GUILTY Of Demoralizing the Business of Profit-making for Every House that Carries Our Lines Within Portland's Shopping Confines!

But circumstances compel the slaughter. Never have dollars done so valiant a duty—each now performs nearly double its stunt. Quality merchandise is being sold for less here today than ever before in the history of merchandising on the Pacific slope. Dislodgments of stocks, razing and rebuilding of departments, reconstruction and enlargement of present lines with expansion and addition of new ones, in connection with tearing down the walls and joining the old and new stores, that will form a public thoroughfare from Sixth street to Fifth and Washington, force the issue. But one way to save the goods from damage—that's to turn them over to you at a loss to us. We're doing it. The fact is incontrovertible. If additional proofs of this statement are required, the items below furnish promising clews—follow them up—keeping constantly in mind that a dollar spent elsewhere for goods carried by this house during the run of

The Stupendous Dislodgment Sales

Means that you are paying from 20c to 50c of it to another dealer that you might have pocketed yourself by taking advantage of the great sale here where ABSOLUTELY EVERYTHING IN THE HOUSE IS UNSPARINGLY REDUCED.

Grand SPECIAL DEMONSTRATION of the Universal Bread Mixer

On Third Floor. We invite our lady patrons to call and witness a practical demonstration by an expert from the factory of the UNIVERSAL THREE-MINUTE BREAD MAKER. The demonstrator will be here for a few days only. Good bread and the easy way to make it. Baker's bread doesn't compare with "the bread that mother used to make." But he is a brave man who suggests that either mistress or maid shall go through the drudgery of kneading the dough by hand nowadays. But the disagreeable old-fashioned method is no longer necessary for this making of the delightful, healthful old-fashioned bread. Instead of a half hour of back-breaking work, it is now an easy three-minute task, to knead the dough perfectly—with the Universal Bread Maker. Now every dear old lady, whose bread every mother's son of us would like to live on, would say "Bosh!" and we couldn't blame her. Simple as the new bread maker is, the work that it accomplishes so successfully is almost unbelievable, until you see it done with your own eyes. Come and see the demonstrator at work; and see the dough she kneads with the new bread maker, and the bread as it comes from the oven, as well as when it is cut, when cool. Then every housekeeper, as well as her husband, wouldn't think of living without delicious home-made bread. Price of the Universal Bread Mixer is \$2.25.

Strikingly stylish, a source of relief, delight and pride to the wearer, and of admiration to others. Very durable, economical and hygienic. So perfect, dressmakers fit over them without suspecting them by sight or touch; so healthful, they aid development of the natural bosoms. These forms do away with all unsightly, unhealthy and uncomfortable padding. They produce perfectly the full bust and slender waist decreed by the latest fashion. Positively the only device which perfectly simulates flesh and flood. Applied in an instant, invisible with any costume; neither sight nor touch reveals their use. Worn with or without corsets. Eagerly welcomed by society women everywhere. Indorsed by leading dressmakers and ladies' tailors. They fit any figure, adapt themselves to every movement and position, take the desired size and shape, filling out ill-looking wrinkles, making the "fit" of any dress perfect and stylish. In light waists and evening dress they are worn low in the corset, forcing the natural bosom upward while they remain concealed. As a support they are a grateful relief to mothers. Made of a quality of Para rubber so amazingly tough that a strong man can't break a piece an inch broad. They are pronounced by an eminent woman "more an inspiration than an invention." Manufactured under five patents and perfected by the experts of the world. "A tribute of skill and science to the demands of fashion and health."
