RETURNING TO THE PARENT BODY

LABOR UNIONS WHICH SECEDED PROM PEDERATED TRADES COUR-CIL LAST SUMMER ARE GOING BACK, ONE BY ONE-COUNCIL RE-ORGANIZING-JUNE PAIR.

Excepting the plumbers and machinsts all the labor unions which withdrew from the Federated Trades Council last summer have again applied for membership and been admitted into the parent body. Delegates from the paint-ers' union were granted admission Friday night. It is believed that the plumbers and machinists will take sim-Var action within the next two or three

After the big strike last summer several of the unions in the building trades line became dissatisfied with the Federated Trades council, and seceded. They believed that they were not given the support which they deserved.

At that time there was a strong building trades council in the city, but in-terest in it began to wane. Union after union withdrew quietly, and a few weeks later the organization was dis-

Of late an attempt has been made to form another building trades council, but pressure has been brought to bear upon those having the matter in hand to defer final action for a few weeks.

The Federated Trades council is being reorganized upon new lines, and when completed, it is said, will do away with the necessity for a building trades council. For this reason the building trades people have not as yet carried out their intention of forming a central body

It has been explained to them that the Federated Trades council, under the new constitution, which will be adopted next Friday night, will be in a position to look after and closely guard the best interests of every local in the city. Under the new order there will be standing grievance committees in the council composed of delegates from the waterfront federation, the allied printing trades, the building trades, the iron and foundry men, the retail clerks, the common laborers and all others. It will be the duty of the members of these committees to listen to all complaints, and as soon as they are made to devise plans for investigating and rectifying

Should differences arise, the members of the grievance committee will be given the task of settling the difficulty.

By this simple arrangement many of the union men are confident there is no real necessity for the organization of a building trades council.

A contract has been signed by the Federated Trades Council with the Alfresco & La Fiesta Amusement assoclation of New York and Portland for a two weeks' Mardi Gras carnival. The entertainment will be given at Multnomah field, beginning June 28, and will be more in the nature of a circus than build a labor temple with the funds that

CAPTAIN ROWAN'S WATCH IS RECOVERED

Captain Rowan, 19th infantry, who was robbed of a watch and a considerable sum of money by Private Thorn, a Portland second-hand store.

The watch was finally located by De- interests in line for Roosevelt. tective Weiner in the Oregon pawnshop, on Third street. It had been pawned

CHIMPANZEE HAD

Berlin of a performing chimpanzee, dency. He is leading a quiet life, but "Consul" has brought to light another of those strange risks taken by Lloyds. It transpires that "Consul," whose London engagements were worth from 200 tinue his oppossition to the policy of exto 300 pounds sterling weekly, was insured for 20,000 pounds sterling at the rate of 10 guineas per cent. for a year. It is now a common thing to insure race horses. St. Simon, now a very old horse, is insured for 20,000 pounds sterling and Flying Wax is insured for 30,000 pounds sterling.

SLEEP IS PRICELESS

But It Can Be Obtained By Simple Methods.

Are you a hard worker? Are you overcome with fatigue at the end of each day's labor, and instead of retiring to bed with a feeling of satisfaction at the prospect of a night's repose, do you wait the hour of bedtime with dread and shrinking?

Is it your unhappy lot to be awakened every night, just after you have dropped off to sleep, by an intense, uncontrollable itching of the rectum? Do you then endeavor to relieve the sensation by scratching so desperately that the skin

becomes raw and lacerated, and you finally sink into the sleep of exhaustion?

If so, you do not need to be told that you are afflicted with itching piles. You have probably tried every remedy you could hear of, with but temporary relief, if any, and have concluded there was nothing left for you but to drag out a miserable existence. As a drowning man grasps at a straw, so should you eagerly devour the words of W. O. Mil-

bury, 70 Pearl St., Reading, Mass. at the drug store, and used about one-half of it, and it not only cured me of itching piles, but also of constipation, a trouble of about fifteen years' standing. I have tried almost everything without any lasting benefit, but I can honestly and truthfully state that Pyramid Pile Cure has entirely cured me, and I have niced in officers' uniforms to any ployed in officers' uniforms.

