was on the floor, and dragged them out of the house, thus saving the building and contents from destruction. By the operation Mrs. Richardson's hands were badly burned, and neighbors who quickly came to her assistance at once injuries. Good Basketball. At the Y. M. C. A. gymnasium, Saturday evening, two good games of bas-ketball were played before a fair-sized audience. The first was between the Chemawa Indian team and the Y. M. C. A first team, resulting in a decided vic-tory for the Y. M. C. A., the score standing 45 to 5. Chemawa lacked in training, while their opponents were in excellent condition. The second game was between the Dallas college second team and the second of the Y. M. C. A., in which the visitors from Dallas car-ried off the palm by a score of 31 to 10. They played an excellent game, showing good training and much practice. Death of Mrs. Prunty.

Mrs. P. D. Prunty, widow of the late P. D. Prunty, the Salem section foreman, who died in Portland last winter while undergoing an operation in a hospital, died in Wilbur Saturday after on, and the remains will be laid to rest in this city in the burial plot where Mr. Prunty rests. The lady had been in good health up to the time of her death, and the end came suddenly and unexpectedly. She was a devout memof the Catholic church, and will be laid to rest with the funeral services peculiar to that organization. Her expected that the local camp of that or-der, which owes much of its prosperity to his efforts, will furnish an escort for the remains at the funeral.

Marion County Fruit Growers. The Marion County Fruitgrowers' union held a brief meeting in this city Saturday afternoon for the discussion of matters of interest to the growers generally. The growing of strawberries, red raspberries and kindred fruits was discussed, and addresses were made on the subject of marketing of fruits. A number of the prunegrowers present pledged fruit for the Oregon exhibit in St. Louis, and a large portion of th prunes to be shown there, it now seems, will come from Marion county orchards. Only the best of prines will be taken for this exhibit, and the growers are all anxious to furnish from their prod-uct for this purpose.

(Journal Special Service.) Vancouver, Wash., Jan. 25 .- A. Wandrey of Company A, 17th infantry, who has broken arrest while serving sen tences under general courtmartial at different times, was seen being conducted to the guardhouse in chains yesterday.

Wandrey was tried by a general courtmartial last May for selling a \$15 viocalled in a physician, who dressed the lin, belonging to a comrade, from whom he, in company with a number of other prisoners, broke out of the guardhouse and made their escape. This noted jailbreak occurred on June 5, 1902, and Wandrey was recaptured on June 6, Wandrey pleaded guilty to this offense and was serving his sentence under a post guard when he politely picked up a tin bucket to go after a bucket of beer for himself, the sentinel and a fellow prisoner under charge of the same sentinel. Wandrey forgot to come back, and as a result of his forgetfulness caused the sentinel to get into trouble. There is no doubt but what the sentine would have gotten into trouble, anyhow, for allowing the prisoner out of his sight, even though the prisoner had returned. Wandrey evidently thought the same, and did not take the trouble

DANGER IN SODA.

Serious Besults Sometimes Follow Its Excessive Use.

Common soda is all right in its place, and

What thin people want is fiest, and not fat. To be symmetrical and properly proportioned every person should have a certain amount of fiest. To be plump does not necessarily mean to be fat. Fat is undestrable: it clogs and retered to be fat. Fat is undestrable: it clogs and retered to be fat. Fat is undestrable: it clogs and retered to the heart and lungs, and when excessive predisposes to fattmedegeneration of vital organs, to say nothing of the discomfort, more or less, resulting from excessive adipose tissue.

Comon sense would suggest that if one wishes to become fieshy and plump, the thing most needed would be flesh-forming foods; in other words, albuminous foods, like eggs, beef, outmeal, etc. The kinds of food that make flesh are the foods that form the greater part of our daily bill of fare.

New, the only reason so many people remain thin is because their stomachs do not properly and completely digest and assimilate the flesh-forming beefsteak and eggs we est every day. There are thousands of such people, and they are really dyspeptic, although they may not suffer any particular pain or inconvenience from their stomachs. If such persons would take, with their meals, some preparation like Stuart's Dyspepsia Tablets, the food would be quickly digested, and the proper degree of plumpness very soon secured, because these tablets are prepared exactly for that purpose, They will digest every variety of flesh forming food, which is the sole reason why they so quickly build up and strengthen thin, dyspeptic and and every form of leddestide. dispensable in the kitchen and for cooking and washing purposes, but it was never in-tended for a medicine, and people who use it as such will some day regret it. it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover, the soda only gives temporary relief and in the end the stomach trouble gets worse and worse. The soda acts as a mechanical irritant to the walls of the stomach and bowels, and cases are on record where it accumulated in the intestine causing death by inflammation or peritonitis.

causing death by inflammation or peritonitis.

