

THE BOSTON STORE THE BOSTON STORE THE BOSTON STORE

The Quality Is Here Just as Well as In the High Rent Districts

IT IS POSITIVELY TRUE THAT WE ARE OVERSTOCKED

And we find ourselves in such a strait that the wisest may well be perplexed—the boldest staggered. The optimistic view which we took of the general condition of affairs early in the season emboldened us to lay in a much heavier stock than usual. This fact, in connection with later heavier purchases, made by us under most favorable conditions (and of which we gave the people the immediate benefits at that time) leaves us with a stock \$50,000 in excess of that which our judgment tells us we should have at this advanced stage of the season—proportionately distributed throughout the several departments of the store. These are our own goods, selected and bought under our supervision for you to pass judgment, and they are fine, finer and finest merchandise. We have reached that point where we find it necessary to unload quickly, in order to do which we cannot afford to count the cost nor to stand on any ceremony. Therefore, with nerves of polished steel we have cut deep into the very vitals of prices on this peerless stock of ours—and commencing tomorrow morning—we proffer the people the biggest bargains, in the most superb values, in the highest styles, ever before seen on this Pacific coast or west of the Mississippi river. Ready-to-Wear Garments

The Great Half-Price Sale in Progress

It grows in popularity each succeeding day. The marvelously low prices on the most fashionable and perfectly made garments have undoubtedly been brought to the attention of many through personal expression of those who have patronized this sale, but we believe even such recommendation or approval is not enough to fully express the rare values presented. It requires a personal examination to realize all the benefits. When we say that every garment is included in our excessive price reductions one needs to be on the floor—in order to appreciate the magnitude of the offering.
