GEN. CHAFFEE IS GUEST OF HONOR

ARMY OFFICERS AND CLERGYMEN GIVE INFORMAL DINNER TO VISITING GENERAL AT ARLINGTON CLUB—GENERAL FUNSTON, COLONEL HUSTON AND OTHERS.

Following an informal dinner given in his honor by a party of Portland friends at the Arlington club last evening, Gen. Adna R. Chaffee departed for Fort Stevens and will return here tomorrow, when it is expected he will devote a day to visiting the Lewis and Clark exposition grounds and other points of interest in the city. He is due at San Francisco the last of this week, and will return east next week, possibly by way of Portland.

The dinner last evening was arranged on shorter notice, and the guests of honor were General Chaffee and his aide, Captain Hucheson, Quartermaster-General Humphrey, and other officers. General Fred Funston and General Chaffee's son, who is on leave from West Point. In addition to these the guests were: Senator Mitchell, Major Williams, Gen. Thomas M. Anderson, U. S. A., retired; E. M. Brannick, J. McI. Wood, Childe Hassam, W. B. Ayer, E. E. Calvin, general manager of the O. R. & N. Co., Capt. Jesse M. Baker, U. S. A.; H. W. Goodie, C. E. S. Wood, W. J. Burns, Charles F. Beebe and J. C. Ainsworth.

There were a number of toasts, proposed to the most notable guests, who responded with short speeches. General Chaffee's health was proposed by W. J. Burns, who characterized the general as a man who had risen from the ranks. C. E. Wood toasted General Humphrey as a fellow campaigner in the Nez Perce war. General Beebe proposed General Funston, and regretted that he was so soon to leave the department of the Columbia. Speeches were made by Mayor Williams, Colonel Huston, Captain Baker and Senator Mitchell, the latter referring significantly to the injury to Portland that resulted from government discrimination against foreign bottoms.

H. P. GOERING FALLS VICTIM OF TYPHOID

H. P. Goering, aged 32 years, died at 1:30 last night at St. Vincent's hospital. He contracted typhoid fever while on a visit to the home of his mother in Hamilton, Ontario. He had recently returned from the trip, and was ill that he had to be confined to the hospital a week ago Sunday. The body will be shipped to Hamilton.

From the time he was 18 years old Mr. Goering had been employed by Fleischer, Mayer & Co., and at the time of his death was city salesman. He was a member of the Multnomah Amateur Athletic club. He was an expert billiard player and last spring was with the championship team of the club.

A LONG SEARCH.

How An Eastern Man Came All the Way to Portland to Recover a Lost Treasure.

Health is one of the treasures of life. The following is a true story of a citizen of Portland who tells of physical torture which led to a trip from the East to Oregon in search of it.

Jan. Petersen, employed by G. C. Havelly of the O. R. & N. Co., and living at Woodstock, says: "In my opinion, if any sufferer from backache fails to find relief in Doan's Kidney Pills there is no relief for him on earth. However, I don't believe any man who has Doan's Kidney Pills will not get back to his normal health and vigor. I had severe backache and weakness of the kidneys for years. My back ached at times so that I could hardly get up from a couch, and the kidney secretions presented every unusual appearance, and deposited a heavy sediment if allowed to stand long enough. I spent lots of money when living in the East in trying to get something to effect a cure. I came out here to Portland 12 years ago, thinking the change of climate might benefit me, but the trouble still clung to me. I paid one doctor in the town of 1200 people, but I did not get well as well have taken so much water, so far as any benefit was concerned. I used five bottles of a well-known remedy manufactured in the East and received only temporary relief. Finally I bought a bottle of Doan's Kidney Pills, and one day I stepped into the Lane-Davis Drug Company's store, at Yamhill and Third streets, and asked Mr. Lane what he knew about them. I knew I could depend upon what he said. He reported that people who had used them recom- mended them in highest terms. I bought a box and had used them only a few doses when I knew they had gone to the root of the trouble. I continued their use until I had used three boxes, and can say cheerfully that they did more for me than all the other medicines put together."