We vouch for the authenticity of the tecting themselves against the advances testimonial, and as Mr. Milbury found of the Russians, and the elements of relief and a cure, so you may also. Do patriotism are found only on the Japannot delay, but buy a box and try it to- ese side. We realize that we have no night, and do not allow any dealer to child's play before us. None of the

News, Gossip and Speculation From the National Capital

(Washington Bureau of The Journal.) Washington, Feb. 24.-The Roosevelt administration is at last making over-tures to Wall street. The agent conducting the negotiations is United States Senator Aldrich of Rhode Island, and it is assured that he is well chosen since he is the father-in-law of John D. Rockefeller, Senator Aldrich's mission is to as sure the leading financiers and large commercial companies that they have nothing to fear from President Roosevelt he secure a second term. Senator Aldrich is not marching into Wall street with a brass band in full play advertising his operations, nor does he go like the Mormon missionaries, "without purse and scrip," but all the same with industry he is influencing the interests of the street and solemnly assuring them that what he has to say is true. When it is pointed out to him, as it has been more than once, that two of the four planks the president has publicly declared he will stand on in the coming campaign, are, first, his attack on the principle on which the Northern Security company is based, and which the legal department of his administration has pushed to the court of last resort, and second, his attitude and participation in the great coal strike of a year, still shakes he the senatorial head, and repeats the assurances that the great financial and large commercial interests of the country have nothing to fear from President Roosevelt.
In short, there are people in the finan-

cial district who do not hesitate to say that Senator Aldrich is acting as President Roosevelt's political agent, and that his mission is to placate the great financial and large commercial interests, and the dwindling shanks of a greyhound. allay their fears as to the acts and pro-nunciations of the present administration that the rainbow is cast in the shade, intended to be vote getters. And it is asserted with a chuckle that the agent is well chosen, since he is the father-inlaw of John D. Rockefeller, Jr. That Senator Aldrich has been busy in his visits to financiers, and that he has given them assurances will not be denied, for it cannot be.

That this mission is a part of a welldefined plan is also asserted and proof is offered in this: That no person prominent in finance and commerce goes to Washington but he is invited to dine at the whitehouse, while the fact is communicated, not by the diner, to the press One of the recent diners at the whitehouse was John W. Gates. He said so in "the street" many times after his return from Washington, and each time he added, "Roosevelt's bark is worse than his bite." A. J. Cassatt, who is a tional committee, and later was made Democrat, and is the head of a monster secretary of the committee. Mr. Dick's railway system which will be in an extraordinary position if the contention of the administration in the Northern Securities case is sustained, was a diner at the whitehouse, but a short time ago, a fact that was widely spread by the press at that time. It is but a day or two ago that the announcement was made in be more in the nature of a circus than the press that J. Pierpont Morgan and anything else. It is the intention to John A. McCall had been received at the whitehouse this week.

Another Wall-street agent of the administration is the late secretary of war, Hon. Elihu Root. Mr. Root who has resumed his practice of taw in New York elected to the 58th congress. ity, is in close touch with the large corporate interests centered there, and like Senator Aldrich he has a definite nission to perform in convincing these interests that their welfare is better assured in the keeping of President Roosevelt than it would be in the hands of a Democratic president. It is pointed out of his regiment, has secured the time- that even should a conservative eastern ator Patterson in his first session went piece. Hearst and General Later Saturday afternoon the watch Miles by which a Hearst and Miles ticket Later Saturday afternoon the was turned over to Colonel Huston, of is to be put in the field, and the question was turned over to Colonel Huston, of the 19th infantry, who delivered it to have been asked a number of times recently if General Miles is a candidate cently if General Miles is a candidate nomination for vice-president. General Miles makes no comment himself one way or the other, and no one is qualified LIFE INSURANCE to talk for him. Recently when both questions were put at him point blank, he said: "I decline to talk on the subject of politics." It is the general opin-(Journal Special Service.)

