

BRYAN'S POWER WAS WONDERFUL

DELEGATE SHERIDAN TO THE NATIONAL CONVENTION SAYS MR. BRANCA ONATOR IS AS STRONG AS EVER IN HIS LEADERSHIP OF THE DEMOCRATIC PARTY.

Thomas H. Sheridan of Roseburg, one of Oregon's delegation to the national Democratic convention at St. Louis, in the city today, on route home.

My strongest impression of the convention? Well, perhaps the thing that struck me most forcibly was the influence of Mr. Bryan. His personality carried for more weight than that of any other man.

Another feature that impressed me was the strength and high character of the men from the south.

As to the result of the convention, I am sure it means harmony. There was a harmonious spirit throughout, and it was strong to the last.

Mr. Sheridan talked interestingly of the various political personages at the big convention. He said Champ Clark was a very strong presiding officer.

PATROLMAN FAINTS WHILE CHIEF TALKS

After standing in line for a half hour this morning, listening to Chief of Police Hunt review the ordinance of the city, Patrolman Rowley of the second night relief, fainted and had to leave the ranks.

This morning Chief Hunt held the men of the day patrol and second night relief in line a half hour each, explaining the various city ordinances to them, and instructing them as to their duties relative thereto.

building of three stories and a basement, the first floor being an audience room and the remainder of the building cut into sleeping rooms.

TELLS OF THE GOOD HIDDEN IN MEN

"Christianity as Opposed to Churchianity" was the subject chosen by Dr. Thomas McClary at the Y. M. C. A. auditorium yesterday afternoon.

Mr. McClary held that somewhere, in all men, there was a religious feeling, that needed but the right thing at the right time to develop it.

Mr. McClary held that somewhere, in all men, there was a religious feeling, that needed but the right thing at the right time to develop it.

MR. HARE AND MISS TORTOISE

Portland, Or., July 18.—To the Editor of The Journal.—If the hare travel 10 miles an hour he will travel 1.66 2-3 mile per minute.

There are 10 miles between them; hence, it will take the hare as many minutes to catch the tortoise as 10 is contained in the difference between 10 and .016 2-3 mile, or 15 minutes.

Give us something interesting. L. K. ARTHUR.

FIELD EXERCISES AT AMERICAN LAKE

SATURDAY'S MANEUVERS THE MOST SPECTACULAR SINCE THE ENCAMPMENT BEGAN AND GAVE MORE MEN OPPORTUNITY FOR ACTION.

Headquarters First Brigade, Camp Steilacoom, July 18.—Saturday's maneuver was the most spectacular of the week and gave more men opportunity to get into action than at any previous time since the field exercises began.

The scene of combat was a large field just north of American lake. It is surrounded by dense timber. The plain is a mile wide and a mile and a half long.

The groves on the edges furnish the troops excellent opportunity to screen themselves. In the center of the open space runs an old railroad grade which the infantry found available for entrenching themselves.

The battle-ground was previously selected for the first time since the encampment opened, heretofore each side being left to fight where it met the enemy. The distance was about equal from each camp, so that the footsore troops had no marching to do during the earlier part of the week.

Won Highest Praise. The battle proved another battle for the Blue forces from this camp, the second battalion of the Washington regiment capturing the battery of the Browns by a most clever and daring flank movement, which was the best feat of the entire week.

Members of the first separate battalion of Oregon also did valiant service under their able commander Major Moran, who has commended himself by his tactful work since he arrived here.

During the march of the Blues from this camp, under the command of Colonel Godfrey, the Oregon militia acted as advance guard.

Troop A Disappointed. The greatest disappointment fell to the lot of troop A, of the Oregon detachment, Captain Ellis commanding. These lads have been doing much cavalry duty, sleeping by the roadside at night and traveling many miles.

Several Men Suffer. The first incident to mar the maneuvers was caused by the colored troopers of troop B, Ninth cavalry, from Walla Walla. This squadron had been driven back by a heavy fire from a portion of the Nineteenth infantry, under Major Gos, and the Second Washington.

In great danger, the Blues retreated in order, but several men from this camp suffered. Private W. C. Meade, company A, Nineteenth infantry, was stabbed in the leg with a sabre and is in the hospital although the injury is not serious.