For sale by all dealers. Price 50 cents. Foster-McMillen Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitutes.

EASTERN OREGON IS INTERESTED

WILL SEND MANY DELEGATES TO MEETING OF OREGON DEVELOPMENT LEAGUE—LIST OF DELEGATES RECEIVED TODAY INCREASES RECORD ATTENDANCE.

"Eastern Oregon is taking as lively an interest in the Portland meeting for an Oregon Development League as is any other part of the state," said Tom Richardson, manager of the Commercial club, on his return this morning from Portland. He spent the day there yesterday riding through the wheat fields. "The wheat crop in Umatilla county is very heavy, and will, it is estimated, bring \$5,000,000 into that county this year," he says. "The net profit to the wheat growers will be a million and a quarter. The wheat is yielding 30 to 40 bushels to the acre. Much of it goes into bushels, and great deals of it 30 bushels. I saw one of those side-hill combine harvesters in operation, pulled by 24 horses. It cuts, threshes and sacks the wheat, and leaves the field. It cuts a swath 18 feet wide.

"These big machines go about harvesting for every large wheat grower. They carry their own camp and cook outfit, and the day has gone by when the farm women run a big hotel during harvest time and compete to see which one can cook the most victuals. It is wonderful to see the advanced processes of modern farming."

Lists of delegates named by the different counties and towns continue to arrive in the mails. The following names were received at the Commercial club today:

WOMAN AND CHILD HAVE TWIN THUMBS

Inspector Barbour has found a strange physical phenomenon in the right hands of Lo May and her eight-year-old son, who will be taken back to China because they did not establish the right to the mission into this country. Both the mother and her son have two thumbs, each equally well developed, on their right hands. The inspector states that in all his experience with thousands of Chinese, many of whom had strange malformations, he never met with this particular freak, except some years ago, when he found two other Chinese who had dual thumbs.

With Lo May and her son, Go Let will also be deported to China. The three arrived on the Aragona and de landed immigration to the United States. The woman said that she was the wife of Soo Hong Dong Wing, a Portland merchant, and that her child was his son. But the inspector, after an examination of the woman and boy, states that her story is untrue, and that she cannot be admitted.

Go Let told the inspector that he was formerly a merchant in Astoria, but that he has, so far as they can learn, always been a common laborer, and that he must also return to the land of the rising sun.

BRUTAL ASSAULT IS MYSTERIOUS

An unknown man attempted to assassinate Henry Shawness last night as he was walking along Burnside street, bound for his room in the Burnside lodging house. The stranger slashed the old man's hat with a sharp knife and cut his head, telling him to the sidewalk.

The assailant escaped, and the police have been unable as yet to ascertain his identity or his object in making the attack.

Shawness is 53 years of age and is a carpenter. For a long time he has roomed at the Burnside house. Policemen Baly and Burke were called upon by a citizen at 7:45 o'clock last night to go to the injured man's aid. They found him lying prostrate on the sidewalk with blood flowing from the gash in his head. He was carried into a nearby saloon, where temporary attention was given him. He was then removed in a patrol wagon to the central police station, where his wound was dressed by a city physician. He will recover, according to the doctor's statement, but he had a very narrow escape.

"I cannot understand why any man should attack me," said Mr. Shawness. "I have no enemies, as far as I am aware. But whoever did the deed, struck me in the back of the head before I had time to get a look at him. I guess he wanted to kill me."

CHINESE TO AID WOUNDED JAPANESE

The Chinese of Portland have started a relief fund for the benefit of wounded Japanese soldiers and their families. The fund is being managed by Wing Sing Long, Seld Back, manager of Wing Sing Long & Co., who stated the movement and Seattle, Astoria and other coast towns have taken it up. Seld Back says that the work is moving slowly now, for there are few Chinese in the cities, most of them being in the canneries, fruit farms, and other fields of work. Several hundred dollars have been collected, however, in Portland, and it is expected that this free will sum will rise to several thousands by fall. The Japanese, in collecting their Red Cross relief fund, have been successful in raising about \$15,000 from Portland alone. There were some marked cases of sacrifice, one young Japanese who was working in a family for \$4 a week pledging \$50.

