

TRANSACTIONS IN THE FINANCIAL WORLD

PRICES ON EGGS ARE UP A NOTCH

COOL WEATHER, SMALLER RECEIPTS AND BRISK DEMAND CAUSES AN ADVANCE - LOCAL MARKET 1/2 CENT AND 3/4 CENT HIGHER.

Front Street, Feb. 8.—The principal items of interest in the local wholesale markets today were: Eggs are higher. Oranges look better. Breakfast bacon down. Local hams advanced 1/4 cent. Local lard advanced 3/4 cent. Hop dealers speculate. Arbuckle coffee follows decline. Potatoes firming up. Onions go higher. Advance in smelter. Salmon scarcer than ever. Feed is advanced. Valley wheat high. Carnation cream lower. Butter still weakens. Poultry business nominal. Weather bad for business. Hogs and veal in demand.

Eggs are higher. The cooler weather has had a strengthening effect on the egg market today. Receipts were very small and the demand from the outside has practically left this market bare of stocks. The market here for eggs is not over large, but the few arrivals are easily sold at about 1/2 cent advance over Saturday's quotations. Today's ruling prices range from 25 to 24 1/2 cents.

Poultry Business Nominal. The arrivals of poultry today, as during the past half week, were quite small, but the demand for the same, including the former prices are still ruling. There is a slightly better demand for ducks, but prices show no change over previous quotations. The arrivals of dressed turkeys on Saturday were no larger than the street, and the Christmas holidays. The demand was not so great.

Breakfast Bacon Down. A cut of 1 cent a pound was made this morning in the quotations on all grades of breakfast bacon by the Union Meat company. The same concern announced an advance of 1/4 cent in all averages of hams. All grades of local lard are 3/4 cent higher, with the market showing an improvement in tone.

Hop Dealers Speculate. The movement in the hop market is now confined to the buying and selling operations of the dealers, the stocks remaining unsold in the hands of the growers being nominal. The market here stands around the 29 cents mark. The contracts are still showing a steady volume and 20 cents continues the ruling price.

Arbuckle Follows Decline. Late Saturday afternoon Arbuckle announced a decline of 1/4 cent in the price of his No. 1 and No. 2 grades of coffee. This followed the lead of the Woolsey company in cutting the quotations on Lion. It has been the policy of the Lion company to always be the last one to make an advance and the first to cut. The market here shows no exception to this rule. All brands of eastern package coffee are now quoted at \$13.75. The market in the east for raw coffee is still weak.

Potatoes Firming Up. The cut in the quotations of Oregon potatoes in San Francisco on account of the large shipments from this city, did not have as bad an effect in lowering quotations as some of the local buyers had anticipated. The demand for Oregon potatoes is still strong, and the market here shows no exception to this rule. All brands of eastern package coffee are now quoted at \$13.75. The market in the east for raw coffee is still weak.

Onions Still Higher. The demand for onions is showing such an enormous gain that the dealers here seem to be unable to supply the stocks. Farmers are looking for big advances over present quotations, and are not selling as rapidly as they have several days ago. The demand for Oregon onions comes principally from the San Francisco and Arizona markets, although Texas is doing some buying. Today the prices paid for onions by shippers ranged from \$1.50 to \$1.75 for the best stock. This is considered a very heavy price, and the market opened this season around the 50 cents mark.

Advance in Smelt. There was a scarcity of smelt in the markets today and the heavy demand caused the price to advance 1/2 cent a pound with the prospect of still another advance if the present rate of the supply and demand continues during the coming week.

Salmon in Years. Fresh salmon was today scarcer than it has been in many years during the season. The demand is very large but most of the sales were made of cold storage variety. Other fish are unchanged.

Feed is Advanced. An advance of 50 cents a ton has been made in the quotations on bran and shorts. The entire feed market is stronger with the demand larger. The hay market remains with prices about the same. The offerings were not quite so large today.

Valley Wheat High. With the quotations on valley wheat touching the 80 cent mark there is not the great demand for this grade as there was several days ago. The quotations on Valley grade are now even with those on bluestem, the hard variety, and as there is a difference of about 20 cents a barrel in the flour quotations in favor of bluestem grade the millers are not so anxious to buy.

Butter Still Weak. With a car of Utah's best creamery butter on the track awaiting a buyer the local butter market is not showing any degree of strength and outside of the best stocks the quotations are ranging as many. Receipts continue large with the demand small. The arrivals of country store and dairy are small and the trade wants none.

Hogs and Veal Still Wanted. The demand for hogs and veal keeps up its strong force with the receipts light and prices touching a holiday. Carnation cream is quoted down 10 cents a case. In the Fruit Market. There seems to be a slightly better tone in oranges but prices touch about no change. The cooler weather has had a bad effect on the fruit market today and the trade looked like a holiday. One car of sweet potatoes arrived in and is selling at 1/2 cents a pound. Opinions on Today's Markets. W. B. Glarke Company.—Butter market still weak; eggs very scarce.

W. T. Turner & Co.—No change in any of the markets today. Bell & Sprague—Sweet potatoes arrived in this morning. Chatterton & Co.—Eggs scarcer; very few arrived today; hogs and veal are both in light receipt with the demand good; poultry coming slow but demand is also slow; fair demand for ducks. Eggs & Sprague—Carnation due tomorrow; some very nice hot-house lettuce is now arriving from the sound. G. S. Smith Company—Business very quiet today on account of the cold weather; lots of apples in market; but movement in goods; chickens are slow; eggs good demand. Malarky & Co.—Columbia river smelt very scarce and price has advanced; salmon in lighter receipt than we have seen in months; prices will probably go higher. Smith & Sprague—Cattle and horses are bound to have good effect on meat business; more calls for good block hogs every day than can fill; veal in excellent demand; poultry needed; beef and mutton in better demand, in fact every article of the market is in prime and good is bringing top prices. W. S. Swank—6,021 sacks of potatoes and 103 onions went down on last night's steamer; market here is back to old figures. Eggs & Sprague—Both potatoes and onions are steady today with full-value prices being paid. Davenport-Thompson Co.—Eggs firm; apples moving with lots of fine stock in market to select from; cheese steady at quotations; oranges are slightly firmer; car sweet potatoes arrived today for three dealers. Everding & Farrell—Eggs are firm and scarcer; chickens very short—so is demand; hogs firm, same true of veal; butter very weak. Eggs & Sprague—Eggs are ruling higher with scarcity and good demand; chickens are not coming but demand is very small; good market for block hogs and veal; but market about the same. McKinley Mitchell—Onions are booming; car sweet potatoes arrived today; lots of transactions among hop dealers but none among the growers. Toft, Hine & Co.—No special change in our lines over Saturday; good call for block hogs and medium sized veal; eggs scarce and demand up and chicken demand is not heavy we manage to keep them moving. Today's quotations, as revised, are as follows:

PORTLAND WHOLESALE PRICES. Grain, Flour and Feed. WHEAT—Walla Walla, 75c; bluestem, 80c; barley, 75c; oats, 65c; rye, 70c; corn, 60c.
