CRIEF CAMPBELL SAYS THERE ARE DOCTOR PILES ANSWER TO SUIT OF THE EXAMINERS WEO WISE MANY RESIDENT DISTRICTS THAT TO HAVE HIM OUSTED-ALLEGES HAVE NO HYDRANTS NEAR-THAT BOARD WAS MEGLECTED GOOD LUCK ALONE SAVES THESE MOUSES.

In answer to the suit brought to oust him from the state board of dental examiners, by Dr. Mark Hayter; president, and Dr. E. G. Clark, secretary of that body, Dr. R. L. Lincoln declares that they neglected to perform their duties as required by law. His answer was filed yesterday afternoon. By reason of this alleged failure to conform to the law, he asserts, his appointment. "Fire protection is becoming a serious matter," remarked Chief Campbell of the matter, remarked Chief campoen of the fire department today. son of this alleged failure to conform to the law, he asserts, his appointment, made by Governor Chamberlain, is valid. Attention is drawn by Dr. Lincoln to the fact that the Oregon State Dental association was formed prior to Decem-ber 18, 1900, and adopted a constitution no fire protection. There are places on the east side where there are large groups of beautiful buildings and not a fire hydrant within striking distance. If a fire should occur in one of these localities while a stiff breeze is blowing it would mean great loss. There are dozens of such places that I could point out, most of which are east of the river. The west side is better protected, yet there are places where the protecgreat loss. There are tion over here is very poor. I will refer more particularly to the Portland academy, which is a splendid building

of dentistry in this state. He asserts that under the terms of the act it was obligatory on the association to hold a meeting in 1903 and select three names of dentists, from which list the governor should choose members of the state board. He says the association falled to do this, but that the executive committee of the association held a meeting and usurped the prerogative of the major body, naming three dentists for appointment. academy, which is a splendid building and has no fire hydrant near.

"The department cannot do anything to relieve the situation until we get more money. What we do need is fire hydrants They cost money, and the way conditions are at present it is imposway conditions are at present it is impos-sible to purchase any. It is true the city water board has purchased 100 for us, but that is only a part of what we need. JUDGE MORELAND REPLIES TO CHARGE

Judge Moreland filed a motion in the circuit court this afternoon to strike out certain parts of the reply made by Orville Jennings to the answer of Helen Cynthia Jennings in the suit brought against her for the reconveyance of property valued at \$7,000. One of the clauses Judge Moreland wishes stricken out is the allegation that he assisted in the attempt to manufacture evidence for his client after suit was filed.

Vancouver, Wash., Aug. 5.—The Cossack guard has again been established at the Seventh street entrance to the

the post orders.

The saloon as stated above, is commonly known as the First and Last Chance, and the post orders so designate the place by that name in its prohibition of soldiers' entrance thereto. The saloon has passed under a new management since the post order referred to was first issued, and yesterday the sign on which First Chance was written on one side and Last Chance on the opposite side, was removed by the new one side and Last Chance on the opposite side, was removed by the new
managers. Even this change of name
in the saloon has not had the effect of
rescinding Colonel Huston's order. One
of Colonel Huston's objections to the saloon at that particular place is that
it is too near the government hospital,
and nightly carousals disturb the peace
of the invalid soldiers, and as the main
patronage of a saloon that close to the
garrison, it is claimed, is from the soldiers, Colonel Huston has a more powerful way of eliminating the trouble
than petitioning a city council to esthan petitioning a city council to es-tablish a prohibition line.

WILL EXHIBIT AT STATE FAIR

PARMERS AT AMBOUNCEMENT COLLEGE WILL BE REPRESENT ED WITH SPLENDID COLLECTION

Salem, Or., Aug. 5.—It will be es-ecially good news to the many agriat the Seventh street entrance to the Vancouver barracks. In addition to the Standing orders, that none of the soldiers are permitted to enter the saloon located close to that gate, Colonel Huston has ordered that no soldiers be permitted to pass through that entrance to and from town. This is to prevent even a temptation to lead them into trouble, as an entrance into the saloon at that place might do. Any soldier seen eatering that particular saloon or leaving the same will have to answer to the military authorities for the violation of the post orders.

The saloon, as stated above, is companied to the post of regents of the institution, however, that the college would make an exhibit. Some time ago would make an exhibit. Acting on this instruction, that space, which is the most advantageous space, which is the most advantageous in the pavilion, was given up to the agent of the Canadian Immigration bureau, for an exhibit of the resources of that great country, and this exhibit promises to be one of the attractive features of the fair.
