Davenport-Thompson company—Chickens and butter market the same.

Mill Feed Quoted Higher

Despite the fact that the weather conditions during the week have not been very bad the quotations on mill feed are showing unusual strength and today there was an advance of 1 cent on all grades.

Graham Flour Is Advanced

As has been predicted in The Journal there were many changes in the flour market today. The manufacturers of Graham flour have made an advance. It is now quoted at \$4.00 in barrel, an advance of 25c, and \$2.25 in bales, an advance of 15c.

Whole Wheat Is Higher

The quotations on whole wheat flour are also showing a rising tendency and today Albers Bros., the Portland City mills, and the Acme mill advanced their whole wheat flour in barrels is now quoted at \$4.25, an advance of 25c per barrel, and \$2.40 in cases, an advance of 15c.

Cracked Wheat Is Higher

Cracked wheat joined the list of advances today on account of the holding up of products. The present quotations are very firm with an upward tendency. The prices quoted today are \$5.00 in barrels, an advance of 25c, and \$2.75 in cases, an advance of 15c.

Corn Meal Jumps Upward

Yellow and white corn meal also took an upward flight today on account of the higher ruling prices on corn throughout the country. Yellow corn meal is now quoted at \$4.00 for 50s, an advance of 40c per barrel. Yellow corn meal is quoted at \$2.10 in bales, while white is quoted at \$2.15, an advance of 10c.

Land Whites Hot Vegetables

Another land aside along the line of the Southern Pacific railway between this city and California has resulted in the holding up of several grades of mixed vegetables and fresh fruits. The delayed shipments will very likely arrive in this city tomorrow morning.

Good Apples Moving Fast

What few good apples remain in the market are being snapped up. There are still a plentiful supply of "culis," which are selling at various figures.

Potatoes and Onions Keep Firm

Despite the fact that all the warehouses along both the Columbia and Willamette rivers are filled with potatoes, the market is now in a position of inability of the transportation companies to take them to San Francisco, the local market keeps up its firm tone. Onions are still selling quite readily with \$2.25 being freely paid.

Eggs Are Lower Again

Although in a few exceptional cases eggs were sold today high at 21c, the general quotation about the street in five-cent lots was 20c and the market was very weak at that figure.

Poultry Scarce and Higher

The scarcity in the poultry market continues and all grades of stock, with the exception of geese, are bringing slightly higher figures. The market is usually a bad day for poultry, but the inquiries today were quite large.

BROKERS' OPINIONS ON NEW YORK STOCKS

(Furnished by Overbeck, Starr & Cooke Co.) Logan & Bryan, New York.—The stock market is still dull and uninteresting. There is a trading market in the way of large trade notwithstanding the decision in the Northern Securities case is still in doubt. London was better today than yesterday. There is no feeling of liquidation on either side at the moment. The market today was of small dimensions and without feature. The tone was better all around. There was nothing in the way of large trade notwithstanding the traders bought a few stocks. The market closed dull and strong.

COTTONS \$2.50 A BALE HIGHER TODAY

(Furnished by Overbeck, Starr & Cooke Co.) New York, Feb. 29.—Spot cotton is strong in Liverpool at 8d and the option made an advance today of about 7/16 American points. Our market showed corresponding strength during the early trading, aided by the covering of heavy lines of short cotton. Fluctuations in the futures both abroad and at home are quite apt to continue present and with a range of 1/16 reason of trading conditions, which are not in any sense of the best. The present status of the market is much about the same as it was yesterday.

DISASTROUS FLOOD NEAR STOCKTON, CAL.

(Journal Special Service.) Stockton, Cal., Feb. 29.—The east bank of the Sacramento river broke 16 miles north of new Hope at 3 o'clock this morning and 60,000 acres of rich lands north of the Mokelumne river were inundated. The flood waters carried every levee before them. They poured into the Mokelumne river, raising that stream until it burst its banks on the south side, flooding 7,000 acres in the New Hope district. It was a case of liquidation by an overbought market. We still think that the scattered outside interest is heavily long and that further pressure from this source is quite likely.

NEW MOORINGS FOR GOVERNMENT BOATS

During the storm which was raging against the United States engineers began the work of moving their best mooring plant to the new government moorings opposite St. Johns. They expect to have the entire outfit in the new headquarters by this afternoon. Among the vessels moved yesterday were the Methuen, the cutter boat No. 1 and a dump scow. They went steaming down in a bunch and at a distance the engineers say they looked not unlike Russia's Port Arthur squadron. A strong wind was blowing up stream, and the men's progress with difficulty. Work on the building at the new moorings is to be started at once. The engineers are pleased with the change of location. The plant will be free from the risk of the city, but at the same time in proximity to a sawmill which is essential.

POSTOFFICE ROBBED

(Special Dispatch to The Journal.) Astoria, Or., Feb. 29.—The safe of the postoffice here was blown open early this morning, the crackers getting away with \$50. When the explosion occurred people who heard it thought it was a bank robbery and rushed over to that institution. Seeing the robbery was not connected with there they immediately notified the sheriff, but the burglars had gone. Sheriff Taylor is on the scene this morning but no clue was left. The front portion of the safe was completely demolished. The burglars did not stop to loot the mails.
