Mailbut Is Very Scarce. The storms off Puget sound and Britiah Columbia have caused the fishermen to leave for other parts and consequently the receipts of that grade of fish in this market have dusing the past few days been very light. The potato market remains un-changed in either price or tone. The steamer which was to leave for San Francisco last night did not sail on account of an accident, and this will cause two yessels to arrive in the Bay City close together. Until that time the market is expected to range higher, but this will benefit the local men very little. The washout along the Southern Pacific in the mountains yesterday had the effect of blocking traffic and quite a number of loaded cars of pota-toes and onions are being held on this side of the break and are in danger of being frozen. To make matters worse, there are large numbers of empty cars on the other side of the washout, which

are destined to come to this city.

Onions Are Soaring Migh.

The prices on onions are soaring high, and talks of \$2.05 and \$2.10 being paid in this city are very frequent. Prices in the country still remain at the 2-cents mark, with the farmers holding. The present prices being paid for onions in this city are more than the market in the south will stand, but the local shippers are buying for speculation.

Good Apples Are Wanted.

The receipts of apples are fair, but the better stocks are finding a very large demand at top figures. A car of oranges arrived today. A car of fancy lemons is due tonight.

Opinions on Today's Market.

W. B. Glafke Company - Still no change in creamery butter market. Smith Bros .- Hogs and yeal are com-

ing in larger supply, but still the market has not half enough to fill orders; poultry is holding up well.