London, March 1.—In a recent death in decline a nomination for the vice-presiion here that General Miles would not maintains a keen interest in the events here and abroad. Were he to enter the political field he would undoubtedly conthe Philippines. Recently, on this subject, he said:

"The contrast between war and peace is illustrated in the fact that what the treasury has expended in the Philippines would have put water on every quartersection of the arable land in our country where it is required. It would have built for the farmers of this country a system of good roads, or built two ship canals across the isthmus. And yet, with all that has been expended, the Philippines is not a country for an American woman or family."

A party of white-capped and aproned American women nurses is being organized here to journey to the far east in order to take part in the hostilities there. This band of nurses is being organized by Dr. Anita Newcomb Mc-Gee, who was the moving spirit in the organization of the corps of volunteer nurses in our late war with Spain. The list of those who will go on the expedition is confined strictly to nurses who served in the Spanish war. The organization will be completed in time for the party to sail for the orient March 1. There will not be more than 12 nurses

companying the first expedition. "We have ample funds to carry out our project," said Mrs. McGee today. "We calculate that \$100 will provide for one nurse. This will cover all expenses. including uniforms, up to the time of her arrival in Japan, when the Japanese government will foot the bills. We expect no salary whatever, giving our services entirely free. The Japanese "I am pleased to state that I bought services entirely free. The Japanese one fifty-cent box of Pyramid Pile Cure government will provide rations and quarters and we will furnish the rest. We will have two sets of uniforms, Cure has entirely cured me, and I have ployed in officers' uniforms in our army, had no return of that terrible itching. Each of the nurses will wear on her had no return of that terrible itching. Each of the nurses will wear on her which used to keep me awaks by the left arm a red cross, the sign of neu-hour, night after night. If the old troutrality. We offered our services to the ble should ever return I will know just Japanese government because we think what to do, but I guess is won't, for it is that they are more nearly like Americans now six or seven months since I first than the Russians; that they are fighting used this wonderful remedy."

military operations in Korea and Man-

Mrs. McGee has been swamped with applications to join her band of nurses but she has confined the list to those who saw service in the Spanish-American war and who have special training as surgical nurses and dictists. Those who accompany Mrs. McGee must pledge themselves to remain in the service at least six months. Mrs. McGee holds a certificate of graduation from a medical school, and in addition to being the organizer for volunteer nurses during the war with Spain, she was appointed an assistant surgeon in the United States army. She lives in a beautiful egie in this city, filled with artistic furniture and decorations, and after visiting it one appreciates that Mrs. Mc-Gee is indeed a true Samaritan to be willing to leave such attractive surroundings for the uncertainties of Manchuria and Korea.

F. J. Payne, of the Yellowstone National Park, who is visiting the capital, says that catelo, the cross between the buffalo and the cow, of which so much has been said, is an unalloyed fraud and failure.

"In the first place," said he, "they are too hideously ugly to be permitted in the sight of sensitive persons, and in the second place-well, everything

"The only characteristic they have in common is their ugliness. One will have a neck like a giraffe, and another no neck at all; one will have a hump like a camel, while the other will present but, like other marks of the animals, the colors are invariable unattractive, running from a dirty white to an imitation sky blue. In the matter of horns they are equally inconsistent, their appendages in this direction ranging from a pair that would do credit to a Texas steer to no horns at all."

Chas. Dick, whose election as United States senator from Ohio to succeed Senator Hanna seems certain, is the atural legatee of the late senator's political strength in Ohio. His rise was o-incident with that of Hanna's, and with him he took a leading part in the campaign for the nomination of Mc-Kinley in 1896. After McKinley was nominated, he had charge of the western headquarters of the republican nastrength is essentially with the politicians, and he probably knows personally more republican workers than any other man in the United States. He has not the broadness of character that distinguished Senator Hanna, and he is almost entirely out of touch with the business The biography of Mr. Dick, as world. published in the Congressional Directory, states that he was born at Akron, November 3, 1858, is a lawyer, served in the 8th Ohio volunteer infantry in Cuba in the war with Spain, was elected to the 55th, 56th and 57th congresses, and re-

A tradition of the senate that its new and young members should be seen and not heard has been swept away. Senator Beveridge of Indiana violated the tradition when in the first year of his membership he made a formal and lengthy speech on the Philippine question. Sentically every subject which came before the senate. During the present session of congress, senators Newlands, Fulton, Clarke of Arkansas, Stone, Hopkins, Latimer, McCreary and Overman, all new members, have made speeches and participated in debates. The older members of the senate like Cockrell, Hoar and Allison stang aghast at this infraction of the unwritten law of the body, but the rule that a new member shall do nothing beyond presenting petitions, introducing bills and answering to roll call, seems to have been swept away for good.

