Any Man Can Earn Money, But Only the Wise Man Keeps It.

A BANK ACCOUNT

A Bank Account gives you that feeling of security, independence and self-reliance which can be obtained in no other way. The knowledge that you have a fund available to tide you over a period when sick or out of employment, will remove worry from your mind and enable you to work cheerfully and contentedly. Ready money is the one friend that can be depended upon to help you when most needed. The ability to obtain ready money on short notice is one of the advantages of having a bank account.

That Person Is Wise Who in Youth Makes Provision for Old Age.

MAKES YOU INDEPENDENT

When you have a bank account you feel a pride in adding to it; you feel an interest in the bank in which you deposit and the bank feels an interest in you; you feel yourself to be a better citizen and a better man. You owe it to yourself, your family and your friends to open an account today and begin the saving habit. The habit will grow as your account grows.

A Dollar Saved Today May Be the Foundation of Your Fortune

EASY TO HAVE ONE

By our new plan of saving we make it possible for every one to have a bank account. You need not wait until you have \$50 or \$100 in hand, but you can open an account today with only \$1.00, and add to it at convenient intervals. No one is too poor to save something, and but few so rich that they can afford not to save.

Begin Saving Today—Tomorrow You May Forget to Do It!

Saving, Like Spending, Is a Habit

GET THE SAVING HABIT

To encourage the saving habit we loan one of our handsome steel Home Savings Banks, to any one who will open an account with us of \$1.00 or more. Drop your small change in the bank and once a month bring it to us to have your savings counted and placed to your credit. Get a bank for yourself and each member of the family. Encourage the saving habit in children—it will prove valuable to them in later years.

The Sure, Safe Road to Success, Is Steady, Systematic Saving

AND A HOME BANK FREE

Fortunes are seldom made in a day, neither does one save in large amounts. Our little banks afford a safe and convenient place in which to accumulate small savings. Because they are always locked and the key kept by us, you cannot be tempted to spend what has once been put in them and so they help you to save. Call for a little bank today—it's free.

A Thousand Get Rich by Saving, Where One Gets Rich by Speculating

HOW TO GET RICH

The rule by which the fortunate few rise to riches is this: Never live beyond your income, and save a portion of that income, no matter how small it may be. That's a simple rule, and can be easily observed if one makes the effort. A little self-denial, cutting off unnecessary expenses, putting your savings in the bank and in a few years you have the means with which to begin a business or buy a home.

Saving and Self-Denial are the Two Prime Elements of Financial Success!
