Elks May Build.

It is stated that the Portiand Elks will discuss plans for their proposed new structure at the meeting to be held next Thursday night. The matter was brought up a number of weeks ago, bit it was decided not to build at that time as the lodge could not accomplish its purpose without going in debt. It is now reported that the Elk lodge has an offer of \$45,000 for its property at the rear of the Imperial hotel, and has secured an option on a building fot in the vicinity of Tenth and Morrison streets, This will emable them to build without becoming involved, and the plan is to erect a two-story fire proof building, that will be fitted up as a home and meeting place for the Elks. It is the announced intention that the

pose of them on account of Monday be-ing a holiday. It was runored on Front street this afternoon that three hawkers had taken out licenses, although the report was not confirmed. 'Several commission men stated that if none of the hawkers had taken out a license, it was certain that they would do so before a week passed. Two or three of the merchants said that they could get along with-out the hawkers, as they had no trouble in selling the overripe fruits to grocers and small dealers at better than they had been receiving from the hawkers. However, these were confident that the hawkers would not delay long before taking out licenses. Another commis-sion merchant said that the matter was not worrying him, as some one of the hawkers was bound to make a break, and the others would follow him in the matter of taking out licenses, One commission man said, certainly the hawkers would take out licenses, as the commission men could not af-ford to let their fruit waste. Another said that the merchant could take out a license if he chose, but that such a move would not be necessary, as the hawkers would evidently take out licenses. Another reminent merchant said that the hawker's license was not exhibitant, only 66 ents per day, which was much less than the commi-sion merchants had fo pay, and his optimen was that the pedder could pay it.

THE STOCK MARKET IS HAVING HOLIDAY

All American stock exchanges are closed from yesterday until next Tuesday morning, therefore on stock quotations were re-ceived yesterday by wire. It is prophesiod that after the agony of the national Demo-catic convention is over, stocks will again move briskly, unless something hits the corn or cot-ton crops.

We have the hargest list of substan-tial and desirable farms of any agency in the state, and can offer the best in-ducements to intending purchasers. It is impracticable to undertake to adver-tise them in the columns of the papers, but have compiled them in convenient form ready to mail or hand to any earnest inquirer after lands. Call or write for this list. It contains offer-ings from the small tract of but a few acres to the large ranch, and at prices in keeping with the character and loca-tion of the particular property.
