JAPANESE CAPTURE RURAL CARRIERS

PATEIN'S MEADQUARTERS.

(Copyright, Hearst News Service, by Lessed Wire to The Journal.) Tokio, July 5.—After severe fighting, General Oku occupied Kaiping yesterday

(Friday).

Kalping is an important point on the line of the southern branch of the Eastern Chinese railway, which cuts off from the Frans-Siberian line at Harbin and runs south to Port Arthur.

It is less than 30 miles distant from Niuchwang, about 40 miles south of Haicheng and '60 miles south of Liao Yang, the headquarters of General Kuropatkin.

It is farther west than any point at hich the Japanese have yet been re-orted, being about five miles from the lactung gulf.

RUSSIAN TROOPS AFIELD.

Is Entirely Inadequate to Meet

Japanese.

(Journal Special Service.)

London, July 9.—According to the latest estimate of the available fighting strength of General Kuropatkin's command it is improbable, after allowing for losses already sustained, casualties and illness, that the Russian commander in chief can dispose of more than 94,000 bayonets and sabres, with 263 field guns. His force can hardly, on a liberal calculation, exceed 100,000 infantry, 3,000 engineers, 10,000 Cossacks and 311 field guns.

With this number General Kuropat-kin has to retard the Japanese ad-vance and defend the long line from Ninchwang to Siamtase, on the road to Mukden from the Yalu river, in or-der to keep his line of communications open along the Trans-Manchurlan rail-way to Harbin, 600 miles from the sea. This army forms the main group of

This army forms the main group of the Russian forces. It consists of 63 battalions of the East Siberian Rifles, of the Seventh, Second, Third, Fifth, Sixth and Ninth divisions, 16 battalions of the Tenth and Seventeenth army corps and 48 battalions of Siberian in-fantry, or a total of 127 battalions, with 41 batteries of field and two of

The second group is that of General Stoessel, intrusted with the defense of Port Arthur, consisting of the Fourth division, three infantry regiments and the Seventh division, the total making probably about 28,000 of the land army, allowing for sick and a loss of 2,000 at Kin Chow. With 10,000 sailors his combative strength should be 38,000 men, with some 50 field guns and 400-siege guns, besides naval ordnance.

The third and last group of the Rus-dan forces in the field is that of the roops assigned to Viadivostok, con-sisting of the Eighth division, the forraiding in Northern Korea. These are under the compand of General Linevitch, and in number probably do not exceed 12,000.

exceed 12,000.

The Russian staff has arranged for the dispatch of 162,000 men and 83,000 tons of stores during the six months from May to October, a monthly supply of 27,000 men and 13,883 tons of stores. With the most favorable cfreumstances and the unhampered use of the Trans-Siberian railway, it seems improbable that General Kuropatkin within the next few weeks can oppose anything like equal numbers of the Japanese armies attacking him.

MEAT FOR JAPANESS.

(Special Dispatch to The Journal.)
Scattle, July 9.—Salling next Tuesday,
the Boston Steamship company's Shawmut will take the largest order of canned
meat ever to cross the Pacific at one
time—1,000,000 pounds of beef for the
Japanese army in the field. The Shaw-

TOWN OF KAIPING TO WEAR UNIFORMS

(Washington Bureau of The Journal.)

Washington, July 9.—Uncle Sam's ruy ral free delivery carriers are to wear uniforms. While an order to this effect has not been issued, the department has the matter under consideration and has practically decided that the carriers must provide themselves with uniforms. The subject has been under investigation for some time, but in reply to an inquiry as to whether the department contemplated having its carriers in uniform. Superintendent W. R. Spillman of the rural free delivery division of the postoffice department said that the matter was in such a state that nothing could be given out.

There are 126 rural carries in Oregon, 109 in Washington, and 24 in Idaho and a like number of substitutes.

Grown with Bapidity.