J. Adam Bede, the new funny man of the house of representatives, bears striking resemblance to James Whitcomb Riley, both so far as personal features go, his gestures in talking, and in his brilliant wit. Bede is a natural humorist, and this fact crops out in nis private conversations, as also in his efforts on the stump and on the lecture platform. Since his witty speech in ongress he has been deluged with invitations to appear at dinners and banjuets to make addresses. Bede is an old newspaper man, and is credited by many with being the best paragrapher in the country. He worked as a reorter in Washington some years ago, and made the acquaintance of the many public men who gather in this ci'y. When Cleveland was president Bede decided that he wanted a government job, and wrote a little note to the president on a piece of birch bark, saying he like to he made United States marshal for Minnesota. He got the job. Bede was a democrat ten years ago, and supported Cleveland in 1892. He switched when Bryan was nominated in 1896, and since that time has been one of the most effective speakers on the republican

Secretary Hitchcock intends to make t as difficult as possible for entrymen to prove up on desert land filings. In a recent ruling he holds that entrymen must have absolute right to sufficient water to successfully irrigate the land; that the system of ditches to conduct the water to and distribute it over the land must be adequate for the purpose, and that the land must have been actually irrigated for a period long enough to demonstrate the sufficiency of the water supply and the effectiveness of the system. Actual tillage must also be shown, and that if it appears that on account of climatic conditions crops other than grass cannot be successfully produced, or that actual tillage will de- 2 of the Alabama Great Southern Limequirements as to cultivation. Proof which show that because of irrigation there is on the land, "a marked increase in the growth of grass," or that, grass sufficient to support stock has been produced on all the land," will not be accepted as showing compliance with the law. It is stated by the officers of the interior department that it has frequently been the practice of large companies in the west to sell water rights far in excess of the water supply, or the carrying capacity of the ditches, and this decision as rendering such water rights as no value as proofs, will serve, the officials state, to protect innocent purchasers who contemplate taking up homes on desert lands in the

The committee on military affairs of sell you "something just as good." You nurses are looking upon this business as will do well to write Pyramid Drug Co., a pleasure lark. It will be rough, hard names and cure of piles, which is sent free for the asking.

The committee of the senate has favorably reported a bill the senate has favorably reported a bill work in a strange country, under advantage and ordnance stores for the use of the causes and cure of piles, which is senate has favorably reported a bill the senate has

AMAZONS FIGHT

G. B. THOMAS RETURNS FROM EASTERN TRIP WITH NEWS OF CHICAGO SHOP GIRLS' STRIKE-LOW TEMPERATURE ONLY MADE MAIDENS MORE DARING.

G. B. Thomas, vice-president of the Port of Portland commission, returned home last evening from Newark, Ohlo where he attended a family reunion at the old homestead. On the return trip he stopped a day at Chicago, and while there says he saw a sight which made an indelible impression.

"I saw 500 girls," said he, "on the warpath. They were employes of Weiderman's big department store, which is located on the corner of Milwaukee avenue. They had gone on a strike for higher wages, and no flercer fight was ever made than they were making.

"It seems that the teamsters were bound down to their employers by a wo-years' agreement. Notwithstanding this the girls wanted them to declare a sympathetic strike, and refuse to handle the Weiderman goods. The teamsters could not see their way clear to, comply with the request, and a three-cornered fight was precipitated. They began to spar with the teamsters more zealously than they did with their em-

ployers. "Whenever one of the drivers loaded his truck or dray with Weiderman rieght he was pounced upon by about 50 of the dauntless maids who made his Some of them would life a real burden. seize the horses' bits and others would climb in the wagon and grab the driver by the ears, nose and hair and force him to get down and beg for mercy. But none was shown. All around the big store they had wagons held up in the same manner, and they were certain ly mistresses of the situation. Big crowds gathered to take in the sight, one interfered-not even the police.