ANNUAL SOUNDING ON RIVER BARS

Below mouth of Willamette river—it is believed that less dredging than usual will be needed.

On board the steamer Lincoln the United States engineers started out this morning to make the annual surveys of the amount of water there is on the bars below the mouth of the Willamette river. The first operation will be conducted at Willow bar, just below the mouth of the Willamette. The object in making the surveys or soundings is to ascertain the exact localities where it will be necessary to put the dredges at work.

It is thought that the surveying party will be fully occupied at this task for the next month. So far as now known the party will work down the river as far as Slaughter's bar, which is almost half way to Astoria. The operations will be confined wholly to the bars. From Willow bar they will proceed to Henri's bar. From there they will go to Marjorie's bar, which is almost half way to Astoria. The soundings for the present will be concluded at Slaughter's bar.

So far as they can now judge the engineers are of the opinion that the work will not be so great a amount of dredging to be done this year than last, and possibly not so much. The surveys are made every year, and it has always been found heretofore that the channel had to be improved in certain localities. There is usually a certain amount of digging that has to be done at each of the bars named. The cuts made by the dredges the previous year are almost always filled up during the succeeding high water season.

Either Wednesday or Thursday it is the intention to send the government dredge W. S. Ladd down as far as Marjorie's bar, where the party probably be placed in commission until the channel is put in good shape at that point. From there she will be taken on down the river near Astoria and operated in that vicinity for the remainder of the season.

DRAMATIC CLUB IN ORIGINAL PLAY

Last Sunday evening the anniversary performance of the Romeo and Juliet society was given at the residence of Mr. and Mrs. J. F. Reinhart, 451 Kearney street. The parlors were transformed into a stage with sliding scenery and skillful decorative effects.

The performance consisted principally of a play written by members of the club. The acting was by Mrs. Reinhart and Misses Irene and Elsie Reinhart showed elocutionary training and received applause. Miss Hazel O'Brien and Master Harold Reinhart also contributed to the success of the evening. The programs were unique and artistic in design.

A large number of the friends of the young people were present to witness the performance. Another performance, to be held in the near future, is being planned.

CLIMB MT. HOOD FROM SOUTH SIDE

The first ascent of Mt. Hood from the south side this season was made last Friday by a party from Government camp. Thirteen set out for the ascent, of whom nine reached the summit. The successful climbers are Prof. G. N. Down and his son Chester, Mrs. J. P. Morgan, Miss Esther Gill, Ralph Gill, A. Wirborg, Miss C. R. Trowbridge, O. C. Yocum, the veteran guide, and the assistant, J. F. Kanph.

The day was clear and the view unobstructed except that clouds covered the Willamette valley throughout the day. There were no mishaps, but the widening of the great crevasse across the arête necessitated a long detour to the west.

CARLOAD OF CASCARA

(Special Dispatch to the Journal.)
Kalama, Wash., July 26.—Mr. G. M. Coffey of this place has received an order and shipped to Detroit, Mich., a carload of cascara bark. As this is a natural product of the states of Washington and Oregon it is a source of no small revenue to these two states.

BIRTHDAY FETE'S STRIKING SUCCESS

It is an unwritten law, Draconian in its inflexibility, that every time an employee of County Clerk Fields' office has a birthday a celebration must take place. The festival is always held in the vault, and the instruments used by the celebrants vary from a ruler and a book rest to a barrel stove. The soft side-sway belt is in use. Mr. Fields himself has good reason to remember his last birthday.

