PORTLAND SENDS AID TO MITCHELL

RELIEF COMMITTEE SENDS \$500 TO STRUCKEN TOWNS TO PREVENT FEVER EPIDEMIC—SHOULD OTHER AID BE REQUIRED IT WILL BE FORWARDED.

Five hundred dollars was sent to the citizens' committee of Mitchell, Or., this morning by the Portland permanent relief committee to be used in clearing away the debris that was left about the Wheeler county city by the recent cloudburst near that town. The money was sent to Mitchell by I. N. Fleischner, who, with R. N. Sabin, was appointed yesterday to investigate the reported damage done by the storm at Mitchell, and find out how much money was needed.

Mr. Fleischner this morning had a long-distance conversation with H. A. Waterman at Mitchell. Mr. Waterman stated that he was of the opinion that \$500 should be placed at the disposal of the citizens of Mitchell for relief purposes. After consulting with Mr. Sabin Mr. Fleischner decided to send the money at once.

"When the call was received from the Mitchell committee yesterday asking for aid, a hurried meeting of the local permanent relief committee was held and we decided to give them what help they should ask for," said Mr. Fleischner this morning. "Having known Mr. Waterman for a long time, and knowing him to be a cool-headed business man, I thought that it would be best to learn his views as to what was needed. As he asked for \$500, it was sent. Should more be needed, it will also be forwarded."

The town of Mitchell was visited by a death-dealing flood on July 11. Mrs. Bethune and Mr. Smith, two aged citizens, were drowned and a large number of houses were swept away. Tons of debris were left about the streets of the city and in order that this may be removed before it has caused an epidemic of fever, it was decided to ask for outside aid.

Mr. Fleischner stated this morning that in a letter received from Mayor Gilliam of Heppner it was learned that that city would send relief to the citizens of Mitchell.

MILL ENDANGERED BY DEMENTED MAN

The police believe that the mill of Inman-Poulsen & Co., on the east side and south of Hawthorne avenue, was saved from destruction Monday night when the night watchman found Neil McEachern prowling about the premises. It is believed he designed to burn the property. He was slightly demented and not responsible.

McEachern was searched and found to have five boxes of matches in one coat pocket and a bundle of newspapers in the other. Yesterday McEachern was taken before County Judge Webster and examined as to his sanity. His brother was present and offered to care for him, so the court let him go.

THE ORDER OF WASHINGTON.

A Portland Fraternal Organization That Started Right and Continues Right.—A Contented People.

The Order of Washington is a western fraternal benefit association that was the first to adopt rates that were ample to carry out the contracts. For years the Order of Washington was pointed to as an "old line" advocate, because its rates were so much higher than the other fraternal orders. Today, while the other orders who have been talking cheap rates all along, are wondering what to do to be saved, the Order of Washington officials are going right along with their present membership in a very contented way. The writer called at the supreme office of the Order of Washington today and requested an interview as to the present discussion as to change of rates proposed by the United Workmen and the Knights of the Macabees. Mr. Mitchell, the supreme secretary, said:

"We do not wish to be quoted in this matter, for fear that we may be misjudged. The United Workmen is the parent order of benefit orders in the United States, and as a child we do not wish to criticize. We do not agree, however, with some of the laws of this grand organization. For instance, they hold a supreme meeting each year, that costs almost \$15,000. They hold a state grand lodge each year, that costs the separate jurisdictions about \$3,000. This money must all come from the tolling member and provides a junketing trip for a selected few. Then, again, they change officers every year. A supreme officer just gets started and acquainted with his duties when he is ousted for another beginner. The system is all wrong, and they are fast finding it out."

"Yes, the Order of Washington only elects its officers every four years, and then we save in other directions. We wish to be quoted in no manner opposing the changes proposed by the leaders, but we think that other methods might be inaugurated that would relieve the old man's burdens."

The Order of Washington invites all fraternal representatives at any and all times to call at its rooms, 610 & 612 Marquam building, and inspect its plans and the office equipment and system used.

FLAGS FOR THE FAIR.

Two hundred and seventy-nine large American flags are being removed today from the city hall by the Lewis and Clark exposition committee, which purchased them from the city. These flags were bought for decorations at the time of President Roosevelt's reception.

MIDSUMMER SALE "GLACIER" REFRIGERATORS. The name "Glacier" suggests chilliness, doesn't it? Makes you think of all sorts of cold things. It's an appropriate name for our refrigerators. Each one is a miniature glacier that will keep perishable foodstuffs sweet and fresh this hot weather. You can't have a real "glacier" in your house—better have one of ours, that is, if you want table comfort this warm weather. Today, Friday and Saturday they are on Special Sale—prices deeply cut. Better buy in the needful season. Nine patterns in our window to choose from.

Special Sale Refrigerators. No. 704—46 inches high, 22 inches deep, 36 inches long, porcelain lined. Regular price \$38.50—Special \$30.80. The Cleanable, Cool and Comfortable Kind.

GLACIER REFRIGERATORS. No. 685—60 inches high, 21 inches deep, 30 inches long, zinc lined. Regular price \$23.00—Special \$18.00.

GLACIER REFRIGERATORS. No. 683—49 inches high, 18 inches deep, 27 inches long, zinc-lined, 55 pounds of ice. Regular price \$17.00—Special \$13.60.

GLACIER REFRIGERATORS. No. 600—45 inches high, 19 inches deep, 30 inches long, zinc lined, 85 pounds ice. Regular price \$17.50—Special \$14.00.

BUCK'S FURNITURE GUESSING CONTEST. No. 21, 22, 23, 24. A, INS, K, N, E.

Special Sale Refrigerators. Have the Two Essential Factors for Perfect Refrigeration. There is total exclusion of outside heat and thorough circulation of inside air. Glacier Refrigerators are insulated from outside heat by an eight-section wall, three inches thick, which is an absolute non-conductor of heat and moisture. All doors when closed are airtight. This effects a great saving in ice. A Thorough Circulation is maintained in the ice-chamber by a false bottom and system of flues. As long as there is ice in the chamber there is a constant current of pure, cold, dry air passing-around the food and preserving it. We have these refrigerators at all prices, and just to induce you to see them all we put a few patterns on sale this week. It's pretty warm—better have one. THURSDAY, FRIDAY AND SATURDAY.
