

RUSSIA MAY AWAKEN TO GREAT ACTIVITY

Special Hearst Correspondent at Tokio Tells of the Situation There--General Joe Wheeler Makes Review.

(Hearst Special Service.)
(By Gen. Joe Wheeler.)
New York, Feb. 20.—The expressed determination on the part of Russia to maintain its prestige in the position of one of the powerful nations of the world is in accordance with the general expectation of all who have watched the course of events during the last 10 or 12 years. That this is the only proper course for Russia to pursue is evident. It means the exercise of this great nation's almost boundless resources to the utmost extent possible.

The peace strength of the Russian army is about 42,000 officers and more than 2,000,000 men. The Russian navy on a war footing is about 75,000 officers and 4,500,000 men, employing more than 550,000 horses. To realize the stupendous power of Russia we must recall that one-fifth of its population is capable of bearing arms and doing service in any campaign. On this basis 25,000,000 Russians could bear arms. We therefore see that this immense army of 4,570,000 officers and men would be less than one-sixth of the population capable of doing duty as soldiers.

ENTHUSIASM FOR THE ENGLISH RACE

(Hearst Special Service.)
(By Fercival Phillips.)
Tokio, Feb. 20.—Advices this morning report that the Russians are moving south, toward Seoul. Enthusiasm for everything English and American is apparent since the outbreak of war. It culminated in festivities in honor of the arrival of the cruisers Rasuga and Nishin.

GREAT PATRIOTISM OF LOCAL JAPANESE

United States, \$5,000,000; Oregon, \$200,000; Portland, \$50,000; me \$50. That is the way the Japanese laborer is balancing accounts for the coming year and that is the way he decides what his share of the patriotic fund for the fatherland, or mother land, shall be. Those who are behind the Japanese Patriotic League, which merely means every son of Japan living in America, say that \$5,000,000 will be raised by the Japanese in the United States for the aid of their country and that the laborer's proportion of this will be about \$30. That is, the man who works on the section for 50 cents a day will donate something like six weeks' work meanwhile boarding himself.

RUSSIAN AND FRENCH AMBASSADORS LEAVE

(Continued from Page One.)
The captain, were killed and 90 others were picked up in boats. The official laying the mines was the only man in the fleet knowing exactly how the mines were disposed. He was killed. A violent storm followed the explosion and the mines came to the surface and floated in all directions. The next day the cruiser Boyarin was sent to assist in securing the derelicts. The Boyarin was caught in the storm, driven on the rocks and there became a total wreck.

OFFICER ROWLEY IS REINSTATED

A severe reprimand was the penalty meted out today to Patrolman E. M. Rowley, against whom charges of drunkenness on duty were preferred yesterday. The officer had a hearing before Chief Hunt and Commissioner Charles F. Beebe, and stated that he had not taken any drinks while on duty, but that he did take a few before going on his beat yesterday morning. Patrolman Rowley said that he had been up with sick relatives at home for three consecutive days and nights, was completely worn out, and had to take some stimulant to keep him from breaking down completely.

HUNGRY DOGS DO HAVOC AT MILWAUKIE

"Out of a flock of 20 lambs that I owned last night, 15 are either dead or so badly crippled that they will die or have to be killed, as there is no hope of saving them," said Richard Scott of Milwaukie this morning. "There are about 2,000 dogs in Sellwood and almost as many in Milwaukie, and as I live between the two towns there is no escape from them. If the dogcatcher would do his duty he could make a great haul in either town. This is the second flock I have had destroyed by dogs this winter."

FIREBOAT SLIP AT EAST WASHINGTON

The city authorities have practically decided to establish the permanent slip for the new fireboat at the foot of East Washington street, the site which has aroused so much controversy. It was alleged that the property did not legally belong to the county, but a close investigation has determined to the contrary. The fireboat will be launched on February 27, and invitations to witness the event have been issued already. The ceremonies will consist of the usual bottle of wine broken on the prow.

GEORGE CONSER IS INSTALLED

NEW MEMBER OF STATE COMMISSION OF THE 1904 FAIR IS SWORN IN—WAS ONE OF THE FEW WHO SURVIVED THE KEEPFER FLOOD OF LAST JUNE.

George Conser, who was appointed a member of the Lewis and Clark state exposition commission in the place of C. B. Wade, by Governor Chamberlain, arrived in the city this morning and the oath of office was administered to him.

He is cashier of the First National bank of Heppner, Or. He is a native son, having been born at Jefferson, Marion county, but went to eastern Oregon over 20 years ago.

C. B. Wade, the Pendleton banker, tendered his resignation as a member of this commission before leaving. It was accepted by Governor Chamberlain, and Mr. Conser was appointed to fill the vacancy.

"Heppner is recovering from the effects of the disaster of last June," said Mr. Conser, "and it being rebuilt more substantially than before the flood. The main business part of the town is on higher ground than it formerly occupied, and many of the dwellings were rebuilt further back on the hill. Those that were not destroyed beyond repair are in much the same position, though many were moved some distance by the rush of water. My own place was carried some distance. Mrs. Conser and myself were in the house at the time. We had no hope of escaping. We thought the house would go to pieces or else the water would cover it, but neither happened, and we are of the few who escaped."

INCREASING TRADE HELPS THE DALLES

(Journal Special Service.)
The Dalles, Or., Feb. 20.—The Wasco Warehouse Milling company has decided to increase the capacity of its flouring mill in this city, and has determined to double the capacity of the plant. The contract was let for the necessary machinery to the Barnard Manufacturing company of Moine, Ill. The present capacity of the mill is 700 barrels daily, and when the new machinery is put to use will be 1,400 barrels. This means the consumption of about 7,000 bushels of wheat a day or about 2,000,000 bushels a year. The mill is among the best in the state and when the capacity is doubled, will be among the largest. It is expected to be ready to handle the 1904 crop.

This morning William Gleason, who was found guilty of assault with a deadly weapon at the term of court just closed, appeared before Judge Bradshaw and was fined \$400. The money was paid at once. Gleason said the half hour lecture by Judge Bradshaw was a worse punishment than the fine.

The preliminary hearing of Williams, who is charged with murder, will be given Monday morning, having been postponed from Friday, the time first set, as the attorney for the defense, Henry McGinn of Portland, could not reach this city Friday.
