SAN FRANCISCO BOATS ENTER PORT EARLY THIS MORNING LOADED WITH ASPEALT AND MACHINERY-AURELIA ABBIVES SAFELY AFTER BOUGH TRIP.

Having left San Francisco at about the same time Friday afternoon, the steamers Despatch and Aberdeen reached Portiand this morning, the former at 1 and the latter at 2 o'clock. They ran close together all the way up the coast, and the officers report an un-eventful voyage. Ordinary head winds were encountered, but they escaped the big gale that was raging off the coast Saturday night and finding off the coast Saturday night and Sunday morning. Both steamers brought general

goes, which are being discharged at the foot of Couch street. The Aberdeen's anifest shows that she carried 150 tons manifest shows that she carried to tons of asphalt and 50 tons of iron, while the Despätch brought 100 tons of asphalt and a similar amount of dredging ma-chinery for Robert Wakefield. After discharging each versal will receive a lumber cargo for the retarn trip down the coast.

The steamer Columbia reached the harbor at 6 o'clock yesterday evening the Bay City after the usual run of two days. She brought a full cargo of 1.400 tons and a big passenger list. Lo-cal Inspectors Edwards and Fuller are aboard her today inspecting her hull and boller. She is scheduled to leavo Thursday evening.

Having arrivd at Astoria this morning from the California metropolis the steamer Redondo is expected to reach Portland this afternoon at about 5 lo'clock. She is bringing a general cargo of merchandise which will be discharged at the Mersey dock. On board there are are also an African lion and a Shetland pony. On the return trip the Redondo will take out consignments of railroad ties from both St. Helens and St. Johns.

will take out consignments of runder ties from both St. Helens and St. Johns. She is due to sail Saturday night. Considerable uncasiness was felt in shipping circles this morning over the non-arrival of the steamer Aurelia. She sailed from San Francisco for Portland last Thursday, fully 24 hours in advance of the steamers Aberdeen and Despatch

which arrived early this morning. Word reached the city later that she got into Astoria all right, and is now en route up the river.

penter, is an unwilling guest on board the British ship Rajore from which he deserted a short time ago. As he was a competent workman Cap-tain Garrioch, master of the Rajore, felt aggrieved to lose Jorgenson and caused a warrant to be issued for his arrest on the charge of desertion. The missing man was preparing to ship on the Ameri-can barkentine John Smith when papers were served on him vesterday aftercan barkentine John Smith when papers were served on him yesterday after-neon. He was taken back to the vessel from which he took French leave and a close watch will be kept upon his move-ments until the Rajoré is loaded with wheat and ready to sail for the United Kingdom. It is very seldom that a Britiah captain has one of his sallors arrested for deserting, but the practice is quite common with the masters of French vessels. A law passed by parlis-ment in recent years makes it no longer possible for British captains to hava deserting seamen arrested and placed in jail, but they are accorded the privilege of holding them on board ship, if they can.

#### ALONG THE WATERFEONT.

District Forecaster Beals will leave tonight for Marshfield to ascertain if the shipping conditions are of sufficient importance in that locality to justify the government to go to the expense of

Grover of the local office will take up his duties for him down by the sea. Mr. Kelither fills, an important po-sition at North Head. He it is who first sights all the vessels far out at sea heading for the Columbia river, and he immediately sends the information to Astoria and to the head weather office in Portland. They, in turn, impart the news to the Merchants' Exchange and to the various shippers who are interested. North Head is situated on a high promiontory extending far out into the sea, and Mr. Kelliher says that when the conditions are just right he is frequently enabled to sight a vessel and make out her name at a distance of 25 miles.

her name at a distance of 25 miles. Even during cloudy days he is able to liscern the name of a vessel when she is 15 and 20 miles off the mouth of the river. Since being stationed there he has seen a number of craft drifting to lestruction, and in several instances has rendered the officers and crews valuable ald by notifying the life saving stations , of their predicament.

MRS. SABIN JUMPS BATL.

(Special Dispatch to The Journal.) Victoria, H. C., July 15.—Rev. Mr. Swartout, a missionary for '10 years on the west coast of Vancouves island for the Presbyterian church, was drowned some days ago. He put off on duty in a small sall boat from Ucluelet for Dodges cove. He was caught in a storm and a few days later part of the boat drifted in, giving unmistak-able evidence of the mishap. He had a remarkable influence with the Indians and for years had been pre-paring a work on the customs that pre-vail among the Vancouver island tribes, He leaves a widow and two daughters, one of whom is attending school in To-ronto. Tomorrow Davis will come to Esopus

together with Gorman and Sheehan, when an important series of conferences is to be begun. In New York today further political conferences of democratic leaders were held on the subject of the chairmanship. It is said the best opinion of the leaders

is that every effort shall be used to bring about the selection of Gorman. **ELECTRIC LINE FROM**