Private Walter Jones, company C of Ellensburg, was cut across the hand by a sabre, while Private Sexton, company F of Hoquiam, was stabbed in the back but the wound is not deep.

Sergeant Porter, company G of Vancouver, accidentally bayoneted a horse. His bayonet was fixed in his gun and in rearing one of the troopers' mounts fell upon the sharp point.

Two of the troopers, in madly riding through the timber, had a head-on collision, one of the horses being so badly injured that he died.

The Lunderwood typewriter is equipped with a tabulator at no extra cost.

BURSTING RESERVOIR CAUSES BIG DAMAGE

(Journal Special Service.)

Scottsdale, Pa., July 18.—Much property has been destroyed and the valley flooded by the bursting of the new reservoir of the Citizens' Water company, which occurred at midnight Saturday.

More than 300,000 gallons of water were confined in the reservoir when the accident happened, and this rushed down the valley, carrying everything before it.

When it was found that the dam was in danger of breaking, messengers notified all those living in the path that the water would take, and thus no lives were lost, as all the inhabitants hurriedly escaped to the high ground.

Many bridges were swept out, and the estimated loss to the reservoir and machinery will exceed \$50,000.

CANADIAN PACIFIC STEAMER DAMAGED

(Journal Special Service.)

Vancouver, B. C., July 18.—The Princess Victoria, looking upon the coast steamer of the Canadian Pacific fleet, while en route from Seattle to Vancouver yesterday forenoon, struck on a rock at Prospect Point and suffered serious damage.

The vessel was traveling at a swift rate of speed against a strong outflowing tide, when she suddenly steered to starboard, and owing to the speed at which she was going, it was impossible to change the vessel's course before she ran upon the rocks.

One propeller is destroyed and two plates on her starboard side stove in. She will be taken to Esquimalt drydock today for repairs.

NOTED ASTRONOMER DIES IN ENGLAND

(Journal Special Service.)

London, July 18.—Prof. Isaac Roberts, the distinguished astronomer, died today at Beacon observatory.

Dr. Roberts' original investigations have added largely to the world's knowledge of stars, nebulae and the structure of the universe.

The honorary degree of doctor of science was conferred upon him by the University of Dublin in 1892. In 1895 he was awarded the gold medal of the Royal Astronomical society, on the council of which he had served for several years.

Since 1880 his work has been continued mostly at his observatory at Starfield.

BLUECOATS IN STRIKE

(Continued from Page One.)

1,000 more men will quit work. The packers of this city, since Saturday night, are doing some killing today. The strikers' ranks remain unbroken.

STRIKERS ARE JOINED.

(Journal Special Service.)

St. Louis July 18.—Services were secured this morning on several strike leaders and members of unions against whom an injunction was granted last night at Bellefontaine.

The packers are operating with partial forces and there was no disturbance this morning.

OPERATE IN KANSAS CITY.

(Journal Special Service.)

Kansas City, July 18.—The packers this morning are operating about as they were last week, with a comparatively small number of men.

What is regarded as proof of the man's guilt is the fact that his description is exactly like that of the man who, it is thought, committed the crime, and that he contradicted himself time and time again.

(Journal Special Service.)

Kansas City, July 18.—The packers this morning are operating about as they were last week, with a comparatively small number of men.

What is regarded as proof of the man's guilt is the fact that his description is exactly like that of the man who, it is thought, committed the crime, and that he contradicted himself time and time again.

In appearance Wilkins is rather short, heavy-set and wears a week's growth of beard. He claimed to have worked in brickyards and evidently, from his appearance, is a laboring man.

Sheriff Louis took him to Grants Pass last evening on the Oregon express.

Marcell, in case Williams proves to be the murderer, will be entitled to the \$500 reward offered by state and county officials.

CAPTURES MUCH WANTED SUSPECT

(Continued from Page One.)

for a long time, so as to avoid suspicion. Much to his relief, the sheriff was easily found and soon arrived and at once took the suspect to the county jail without the least resistance, where he was held till the coming of Sheriff Louis of Josephine county.

What is regarded as proof of the man's guilt is the fact that his description is exactly like that of the man who, it is thought, committed the crime, and that he contradicted himself time and time again.

He gave his name as Wilkins, though there is doubt in the minds of the officers whether it is his true name.
