# WILLIE MAKES A WATER MOTOR FOR THE SEWING MACHINE

Dear Tommy—It tires Mama so to run the sewing machine—

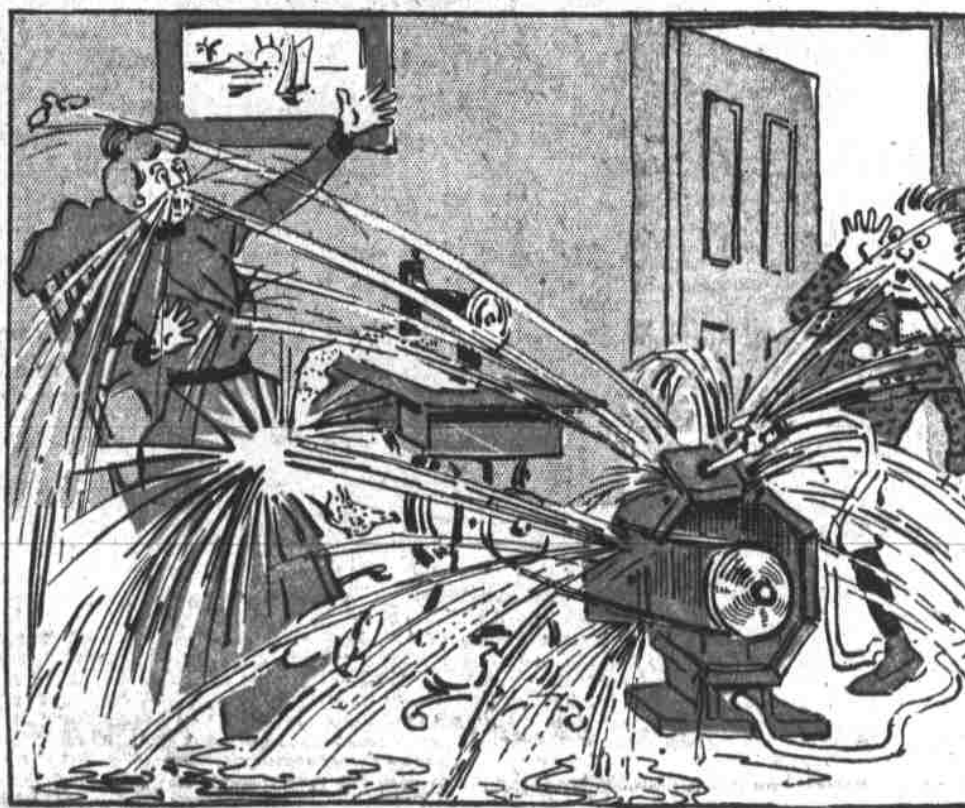

That I rigged up a nice little water motor for the sewing room.

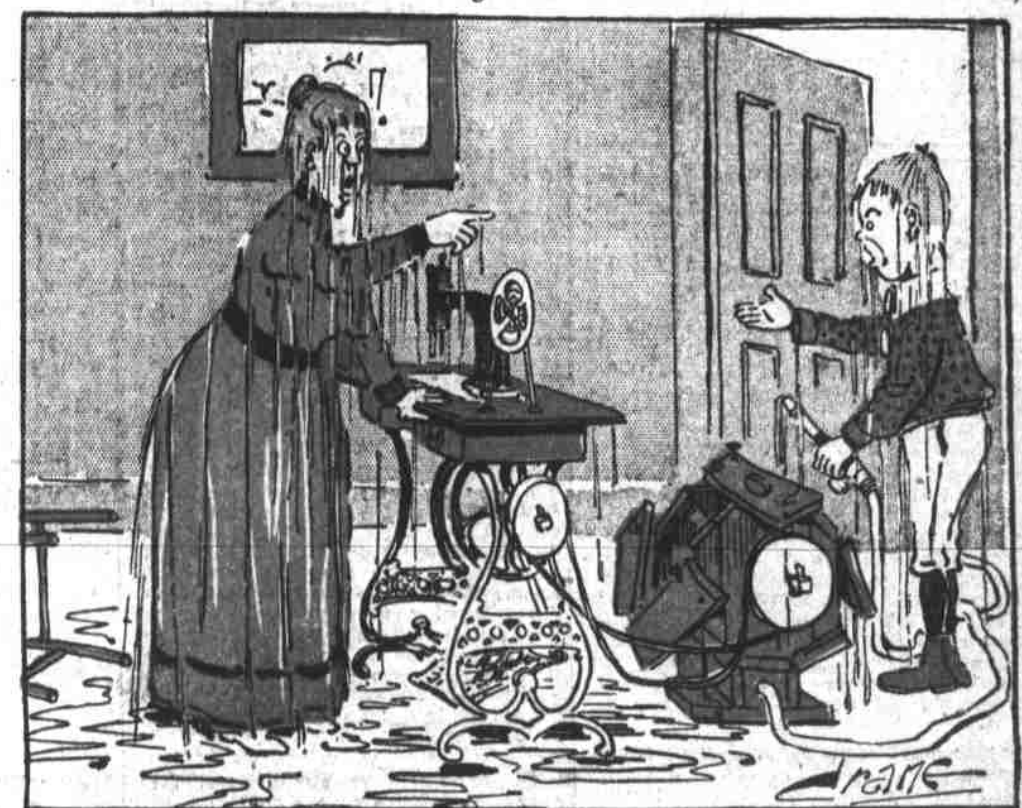

It started off all right and worked well—

Until the board began to swell and then to leak.

Then it all went to pieces, and we both got wet.

Mama says she is getting tired of my inventions. Yours, Willie.

## SPEAKING OF ANCESTORS

2  
Spent much time with well read men

1

5  
And made lots of money.

3  
Followed the stage for a time.

4  
Then he sold some gold mines.

6  
His portrait hangs in many public buildings.
