IN FIRST DISTRICT POLITICAL CAMPS

She also carried 15 passengers.

The Republican congressional committee of the First district will meet in Portland tomorrow for the purpose of fixing the date and place of meeting of the congressional convention, and the sppointment of delegates. Dr. T. W. Harris of Eugene is chairman of the committee, and a full attendance is ex-pected, as the fight for the nomination promises to be keen. Binger Hermann will doubtless seek a renomination, but L. T. Harris, speaker of the lower house in the state legislature, is a formidable competitor and has a following which makes Hermann's chances seem pre-carious. The convention will probably be held either at Salem or at Inde-pendence. Eugene will not make any effort to capture it, in view of the fact that Harris, who lives at Eugene, is a candidate for the nomination. Having a favorite son in the race, Eugene will content itself with backing his candidacy, without trying to get the conven-

UNLESS OUTSIDE CALL IS REAVY MARKET WILL NOT STAND PRES-ENT PRICES - FLOUR ADVANCE COMING.

Front Street, Feb. 22.-The principal ents in the Portland wholesale markets today were:

Eggs going down. Flour advance comes nearer. Farmers holding wheat. Hops very dull. Blockades affect potatoes, Halibut is higher. No changes in poultry situation.

Onions continue to boom. Hides are higher. Beef is higher. Mutton is advanced. Lambs ranging upward.

Eggs Going Down. Although today was a sort of a half-holiday, most of the wholesale firms closing up at noon, the receipts in the egg market continued their swift pace as during the previous week. The market at present is in rather a bad shape, but it is not thought that the price will show very much of a decline just now on account of the demand from the outside. Most of the egg men today received calls for bids for stocks from the Sound merchants, but no sales were recorded. The Sound men were simply looking for information and no actual price was submitted to the local men. There is no doubt that this market can be cleaned up by the outside call, but slightly lower prices are looked for. The price of eggs is much too high for this dull. period of the year, when receipts show such a radical increase, and when they follows:

become too heavy for the outsiders to

Poultry is Badly Wanted.

All kinds of poultry will receive an active call in this market during the next few days, but the future will depend altogether on the receipts. The markets today were entirely bare of stocks, so prices as not quoted may be called nominal. Straight hens, mixed chickens, ducks, geese and even turkeys would find a welcome at prices that border on extravagance. It is not very likely that there will be any more advances in this market, because the quotations have already reached the danger rount and should they perchance advances and straights.

Plour Advance Comes Mearer.

The advance in the flour market. Laden with a general cargo of freight which has been predicted by The Jour-from Antwerp the French bark Armen nal so much of late, is gradually coming reached port Friday and dropped nearer, and according to a prominent which has been predicted by The Jourmiller this morning an advance of about made this week in all lines. The flour from Russia-are many, but no actual buys are yet reported in this market.

All Parmers Hold Wheat.

The farmers and warehousemen are holding wheat tighter than ever, and the advance of May option to \$1.05 % in Chicago did not make them sell any faster. The wheat market in this city is quite different from the one in Chi In this city the demand always makes the price—the only outside markets causing any tendency in this market be-

purely confined to dealers' operations and the outsider has buit little interest in their doings. Some of the dealers are getting rather shaky and are in-clined to sell-if they could find a market at prices which they refused two

Blockades Affect Potatoes. The potato market is in rather a com-

and 500 tons of wheat in the hold the of the inability of the dealers to ship steam schooner Aurelia sailed at 11 their stocks to the outside. The several o'clock Saturday for San Francisco. slides along the line of the Southern slides along the line of the Southern Pacific has caused the tying up of practically all of the freight cars on both sides of the disturbance and the inability of the steamers to take down to the Bay City market one-third of the shipments offered keeps the dealers here on the anxious seat and they hardly know whether to buy or not. The failure of the usual Oregon stocks to arrive in the California market has made quite an improvement in ruling prices, but the benefits of these prices have been absorbed by the ban Francisco The local dealers have large stocks en route to that city and are forced to sit idly by and see potatoes go to a high figure while their own stocks are held up by wrecks. Local dealers are unanimous in their opinions that the prices now being paid for potatoes are far too much considering what the stocks will bring in the open market. Higher prices are being paid for potatoes out in the country than can now be received for the same goods in the San Francisco market, without even counting the freight charges.