Dr. Harlanson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These are large, 20-grain losenges, very pleasant to taste, and contain the natural acids, peptones and digestive elements essential to good digestion, and when taken after means they digest the food perfectly and promptly before it has had time to ferment, sour and poison the blood and nervous system. quickly build up and strengthen thin, dyspeptic nen and women.

Stuart's Dyspepsia Tablets cure dyspepsia and every form of indigestion on this common sense plan, that they digest the food premptly, giving strength to every nerve and organ of the body, while at the same time the stemach has a chance to rest and recover its natural vigor. Nothing further is required to cure any stomach trouble, or to make thin, dyspeptic people strong, plump and well.

This excellent preparation is manufactured by F. A. Stuart Co., Marshall, Mich., and sold by druggists everywhere at 50 cents per package. Dr. Wuerth states that he invariably uses Stuart's Dyspepsia. ONLY ONE WAY.

TO PURIFY THE BLOOD, INCREASE PLESE AND STRENGTH AND TO CURE INDIGESTION.

SECRET PATENT MEDICINES WILL NOT DO IT.

There Is a Simpler and Better Way.

There is only one way to purify the blood

only one way to increase flesh, and that is through the stomach and digestive organs. Why? Because the stomach and digestive organs make blood and flesh, bone, nerves and sinew. Did you ever see a person blessed with a healthy. vigorous stomach and digestion who had impure blood, muddy sallow complexion, or who had weak nerves, sleepless nights and the thousand and one pains and aches arising from poor digestion? No, because perfect digestion converts the food eaten into pure blood, strong nerves, and muscle, and all the flesh a person needs to have for health, symmetry and beauty. Every person knows whether or not his or her digestion is what it should be, but every person does not know what is the safest and best way to secure and preserve a healthy con-dition of the digestive organs. It is not done by the use of any wonderful secret patent medicine, but by the use of certain harmless directive principles, which, taken at meals, will digest the food anyway, regardless of the

wank condition of the stomach.

Dr. Brooks recommends a combination of vegetable essences, fruit salts, pure aseptic pepsin, and Golden Seal, prepared in convenient tablet form, and sold by drugglats everywhere under the name of Stuart's Dyspapsia Tablets.

These pleasant tasting tablets are to be dissolved in the mouth after each meal, and, mingling in the food in the stomach, digest it perfectly. These is nothing wonderful about this. Any physician or chemist knows that Stuart's Dyspepsia Tablets will do this because repeatedly tested and proved, and thousands of cured dyspeptics have found it to be true Dr. Harlandson states that these tablets in-

Dr. Harlandson states that these tablets in-crease flesh because they digest flesh-forming food like eggs, meat and ordinary everyday food; for the same reason they purify the blood and strengthen weak nerves. In no other way can it be done, because flesh, blood and nerves are obtained from the food we eat. Dr. Jennison once stated that he believed a 50-cent package of Stuart's Dyspepsia Tablets would give more real benefit than \$50 worth of ordinary doctor's fees. of ordinary doctor's fees. HEART DISEASE.

FACTS REGARDING THE

RAPID INCREASE OF REALT TROUBLES.

Cause.

Heart troubles, at least among Americans, are certainly increasing, and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak atomachs, of poor digestion.

Real, organic heart disease is incurable; but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by branches of the same great nerves, the Sympathetic and Pneumo-gastric.

have cured thousands of men and women of Dyspopsia and Indigestion because they supply what every weak stomach iseks: Hydrochloric and lactic acids, pure aseptic pepsin, ginger and Golden Seal to increase the secretion of gastric juices. They cure Nervous Dyspopsia, Sour Stomach Gas and Fermentation, Billousness Constitution, or any form of week

Medical books are not always interesting reading, especially to people enjoying good health, but as a matter of fact, scarcely one person in ten is perfectly healthy, and even with such sooner or later sickness must come.

It is also a well-established truth that nine-tenths of all diseases originate with a breaking down of the digestion; a weak stomach weakens and impoverishes the system, making it easy for disease to gain a foothold.

Nobody need fear consumption, kidney disease, liver trouble, or a weak heart and nervous system as long as the digestion is good and the stomach able to assimilate plenty of wholesome food.

Stomach weakness shows itself in a score of wars, and this little book describes the