No branch of the government service has grown with the rapidity of that of rural free delivery in the past three years. From less than a score a few years ago the number has increased until there are now 25,352 rural free delivery carriers with additions daffy being made from 10 to 25.

There are 29,144 city carriers in the United States, but this branch of the postal service has been in existence for many years. In a couple of years the rural carriers will far exceed the city carriers. City carriers pay from \$11 to \$15, hat included, for summer uniforms, and from \$18 to \$22 for winter uniforms, hat included, the price varying with the section of the country. Rural carriers receive from \$450 to \$729 per year.

GOVERNMENT HAD A \$41,000,000 DEFICIT

(Special Dispatch by Lessed Wire to The Journal) Washington, July 9.—The close of the fiscal year found the government shy \$41,000,000. But this is only an imaginary deficiency, and one that is the result of the uncertainty as to what will be the government's expenses for an ensuing year. The day following the declaration of the deficiency of \$41,000,000, this amount was immediately transferred from the appropriations made by congress in the session just closed for the fiscal year beginning July 1, 1904, to last until June 30, 1905, to the dehit side of the books for the year ended June 30, 1904.

Congress never knows what the expenses of the government are going to be, and hence besides making appropriations for specific projects places money available for the unexpected expenditures which may arise, and one of these during the past year was the immense item involved in taking over and starting work on the Panama canal.

There is no danger of the issuance of bonds or of the government getting into any straits over the deficiency just declared, however. It was simply following a system of bookkeeping made necessary by the exigencies of circumstances.

HINDOO PRINCE WILL **PAWN FAMILY JEWELS**

(Special Dispatch by Leased Wire to The Journal)
Oakland, Cal., July 2.—Unable to
raise the additional \$200 required of
him as bail, Ramina Aramancha Sengh,
the Hindoo prince, now in jail on a
charge of burglary, will pawn his family jewels to effect his freedom. All
night Miss Mabel Falkner, the young
lady who is to marry him, tried in vain
to secure the necessary money. This to secure the necessary money. This morning she was compelled to report her failure and at a last resort Sengh

he Toronto and Niagara Power company.

He was running a pump when suddenly he was seen to slip and plunge into the water, the current of which runs at 30 miles an hour at this point. Once in the grasp of the current there was no hope for him and within a few minutes his companions were horrifed to see his body swept over the brink of the Horseshoe falls. Among those who witnessed his awful fate was his father.

PARISIAN BAILIFF SEIZES WALL'S SHIRTS

(Copyright, Hearst News Service, by Leased Wire to The Journal.)

Paris, July 9.—E. Berry Wall of New York has been in trouble about his shirts. He has an enormous number of them and he has increased his supply recently by a purchase in the Rue de La

Paix.

Mr. Wall, however, omitted to pay immediately for the articles, thinking that there was no special hurry. He forgot the fact that American credit is no longer unlimited in Paris. When he returned from Longchamps yesterday he was umaxed to find a bailiff in his room, not only seizing his shirts, but other valuables as well. He had bought only 2,500 francs worth of shirts and never dreamed that the seller would send a bailiff for such a sum.

Mr. Wall paid the money, released his shirts and kicked the bailiff out.

WHAT IS SAID OF PARKER'S MESSAGE

(Continued from Page One.)

Democratic Committee—I never doubted that Judge Parker favored the gold standard. He is our candidate, and we

that Judge Parker favored the gold standard. He is our candidate, and we should now go home and do all we can to elect him.

Senator Thomas F. Grady—This reminds me very much of 1896, when John Boyd Thatcher declined to run for governor on a free silver platform. Hill has, I am sorry to say, not managed the Parker campaign as skilifully as he might. I find now that Parker and Tammany are in full accord on the money question. I may be pardoned for recailing the fact that Tammany insisted upon a gold plank and Hill, after the income tax plank was killed, dropped the fight for gold. The situation is deplorable. But Tammany is absolved from all responsibility.