Onions Molding Firmer. The onion market, like that in potaoes, is holding firmer, with higher figures being paid than the stocks can be sold for to the retail trade. This market, although there is a very large demand, is now a speculative one. As high as \$2.25 has been offered and paid out in the country for the better grades of stock. There have been some rumors of \$2.35, but these cannot be confirmed. The local demand for both potatoes and onions is very good.

Hides Are Higher. Although this is usually the dull season in the hide market, the small amount of the receipts of good hides and the very large ones of the poorer grades has caused an advance of about

1/2 cent a pound in all quotations. Changes in Meat.

Along Front street today the call for block hogs was more flerce than ever, but prices are so high that few look for any upward changes. The receipts of beef, although liberal, are not fully up to the demand and prices are higher today. The call for the better grades of dressed mutton is larger and higher prices are ruling. Lambs are quoted about 1/2 cent higher. The receipts during the past half week in veal have been larger and that market is not quite so firm, altough no changes appear in

WINTER WHEAT IN OREGON.

Reports from different sections of the Inland empira wheat belt show that conditions generally are very good at this season, the fall-sown grain having passed through the winter months. While the growth has not been stronger than usual, there has been but little cold weather, and the ground has been soaked with an abundance soft moisture since early fall. In fact the winter has practically passed with no zero weather, and the frosty nights have had no tendency to freezs out the wheat, even when it was sown late and secured a poor start in the fall. The rainfall has been generally distributed over the wheat section. The snowfall has been lighter than in past years, but the winter has been more moderate, so that ne damage has resulted so far from the lack of a covering on the wheat during the severe weather. Reports from different sections of the In-

His theme was "Methods of Church Work." The speaker told of his work in Harrison, N. J., and in Chattanooga, Tenn. The visitors at the meeting were: Rev. S. C. Flower and Evangelist E. W. Neil, who is holding evangelistic services at

Immanuel Baptist church. The regular meeting of the Presbyterian Ministerial association was held this morning in the lecture room of the First Presbyterian church. Rev. J. E. Day delivered an address on the "Book of Revelation." It was a key to the interpretation of the apocalypse. A general discussion followed.

CHICAGO PITS ARE CLOSED TODAY ON ACCOUNT OF WASHINGTON'S BIRTHDAY-WAR NEWS IS ANX IOUSLY AWAITED-FUTURE DE PENDS ON DEVELOPMENTS.

(Journal Special Service.) Chicago, Feb. 22 .- This is the birthday of the first American president, and he grain pits, in commemoration of the

day, are closed.

Tomorrow this quietude will be thrown off and the various members of the board of trade are looking for something to develop early in the session tomorrow.

The future of the wheat market, as well as that of the other pits, depends almost altogether on the news from the seat of war, which is received between today and tomorrow. Any little thing now in the way of news of engagements between Japan and Russia are anxiously looked for, and it would not take much startling events to boost the prices here still higher. Armour is doing his best to keep things in check so that the Chicago market will not be so far above those of the other cities so that their grain could be put on this market at a big profit.

Just whether Armour is buying or seling now is the principal gossip among the traders. The indications, however, are that he is on both sides of the market, supporting the price when it threatens to become too weak and bearing it down when it tries to fly too far upward.

There seems to be a large shortage in the July option, and this one will probably be the center of attraction during

"KING SOLOMON" NOW LIVES IN PORTLAND

(Journal Special Service.) Seattle, Feb. 22 .- Portland appears to be at the present time the Mecca of men who have failed to harmonize with social conditions in Seattle. Mike Scully, proprietor of the Comique and People's theatres, one of which is in the restricted district, is now in Portland on a mighty tear, according to a report at police headquarters. "King Solomon," who has found life growing too monotonous for him here, has located there, according to local rumor, and 'Prince Rubel," a self-styled Hindoo seer, left for that city last night, if the conjecture of the police is correct.

The arrest of "Prince Rubel" stirred up a sensation in this city. This mulatto, who began his business career as a boy carrying meals to negro prisoners in an Alabama jail and ultimately climbed until he held seances in society's parlors in Seattle, was entrapped by a local woman and then arrested. The woman went to his fashionably furnished parlors in the Hotel Savoy and told him a pitiful story of how she wished to get divorced from a supposed husband. She said the man had no faults, but she did not want to live with him. 'The "Prince" readily fell into the snare. He said that made no difference to him; that he could secure the divorce anyhow, as he had others, through the aid of a local detective, and readily consented to bring about the happy result for \$250. Then the police stepped into the room and arrested both
