claim it is both unnecessary and ex-

tremely tiresome. Last year the city

picked a quarrel with a beautiful maltese feline owned in the House household. The stray animal was so vicious in this re-spect that House determined to test his fighting qualities with the biggest mink latter that he had in the cage. He drove all of the other minks into another compartment and then allowed the cat to get inside the inclosure with the big mink.

No sooner was the cat inside the cage than the mink crawled out of the small opening in the side of his box. His bead-like eyes were set on the small. feline in an instant.

Tom, the tramp cat, had lost no time in taking in the situation. His ears were bent forward, and with a pair of eyeballs that glowed inside the cage like live coals he crouched for a jump as he would prepare to alight on a rat.

was the mink who led off in But it the fight. Before the onlookers could take the position of the antagonists the mink shot forward on his short legs and in a twinkling he had the cat by the throat. The only weapons the latter could bring into play were his sharp claws, and these he set in deadly action. The animals, in deadly struggle, rolled over and over. Part of the time they were in the air in awful leaps, but the mink never let go. The fight could not have lasted two minutes. The mink drank the blood of the cat until all of his nine lives seemed to be taken in a few draughts, and he straightened out in the last and gamest fight of his life.

SPORTS WANT TO HAVE **BOXING GAME OPENED**

Among the admirers and followers of boxing in this city there appears to be quite a strong sentiment toward allowing boxing contests to be pulled off here, as was formerly done before the Ministerial association took its stand "against prizefighting. The boxing ele-ment state that there is absolutely nothing wrong with conducting exhibition bouts, as they are entertaining and instructive from a scientific standpoint. What steps the promoters will take has not yet been made public. Several wellknown sporting men - intend calling upon District Attorney Manning to lay the matter before him.

the last Harvard-Yale game is that Carl Marshall did not captain the Cambridge team in that contest. The eleven acted under the orders of Bowditch, and Bowditch alone was responsible for the signals of play. In every instance the little quarterback, whose work had been so severely criticised during the season, took the signal from Bowditch before shouting it to the backs and forwards. As a result, relieved of the responsibility of captain, Marshall showed his only true form of the year. For this quarter of undoubtedly excellent playing caliber it was a luckless moment when he was chosen captain. Leadership hopelessly handicapped his work, and he knew it, and gladly gave up his authority-because he knew that under Bowditch there would be a better chance of winning the Yale game.

Charles M. Schwab, the steel magnate, it is said, is taking a lively interest in chess. With a view of becoming proficient he has engaged a tutor and at the end of the month, when he leaves for Europe, he will visit Monte Carlo, where the fourth international tournament will then be in progress. Later Mr. Schwab may identify himself actively with chess interests in this country. He has al-ready been proposed for membership in the Manhattan Chess club, New York.

Tomorrow night the Portland Acad emy basketball team will open the scason with a game with the Y. M. C. A. Tigers. The boys have been practicing steadily and, expect to start the season

with a victory. The Y. M. C. A. poys are a very fast lot, having played together as a team for three years. What they lack in weight they expect to make up in speed and team work. The two forwards, Moon and Masters, are

very fast on their feet, and accurate in their goal shooting. Both of these lads tip the scales at 115 pounds. Pugh at center is a star, and is a tower strength on the team. The guards, Harrison, Wilson and Merritt, are in the game all the time, having been coached especially in regard to blocking and passing. The lineup follows: Tigers. P. A. Position.

Mr. Stimmel is much disappointed at the turn affairs have taken. The board are now considering the names of a man in Minnesota and another in Ohio.

TILLAMOON LIGHTHOUSE.

A model of Tillamook rock and the light station is being constructed by United States engineers, which will be sent to the St. Louis exposition. The work will be of a miniature size-the scale being only one-eighth of an inch to the foot of the original structure. This will make it about four feet long by two feet high. It is being built of lumber and will be shipped in knockdown form. The work will be complete, including an imitation of the lighthouse, the keeper's residence and the waves which sweep up against the rock. The tower will be equipped with an elec tri light.
