tween Milwaukie and East Twenty-first, are diseatisfied over the estimate of \$7.562 for improvements, made by the city engineer. The estimate for a plank road was little lower than this figure, and yet was rajected on the score of economy. Graveling the street has already begun, but it is a question whether the work will be carried to a conclusion. The trouble is said by Frank Blanck, one of the objectors, to be due to the City & Suburban having a single track on one adde of the street and a franchise for a track on the other. He wants the single track laid in the center of the street or the second track laid.

In order to bring about the improvement of Belmont street, from Sunnyside to Tabor Heights, the Mount Tabor Push club will ask the co-operation of the county court. In a number of cases property owners have built fences out toward the streetcar line, making the thoroughfare look as crooked as a street in Cairo. It is proposed to get property owners to set these fences back. A committee has been appointed to lay the matter before the county court and also before the proper officials of the Clity & Suburban Railway company.

Bouthellier, proprietor of the Queen Anne saloon, on charges of operating money-paying slot machines. The machines were seized saturday night. They are being held for evidence. GOLD LIES LOCKED IN SHIFTING SANDS

S. B. Catheart, Coos county's oldest surveyor, is at the Imperial today. Ho says the efforts of mining men to wrest the gold from the black sand in Coos and Curry county beaches is almost entirely given up. Great quantities of gold are known to exist there, and every known method of separating gold from sand or ore has been tried, but the only method that succeeds is the old-fash-loned slutcing with copper plates and blankets. Large sums of money have been wasted in erecting various plants for extracting the gold. It assays from \$2\$ to \$20\$ per ton. It lies in an old beach about 150 feet above sea level.

"It may not be generally known that

"It may not be generally known that this beach has been extensively mined since 1855," said Mr. Cathcart. "I sur-veyed my first mineral claim there in 1873. The first rich discovery was made by a fugitive from justice, A. H. Hinch. He sold the mine to a son of the late Governor Joe Lane. The man who stumbles on to the right method will make a fortune."

CROP FAILURE IN YAMHILL COUNTY

The residents of Yambill county will probably send an exhibit to the 1905 fair, according to Jefferson Myers, president of the Lewis and Clark state commission, who, with Richard Scott of the commission, addressed a mass meeting of citizens at McMinnville on Friday

evening.

"The people in that section are very discouraged," said Mr. Myers this morning. "The crops are poor. They had some rain last week, which may help the hops. The people are anxious to have their resources shown, but they are of the opinion that the Lewis and Clark fair concerns the people of Portland only and will not aid them.

"The women of the county are doing more to secure a fine exhibit than the men. They will not be able to collect their exhibit before next year on account of the failure of the crops."

A Remarkable Sale.

A Remarkable Sale.

Truly so, and in more than one respect, is that in progress at Silverfield's, 283-235 Morrison street. This well known Portland firm moves into its new quarters on August 1 and in order to keep from carrying a garment of the present stock in the new store are sacrificing at auction their high grade stock of cloaks, suits, jackets, waists and skirts. They are advertising (in another column) that the stock must be disposed of and a quotation from their advertisement says, "Come, take it away at your own price." The firm is holding daily sales at 2:30 and 7:30 p. m. This is an opportunity thrifty Portland housewives may well take advantage of. That many are is quite evident. Each of the daily auctions drew crowds all last week.

ENDED IN AN ASSAULT PROM AN UNEMOWN TRUG-NO CLUB TO

G. Sandford, employed by a local meal packing establishment, was struck a terrible blow on the left jaw at 1 o'clock this morning in the rear of the Fashion salcon by an unknown man, and is today confined to his room at the Quimby house. He declares he knows nothing of the object of the assailant, but says it probably was robbery.

George Ryan, proprietor of the salcon

George Ryan, proprietor of the saloon, denies Sandford was attacked in his place, but says he remembers that Sand-ford entered the saloon about 10 o'clock last night and said he could thrash any-one in sight; but that no one paid any attention to him.

attention to him.

After the assault, Sandford made his way to the police station, where he related his story to Captains Moore and Balley. They detailed Policemen Courtney and Jones to investigate. The patrolmen ascertained but little additional to the statements of the injured man. They took him to Dr. Samuel C. Slooum, who made an examination and determined that the jaw bone was not broken, but that the injury was serious. "I went into the Fashion saloon to get a drink at 1 o'clock," said Sandford, "When in the rear room, I was struck from behind, and was unable for a time to walk. I am not positive, but think I know who struck me. I believe he thought I had money. I have been in Portland six months.

SAYS ENGLISH SEE A JOKE, SOMETIMES

Rev. J. Whitcomb Brougher spoke at First Baptist church last evening on the subject of his recent trip abroad. Dr. Brougher took for his text, "But Now the Righteousness of God Without the Law is Manifested—Even the Righteousness of God Which is by Faith of Jesus Christ Unto All and Upon All Them That Believe for There is No.

jesus Christ Unto All and Upon All Them That Believe, for There is No Difference. For We Have All Sinned and Come Short of the Glory of God."

Dr. Brougher give many illustrations to show the conservatism of the English as opposed to the radicalism of the American. "They don't want anything new over there," said the speaker, "that would be too American.

"After all the English are not so slow to see a joke, provided it is expressed in their own peculiar language. They do not consider that Americans speak good English, and our voices are considered simply impossible by them."

In regard to the habit of tipping, Dr. Brougher said, "I believe that men and women should be paid enough in every walk of life to prevent their becoming beggars. Tipping is an abominable habit and should be stopped the world over."