"The thermometer was 12 degrees below zero, but it seemed to have no ter-rors for the girls."

upon the recommendation of the governor of the state or territory, and the institution receiving the same will have to pay the transportation charges. There is a vast amount of ordnance and discarded equipment of every character lying around the different forts and posts throughout the country of no use whatever. Generally, after it has rotted and mildewed a board of army officers is convened at some expense who solemnly go over the different heaps of stuff and solemnly condemn it, and it is either given to second-hand dealers or is destroyed. Many military academies throughout the country have requested ordnance and equipment which could no longer be used by the army, but under the law it could not be given to them. Senator Proctor of Vermont has there-fore introduced the above bill and it has been favorably reported and in all probability will be enacted into law at the present session.

The horse and carriage graft inquiry started by Representative Hitchcock has practically failed, and the real facts back of the graft have not been brought to light. Mr. Hitchcock was on the right track, but the more experienced members out-maneuvered him, so that his inquiry when adopted, permitted the heads of the departments, to whom it was directed, to give the most barren information on the subject. As a matter of fact, the abuse of the public vehicle indicated in the replies of the heads of the departments. None of them took the occasion to state in his report that chief clerks and heads of divisions are accustomed to take their Sunday drives and horseback rides in carriages and on horses bought and maintained by the government. Heads of separate bureaus of the government were saved from re-porting the abuses of the horse and carriage privileges, by the fact that the inquiry was directed solely to the cabinot officers. The reports of the cabinet officers merely stated the number of horses and carriages in use, and the value of same. This information was of no particular use to the house of representatives, and consequently the proposed investigation has flattened out to almost nothing.

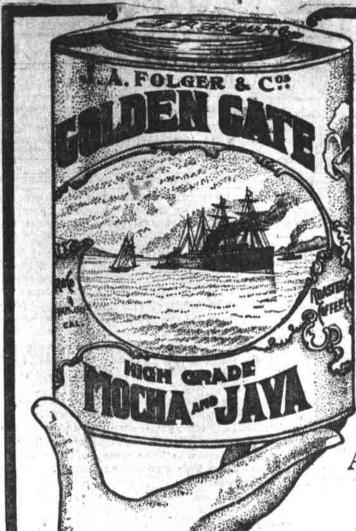

Officers of the insular bureau of the war department say that the war in the far east will precipitate a boom in the Philippines. Even before hostilities began an agent of the Japanese government arranged for the purchase of 24,-000,000 rations of rice. Japan is depending upon the Philippines to furnish the bulk of the rice needed for its troops during the war. Since this first order was given, large additional orders were placed for rice to be delivered at Yokohama and Nagasaki. The Philippines would be unable to meet these orders but for the fact that the rice crop of last year beat all records. It is described as simply phenomenal. The yield of one province is said to be 325,-000,000 pounds. It was enough to supply the whole island of Luzon. The reports from other provinces all indicate tremendous crops. Lack of transporta-tion facilities is all that stands in the way of making the year one of great profit to the growers. The insular bu-reau officers say that this is the first time in a generation that the natives have had a chance to grow and market rice without interference either from insurgents, tax collectors or political

NEGROES ROB POSTAL CAR AND KILL CLERK

(Journal Special Service.) Birmingham, Ala., March 1 .- In an attempt by\asgang of negro desperadoes to rob a postal car attached to train No. stroy or injure, its productiveness of a ited, near Meridian, Miss., yesterday, crop of hay of marketable value, the J. T. Stockton, a postal clerk, was result of actual irrigation may be accepted as sufficient compliance with the A. J. Bans was shot in the arm. Jim Paris, colored, who did the shooting, secured the registered letters, but in jumping from the train crushed his leg. He dragged himself three miles where he was captured by bloodhounds.