MUSICIANS SEEK **NEWS OF STILES**

Herbert C. Stiles, a well-known young man of Portland, is wanted by the authorities here for failure to turn over \$147 to the Woodmen of the World band, of which he was manager. That amount was given him by J. L. Mitchell, secretary of the carnival, where the band was playing. He cashed the check and has not been seen here since Wednesday. He and his family are now supposed to be at Seaside, although efforts to locate them there have proved futile.

Stiles was employed by Pearson-Pags company, Front street, commission merchants. It is alleged that he also secured \$30 from the firm for traveling expenses, as he had been doing work for them, in the valley. The information against him was signed by John M. Tomlinson, a member of the band. While here, Stiles and his family resided at \$245 Sixth street.

To change it now because the candidate actues to run upon it would be absurd. When a platform, hut to not to change the platform, but to to change the platform, but to to change the platform, but to not to change the platform, but to not to change the platform, but to compete the platform and is undoubtedly satisfied with it. It has all the time seemed to me that he was the logical candidate and I believe he would get more totes in the election than anybody else. His nomination now would be more logical changes action of Farker eliminates him, even if he has been nominated. The chances of Hearst are vastly bettered by the Parker telegram and I believe he now has a good chance for the nomination. We won't take another "gold bric." from the town of the counties to interest the official in time to gather exhibits of ruling, grains and grasses. Commissived in the platform with the circumstance has precipitated a criss. What will come of it identify the counties in the castern part of the temper of the delegates that a further opportunity is presented for the nomination of W. R. Hearst.

Certainly this circumstance has precipitated a criss. What will come of it identified it would appear from the temper of the delegates that a further opportunity is presented for the nomination of W. R. Hearst.

Certainly the circumstance has precipitated a criss. What will come of it identified it would appear from the temper of the delegates that a further opportunity is presented for the nomination of W. R. Hearst.

Certainly the criss of the commission decided to have published with the course of his convictions to run.

The attitude assumed by Judge Parker's sponsors had made him come out and expressible views before the platform was adopted.

Carl Hayden, delegate from Arisonal Judge Parker for the first the platform with the platform with the course of his convictions to run.

Governor A. M. Deckery of Missouri—The attitude assumed by Judge Parker of the conviction of the platform is indeed as serious affair, at this stage of

the convention voted? He the east and its gold poldn't he so declare himself? serious situation.

Hill—The Parker message taglf. I do not think we incused of having a speechte.

Cord Meyer, Jr., New York Cord Meyer, Jr., New York Committee—I never doubted Parker favored the gold e is our eandidate, and we go home and do all—we can commas F. Grady—This recy much of 1896, when John er declined to run for government of the gold are in full accord on the laign as skillfully as he laign as skillfully as he laign as skillfully as he laign as partoned the fact that Tammany in gold plank and Hill, after tax plank was killed, fight for gold. On motion or President Mayers a resolution was passed that from now on smoking be absolutely prohibited on any part of the exposition grounds. It was explained, that a fire breaking out now might destroy the whole exposition. The fire plugs and pipe are in place and the water is ready to turn on, but the water is ready to turn on our can dead a cava

to secure the necessary money. This time—1,000,000 pounds of beef for the Japanese army in the field. The Shawmut is loading the meat at Tacoma to day. It came across the continent in 40 Northern Pacific freight-ears, arriving yeasterday, and the steamship will discharge the load at Yokchama.

Secrecy has been maintained in preparing the shipment in Chicago and transporting it to Puget sound, while nothing has been given out at the steams ship offices or by transportation men. The order was placed through Sale & Co. Of Yokohama, by H. S. Gullixson, formerly of Seattle, where he is well-known socially. Mr. Gullixson was sent to the orient a few months ago by Armour & Co., and the 1,000,000 pound deal is one of his first.

Thought it is not given out officially that the meat is intended as war supplies for the Japanese, among shipping men there is no doubt of the purpose for which it is intended it is declared that such an amount of beef could be required for almost no other purpose.