Marion R. Johnson, clerk of department No. 1 in the circuit court, one of the most popular and efficient attaches of the courthouse, held an involuntary celebration of his 29th birthday yesterday. At 4:30 o'clock in the afternoon he was congratulated by the presence of others that he would probably be able to make a getaway without "those fellows down stairs getting wise." Twenty minutes later Mr. Johnson, chief deputy in the present department, was telephoned by Mr. Fields to come down stairs and bring Marion, that a kick had been made by a lawyer about the filing of certain documents, and the matter would have to be investigated without delay, on account of the issue involved.

Puzzled, but indignant, Johnson grabbed his hat and hurried down stairs with Smith. The two walked into the assembly hall and Johnson executed a flank movement. Too late! Harry Bamford was thrown across the line, and a narrow escape made a flying tackle. In a trice Johnson was inside a circular wall of humanity.

"Take off my glasses"—that was all he said.

The celebrants adjourned to the vault with their victim. There was a brief struggle and in a half-minute Johnson gracefully reposed on a steel bookcase, face downward. Next was heard a series of sharp explosive sounds, punctuating one long wail of anguish. Then it was all over. The invited guests present at the birthday party included the following: County Clerk Fields, County Auditor Brandes, County Assessor McDonald, Deputy Assessor Maxwell, Chief County Deputy Prapp, Deputy Clerk Schneider, Bamford, Utton, Kerns and the following: County Clerk Deputy Smith, Chief Deputy Recorder McCord, Charley Menell and—Marion R. Johnson (aged 29 years).

OBJECT LESSON FOR COMMISSION

MERCHANT MARINE ON ITS RIVAL SATURDAY WILL BE SHOWN HARBOR FROM TENDER KEATHEE—WILL MEET MONDAY MORNING.

The members of the merchant marine commission will arrive Saturday morning and during their stay will be entertained by committees from the chamber of commerce and Commercial club.

At a meeting yesterday of a special committee made up of the following members of these organizations, George Taylor, W. A. Mears, A. L. Craig and M. Mossesohn, further plans were laid for the entertainment of the visitors.

The following committee will meet them at the train: George Taylor, Henry Hahn, W. A. Mears, E. H. McCracken, J. Earnest Laidlaw and W. H. Corbett.

It is the opinion of these bodies that the needs of Portland as a shipping point can be best seen from the water and accordingly the entertainment committee has planned a ride on the river in the United States lighthouse tender Keathee. The vessel has been offered for use through the courtesies of Captain Calkins, commandant.

The trip will be made on Saturday afternoon and the party will be made up of representatives from the chamber of commerce and the Commercial club and ship owners, senators and representatives. The visitors may be taken as far as Vancouver in order to visit the fort.

A reception in honor of the visitors will be given Saturday night in the Commercial club rooms and will be attended by members of the chamber of commerce and Commercial club and invited guests.

The Lewis and Clark Fair grounds will be visited on Sunday afternoon and the visitors will be taken in a special car, loaned by the Portland Railway company, for a ride around the new loop at Portland Heights.

The session of the commission will be held Monday morning at 9 o'clock, when data bearing upon the shipping interests of Portland and the needs of the harbor will be read.

POLICE PURSUE A FLEETING FANCY

"Send a wagonload of policemen—there's a burglar in the house and he's sawing the posts out from the cellar and the whole building is creaking as though it would fall.

"Such was the blood-curdling call that came over the phone to Captain of Police Bailey at the central station this morning at 3 o'clock from the residence of Hosea S. Beers, 584 Corbett street.

"Take the wagon and a load of men and capture the burglar," commanded Bailey.

Before his words had finished disturbing the morning air, a team of horses was galloping up Third street. Policeman Price, the driver, drew up a block from the house that was being sawed down.

Then Price and Policeman Lillis rushed on to the house. They were told the bold man was still there and one woman declared he was sawing down the building. However, a complete search of the premises with lanterns failed to disclose any burglars. With sorrowing hearts the policemen returned to the wagon and drove back to the station. The neighborhood around the scene of the imaginary burglary went to bed and slept, happy in the thought that the Beers house was not sawed down.
