

SAYS SOLITUDE HAS NO TERRORS

AFTER LIVING FOR A YEAR ON ALASKAN ISLAND, WHERE SHE SAW NEITHER MAN NOR CHILD, MRS. SHEPARD BELIEVES THAT SOLITUDE IS NO TERROR.

After a period of one year on the island of Unalaska, one of the Aleutian group, during which she saw neither woman nor child, Mrs. S. F. Shepard is in this city visiting friends and relatives. She is the guest of Mrs. J. M. C. Miller, of Woodcock street, Mrs. Edna Jones, Goodnooth building, Fifth and Yamhill streets.

Mrs. Shepard is the wife of the light-house tender of Scotch Cap Light station, Alaska. Besides her husband, she has been two other keepers at the station. They, with Mrs. Shepard, are the only occupants of the island. Recently, however, the government has established a light station including other staff of the island and two keepers will be stationed there. So when she returns the population of the island will have increased to a total of five.

Thirty miles from the station towards the center of the island is the volcano Shishaldin which belches forth a perpetual stream of lava and smoke. For years, in fact since its discovery, the huge crater has been in constant eruption. Little damage has been suffered by the island from the overflow.

"But I never get lonesome," Mrs. Shepard said. "There are only four persons on the island including myself and there is not another woman nor child for miles. I have always enjoyed myself there and always find something to do.

The island is overrun with foxes, which come around the station and even inside the house. They are so plentiful and have seen so little of human beings that they do not know what fear is. Then it's interesting to watch the seals and whales at play in the ocean a short distance from the shore. Both abound in large numbers in those waters.

"I frequently go hunting and have seen my husband kill many caribou. They are as large as Jersey cows frequently and it's excellent sport to hunt them. The trouble is in getting the animal to the station after killing it. There are so few inhabitants on the island and some of them must be on duty all time that when a large caribou is killed we have hard work getting it to the station.

There are any number of beautiful flowers on the island. Throughout the summer and indeed during the winter there are varieties of blossoms and shrubs that are as pretty as any that can be found in the United States.

"The weather there is very much like that of Oregon, except that we don't have anything like the amount of rain that you have. The climate is nearly the same. In summer it never gets disagreeably hot, while I have never known the thermometer to go lower than 11 degrees above zero in winter. We see many icebergs floating by and it is a beautiful sight.

"Heretofore we have received mail once in every eight months. It has been arranged, however, that we will receive our mails every month from this time on, so that we will be in fairly good communication with other parts of the world."

Mrs. Shepard left today for southern Oregon, where she will visit friends a month before returning to this city preparatory to returning to Alaska.

SERMON SERIES AT WHITE TEMPLE

Dr. Brounger believes in running his church as vigorously in the summer as in the winter. He has planned a double series of short sermons for the summer season, and will make the services brief and bright. The doctor says the temple will be cool and comfortable, and there will be no reason why people should not go to church. He will be in his own pulpit every Sunday and speak on the following topics:

Morning Series—Bible Beliefs: July 31, "God; Is He Known or Unknown?"; August 7, "Man; Is He the Son of a God?"; August 14, "Jesus Christ; What Manner of Man Is He?"; August 21, "The Church; Is It a Social Club or Not?"; August 28, "The Second Coming; When and How Will Jesus Come Again?"; Night Series—"Innocents Abroad" or Lessons from My Trip to Europe: July 31, "Crossing the Ocean, or the Mysteries of the Deep"; August 7, "London, or Life in a Great City"; August 14, "Paris, or Life in a Gay City"; August 21, "Edinburgh, or Life in a Picturesque City"; August 28, "White Chapel, or Life in the Abyss."

Preferred Stock Owned George Allen & Lewis' Best Brand.

MT. HOOD ROAD OPEN.

Contrary to the impression which prevailed generally, the road to Mt. Hood over the Cascade range of mountains to Government camp has been opened. It was opened July 4, and is said to be in good condition along its entire length.

For the Nearest Correct Estimate—One Winton touring car, 1904 model. This automobile is considered to be the most perfect for either the manufacturer or the user.
