

PORTLAND, OREGON, SATURDAY EVENING, JUNE 25, 1904.

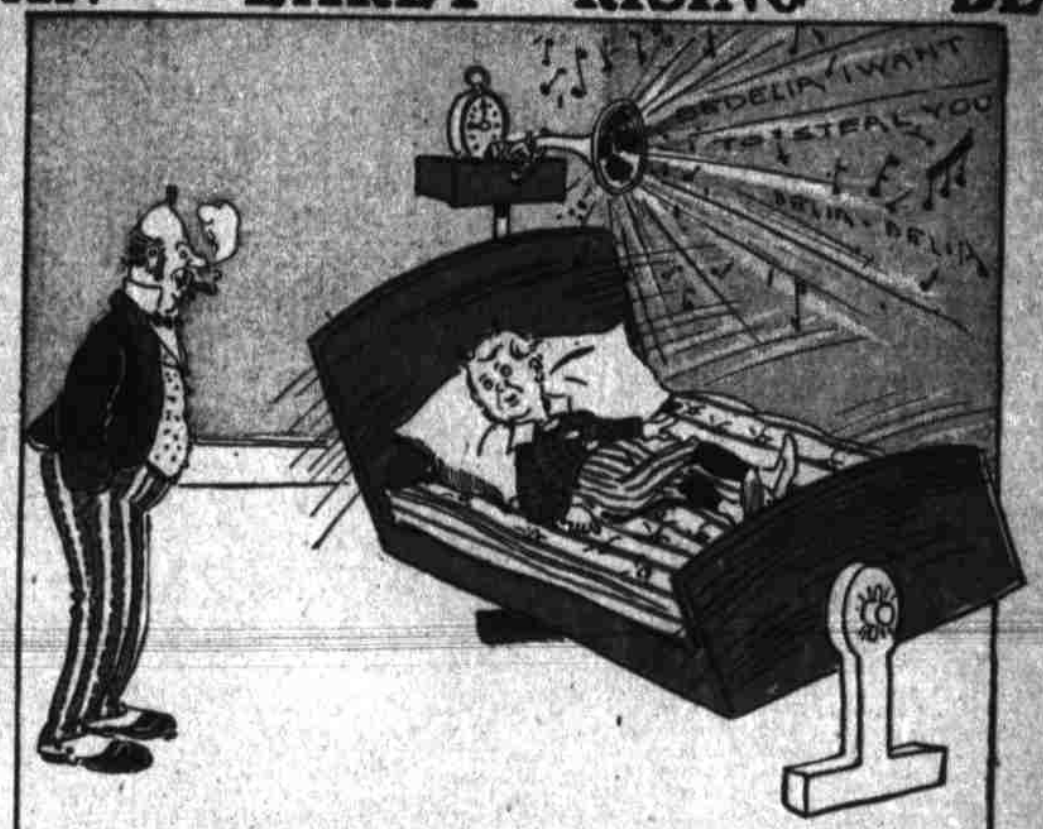

WILLIE WESTINGHOUSE EDISON SMITH INVENTS AN "EARLY RISING" BED

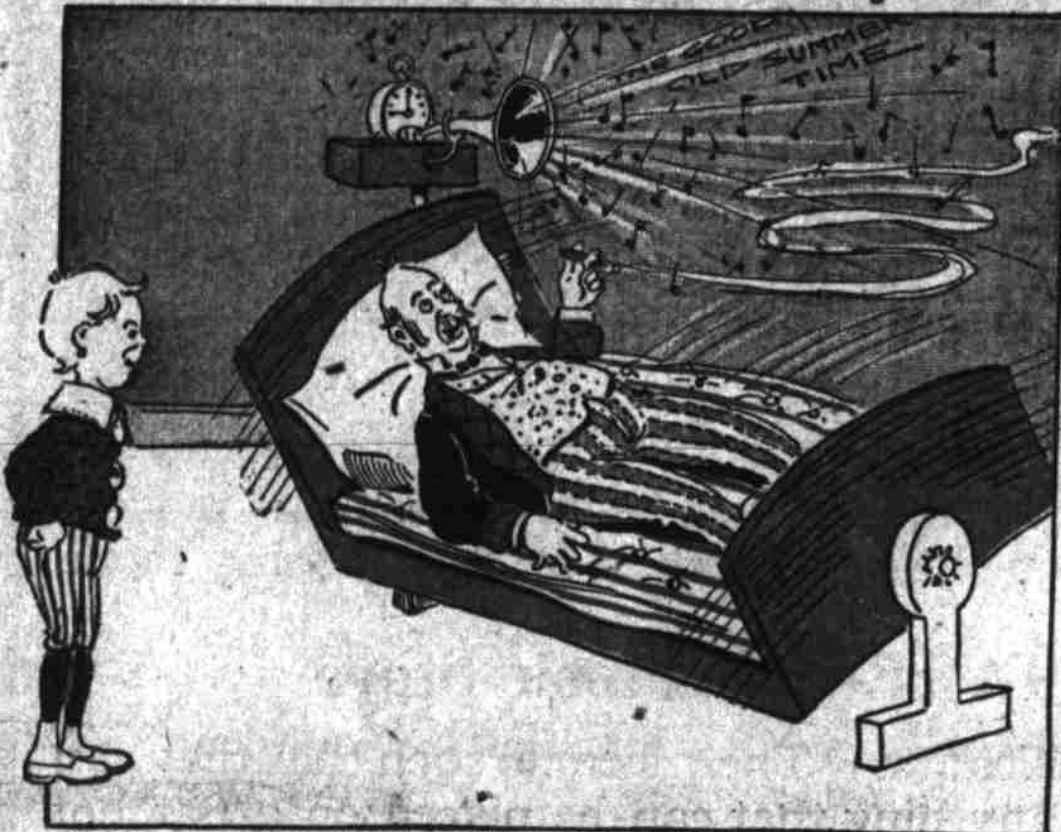

Papa oversleeps himself and has to rush so in the mornings—

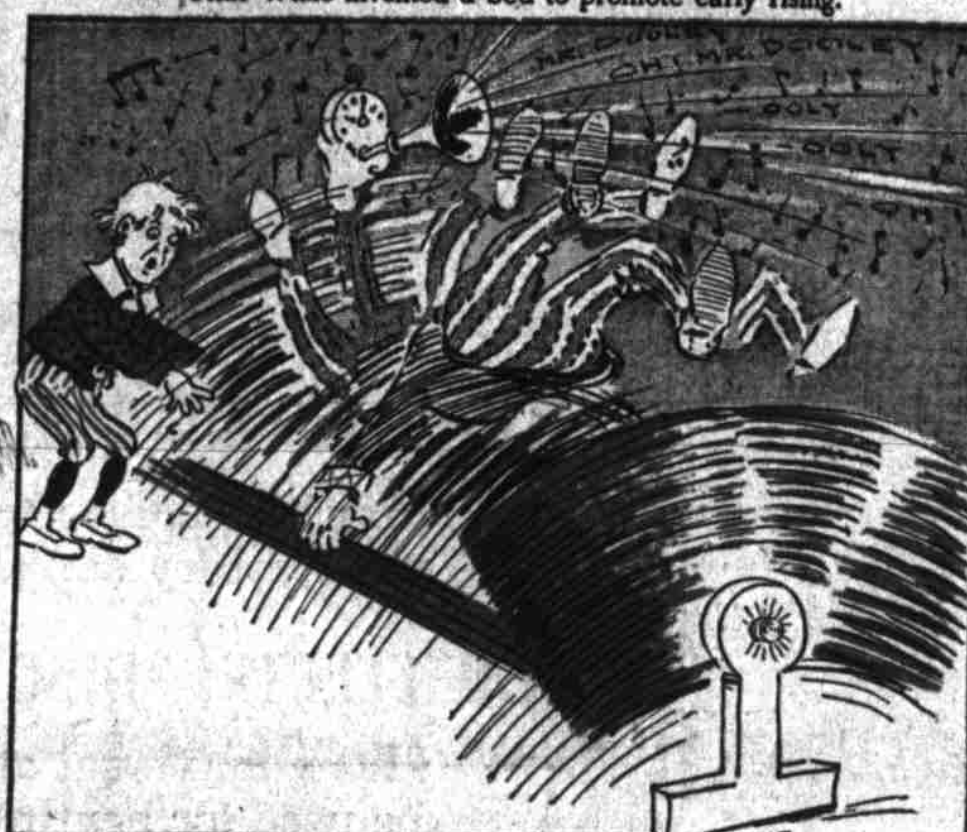

That Willie invented a bed to promote early rising.

It had an alarm clock attachment, and looked all right.

Papa was tickled with it, and thought it would be fine—

But just at the critical time the spring got twisted.

Papa got a good shaking up, and there was trouble for Willie.

PRETENDING PERCY WOULD NOT STEAL A BIRD'S NEST
